

North Idaho College

An aerial photograph of the North Idaho College campus, showing various buildings, parking lots, and green spaces. A large, semi-transparent white graphic is overlaid on the image, consisting of a mountain peak shape on the left and a stylized evergreen tree shape on the right. The text 'North Idaho College' is written in a large, white, sans-serif font in the upper left corner.

2010-2011 Catalog

NIC MISSION STATEMENT

North Idaho College is committed to student success, teaching excellence, and lifelong learning. As a comprehensive community college, North Idaho College provides quality educational opportunities that expand human potential and enhance the quality of life for the students and the communities it serves.

ABOUT NORTH IDAHO COLLEGE

Founded in 1933, North Idaho College is a comprehensive community college located on the spectacular shores of Lake Coeur d'Alene and the Spokane River. Quality instruction, small classes, and a caring, talented faculty and staff are the driving forces behind NIC's success.

NIC offers associate degrees in more than 35 transferable academic majors and certificates or associate of applied science degrees in 33 professional-technical programs. Credit courses are offered during Fall and Spring Semesters and during an eight-week Summer Session. Courses are offered days, evenings, on the NIC campus, at the Post Falls Workforce Training Center, and at outreach sites throughout the five northern counties.

Approximately 4,650 students are enrolled in credit courses with classes averaging approximately 20 students. NIC also operates centers in Ponderay, Kellogg, and Bonners Ferry. The college's Workforce Training Center, located near the Idaho-Washington border in Post Falls, offers non-credit classes and workforce training programs to approximately 10,500 students each year.

NIC's main campus is located in Coeur d'Alene, a destination resort town, which lies in the four-season beauty of North Idaho's famous recreation area. An abundance of outdoor activities are available including mountain biking, boating, fishing, hunting, backpacking, hiking, camping, swimming, snowboarding, and skiing. The campus lies in the city limits of Coeur d'Alene, with a growing population of 39,000 residents with approximately 130,000 residents in Kootenai County. Cultural and social activities are abundant in the lakeside city that is near Spokane, Washington, a metropolitan area of 436,000.

ACCREDITATION

North Idaho College is accredited by the Northwest Commission on Colleges and Universities. The Nursing program is accredited by the National League for Nursing Accrediting Commission. The Radiography Technology program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT).

HISTORY

North Idaho College was first known as Coeur d'Alene Junior College, a private school that was started in 1933 and operated for six years. The state legislature passed the Junior College Act in January 1939, which permitted the establishment of junior college districts by a vote of eligible electors. Coeur d'Alene Junior College became North Idaho Junior College in June of 1939. On July 31, 1971, the college changed its name to North Idaho College.

OPEN-DOOR POLICY

NIC subscribes to the philosophy of the comprehensive community college, including an "open-door" admissions policy. To truly reflect its role as a community college, NIC accepts the fundamental responsibility to meet the varying needs of individuals with widely divergent interests and abilities. At the same time, NIC seeks to respond to the needs of area businesses, industries, and governmental agencies by preparing competent, trained

employees.

The commitment to an open-door admissions policy is defined as providing all eligible students with access to appropriate educational offerings at the college. NIC enrolls students seeking a post-secondary education, but reserves the right to guide students into the courses and programs that will enhance their opportunities for success.

Certain designated courses of study have special requirements for admission. The college tests and evaluates entering students to place them in the appropriate level courses.

COMMUNITY SERVICES

As a community college, North Idaho College strives to provide a quality educational environment and serve area residents through involvement in the community. Both goals are vitally important to NIC and have resulted in a wide variety of educational offerings, programs, and services designed for the college community at large.

Concerts, theatrical productions, athletic competitions, convocation programs, "Popcorn Forums," the NIC public television series, and other events are offered to encourage community participation and involvement. Special courses, programs, and workshops are offered to meet the varied interests of individuals and community groups.

A Senior Citizen's Gold Card allows individuals 60 years of age and older to attend NIC-sponsored athletic and arts events free of charge. Gold Cards are available through the NIC College Relations Office or the Admissions Office.

NIC FOUNDATION

The North Idaho College Foundation was founded in 1977 to encourage private support for the academic mission of North Idaho College. The NIC Foundation is an independent, non-profit charitable organization governed by a volunteer board of directors comprised of civic-minded community leaders.

The NIC Foundation works closely with the NIC trustees, the president, and staff to secure support for various needs of the college. The foundation solicits, accepts, and manages both cash and non-cash gifts on behalf of NIC and invests and administers those funds to provide a source of financial support for the college.

Through contributions from donors of all walks of life, the NIC Foundation is helping to change lives. Student success is central to the Foundation's efforts. Scholarship awards exceed \$450,000 annually, and over \$4 million has been distributed to students since 1977. Another \$11 million has been invested in NIC facilities and expansion, including the recently constructed Meyer Health and Sciences Building, and \$823,578 has been distributed through the Foundation Grant Program that inspires creative and innovative teaching and support services since 1994.

The Foundation raises funds through its annual and planned giving programs, scholarship drive, and community events. The Foundation's Really Big Raffle offers a grand prize of a \$300,000 custom home built by the NIC Carpentry program and more than \$35,000 worth of additional prizes each year.

To make a tax-deductible gift, request additional information, or inquire about charitable giving, go to www.nic.edu/foundation or call (208) 769-5978.

NIC ALUMNI ASSOCIATION

The North Idaho College Alumni Association encourages a lifelong interest in the college by its alumni and friends. The association has found that many individuals cherish their experiences and memories of NIC classmates, instructors, and friends and that these remain with them throughout their lifetimes. The Alumni Association provides opportunities for alumni to serve NIC and its students. Membership in the association unites individuals in an organization of thousands of alumni who have chosen to express their active support for the college.

Membership is free, but requires completion of 12+ academic credits or completion of the first semester of a certificate course or apprenticeship program. You need not be a graduate to become a member. Membership benefits include invitations to special events, Molstead Library privileges, personalized ID cards, newsletter subscription, and discounts at the NIC bookstore and home athletic events. To join, visit the website at www.nic.edu/alumni or call (208) 769-7806.

The Alumni Office is located in the Sherman Administration Building. Please stop by to visit us if you come to campus.

NIC BOOSTER CLUB

The North Idaho College Booster Club is a non-profit organization, committed to providing financial support to all recognized intercollegiate athletic programs at NIC through various fund-raising and endowment activities for student athlete grant-in-aid and team benefits. Organized in the 1960s, the Booster Club supports all NIC recognized intercollegiate athletics as a lifelong learning experience that will enhance the value of sportsmanship and provide a positive experience for student athletes, students, and fans. The club also recognizes the commitment our athletes make to the young people of our community through our Cardinal Kids outreach program and the wrestling team's Shirley Parker Reading Program.

The Booster Club holds fund-raising events throughout the year including an annual auction, awards banquet, 3-on-3 basketball tournament, the Idaho State High School All Star Basketball Game, and golf tournament. It also sponsors a booth each year at the North Idaho Fair and operates a concession stand in Christianson Gym. For more information or to become a member, contact the Booster Club Coordinator at (208) 769-3348. Meetings are held weekly.

NIC PUBLICATIONS

Official North Idaho College publications, such as catalogs, brochures, course and fee schedules, etc., are not to be considered as binding contracts between NIC and its students. NIC and its divisions reserve the right to: (a) withdraw or cancel classes, courses, and programs; (b) change fee schedules; (c) change the academic calendar; (d) change admission and registration requirements governing instruction in, and graduation from, the college

and its various divisions; and, (f) change any other regulations affecting students. Changes shall be enacted for both prospective and presently-enrolled students whenever deemed appropriate. Advance notice of changes will be provided when possible.

EQUAL OPPORTUNITY EMPLOYMENT

North Idaho College is committed to its policy of nondiscrimination on the basis of state and federal protected class status. This policy applies to all programs, services and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment. Such discrimination is prohibited by state and federal laws and regulations.

COLLEGE TERMINOLOGY

North Idaho College acknowledges Pueblo Community College, Oklahoma State University, and Mr. Bill Etheredge for their contributions to this glossary of college terminology.

Ability to benefit: Students who have not graduated from an accredited high school and have not successfully completed a GED can be accepted as matriculating (degree-seeking) students by meeting or exceeding the minimum required scores on all three sections (math, writing, and reading) of the COMPASS placement exam. Students who do not meet the Ability to Benefit testing requirements have several options: 1) retake the entire COMPASS test (once) and meet score requirements; 2) complete the GED; 3) attend as a non-matriculating (non-degree) student. Only matriculating (degree-seeking) students may apply for Financial Aid.

Academic advisor: An academic advisor is a full-time faculty member or staff person who is trained to assist students with educational planning and to promote a successful college experience.

Academic load: An academic load is the number of credit hours taken in one semester.

Academic probation: All colleges require students to maintain a minimum cumulative grade point average (GPA) to remain in school. Students who do not meet the minimum GPA will be placed on academic probation. Refer to the Academic Probation, Suspension, and Disqualification Policy on page 32 for specifics.

Academic suspension: Students who do not meet the GPA requirements when on probation will be placed on suspension. Suspension requires a student to sit out the semester following suspension. In extraordinary cases, students can petition the Admissions and Academic Standards Committee to grant exemption from suspension. Refer to the Academic Probation, Suspension, and Disqualification Policy on page 32 for specifics.

Address: *Permanent* - The student's home address. Residency is determined by this address. *Mailing* - The address used by a student while he/she is attending NIC if different from permanent address. *Temporary* - The address used for a short time if the local and permanent addresses are not being used.

Alumni: People who have graduated from the institution. A male is called an alumnus, while a female is called an alumna.

ACT and SAT: These are acronyms for the American College Test and the Scholastic Aptitude Test. Both tests are designed to measure a student's level of knowledge in basic areas such as math, science, English, and reading. Colleges may require the results of either the ACT or SAT before granting admission. NIC does not require ACT or SAT scores, but these scores may be used to satisfy assessment requirements for initial course placement.

Associate degree: The associate degree is granted upon completion of a program. Associate of arts and associate of science degrees are awarded to students who successfully complete programs designed for transfer to a baccalaureate-granting institution. The associate degree requires completion of a minimum of 64 semester credits of 100 level or above courses with a cumulative GPA of 2.0 (a "C" average).

Associate of applied science degree: This degree is awarded to students who successfully complete a program designed to lead directly into employment in a specific career. The associate of applied science degree requires completion of a minimum of 60 semester credit hours with a cumulative GPA of 2.0.

Audit: A student who does not want to receive credit or a grade in a course may audit the course. Audited courses will not fulfill graduation requirements and do not affect a student's grade point average. The application process and fees for auditing a course are the same as if a student were enrolling for credit. Course enrollment may be changed from credit to audit only during the drop/add period. With the instructor's permission, course enrollment may be changed from audit to credit during the first four weeks of the semester or the first two weeks of Summer Session.

Bachelor's degree (or Baccalaureate Degree): This is the undergraduate degree offered by four-year colleges and universities. The bachelor of arts degree requires that a portion of the student's studies be dedicated to the arts - literature, language, music, etc. The bachelor of science degree requires that a portion of the studies be in the sciences - chemistry, biology, math, etc. The minimum credit hour requirement for a bachelor's degree is 120 semester hours.

Bookstore: Bookstores generally stock the books and materials required in all the courses offered at the institution. Bookstores also provide basic items and clothing items.

Catalog: College catalogs provide all types of information parents and students need to know about a school. It typically includes the institution's history and philosophy, policies and procedures, accreditation status, courses of study, degrees and certificates offered, physical facilities, admission and enrollment procedures, financial aid, student life activities, etc. They are considered the student's contract with the institution.

Certificate programs: Certificate programs are designed to provide specific job skills.

The College Level Examination Program (CLEP): This program can be administered to students who desire to obtain college credit by taking proficiency tests in selected courses. If the student scores high enough on the test, college credit can be awarded. There is a charge for each test taken. Information concerning an institution's CLEP test policies can be found in the institution's catalog.

COMPASS: An English, reading, and math assessment that determines the most appropriate entry courses for student enrollment.

Concurrent enrollment: A student who is enrolled at NIC and University of Idaho or Lewis Clark State College in Coeur d'Alene. Students who are receiving financial aid from either UI or LCSC must provide a copy of their financial aid award letter to the NIC Business Office to defer payment on NIC's tuition and fees. Students must also submit a Concurrent Enrollment form to the NIC Registrar's Office for verification of course enrollment.

Core courses: These are general education courses within various disciplines that require a C- or better to satisfy the distribution requirements for an associate degree.

Corequisite course: A corequisite is a course that must be taken concurrently with another course or courses unless the corequisite has been previously completed with a minimum of a C-.

Counselor: A counselor is a professional who is trained to assist students in overcoming personal barriers to success.

Curriculum: A curriculum is composed of those classes outlined by an institution for completion of a program of study leading to a degree or certificate.

Degree requirements: An institution's requirements for completion of a program of study. Requirements may include a minimum number of hours, required GPA, and prerequisite and elective courses within the specified major and/or minor areas of study.

Degrees: Degrees are awarded for the successful completion of a program.

Department: A department is the basic organizational unit in a higher education institution and is responsible for the academic functions in a field of study. It may also be used in the broader sense to indicate an administrative or service unit of an institution.

Distance education: Distance Education courses are taught at off-campus locations, by Internet, or interactive video.

District/non-district tuition: See page 28.

Division: A division represents a number of different units of a college or university: (1) an administrative division of an institution usually consisting of more than one department; (2) an academic division of an institution based on the year-level of students; and (3) a service division of an institution that is composed of a number of service departments, such as the Student Services Division.

Drop and add: Students are generally permitted to drop courses from their class schedules and/or add other courses. Courses that are dropped do not appear on a student's transcript and the student generally does not have to pay for the course. Colleges allow varying lengths of time for students to add and drop courses.

Dual credit (WINGS): Dual credit allows eligible high school juniors and seniors to enroll in NIC courses on campus or at their high school. Credit for both high school and college may be awarded. Students enrolled in NIC courses will receive an NIC transcript. These credits transfer to many regionally accredited colleges and universities across the nation.

Elective: An elective is a course that is not specifically required and may be selected by the student based on personal preference and educational objectives.

Extra-curricular activities : These are non-classroom activities that can contribute to a well-rounded education. They can include such activities as athletics, clubs, student government, recreational and social organizations, and events.

Faculty: The faculty are the individuals who teach classes.

Fees: Fees are additional charges not included in the tuition. Fees may be charged to cover the cost of materials and equipment needed in certain courses and they may be assessed for student events, programs and publications.

Final exams (Finals): These end-of-the-semester exams are either given during the last week of courses each semester or during a specific week called "Finals Week." The type of final administered in a course is left to the discretion of the instructor. Final exams given during Finals Week are given on specified dates that may be different than the regular course time and are usually two hours in length. Finals schedules are published online each semester.

Financial aid (FAFSA): Aid for paying college expenses is made available from grants, scholarships, loans, and part-time employment from federal, state, institutional, and private sources. Financial aid from these programs may be combined in an "award package" to meet or defray from the cost of college. The types and amounts of aid awarded are based on financial need, available funds, student classification, academic performance, and sometimes the timeliness of application.

Free Application for Federal Student Aid (FAFSA): This is a qualifying form used for all federal and government guaranteed commercial lenders' programs – as well as many state, regional, and private student aid programs. By filling out the online or paper FAFSA, applicants

start the process of qualifying for financial aid.

Full-time enrollment/Part-time enrollment: A full-time student is enrolled in 12 or more credit hours a semester. A part-time student is enrolled in less than 12 credit hours a semester.

Honor roll: Students are placed on honor rolls for GPA's above certain specified levels. Criteria for President's, Dean's, or other honor rolls vary at different institutions. In most cases, students must be enrolled full-time to be eligible.

Humanities courses: Humanities courses cover subjects such as literature, philosophy, foreign languages, and the fine arts. Most undergraduate degrees require a certain number of humanities credit hours.

Hybrid course: These courses provide multiple learning environments for interactions among students and instructors. They include required hybrid and face-to-face components. The face-to-face components are reduced, but not eliminated. Note: The hybrid component is technology-based and often consists of web-based instruction requiring the students to have some computer skills.

Interactive video conference (IVC): These courses are delivered to off-campus sites by technology that allows interaction between students and faculty through two-way audio and video.

Internet course: Internet courses are delivered through a website.

Junior/community college: A junior/community college is often called a two-year institution of higher education. Course offerings generally include a transfer curriculum with credits transferable toward a bachelor's degree at a four-year college, and an occupational or technical curriculum with courses of study designed to prepare students for employment in two years or less.

Lecture/laboratory/discussion courses: In lecture courses, students attend class on a regular basis and the instructor lectures on course material. Laboratory courses require students to perform certain functions in controlled situations that help them test and understand what is being taught in the lecture. Discussion courses, sometimes called seminar courses, offer students the opportunity to talk about material being taught, ask questions, and discuss material with their classmates.

Letter grades/Grade Point Averages (GPA): Most colleges use both letter grades and GPA's in determining students' grades. Most colleges figure GPA's using the following method: A's are worth 4 points; B's are worth 3 points; C's are worth 2 points; D's are worth 1 point; and F's are worth 0 points. To figure a GPA, multiply the number of credit hours a course is worth by the number of points for the letter grade, then add up the totals for each course and divide by the number of attempted credit hours.

Major/Minor: A major is a student's chosen field of study that usually requires the successful completion of a specified number of credit hours. A minor is designated as a specific number of credit hours in a secondary field of study.

Matriculated/Non-Matriculated (Degree Seeking/Non-Degree Seeking): Students who are matriculated are working toward a degree or certificate and have completed the admissions process, which includes application, payment of application fee, and provision of high school and/or college transcripts. Matriculated students are eligible to apply for financial aid. Non-matriculated students are not working toward a degree from North Idaho College and are not eligible for financial aid or participation in varsity athletics.

Mid-term exams: During the middle of each semester, instructors may give mid-term exams that test students on the material covered

during the first half of the semester. Some courses have only two tests, a mid-term and a final.

Non-credit courses: Some courses have zero credit hours and do not meet the requirements for a certificate or a degree at a given institution. Non-credit courses may serve one of several purposes: to explore new fields of study, increase proficiency in a particular skill area or profession, develop potential, or enrich life experiences.

Open-door institution: Open-door institutions are usually public junior/community colleges. The term “open-door” refers to an admission policy that states that anyone who meets certain age requirements can be admitted. Open-door admissions policies do not mean that students can take any courses that they choose. Students must meet course prerequisites in order to enroll in specific courses.

Orientation, Advising, and Registration Session (OARS): This session, which includes orientation and advising, is the process by which new degree-seeking students register for courses.

Prerequisites courses: A prerequisite is a condition that must be met before a student can enroll in a course. This may include, but is not limited to, completion of other courses with a C- or better, acceptance in other programs, sophomore standing, instructor permission, and prescribed test scores. For example, Accounting I is a prerequisite for Accounting II.

Private/Public institutions: Private and public institutions differ primarily in terms of their source of financial support. Public institutions receive funding from the state or other governmental entities and are administered by public boards. Private institutions rely on income from private donations, or from religious or other organizations and student tuition.

Resident/Non-resident status: The amount of tuition a student pays to a public (state supported) college is determined by the student's state residence status. If a student is a resident of the state, then the student pays a lower tuition rate. A non-resident will pay a higher tuition rate. Residency requirements vary from state to state, but are determined by the student's place of residence or his/her parents' place of residence if the student is younger than a certain age. Tuition rates for private colleges are not based on residency.

Schedule of classes: With the help of academic advisors or faculty advisors, students make up their own individual class schedules for each semester they are enrolled. Courses are designated in the Class Schedule by course department, course number, time and days the course meets, the room number and building name, and the instructor's name.

Service learning: Service Learning combines academic studies with community service by linking the theory and content of a course with the practical application of the course's concepts in a community setting. The Service Learning assignment, which is optional, requires 15-20 hours outside the classroom during the semester (in lieu of other course assignments comparable to 15-20 hours). Career exploration may be an added benefit to this type of class.

Student Identification Card (I.D.): A student ID card is usually required in college. A student ID card generally includes a photograph of the student, a student number, the student's name, the name of the college, and the semester enrolled. The ID requires validation each semester. Student ID cards provide access to numerous areas on campus and to a variety of events at a discount. Students must present their ID cards to check out library books, use the computer labs, check out gym equipment, or rent equipment in the Student Union entertainment center, and Outdoor Pursuits.

Syllabus: A course syllabus is a summary of the course. It usually contains specific information about the course; information on how to contact the instructor, including the instructor's office location and office hours; an outline of what will be covered in the course, with a schedule of test dates and due dates for assignments; the grading policy for the course; and specific classroom rules. It is usually given to each student during the first class session.

Transcript: The transcript is a student's permanent academic record. It may show courses attempted, grades received, academic status, and honors received. Colleges do not release transcripts if a student owes any money to the college. Transcripts are maintained and sent from the Registrars Office.

Transfer of credits: Some students attend more than one institution during their college careers and will wish for accumulated credit hours from the former institution to transfer to the new one. To transfer credits, a student must have an official transcript sent to the new institution, which will determine which courses will apply toward graduation requirements.

Tuition: Tuition is the amount paid for each credit hour of enrollment. Tuition does not include the cost of books, fees, or room and board. Tuition charges vary from college to college and are dependent on such factors as resident or out-of-state status, level of classes enrolled in (lower, upper, or graduate division), and whether the institution is publicly or privately financed.

Tutors: A tutor is a person, generally another student, who has completed and/or demonstrated proficiency in a course or subject, and is able to provide instruction to another student. Tutors usually help students better understand course material and make better grades. At NIC, students may receive two free hours of tutoring per class, per week.

Undergraduate: An undergraduate is a student who is pursuing either a certificate or an associate or baccalaureate degree.

University: A university is composed of undergraduate, graduate, and professional colleges and offers degrees in each.

Withdrawal: Students may withdraw from courses during a semester, but there are established procedures for doing so. The college catalog generally specifies the procedures. Classes from which a student withdraws are listed on the student's transcript and the student is responsible for paying the tuition and fees for the class.

North Idaho College 2010-2011

Important Information for Students

CONSUMER INFORMATION

North Idaho College's consumer information provides prospective students, current students, and community members with information about North Idaho College. This information is provided in compliance with the Higher Education Act of 1965 as amended, the Family Educational Rights and Privacy Act, the Student Right to Know Act, the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, the Equity in Athletics Disclosure Act, the Drug Free Workplace Act and the Drug Free Schools and Communities Act. Hard copies are available upon request. Go to www.nic.edu to view all documents.

STUDENT RECORDS, CONFIDENTIALITY, AND FERPA

The Family Educational Rights Privacy Act of 1974 (FERPA) requires that North Idaho College adopt guidelines concerning the right of a student to inspect his or her educational record. The information on these pages is designed to assist students in knowing the guidelines and protecting their confidentiality.

Release of Personally Identifiable Records

The college does not permit access to or the release of educational records, or personally identifiable information other than "directory information" listed below without the written consent of the student, to any other party other than the following:

- Administrative/support staff and college faculty when information is required for a legitimate educational interest within the performance of their responsibilities to the college, with the understanding that its use will be strictly limited to those responsibilities.
- Federal and state officials requiring access to educational records in connection with the audit and evaluation of a federally- or state-supported educational program or in connection with the enforcement of the federal or state legal requirements which will not permit the personal identification of students and their parents to other than those officials. Such personally identifiable data shall be destroyed when no longer needed for such audit, evaluation, or enforcement of legal requirements.
- Agencies or individuals requesting information in connection with the student's application for, or receipt of, financial aid.
- Organizations conducting studies for, or on behalf of, the college for purposes of developing, validating, or administering predictive tests; administering student aid programs; and improving instruction. Such studies shall be conducted in such a manner that will not permit the personal identification of students by persons other than representatives of such organizations, and such information shall be destroyed when no longer needed for the purposes for which it was provided.
- Accrediting organizations in order to carry out their accrediting functions.
- Any person or entity designated by judicial order or lawfully issued subpoena, upon condition that the college makes a reasonable effort to notify the student of all such orders or subpoenas in advance of the compliance therewith.
- Information from educational records may be released to appropriate persons in connection with an emergency if the

knowledge of such information is necessary to protect the health or safety of a student or other person(s).

DIRECTORY INFORMATION

The term "directory information" at North Idaho College is defined as including:

1. Student's name
2. Student's address
3. Student's phone number
4. E-mail address
5. Dates of attendance
6. Freshman/sophomore classification
7. Previous institutions attended
8. Major field of study
9. Awards/honors (including Dean's List)
10. Degree(s) conferred (including dates)
11. Past and present participation in officially recognized sports and activities
12. Weight and height of members of athletic teams.

Students may request through the Registrar's Office that the college not release directory information.

The Registrar's Office will assist students who want to inspect their records. Records covered by FERPA will be made available within 45 days and the college may charge reasonable fees for preparing copies for students. This includes records that are kept in the following offices:

1. Admissions
2. Registrar
3. Financial Aid
4. Veteran's Services
5. Student Activities
6. Intercollegiate Athletics
7. Vice President for Student Services

The college reserves the right to have a college representative present during the review of the student's record and the representative may offer interpretation of the data within the record.

Some records may be withheld by the college. For example, academic transcripts are routinely withheld if the student has a financial obligation to the college. Medical records may be released to the student's physician rather than to the student. Students may not inspect financial information submitted by their parents, confidential letters associated with admissions, and records to which they have waived their inspection rights. In the event a record contains information about other persons, the college will release only the portion of the record that pertains to the student.

Finally, the college will not release records that are not owned by the college.

FAMILY EDUCATIONAL RIGHTS & PRIVACY ACT OF 1974 (FERPA) HEARING PROCESS

Upon examination of records, a student who believes that his or her record is inaccurate or misleading can request a formal hearing. Requests for a hearing should be directed in writing to the Registrar's Office. When a date, time, and place for the hearing has been established, a student may present evidence at the hearing

and be represented by an attorney, at the student's expense. The hearing panel will include the Vice President for Student Services or other appointed designee and the student's advisor/instructor. The hearing process does not replace other processes for student grievances. The decision of the hearing panel will be based solely on the evidence presented at the hearing. A written summary of the hearing will be prepared and distributed to all parties. The summary will include the reasons behind any decisions made by the hearing panel. The student's records may be amended in accordance with the ruling of the hearing panel.

A student may add comments to his or her record if the student is not satisfied with the ruling of the hearing panel. Such comments will be released whenever the records in question are disclosed. Students who believe the hearing panel results are in error may contact the United States Department of Education, Room 4074, Switzer Building, Washington, D.C. 20202.

DRUG-FREE SCHOOLS AND CAMPUSES ACT

NIC is committed to maintaining an environment of teaching and learning that is free of illicit drugs and alcohol. The college prohibits illegal possession, consumption, manufacture, and distribution of alcohol and drugs by students in college-owned, -leased, or -operated facilities and on campus grounds. Individuals who violate college policies, city ordinances, state, or federal laws may be subject to disciplinary action and/or criminal prosecution. Student sanctions, as detailed in the Student Code of Conduct, may include warning, censure, fines, disqualification, suspension, expulsion, restitution, as well as required attendance at educational programs. More information is available at www.nic.edu.

CAMPUS SECURITY POLICY AND CAMPUS CRIMES STATISTICS ACT

Higher education institutions are required to publish and provide campus security information to students and staff.

NIC's campus safety policies, programs, and campus crime statistics are available at the Campus Security Office in the Headwaters Building at 710 Military Drive, Coeur d'Alene or by calling (208) 769-3310.

CRIME STATISTICS

The personal safety and security of students, staff, and visitors, and the protection of property are a high priority at North Idaho College. By law, the college is required to report crimes that occur on its campus.

Crimes that are not reported cannot be reflected in this report. The college also maintains facilities in Post Falls, Ponderay, Kellogg, and downtown Coeur d'Alene.

such as an escort or vehicle jump start. Emergency phone location maps are available at the Campus Security Office.

**FINANCIAL AID REFUND/
WITHDRAW POLICY**

Federal law requires that when you withdraw during a payment period or period of enrollment, the amount of federal financial aid that you have "earned" up to that point is determined by a specific formula. If you received (or NIC received on your behalf) less assistance than the amount that you earned, you will be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned.

EMERGENCY PHONES

Eight emergency phones are located throughout the campus grounds. These phones are mounted on freestanding poles and are identified with a flashing blue light. Each phone dials directly to the Campus Security Office. These phones are for the use of students, staff, or visitors in case of an emergency or the need for assistance,

North Idaho College 2010-2011

Admissions

GETTING STARTED**ADMISSIONS**

North Idaho College's open door admissions policy reflects a commitment of access to higher education for all individuals who can benefit from college coursework. NIC admits all applicants who have earned a high school diploma from an accredited high school or who have earned a General Education Diploma (GED). Applicants who have not graduated from high school or who have not earned a GED must demonstrate the ability to benefit from college coursework before being admitted as a degree-seeking student. Please read the non-high school graduate section below. Individuals under the age of 16 may contact the Admissions Office for special admissions consideration. Admission to NIC does not guarantee admission to limited or selective enrollment programs.

GENERAL ADMISSIONS

Students who are pursuing a degree or certificate, or who are applying for financial aid, must submit an admissions application. The application steps are:

- Complete an application for admission and submit a \$25 one-time application fee.
- First time students should submit a final high school transcript or GED scores to the Admissions Office.
- Transfer students should submit an official copy of all previous college transcripts to the Admissions Office. Transcripts must be received in the Admissions Office in an officially sealed envelope.
- Meet the assessment requirement by submitting ACT or SAT test scores or by taking the COMPASS placement test. Test scores are valid for two years.

FORMER STUDENTS

Students who have previously attended NIC do not need to reapply for admission, but need to reactivate their files by completing a Student Record Update form and submitting it to the Admissions Office.

NON-DEGREE SEEKING STUDENTS

Students interested in taking classes for personal enrichment, to improve job skills, or for other educational purposes can attend NIC as non-degree seeking students. The following conditions apply to non-degree seeking students.

- Non-degree students are not admitted to an academic program.
- Non-degree students cannot receive financial aid.
- Non-degree students must apply to the Admissions Office if they wish to pursue a degree or certificate.

NON-HIGH SCHOOL GRADUATES

Non-high school graduates or students who have graduated from non-accredited high schools, who want to be admitted as a degree-seeking student may do so after passing the high school level General Educational Development (GED) tests.

If a student has not completed the GED, he or she must complete the Placement Assessment (COMPASS) and receive a minimum

score before being accepted for admission. Students using the COMPASS as an option must complete specific sections as outlined by the U.S. Department of Education to determine ability-to-benefit and admissions status. Students under the age of 16 cannot gain admittance under the ability to benefit provision.

COMPASS minimum scores for admission as an ability-to-benefit student are:

Pre-Algebra/Numerical Placement	25
Reading Placement	62
Writing Placement	32

ASSET minimum scores for admission as an ability-to-benefit student are:

Numerical Skills	33
Reading Placement	35
Writing Placement	35

INTERNATIONAL STUDENTS

North Idaho College welcomes the enrollment of qualified international students. In addition, the college encourages currently-enrolled international students to participate in the educational, social, and cultural activities of the local community.

International students must meet the same admissions requirements as domestic students. Students must have graduated from a secondary school and have the minimum English abilities to succeed in college. International students who are transferring from a college or university must have a minimum 2.00 grade point average.

All application materials from students living abroad should be sent to the Admissions Office at least six months prior to registration in order to allow time for evaluation and notice of acceptance. International students applying from within the United States need to submit all materials no less than one month prior to registration. The college will issue an I-20 to accepted students who provide the appropriate admissions and financial documentation.

The following items are required for all international applicants:

1. International Student Application for Admission
2. The \$25 application fee in U.S. funds (non-refundable, one-time fee).
3. Official secondary (high school) transcript and confirmation of graduation (an original, certified English translation must accompany those documents that are not in English).
4. Official transcripts from all colleges attended (an original, certified English translation must accompany those documents that are not in English).
5. Official Test of English as a Foreign Language (TOEFL) Scores. Minimum scores are 500 (paper-based), 173 (computer-based), and 61 (Internet-based).

Information about the TOEFL is available on the Internet at www.ets.org.

6. Certificate of Health signed by a recognized medical agency which includes complete immunization records.
7. Proof of Health Insurance
8. Financial Declaration:

International students must submit proof from a financial institution demonstrating sufficient financial resources to fully cover the costs of tuition, books, fees, room and board, and all personal expenses for one academic year. North Idaho College will not bear responsibility for an international student's finances. Estimated costs for the 2010-2011 academic year are listed below.

Tuition and Fees	\$7,210
Room and Board*	\$6,000
Books, Supplies, Incidentals	\$1,184
Total *	\$14,394

* NIC reserves the right to change its charges at any time. In the unlikely event that changes become necessary, NIC will endeavor to give advance notice.

Send all materials to: Office of Admissions
North Idaho College
1000 West Garden Avenue
Coeur d'Alene, ID 83814 USA

PROGRAMS WITH SPECIAL ADMISSION REQUIREMENTS

Limited Enrollment Professional- Technical Programs

Certain professional-technical programs have limited capacity and additional admission requirements. Since these programs often fill quickly, prospective students are encouraged to begin the application process as early as possible.

The following programs have limited space available:

- Automotive Technology
- Carpentry
- Collision Repair Technology
- Computer Aided Design Technology
- Computer Information Technology
- Culinary Arts
- Diesel Technology
- Emergency Medical Services
- Heating, Ventilation, Air Conditioning and Refrigeration
- Machine Technology
- Maintenance Mechanic/Millwright
- Medical Assistant
- Outdoor Power/Recreational Vehicle Technology
- Welding Technology

Applicants should submit admissions materials 6-12 months prior to enrollment. Decisions on acceptance are made on an eligibility/space available basis and only after the Admissions Office has received the following items:

- An application for admission to NIC and the specific program.
- The \$25 application fee (non-refundable one time fee).
- Provide assessment materials in the form of the COMPASS, SAT, ACT test scores or transcripts of previous college coursework in math and English.

Students accepted into a limited enrollment program are required to pay a \$100 non-refundable deposit within two weeks of acceptance. The deposit will be applied toward tuition and fees. See the program descriptions in this catalog for specific requirements for each program.

For more information contact the Admissions Office at (208) 769-3311 or the Professional-Technical Student Support Services Office at (208) 769-3448 or 769-3468.

Selective Enrollment Programs

The following programs have a selective and/or competitive entry and have additional admissions requirements. Application packets for all programs, except Law Enforcement, are available online at www.nic.edu/admissions. Please see the program descriptions in the catalog for the specific admissions requirements for each program.

Carpentry Management Technology	See page 82
Law Enforcement/Administration of Justice	See page 137
Pharmacy Technology	See page 165
Practical Nursing	See page 157
Radiography Technology	See page 190
Registered Nursing	See page 158

Dual Credit for High School Students (WINGS)

Dual credit allows eligible high school juniors and seniors to enroll in NIC courses on campus or at their high school. Credit for both high school and college may be awarded. Students enrolled in NIC courses will receive an NIC transcript. These credits transfer to other colleges and universities across the nation that are regionally accredited.

Dual credit students are not eligible for financial aid. Complete details about the Dual Credit program are available from high school counselors.

To be eligible students must be at least 16 years old and/or have successfully completed at least half of their graduation requirements.

Dual Credit Application and Registration Process:

1. Meet with a high school counselor to determine eligibility.
2. Submit an NIC Application for Admission.
3. Complete the online dual credit orientation.
4. Complete the Dual Credit Registration Form, with high school counselor and parent signatures.
5. Home school students may participate, but must take a placement test (COMPASS is recommended) for proper course placement.

For more information contact the Dual Credit Coordinator at (208) 769-3229.

Tech Prep for High School Students

The Tech Prep Advanced Learning Partnership is a statewide professional-technical program that coordinates high school curriculum with a college professional-technical program. Students enrolled in approved high school programs throughout the state

may receive post-secondary credit from NIC toward a professional-technical certificate or degree. This process allows student to begin working on an associate of applied science degree or advanced technical certificate while still in high school. Tech Prep students can either earn a degree in a shorter amount of time or go into greater depth of study.

For more information about the Tech Prep Advanced Learning Partnership, contact the regional office at (208) 769-5964.

PLACEMENT ASSESSMENT

The placement assessment (COMPASS) is an important part of enrollment because it measures each student's entry skills in reading, writing, and math. Scores are used to identify courses needed to ensure student success. Students are required to complete the placement assessment if they will be entering their first college English or college math course. Enrollment in other courses with an English or math prerequisite (or equivalent placement scores) may also require completion of the placement assessment.

ACT, SAT, or ASSET scores can substitute for COMPASS scores in fulfilling the placement assessment requirement.

COMPASS appointments can be scheduled online at www.nic.edu/compass after applying for admission to the college. Information about the COMPASS is available online at www.nic.edu/testingcenter. Placement scores previously earned within two years from the date of course registration may satisfy the assessment requirement by having official copies of the ACT, SAT, COMPASS, or ASSET score report sent to the NIC Admissions Office, 1000 W. Garden Avenue, Coeur d'Alene, ID 83814. If you have questions about placement assessments, contact Advising Services at (208) 769-7821.

eLEARNING AND OUTREACH

eLearning offers students alternatives to traditional face-to-face, on-campus courses. Course alternatives include:

Internet (INT): These courses are conducted online with no face-to-face component.

Hybrid (HYB): These courses are conducted online with some face-to-face or scheduled components.

Web-Enhanced (WEBE): These courses are conducted face-to-face with online components.

Interactive Video Courses (IVC): These courses are conducted through a robust two-way audio/video network from the main campus or from an Outreach Center and have an online component.

The content, credit, and transferability of eLearning courses are equivalent to traditional on-campus courses.

NIC has outreach centers in Bonners Ferry, Ponderay, and the Silver Valley. These centers offer a variety of services, including face-to-face courses, interactive video courses, non-credit courses, adult basic education courses, GED instruction and testing, and course registration.

eLearning courses require Internet access, an active NIC email account, and basic computer skills.

For more information about eLearning courses, call (208) 769-3436 or toll-free (877) 404-4536, Ext. 3436, or email us at eLearning@nic.edu. Learn more about the services offered at the Outreach Centers at www.nic.edu/outreach, call, or visit:

For registration information, go to www.nic.edu. To purchase textbooks go to www.bookstore.nic.edu.

RESIDENCY STATUS

Residency for tuition purposes is governed by Idaho State Code. Under current Idaho State Code 33-2110A,

“...a student in a community college shall not be deemed a resident of the district, or of a county, or of the State of Idaho, unless such student shall have resided within said district, county, or state, for at least one (1) year continuously prior to the date of his/her first enrollment in said community college.”

“Counties in Idaho are liable for the out-of-district tuition so long as the student is duly enrolled and attending the college. This liability shall be for six (6) semesters or the term of the curriculum for which the student is enrolled, whichever is lesser. Liability shall terminate if the student's domiciliary residence changes and that change occurs for twelve (12) months.”

Residents of Idaho

Residency status is determined when a student applies for admission and remains unchanged until the student supplies evidence to the contrary. To be classified as a resident the student, or for a dependent student the parent or legal guardians, must have established a domicile in the state of Idaho for 12 months prior to the beginning of the semester of enrollment.

For tuition purposes, a student who is a permanent resident of the United States may be classified as a resident of the district by meeting one or more of the following qualifications:

1. Any student whose parents or court-appointed guardians are domiciled in the college district and provide more than 50 percent of his or her support. (Domiciled means an individual's true, fixed, and permanent home and place

of habitation. It is the place where he or she lives without intending to establish a new domicile elsewhere). To qualify under this section, the parents or guardian must have resided continuously in the college district for 12 months preceding the opening day of the term for which the student matriculates.

2. Any student who receives less than 50 percent of his or her support from parents or legal guardians, who are not residents of the college district for voting purposes, and who has continuously resided in the college district for 12 months preceding the opening day of the term for which the student matriculates.
3. The spouse of a person who is classified or is eligible for classification as a resident of the college district for the purpose of attending the college.
4. A member of the armed forces of the United States, stationed in the college district on military orders.
5. A student whose parents or guardians are members of the armed forces and stationed in the college district on military orders and who receives 50 percent or more of his/her support from parents or legal guardians. The student, while in continuous attendance, shall not lose his/her residency when his/her parents or guardians are transferred on military orders.
6. A person separated, under honorable conditions, from the United States armed forces after at least two years of active service, who, at the time of separation, designates the college district as his/her intended domicile or who has the district as the home of record while in service and enters the college within one year of the date of separation.
7. Any individual who has been domiciled in the college district, has qualified and would otherwise be qualified under the provisions of this statute, and who is away from the district for a period of less than one calendar year and has not established legal residence elsewhere, provided a 12-month period of continuous residence has been established immediately prior to departure.

A student's residency status remains unchanged unless the student can provide evidence that he or she has established a permanent domicile in Idaho and has resided there for 12 consecutive months. To challenge a residency determination a student must complete a Residency Change Form and submit it to the Admissions Office within 10 days of the beginning of the term. The evidence must prove convincingly that residency was established 12 months before the beginning of the term. Students may appeal the residency determination by submitting a written appeal to the Admissions Office who will forward it to the Vice President for Student Services.

Idaho Residents-In-District

Idaho residents who reside in Kootenai, Ada, Canyon, Jerome, and Twin Falls counties are classified as in-district residents. Residency for these counties is determined by NIC. In-district residents pay the "district" tuition rate.

Idaho Residents-Non-District

Idaho residents who do NOT reside in Kootenai, Ada, Canyon,

Jerome, and Twin Falls counties are classified as non-district residents. Non-district students may qualify for county support from their county of residence to cover the additional non-district tuition fees. To qualify for county support, non-district residents must file a Certificate of Residency with their home county auditor's office each academic year. Certificate forms are available from the Admissions Office, Student Accounts Office, or the county auditor's office. The counties will notify NIC if the Certificate of Residency has been approved.

If verification is not received from the student's home county, the student must pay non-district fees. (Exception: Students from Ada, Canyon, Jerome, Kootenai, and Twin Falls counties are not required to complete the Certificate of Residency.)

Students who exceed the tuition benefit will be charged non-district tuition. However, non-district tuition is significantly lower than out-of-state. Check with your county for further details. The county is obligated by state code to pay the out-of-district charge pursuant to Idaho State Code 33-2110A. Non-district tuition rates do not apply to students enrolled in professional-technical programs.

TUITION REDUCTION PROGRAMS

Washington State Residents

Washington residents qualify for a reduction of a portion of the out-of-state tuition rate. Residency status is determined at the time of application to the college. (See page 26 for tuition rate tables).

Western Undergraduate Exchange

The Western Undergraduate Exchange Program (WUE) was established to financially assist individuals interested in attending college out of their home states. The tuition rate is 150% of the non-district tuition rate. Students may not use any of the time accrued under the WUE program to establish residency in the state of Idaho. Residents from the following states are eligible for the reduced tuition rates: (See page 26 for tuition rate tables).

Alaska	New Mexico
Arizona	North Dakota
California	Oregon
Colorado	South Dakota
Hawaii	Utah
Montana	Wyoming
Nevada	

Senior Citizen's Rate

North Idaho College offers a special rate to individuals who are 60 years or older. The senior citizen rate for credit classes is \$25 per class plus \$5 per credit. Fees for non-credit courses, materials, books, or special fees are full price.

North Idaho College 2010-2011

Financial Aid

FINANCIAL AID - WHAT IS IT?

Financial aid funding assists students in offsetting the cost of a college education including tuition and fees, room and board, books, supplies, transportation, and miscellaneous expenses. The most familiar type of funding is gift aid or grants and scholarships. This type of aid does **not** have to be repaid. Self-help funding is aid that does need to be repaid in the form of student loans. Funding may also be earned through the college work study programs.

**For information about
financial aid go to
www.nic.edu/financialaid**

<i>Source of Funding</i>	<i>Eligibility Requirements</i>	<i>Available Amounts</i>
GRANTS		
Federal Pell Grant (PELL)	Complete the FAFSA at www.fafsa.ed.gov Undergraduate student who has NOT received a bachelor's degree.	Maximum award for the school year is \$5,550 (based on number of credits)
Federal Supplemental Educational Opportunity Grant (SEOG)	Complete the FAFSA at www.fafsa.ed.gov Undergraduate student that demonstrates exceptional need.	Eligibility determined by Financial Aid Office.
Leveraging Educational Assistance Partnership Program	Complete the FAFSA at www.fafsa.ed.gov Undergraduate student that is an Idaho residents that demonstrates need.	Eligibility determined by Financial Aid Office.
Grant-in-Aid (GIA)	Determined by the NIC department that is awarding the grant-in-aid.	Maximum award is tuition and fees. Awarded by various NIC departments.
SCHOLARSHIPS		
	Determined by donor. Awarded by the NIC Scholarship Committee.	Determined by donor. Scholarship information is available at www.nic.edu/financialaid .
LOANS		
Federal Direct Subsidized Stafford Loan	Complete the FAFSA at www.fafsa.ed.gov At least half-time (6 credits) enrollment.	Maximum award for students completing 0-25 credits is \$3,500. Maximum award after 25 credits is \$4,500.
Federal Direct Unsubsidized Stafford Loan	Complete the FAFSA at www.fafsa.ed.gov At least half-time (6 credits) enrollment.	Maximum award for dependent students is \$2,000. Maximum award for independent students is \$6,000.
Federal Direct Plus Loan (Parent Loan)	Complete the FAFSA at www.fafsa.ed.gov At least half-time (6 credits) enrollment.	Parents may borrow up to the cost of education minus previously awarded financial aid.
WORK-STUDY		
Federal Work-Study	Complete the FAFSA at www.fafsa.ed.gov At least half-time (6 credits) enrollment.	Minimum award is \$1,000.
Idaho Work-Study	Complete the FAFSA at www.fafsa.ed.gov At least half-time (6 credits) enrollment.	Minimum award is \$1,000.

ELIGIBILITY for FINANCIAL AID

North Idaho College awards financial aid on the basis of *merit* and *financial need*.

Eligibility for *need-based* financial aid is determined by the student's computed financial need, as established by the Department of Education. Financial need represents the difference between the total cost of attendance and the amount the student and his/her family can afford to pay toward that cost—the Estimated Family Contribution. The total cost of attendance includes allowances for the cost of tuition and fees, books, supplies and tools, room and board (or rent and food), living expenses, and transportation from home. The Estimated Family Contribution is calculated by using information the student and his/her parents (if dependent on parents) or spouse (if married) provide on the Free Application for Federal Student Aid (FAFSA) and other documents.

To be eligible for Federal Financial Aid - need-based or non need-based a student must:

1. Have a high school diploma, GED certificate, or pass the COMPASS assessment with appropriate ability-to-benefit scores (see page 16).
2. Be accepted for admission into North Idaho College as a matriculated (degree-seeking) student.
3. Not be in default on a Federal Perkins Loan, Federal Stafford Loan (formerly Guaranteed Student Loan), Federal Supplemental Loan for Students, Federal Parents Loan for Undergraduate Students made for attendance at North Idaho College, or any other educational institution.
4. Not owe a refund on a Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Leveraging Educational Assistance Partnership Program, or Federal Family Education Loan previously used for attendance at North Idaho College or any other educational institution.
5. Be a U.S. citizen, U.S. national, or eligible non-citizen.
6. Certify that, if required, the student has registered with Selective Service.
7. Maintain satisfactory academic progress toward his/her North Idaho College degree or certificate as defined by the North Idaho College Satisfactory Academic Progress Policy.

SATISFACTORY ACADEMIC PROGRESS POLICY

The U.S. Department of Education requires students to maintain satisfactory progress toward their degree or certificate in order to be eligible for financial aid. **This applies to students who are applying for the first time, as well as to those who are currently receiving aid.** All semesters of attendance are reviewed, including periods when the student did not receive financial aid.

For more information about NIC's satisfactory academic progress policy, go to www.nic.edu/financialaid.

APPLYING for SCHOLARSHIPS

Students interested in scholarships need to complete the Scholarship Application available in the Financial Aid Office or online at www.nic.edu/financialaid. Scholarships offered through the state may be accessed by going to the Idaho State Board of Education website at www.boardofed.idaho.gov/scholarships.

APPLYING for FINANCIAL AID

To apply for all other types of financial aid, the student and his/her parent(s) (if dependent) need to complete the Free Application for Federal Student Aid (FAFSA). In addition to the FAFSA, the student may need to submit a copy of his/her U.S. Income Tax return and, in some cases, copies of his/her parents' U.S. Income Tax return.

The earlier the student applies the better the chances are for receiving full financial aid funding. Students who complete the financial aid application process prior to the **March 14** priority deadline will be considered for all types of financial aid. Those who apply after that date will be considered for the Federal Pell Grant, the Federal Stafford Loan, and any other funds that are available.

To apply for financial aid, follow the steps below:

1. With the Department of Education

- Apply for PIN at www.pin.ed.gov
- Fill out the FAFSA at www.fafsa.ed.gov (NIC's school code is 00162300).

2. With the NIC Financial Aid Office

(www.nic.edu/financialaid)

- Fill out an NIC scholarship application.
- Fill out an Idaho scholarship application which is available at www.boardofed.idaho.gov/scholarships.
- Submit requested documentation if you are selected for verification.
- Print your award letter from MyNIC.
- Submit a signed copy of your award letter to the NIC Financial Aid Office.

3. For Loans

- The Entrance Counseling and Master Promissory Notes can be completed at www.studentloans.gov.

BOOKSTORE CHARGES and FINANCIAL AID

Students who have been approved to receive financial aid through the NIC Financial Aid Office will be allowed to charge books and supplies at the NIC Bookstore beginning the week prior to the start of classes through the first week of classes, provided that he/she is matriculated (degree-seeking), enrolled in the correct number of credits, and has completed the admissions process.

TITLE IV FEDERAL FINANCIAL AID REFUND and REPAYMENT POLICY

The Federal refund/repayment policy for students receiving Title IV Federal Financial Aid is different than the established North Idaho College refund policy.

Anyone wishing to obtain a copy of the federal policy and/or calculation examples may stop by the Financial Aid Office located in Lee-Kildow Hall or access the information from the college website at www.nic.edu/financialaid.

North Idaho College 2010-2011

Tuition & Fees

TUITION and FEES for 2010-2011

Amounts are subject to change. By registering at North Idaho College, you agree to provide payment by the due dates. You also understand that collection costs and legal fees will be added if the services of a collection agency are utilized.

Tuition and fees at NIC are among the lowest in Idaho and the Inland Northwest. All rates quoted below are subject to change

without notice. Idaho residents not living in Kootenai County must submit a Certificate of Residency to receive county support. The figures below do not include personal expenses or transportation. Books and supplies for academic transfer programs are estimated at \$500 per semester.

ACADEMIC TRANSFER PROGRAMS			
12 or more credits:	Fall	Spring	Total
Kootenai County Residents	\$1,329	\$1,329	\$2,658
Non-Kootenai County Idaho Residents			
Students qualifying for county support	\$1,329	\$1,329	\$2,658
Students not qualifying for county support	\$1,829	\$1,829	\$3,658
Washington Residents	\$2,100	\$2,100	\$4,200
Western Undergraduate Exchange	\$2,743	\$2,743	\$5,486
Out-of-State/International Students	\$3,605	\$3,605	\$7,210
17 or more credits are assessed the following nonrefundable per-credit fee:			
Idaho Residents	\$111	\$111	--
Washington Residents	\$174	\$174	--
Western Undergraduate Exchange	\$228	\$228	--
Out-of-State/International Students	\$300	\$300	--
11 credits or less are assessed the following PER CREDIT fee:			
	1 credit	2-11 credits	
Kootenai County Residents	\$121	\$111	
Non-Kootenai County Idaho Residents			
Students qualifying for county support	\$121	\$111	
Students not qualifying for county support	\$162	\$151	
Washington Residents	\$185	\$174	
Western Undergraduate Exchange	\$239	\$228	
Out-of-State/International Students	\$311	\$300	

PROFESSIONAL-TECHNICAL PROGRAMS

Tuition and fees vary by length of program. Depending on the program (which may vary from 9-11 months), students will make payment for each semester and for any additional terms that may be included in the program. The cost for tools, supplies, and books also varies with each program. **Additional course fees may apply.**

Idaho Residents

Tuition and Fees \$2,658 - \$3,384

Washington and Montana Residents

Tuition and Fees \$4,200 - \$5,418

Western Undergraduate Exchange

Tuition and Fees \$5,486 - \$6,854

Out-of-State/International Students

Tuition and Fees \$7,210 - \$9,010

In addition, programs may also have additional costs for books, supplies, and tools which may vary from \$500 to \$3,000 per year.

**SUMMARY of TUITION and FEES
FOR 2010-2011 SCHOOL YEAR
(per semester)**

Rates are subject to change.

Tuition	\$804
General Fees (paid as part of tuition and fees)	
Associated Student Body	\$25
Athletics	\$36
Commencement.....	\$4
Enrollment Services.....	\$80
Health Services.....	\$25
Instructional Technology	\$123
Learning Assistance	\$40
Library Services	\$37
Student Accident Insurance (on first credit).....	\$11
Student Activities and Recreation	\$25
Student Programs/Fine Arts.....	\$8
Student Publications	\$6
Student Service Fee (Debt)	\$93
Total tuition and fees	\$1,329

**SPECIAL and INCIDENTAL FEES
(SUBJECT TO CHANGE WITHOUT NOTICE)**

Admission Fee	\$25
This one-time fee is required at the time of submitting an initial Application for Admission. It is non-refundable.	
GED Testing Fee	\$15 per test
On-Campus Parking Fee	\$20 per year
Special Course Fees	Varies
Special fees are assessed for such things as labs, some physical education courses, and some music classes. Special fees are listed in the Class Schedule.	
Transcript Fee	\$5
Official transcripts are \$5 each. Turn around time is 5-10 days. Please note that transcripts will not be processed if a student has a financial hold on their records. Financial holds include parking fines, library fines, delinquent loan payments, etc.	
Rush Transcript Fee	\$10
A transcript will be mailed or ready for pick-up on the same day, if the request is received before noon. If received after noon, the transcript will be ready the next working day. An additional fee is required for overnight mailing.	
Rush Transcript With Express Mail Delivery Fee	\$30
A transcript will be express mailed and delivered by noon on the next business day, if the request is received before noon.	
Residence Hall Room and Board	\$6,000 - \$8,200

DEPOSITS

Nursing Programs Deposit (R.N., L.P.N.)	\$100
The Nursing program deposit is due by May 1 . It will be applied to the tuition and fee charges for the initial semester or term of enrollment. Deposits may be refunded if notification of cancellation is officially given to the Admissions Office by July 1. No refund will be given if a student withdraws after the prescribed deadline.	
Professional-Technical Program Deposit	\$100
After being accepted into a specific professional-technical program, students will be asked to submit a \$100 deposit within three weeks of the date of their acceptance letter. The deposit will be applied to the tuition and fee charges for the initial semester or term of enrollment. See page 17 for those programs that require a deposit.	

Residence Hall Security Deposit **\$200**

A \$200 deposit must accompany the signed application/contract and is not to be construed as partial payment for room and board. This deposit serves as a guarantee against loss and breakage of residence hall equipment and furniture. The deposit remains in effect through the period of application and residency. All students who fulfill the terms of the contract after occupancy will receive a refund of their deposit within four weeks after checking out of the residence hall (less any deductions for losses, damages, or fines).

**TUITION and FEES
PAYMENT PROCEDURES**

Tuition, fees, and any special fees must be paid on or before the due date printed on the Statement of Account/Class Schedule statement when you register in person. Payment must be made on or before the due date noted on the payment screen when registering online, unless financial aid has been approved. Students failing to pay amounts due to NIC could be **cancelled** from classes and have their credits withheld. No student will be given a transcript of his/her record or allowed to register for classes until all accounts are settled in full. This includes any funds received through the Financial Aid Office involving overpayments, refunds, or delinquent loans.

Payment of regular student fees entitles the student to the services maintained by NIC for the benefit of students. No reduction in fees can be made for students who may not desire to use any part of these services. Extra charges are made for special services and specific courses.

Students eligible for financial aid, but who have not completed the process prior to registration, will be expected to pay all required charges on or before the due date.

Veterans and eligible persons receiving Veterans Administration educational benefits must pay all required charges at the time of registration. Those who are depending on veterans educational benefit checks to pay fees must apply for advance pay at least one month prior to registration.

Tuition and fees are established annually by the Board of Trustees. Interested persons may inquire at the Admissions Office for applicable rates and payment information. NIC reserves the right at any time to change its charges. In the unlikely event that such changes become necessary, NIC will endeavor to give advance notice.

SENIOR CITIZENS' RATE

NIC offers a special rate to individuals 60 years or older. The senior citizen rate for credit classes is \$25 per class, plus \$5 per credit. Fees for non-credit courses, materials, books, or special fees are full price. A Senior Citizen's Gold Card allows individuals 60 years of age and older to attend NIC-sponsored athletic and arts events free of charge. Gold Cards are available through the NIC College Relations Office or the Admissions Office. For more information, call (208) 769-7764.

**NORTH IDAHO COLLEGE
REFUND POLICY**

Refund

Students who officially withdraw from all classes at North Idaho College may be entitled to a refund of a portion of their tuition and fees. If financial aid paid a portion of those charges, then a portion of the refund must be returned to the federal financial aid funds.

REFUNDS for WITHDRAWAL from SEMESTER-LENGTH COURSES

Full-time or part-time students who withdraw from semester-length credit courses (day, evening, or Internet) will, **on written notification** to the NIC Registrar **at the time of withdrawal**, receive refunds as follows:

Fall Semester

If you drop or withdraw from one or all of your classes by 5 p.m. the second Wednesday after the first day of the fall semester, you will receive a 100 percent refund.

Spring Semester

If you drop or withdraw from one or all of your classes by 5 p.m. the second Wednesday after the first day of the spring semester, you will receive a 100 percent refund.

Summer Session

If you drop or withdraw from one or all of your classes by 5 p.m. the first Wednesday after the first day of the summer session, you will receive a 100 percent refund.

Should a class be cancelled, students will receive a full refund for the class, provided the student's enrollment drops below eight credits.

REFUNDS for WITHDRAWAL from SHORT-TERM COURSES

Students who withdraw from short-term courses (less than 15 weeks in length) will, **on written notification** to the NIC Registrar **at the time of withdrawal**, receive refunds as follows:

1. If withdrawal is made prior to the second class meeting, 100% will be refunded.
2. No refund will be allowed after the second class meeting.

Should a class be cancelled, students will receive a full refund for the class, provided the student's enrollment drops below eight credits.

REFUNDS for STUDENTS CALLED to ACTIVE MILITARY SERVICE

Members of the Idaho National Guard and Reserve serve a vital function for our country. In the event that members of the National Guard or Reserve are called to active duty, they will be administratively withdrawn from classes and any tuition and fees paid will be refunded in full. Copies of orders calling a student to active duty must be provided to the VA Coordinator who will initiate the administrative withdrawal from classes and the refund process.

TUITION PAYMENT PLAN

North Idaho College provides a tuition payment plan option through Tuition Management Systems (TMS), a nationally-recognized provider of education payment services. TMS can be reached by calling their toll free number at (800) 356-8329. The Interest-Free Monthly Payment Option allows for tuition and other expenses to be divided into three or four monthly payments, spread over the semester.

There is a \$50 semester enrollment fee (non-refundable, only available during the fall and spring semesters). There is no interest or other costs. The payment plan option is not a loan, so anyone is eligible to participate.

Forms are available online at www.afford.com/nic. The \$50 semester enrollment fee may be charged to a credit card.

Participants will be billed monthly by TMS, in accordance with the Monthly Payment Schedule. Automatic monthly deductions from checking or savings are available at no additional cost.

North Idaho College 2010-2011

Academic & Registration Info

REGISTRATION

Registration is the official process of enrolling in classes. NIC is on a 16-week fall/spring semester, followed by a summer session. The student calendar on pages 2-5 of this catalog has information regarding application and registration dates. Registration information is available at www.nic.edu.

After applying for admission, students will receive an acceptance letter from the Admissions Office which will include information about registration.

Students register by assigned start times through their MyNIC account. Appointment times for continuing students are determined by the number of credits completed.

Students with a financial hold such as parking fines, library fines, or delinquent loan payments cannot register until the hold has been cleared.

MyNIC: STUDENT INFORMATION on the WEB

MyNIC is the college's online student information portal where students will receive the majority of their official college communications. By logging onto MyNIC, students can access their class schedules, unofficial transcripts, admissions and financial aid information, the name of their advisor, assessment scores, and important announcements. MyNIC is used by students to determine class availability, register for classes, and pay tuition and fees.

After being admitted, students will receive MyNIC access information.

To log into MyNIC:

1. Go to www.nic.edu and click "MyNIC."
2. Click on the orange "New Students and Employees Start Here" button.
3. Follow the instructions for how to log in.

MyNIC is available from 6:30 a.m. to 1:55 a.m. (Pacific time) seven days a week. Questions about MyNIC should be directed to the NIC HelpDesk at (208) 769-3280.

PAYMENT of TUITION and FEES

Tuition and fees are set annually by the Board of Trustees. Students enrolled for 11 credits or less pay on a per-credit hour basis, plus any special class fees. Students registering for 17 credits or more will be assessed a nonrefundable overload fee at the regular per-credit rate.

New and former students from Idaho who reside outside of Kootenai County are required to provide a Certificate of Residency to the Students Accounts Office in Lee-Kildow Hall to avoid being charged out-of-district rates.

COURSE SCHEDULE CHANGES (ADD/DROP)

The add/drop period allows students to add classes on a space-available basis or drop classes without transcript notation. The add/drop period is the first four days of fall and spring semesters and

the first two days of summer session. Students can make schedule changes online or through the Registrar's Office in Lee-Kildow Hall. If the class is a late-start class, it may be added through the Registrar's Office after the add/drop period ends. For all short-term classes, drops must be processed prior to the second class meeting.

WITHDRAWAL from INDIVIDUAL COURSES

To withdraw from a course, a student must complete a Course Withdrawal Form and return it to the Registrar's Office. Forms are available on the Registrar's Office website, in the Registrar's Office, or in Advising Services. Final withdrawal dates are published on the college calendar located on pages 2-5. After the final withdrawal date, students may not withdraw from a class regardless of their academic status. A student who withdraws officially from a course by 5 p.m. of the last day for withdrawal will receive a grade of "W," which will be recorded on the student's transcript.

Withdrawal from short-term classes (classes less than 15 weeks in length) must be completed within the first half of the total class sessions; i.e., the deadline for withdrawal from a course that consists of eight sessions would be at 5 p.m. on the date of the fourth session. Withdrawals from summer session are permitted through the first day of the sixth week.

Students who stop attending a class for which they have registered and from which they have not officially withdrawn may receive a grade of "F".

COMPLETE WITHDRAWAL from NIC

To withdraw from all courses, a student must obtain a College Withdrawal Form from the Registrar's Office, secure the signature of those persons indicated on the form, and return the form to the Registrar's Office. Students may not withdraw from college after the published withdrawal dates for that semester except for compelling and extraordinary reasons. In such circumstances a student must petition the Admissions and Academic Standards Committee for late withdrawal using the form available in the Registrar's Office. Information on refunds of tuition and fees following a complete withdrawal is on page 28.

INDEPENDENT STUDIES

Independent study courses are available in most academic disciplines and are designated by the course number 299. Course content, learning and evaluative criteria are developed primarily by the student with the guidance from an instructor. Independent studies may include a reading or a project and must be approved by the instructor, appropriate Division Chair, and Vice President for Instruction. These courses are open to students with a 3.0 GPA and have completed 30 semester credits.

Students may take no more than three credits per semester of independent study or six credits per year. Credits earned may not be used to fulfill associate degree core requirements. Students may register for independent study classes during the first four weeks of the semester or the first two weeks of summer session. Forms and information are available in the Registrar's Office.

DIRECTED STUDIES

Directed study courses are identical to courses outlined in the catalog. A student must demonstrate that the course is required for graduation or program purposes and that taking the course through directed study is the only option available to them. Directed study courses must be approved by the instructor, appropriate Division Chair, and Vice President for Instruction. Students may register for independent study classes during the first four weeks of the semester or the first two weeks of summer session. Forms and information are available in the Registrar's Office.

ADDRESS/NAME CHANGES

Students' correct names, home, and/or local addresses are vital for college records. Students who change their name or address should update their information through their MyNIC account or notify the Registrar's Office.

GRADING POLICIES

Grading Procedures

Letter grades are used to indicate a student's quality of achievement in a given course. Each of the grades are also assigned an equivalency number, which is used to compute grade point averages:

A	4.0	Excellent
A-	3.7	Excellent
B+	3.3	Good
B	3.0	Good
B-	2.7	Good
C+	2.3	Average
C	2.0	Average
C-	1.7	Average
D+	1.3	Poor
D	1.0	Poor
D-	0.7	Poor
F	0.0	Failing
NR		No Report
NG		No Grade

Other grades awarded are W (withdrawal according to proper procedure); I (incomplete work of passing grade); S (satisfactory – requires at least C or 2.0 work; used for designated courses only and for midterm grades); U (unsatisfactory – for courses in which S is given). Courses in which W, S, U, s or I grades have been earned are not included in the grade point calculation.

Students wishing to check their grade point averages should use the following formula: Per credit grade equivalency x number of credits per class ÷ grade points = GPA. For example, a student receives a grade of B- in English 101 and a grade of C in Math 108:

English 101: (B-) 2.7 x 3 credits = 8.1 grade points

Math 108: (C) 2.0 x 4 credits = 8.0 grade points

8.1 + 8.0 = 16.1 grade points ÷ 7 credits = 2.3 GPA

Academic Appeals/Instructional Petitions

To appeal any decision, action, or inaction pertaining to instructional issues such as concerns about an instructor, change of grade,

course substitutions, academic sanctions, or other instructional matters, the student should:

STEP 1:

Discuss the issue in question with the original decision maker, e.g., an instructor. If the problem is not resolved to the satisfaction of the student at this level, the student should determine the immediate college supervisor of the employee or faculty member making and/or enforcing the questioned decision and schedule an appointment with that person. This supervisor may be a director or a division chair. In this informal meeting, the student will be expected to verbally explain the situation, indicate concerns, and suggest possible solutions. If not satisfied with the results of this meeting, the student should seek further review as follows:

STEP 2 A: Admissions and Academic Standards Committee

Exceptions to late withdrawal from college (all courses), reinstatement to college following disqualification or suspension, and transfer and/or substitution of course credits that NIC transcript evaluators have not accepted as satisfying graduation requirements may be requested through the Admissions and Academic Standards Committee. Appeal forms are available at the Registrar's Office located in Lee-Kildow Hall. **Petitions for late withdrawals must be submitted within two years of the end of the semester from which a student requests withdrawal.**

STEP 2 B: Office of the Vice President for Instruction

- Unresolved concerns about an instructor or change of grade requests are processed by the Office of the Vice President for Instruction. **Requests for grade changes must occur within two years of the original grade issuance.**
- Students may also appeal decisions rendered by the Admission and Academic Standards Committee or any academic sanctions imposed as a result of violation of academic integrity (**appeal process for academic sanctions is detailed in the Student Code of Conduct and NIC Policy 5.06.01 and takes precedent over any process outlined herein**).

Students who wish to appeal should secure an Instructional Petition Form from the Office of the Vice President for Instruction, prepare a written Statement of Appeal, and submit it to the Office of the Vice President for Instruction within seven (7) work days of the decision being appealed.

The Statement of Appeal must contain the following information:

- Student's name, local address and telephone number
- A statement of concerns regarding the original decision
- Arguments supporting the student's position
- A statement of the requested solution
- All relevant supporting documentation

The Vice President or designee will then conduct inquiries as deemed appropriate and shall provide a written decision to the appellant within 15 work days. The Vice President for Instruction's decision is final.

Audit

A student may enroll in any lecture class on an audit basis. Students are encouraged to attend classes on a regular basis even though they will not receive credit or a grade for the class. Audited courses will not fulfill graduation requirements and do not affect a student's grade point average. The application process and fees for auditing a course are the same as if a student were enrolling for credit. Course enrollment may be changed from credit to audit during the drop/add period. With the instructor's permission, course enrollment may be changed from audit to credit during the first four weeks of fall or spring semester or the first two weeks of a summer session.

Incompletes

An incomplete is assigned only if the student has been in attendance and has done satisfactory work to within three weeks of the end of the semester (or proportional length of time for a course of less than a semester in length). Incompletes are issued only in cases of extenuating circumstances, such as severe illness or injury. Incompletes are not issued in cases in which the student is simply unable to complete his/her work within the specified semester or session. If a final grade of "I" is recorded, the instructor will indicate in writing to the Registrar what the student must do to make up the deficiency. The instructor will indicate in the written statement what permanent grade should be entered if the Incomplete is not removed by the deadline.

All incomplete grades must be removed within six weeks after the first class day of the following term, excluding the summer session. If the Incomplete is not removed by that date, the grade reverts to the grade indicated by the instructor's written statement authorizing the incomplete.

Repeating a Course

Students may repeat any course to raise a grade, provided they have not completed a more advanced course for which the first is a prerequisite. While all grades received remain on the record, only the grade received for the most recent enrollment in the course is counted in computing grade point average. **Note:** Repeating a course may affect financial aid funding and may not be permitted if the course has already been used to earn a degree.

Dean's List (Honor Roll)

To qualify for the Dean's List, students must complete at least 12 credits in a semester, earn a semester GPA of 3.75 or higher, and receive letter grades of A, B, C, D, or F in 80 percent of their classes.

Academic Renewal

In conformity with the principle of encouraging and rewarding determination, self-discipline, and achievement, North Idaho College will allow a student to petition the Registrar, under certain circumstances, for academic renewal. This means previous poor academic work at NIC would be eliminated from the computation of credits and grade points in the student's academic record as well as for academic standing and eligibility for graduation.

Eligibility for academic renewal will be subject to the following conditions:

1. At the time the petition is filed, a minimum of five years will have elapsed since the most recent course work to be disregarded was completed.
2. Before the petition may be filed, the student must complete at least 30 semester hours of course work at North Idaho College with a minimum cumulative grade point average of 2.50. These courses must be completed following the disregarded semester(s).
3. Renewal will not be granted for individual courses within a term.
4. Students holding an associate or bachelor's degree are not eligible for academic renewal.

The student may have a maximum of two consecutive semesters (summer session excluded, unless it is one of the two deleted semesters) of course work disregarded in all calculations regarding the computations of credits and grade points, academic standing, and eligibility for graduation. The petition to be filed by the student will specify the semester(s) or terms(s) to be disregarded.

If the petition qualifies under this policy, the student's permanent academic record will be suitably annotated to indicate that no work taken during the disregarded semester(s), even if satisfactory, may apply toward the computation of credits and grade points, academic standing, and graduation requirements. However, all work will remain on the records, ensuring a true and accurate academic history.

Since this is already a policy of exception, no exceptions will be made to the aforesaid conditions. Students should be aware that this policy **might not be accepted** at transfer institutions.

ACADEMIC PROBATION, SUSPENSION and DISQUALIFICATION

This policy applies to any student carrying credit hours at the end of the add/drop period of any term.

Policy for Students Under 26 Credits

A student must earn a cumulative grade point average of 1.75 or higher to remain in *Good Standing*. A student whose cumulative grade point average is less than 1.75 will be placed on *Academic Probation*.

A student on *Academic Probation* is required to maintain a 2.00 semester grade point average until his/her cumulative grade point average returns to a 1.75. A student on *Academic Probation* whose semester grade point average does not meet the 2.00 requirement or whose cumulative grade point average does not return to 1.75 will be placed on *Academic Suspension*.

Once on *Academic Suspension*, the student will be required to sit out for one semester or petition the Admissions and Academic Standards Committee for reentry. A student reinstated from *Academic Suspension* is required to earn a semester grade point average of 2.00 until their cumulative grade point average reaches a 1.75. If the grade point average requirements are not met, the student will be placed on *Academic Disqualification*. A student placed on *Academic Disqualification* must petition the Admissions and Academic Standards Committee to return to the college.

Policy for Students With 26 Credits or More

A student must earn a cumulative grade point average of 2.00 or higher to remain in *Good Standing*. A student whose cumulative grade point average is less than 2.00 will be placed on *Academic Probation*.

A student on *Academic Probation* is required to maintain a 2.00 semester grade point average until his/her cumulative grade point average returns to a 2.00. A student on *Academic Probation* whose semester grade point average does not meet the 2.00 requirement or whose cumulative grade point average does not return to 2.00 will be placed on *Academic Suspension*.

Once on *Academic Suspension*, the student will be required to sit out for one semester or petition the Admissions and Academic Standards Committee for reentry. A student reinstated from *Academic Suspension* is required to earn a semester grade point average of 2.00 until their cumulative grade point average reaches a 2.00. If the grade point average requirements are not met, the student will be placed on *Academic Disqualification*. A student placed on *Academic Disqualification* must petition the Admissions and Academic Standards Committee to return to the college.

CREDIT INFORMATION

Definition of Credit

A credit, sometimes referred to as semester credit or semester hour, is related to time spent in class, study, preparation, laboratory, or field experience. One semester credit hour normally requires 45 hours of student work, or:

1. 50 minutes in class each week for one semester (which assumes twice this amount of time in study and preparation outside the classroom),
or
2. Two to three hours in laboratory each week for a semester, **or**
3. The equivalent combinations of 1 and 2.

Credit for workshops and short courses is granted on the basis of one semester credit for 45 hours of scholarly activity.

Credit Enrollment Limits

Registering for an excessive number of credits may result in marginal performance. Students enrolling for more than 16 credits will be assessed a non-refundable, per-credit overload fee and are required to get authorization from Advising Services. Students taking more than 7 credits during the summer are required to get authorization from Advising Services.

STUDENT CLASSIFICATION

Full-Time Classification

A student must register for a minimum of 12 credits each semester to be classified as a full-time student; however, in most programs a student must earn at least 16 credits per semester to graduate in four semesters.

Freshman and Sophomore Classification

Students with 0-25 semester credits are classified as freshmen, those with 26-64 semester credits are classified as sophomores.

Course Numbering System

- 001 – 099 Courses are nontransferable and do not apply toward academic degrees. They may be required for some A.A.S. degrees.
- 100 – 199 Primarily for freshmen
- 200 – 299 Primarily for sophomores

CREDIT by EXAMINATION

Challenge for Credit

A student enrolled at NIC may petition to challenge courses based on work done through private study and/or employment or to validate courses taken at non-accredited institutions. Students are not permitted to challenge a prerequisite course after having completed an advanced course. Credit by examination will not be granted for a course that a student has previously taken for credit or audited. Credit will be granted provided the student earns a grade of C or better. Neither grades nor credit earned through the challenge process will be counted in any given semester to determine credit load or grade point average, nor will they be included in computing cumulative grade point averages. Students may challenge a course prior to or during enrollment in a course through the second week of fall or spring semester, or through the first two days of a short course or summer session. Contact the Registrar's Office for specific regulations.

Foreign Language Placement

One full year of high school study in a foreign language is generally considered equivalent to one semester's work in college. To receive college credit for high school or independent work, a student must take an advanced placement examination in the target language and complete the next semester advanced level with a grade of "C" or better. Placement in and completion of the second elementary level or first intermediate level will enable a student to receive credit for the first elementary level; placement in and completion of the second semester intermediate level will enable a student to get credit for the first three semesters of the target language once appropriate paperwork has been completed and fees have been paid.

CLEP Examination

North Idaho College accepts a limited number of CLEP (College Level Exam Program) general and subject area exams. For information, contact the Admissions Office.

Advanced Placement Examination

In recognition of the Advanced Placement Program sponsored by the College Entrance Examination Board, NIC will grant college credit for examinations based on the student's score. For specific information, contact the Admissions Office.

GRADUATION

Students may graduate at the end of any term. The commencement ceremony is held once each year in May. Students eligible to participate in commencement are graduates from the previous fall or students who plan to graduate in the current spring or summer.

A student must submit an Application for Graduation with the Registrar's Office whether or not they plan to participate in commencement. Suggested application dates for graduation are **November 1** for spring semester, **April 1** for summer session, or **May 1** for fall semester. Applications filed after the suggested dates will be accepted. However, early filing enables the Registrar's Office to evaluate a student's transcript and determine any course deficiencies in the program of study prior to the student's final semester of enrollment. A diploma will not be issued if a student has not fulfilled all financial obligations to the college. Only one associate of arts or associate of science degree will be granted to each student.

Final Credits Earned and Exceptions

Candidates for an associate degree or certificate of completion must earn their final 12 credits while enrolled at NIC. A student may petition the Admissions and Academic Standards Committee for a waiver in exceptional cases involving specific course or residence requirements for graduation.

Catalog Issue

Catalogs are available online. North Idaho College students completing either an associate degree or certificate of completion may apply for graduation using any catalog in effect within the last four years. This policy is in effect only if the student has been continuously enrolled at the college at the time of graduation.

Credit Limitations

No more than 24 credits earned by examination and 32 credits earned by correspondence or examination may count toward an associate degree.

Physical Education Requirement

All A.A. and A.S. degrees require two credits of physical education unless excused for cause. These requirements are met by completing two semesters of P.E. activity or dance class that awards a letter grade -- P.E. classes designated for senior citizens do not meet this requirement. Participants in intercollegiate athletics receive one credit per semester per sport.

Disabled students may be exempt from physical education activity course requirements upon the recommendation of a physician and the approval of the Division Chairperson, if alternative activity courses cannot be arranged. All students, regardless of age, must meet physical education requirements. Students enrolling in designated physical education activity courses may be charged extra fees payable at registration.

TRANSCRIPTS

A transcript is a record of all courses for which a student was enrolled at the end of the add/drop period each semester and summer session. It includes credit hours for which the student is enrolled, final grades in each subject, record of withdrawal, courses repeated, grade point average for each semester, and a cumulative grade point average.

Requests for Transcripts

NIC academic transcripts are permanent records and are maintained forever. Transcript requests must be made in writing and can be submitted by mail, fax (208-769-5976), or in person to the Registrar's Office. Request forms and additional information are available through the Registrar's Office website found under the Current Students link at www.nic.edu. Federal regulations require that the request be signed by the student to authorize release of the transcript. The request should include the student's full name, maiden name if applicable, approximate last date of attendance, student identification number, student's current address and phone number, address(es) where the transcript(s) should be mailed, and the student's signature. Payment must accompany each request. Official copies are \$5 each or \$10 if needed in 24 hours or less. Transcripts will not be released if the student has not fulfilled all financial obligations to the college. Transcript production time is usually 3-5 working days during term. Please allow up to 10 working days at the completion of each term.

Transcripts From Other Schools

NIC does not issue certified copies of transcripts from other institutions. Transcripts reflecting a student's previous college education that have been submitted to the college as a requirement for admission become part of the official file. Any student desiring official transcripts of credits earned elsewhere must request transcripts from the institution where the credits were taken.

STUDENT RIGHTS and RESPONSIBILITIES

Attendance

Students are responsible for attending the courses in which they are enrolled. Regular class attendance is expected. In the case of recipients of veterans educational benefits, excessive absences may mean a reduction in subsistence payments.

Conduct

Students are expected to read and comply with the *NIC Student Conduct and Discipline Code*, which may be found in the Student Handbook or on the Internet at www.nic.edu/ferpa/studentcode.htm. Student handbooks are distributed at student orientations and are also available at Student Services or the Associated Students of North Idaho College offices on the 2nd floor of the Student Union.

North Idaho College 2010-2011

**Workforce Training &
Community Education**

WORKFORCE TRAINING and COMMUNITY EDUCATION

NIC's Workforce Training Center, located in the Riverbend Commerce Park in Post Falls, offers a wide variety of credit-free classes for personal interest and professional development. Classes are open to the public, generally without pre-admission, academic, or residential requirements. The Workforce Training Center's catalog of classes is published Fall, Winter, and Spring/Summer and mailed to Kootenai County residents. Class information and registration is available in the catalog and online at www.workforcetraining.nic.edu. The catalog is also available at the NIC campus, in libraries, and other locations throughout the community. For a copy of the catalog or more information, call the Workforce Training Center at (208) 769-3333. The Workforce Training Center is a self-sustaining entity of North Idaho College so that class expenses are supported by registration fees.

Workforce Development (208) 769-3333

Workforce Development offers open enrollment career or job-related classes in a variety of subject areas. The objective of these courses is to enhance skills for employment, whether new skills or for potential job advancement. Classes are generally short term, credit-free, conveniently scheduled, and do not require lengthy preparation.

New classes begin weekly, all year. Easy registration is usually without transcript, grade, academic, or residential requirements. Classes are offered in instructor-led classrooms or online. Instructors are experts in their fields with hands-on, practical information.

Workforce Development offers classes in allied health; apprenticeship instruction in electrical, plumbing, and heating, ventilation, and air conditioning; business courses in customer service, leadership, and management; computers courses such as Microsoft software applications and QuickBooks; real estate pre-licensing and technical skills such as electrician continuing education, flagging, and more. Each participant satisfactorily completing approved continuing education courses, seminars, conferences, or workshops is awarded Continuing Education Units (CEUs) in recognition of their participation.

Community Education (208) 769-3333

Community Education offers personal interest courses in response to community interests and

needs. Students may cultivate a hobby, develop a skill, and enjoy group activities in the pursuit of an interesting subject. The wide range of courses represents the talents and skills of local instructors. Courses are designed to be practical, affordable, enjoyable, and sensitive to the time constraints of today's busy world.

Community Education classes are offered in such categories as arts, creative writing, creativity, healthy living, home and garden, kids' college, money management, recreation, and special interest areas. A growing number of classes are available online to accommodate students who wish to enjoy the convenience of learning at home.

Customized Training (208) 769-3268

Customized Training specializes in assessing, developing, and delivering industry and company specific training to employees at the request of an organization. Staff training is driven by numerous factors including, but not limited to technology, company growth, production requirements, service commitments, or product line.

Customized Training provides practical solutions for positive results with a return on investment demonstrated by increased knowledge, performance, and productivity.

- The business defines the learning and performance objectives which drives the training content.
- Staff is engaged in the training effort through inclusion of planning and innovative training delivery.
- Employees receive training that is customized to meet the specific goals and objectives of the organization.
- Delivery of training is scheduled at a time and location the business chooses.

Benefits of Customized Training include:

- Increased business profitability.
- Enhanced productivity of your workforce.
- Improved performance of managers, supervisors, employees, and teams.
- Reduced employee turnover and retained intellectual property.
- Demonstrated innovation with competitive edge in a global economy.
- Make change work in your favor.

Customized Training is the regional leader responding to the training needs of business and industry for the incumbent worker. Businesses depend on us to clearly identify training

solutions that work. Training content is as specific as the client requires and is delivered on your schedule. Our subject matter experts work with your subject matter experts to ensure

content that is current, accurate, and timely. Our wealth of community resources ensures an economical training solution that exceeds your expectations.

Idaho Small Business Development Center (ISBDC) (208) 666-8009

The Idaho Small Business Development Center exists to help businesses in Idaho thrive and grow. The Idaho SBDC serves business owners and leaders to promote growth, expansion, innovation, increased productivity, and management improvement by providing:

- No cost confidential business coaching
- Low cost business training
- Free business resources

Businesses that receive coaching and training assistance from

ISBDC grow on the average 700 percent faster than average businesses in Idaho. The ISBDC serves businesses in many industries including manufacturing, wholesale, service, and retail. The Idaho SBDC coaches leverage extensive business experience to provide business/leadership coaching to business owners and to those starting a business. The business coaching service covers many areas including marketing, finance, operations, and management.

The Idaho SBDC also provides workshops designed to meet the needs of the entrepreneur. The goal is to provide the small business person the skills, tools, and resources necessary to become a more effective business leader.

The ISBDC serves as the focal point for linking together the resources of the private business community and federal, state, and local governments. Coordination with other programs and services, both public and private, has been established to utilize the expertise of these affiliated resources and to provide assistance and solutions to business owners.

For more information call (208) 666-8009 or email ISBDC@nic.edu

Qualified Worker Retraining Program (208) 666-8012

The Qualified Worker Retraining Program provides financial assistance to eligible low-income individuals and is designed to help participants obtain training and employment to increase their lifelong earnings potential. This program, funded by a federal grant from the U.S. Department of Labor, seeks to help people living in Idaho travel the road to self-sufficiency along their chosen career pathway.

The staff works with each person to develop individual employment and training plans aligned with occupations that support key sectors of the economy. Low income adults looking to begin a career or retrain for a new career, including those already enrolled in school, may qualify for services. For more information or to see if this program can assist you in reaching your goals, call (208) 666-8012.

CONTINUING EDUCATION UNIT

The Continuing Education Unit (CEU) is a nationally recognized measure of participation in an approved non-credit continuing education program. One Continuing Education Unit (1.0) is defined as “10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction.”

North Idaho College is among the many colleges and universities throughout the nation that award CEUs to participants of approved programs. Each participant satisfactorily completing approved continuing education courses, seminars, conferences, or workshops offered through the Workforce Training Center is awarded CEUs in recognition of their involvement.

North Idaho College 2010-2011

Program Offerings

INFORMATION ABOUT TRANSFERRING

General studies opportunities are possible in multiple areas of emphasis that can provide the first half of a bachelors degree at nearly all transfer institutions. This catalog offers an education planning guide for each area of emphasis that lists some of the courses commonly required at regional transfer institutions. These 100- and 200-level courses are often referred to as lower division requirements. Upper division requirements are 300- and 400-level courses that must be completed at the transfer institution.

An efficient education plan for transferring credits from NIC and completing bachelor degree requirements at other colleges or universities involves three groups of courses:

- General Education Courses
- Area of Emphasis (or Major) Courses, and
- Transfer Specific Courses

Sometimes courses in one group may also fulfill requirements in another group. NIC advisors will help you to combine courses from each group to design a personal education plan. Consultation with the intended transfer institution should always be part of this design process.

General Education Courses

These are courses required for completion of an NIC associate degree and for fulfilling the general education requirements at other institutions. General requirements are defined in the description of the associate of arts degree and the associate of science degree on pages 48-51. Choosing between the A.S. or the A.A. degree involves deciding which degree best coincides with your "Area of Emphasis" courses and "Transfer Specific" courses. Most area transfer institutions have agreed to accept either degree in automatically fulfilling their general education requirements. In the absence of the A.S. or A.A. degrees, transfer institutions will determine the completion of their general education requirements through an evaluation of your transcript to verify whether your completed courses individually fulfill each specific requirement.

Area of Emphasis Courses

These discipline-specific courses fulfill the lower division requirements of your intended major at most regional transfer institutions.

Transfer Specific Courses

These are additional lower division courses that may be required specifically by your intended transfer institution and are selected in consultation with that institution.

PROFESSIONAL-TECHNICAL AND OCCUPATIONAL PROGRAM OPTIONS

Students enrolled in a professional-technical program receive comprehensive training and may also receive on-the-job experiences through a practicum or co-op opportunity. These programs provide educational training for entry-level job skills. Reinforcing basic skills and developing job-related skills are integral components of all programs. Programs vary in length depending on whether students choose a certificate or associate of applied science degree option.

Technical Certificate of Completion

Students may qualify for a technical certificate of completion by completing a professional-technical program with an earned overall grade point average of at least 2.00 (C). A grade of C- or better is also required for each specific course listed within the program outline. This certificate is awarded for professional-technical programs that do not meet the criteria for other professional-technical certificates and consist of seven semester credits or less.

Postsecondary Technical Certificate

Students may qualify for a postsecondary technical certificate by completing a professional-technical program with an earned overall grade point average of at least 2.00 (C). A grade of C- or better is also required for each specific course listed within the program outline. This certificate is awarded for completion of requirements in an approved professional-technical programs of instruction of at least eight semester credit hours and mastery of specific competencies drawn from requirements of business/industry.

Technical Certificate

Students may qualify for a technical certificate by completing a professional-technical program with an earned overall grade point average of at least 2.00 (C). A grade of C- or better is also required for each specific course listed within the program outline. This certificate is a credential awarded for the completion of requirements entailing at least 27 semester credit hours and less than one year of full-time work and includes mastery of specific competencies drawn from requirements of business/industry.

Advanced Technical Certificate

Students may qualify for an advanced technical certificate by completing a professional-technical program with an earned overall grade point average of at least 2.00 (C). A grade of C- or better is also required for each specific course listed within the program outline. This certificate is a credential awarded after completion of technical and technical support requirements entailing more than one academic year, a minimum of 52 semester credit hours, and mastery of specific competencies from business/industry.

Associate of Applied Science Degree

Students may qualify for an associate of applied science degree by completing a professional-technical program with an earned overall grade point average of at least 2.00 (C). A grade of C- or better is also required for each specific course listed within the program outline. Some courses may not be transferable to other

institutions and some programs may require electives that fulfill general education requirements.

Electives are listed on page 52. Students should consult with an advisor when setting up their program of study. This degree is a credential awarded for completion of requirements entailing at least two but less than four years of full-time professional-technical study with a minimum of 60 semester credits (includes a minimum of 16 general education credits) and includes mastery of specific competencies drawn from requirements of business/industry. The A.A.S. degree has specific requirements in individual technical fields. An associate of applied science degree for apprenticeship may be available at NIC for students who successfully complete four years (8,000 hours) of U.S. Bureau of Apprenticeship and Training (BAT) requirements. For information, call the NIC Admissions Office at (208) 769-3311.

Limited-Enrollment Program Entry

Certain professional-technical programs have limited capacity and/or additional admission requirements (see page 17, Programs with Special Admission Requirements). Prospective students who do not meet the initial eligibility requirements for a limited-enrollment program will need to take selected courses to receive necessary skill-building prior to entering the program.

Because of the variety of options and course requirements within each professional-technical program, new students should consult with an advisor to formulate a customized plan prior to registration. Students who are placed on a waitlist for a limited enrollment program may also wish to pursue this option. Call (208) 769-3448 for information and to make an appointment with a professional-technical advisor.

Hands-on Training

Professional-technical and occupational programs provide hands-on training in specialized skills that are designed to connect with immediate employment opportunities. This training is accomplished through experiential learning in labs and shops, and through additional supervised internships at selected job sites or co-op opportunities. Each program has its own curricula for ensuring that students receive hands-on training and work-related experience to be employable in their field of study. Refer to the program and course descriptions for more information about the type of hands-on training provided for each professional-technical program. Those wishing additional information or to tour the facilities may contact the Professional-Technical Counselor at 769-3371 or Professional-Technical Coordinator at 769-3468.

² **Limited Enrollment Program:** Early application is encouraged. See admissions requirements on page 17.

GENERAL EDUCATION for DEGREE-SEEKING STUDENTS

General Education is defined at North Idaho College as a series of learning experiences that provide the knowledge, skills, and attitudes necessary for individuals to function well in society. These learning experiences are designed for all students, but for degree-seeking students in particular.

In pursuing a degree at NIC, the expected general education learning outcomes of the degree programs are expressed through a framework of nine “abilities.” NIC believes these abilities will contribute to the development of individuals who are active, productive, and personally-fulfilled members of a highly diverse, ever-changing society.

The expected student learning outcomes for each ability are described below and are listed under each degree requirement heading on the following pages.

1. Critical/Creative Thinking and Problem Solving:

The student will demonstrate the ability to analyze and evaluate information and arguments, and construct a well-supported argument. The student will select or design appropriate frameworks and strategies to solve problems in multiple contexts individually and collaboratively.

2. Communication:

The student will recognize, send, and respond to communications for varied audiences and purposes by the use of reading, writing, speaking, and listening.

3. Mathematical, Scientific and Symbolic Reasoning:

The student will demonstrate the ability to apply mathematical and scientific reasoning to investigate and solve problems.

4. Historical, Cultural, Environmental and Global Awareness:

The student will demonstrate the ability to think globally and inclusively with a basic understanding of key ideas, achievements, issues, diverse cultural views, and events as they pertain locally, nationally, and globally.

5. Aesthetic Response:

The student will demonstrate the ability to recognize the elements of design, the unifying element, context, purpose, and effect of craftsmanship and artistic creations.

6. Social Responsibility/Citizenship:

The student will demonstrate awareness of the relationships that exist between an individual and social groups, private/public institutions, and/or the environment, the nature of these relationships, the rights and responsibilities of these relationships, and the consequences that result from changes in these relationships.

7. Information Literacy:

The student will develop the ability to access information for a given need, develop an integrated set of skills (research strategy and evaluation), and have knowledge of information tools and resources.

8. Valuing/Ethical Reasoning:

The student will demonstrate the ability to apply what one knows, believes, and understands toward developing an empathetic and analytical understanding of others' value perspectives. The student will incorporate valuing in decision-making in multiple contexts.

9. Wellness:

The student will demonstrate an understanding of the factors that contribute to physical, emotional, psychological, occupational, social, and spiritual well-being, life-long learning, and success.

North Idaho College 2010-2011

Degree Requirements

THE ASSOCIATE OF ARTS (A.A.) DEGREE

To qualify for an associate of arts degree, a candidate must:

1. Complete a minimum of 64 semester credits of 100- and 200-level courses with a grade point average of 2.00 (C) or better in all work attempted; **and**,
2. Satisfy distribution requirements listed below with a grade of C- or better in each course.

* Courses that are listed in more than one area may be used to fulfill only one requirement.

ARTS AND HUMANITIES

Expected General Education Learning Outcomes:

Aesthetic Response, Critical Thinking, and Valuing/Ethical Reasoning.

Complete one course in each group: (6 credits)

Group 1

___ART	100	Survey of Art	3
___ART	101	History of Western Art I	3
___ART	102	History of Western Art II	3
___CINA	126	Film and International Culture	3
___HUMS	101	Montage: Intro to the Humanities *	3
___MUS	101	Survey of Music	3
___MUS	140	Intro to Music Literature	3
___MUS	251	Introduction to Music History	3
___THEA	101	Introduction to the Theatre	3

Group 2

___ENGL	175	Introduction to Literature	3
___ENGL	257	Literature of W. Civilization	3
___ENGL	258	Literature of W. Civilization	3
___ENGL	267	Survey of English Literature	3
___ENGL	268	Survey of English Literature	3
___ENGL	277	Survey of American Literature	3
___ENGL	278	Survey of American Literature	3
___HUMS	101	Montage: Intro. to the Humanities*	3
___PHIL	101	Intro to Philosophy	3
___PHIL	103	Ethics	3

COMMUNICATION

Expected General Education Learning Outcomes: Communication, Critical Thinking, and Information Literacy.

Complete this course: (3 credits)

___COMM	101	Intro to Speech Communication	3
---------	-----	-------------------------------	---

COMPUTER SCIENCE

Expected General Education Learning Outcome: Information Literacy, and/or Mathematical, Scientific, and Symbolic Reasoning.

Complete one of the following: (2-3 credits)

___BUSA	100	Introduction to Computers	3
___BUSA	240	Computer Systems & Business Apps.	3
___CS	100	Intro to Computers & Comp. Science	3
___CS	125	Introduction to Visual BASIC	3

___CS	150	Computer Science I	3
___CS	211	Languages of Computer Science: C++	3
___CS	212	Languages of Computer Science: WWW	3
___CS	213	Languages of Computer Science: Java	3
___CS	228	Intro to UNIX	2

CRITICAL THINKING

Expected General Education Learning Outcome: Critical Thinking.

Complete this course: (3 credits)

___PHIL	201	Logic and Critical Thinking	3
---------	-----	-----------------------------	---

CULTURAL DIVERSITY

Expected General Education Learning Outcomes: Historical, Cultural Environmental, and Global Awareness; and/or Valuing/Ethical Reasoning, Communication, Critical Thinking.

Complete one of the following: (3-4 credits)

___AIST	101	Intro to American Indian Studies	3
___ANTH	225	Native People of North America	3
___ASL	201	Intermediate American Sign Language I	4
___ASL	202	Intermediate American Sign Language II	4
___CDA	201	Interm. Coeur d'Alene Language	4
___COMM	220	Intro to Intercultural Communication	3
___ENGL	295	Contemp. U.S. Multicultural Literature	3
___FLAN	207	Contemp. World Cultures	3
___FREN	201	Intermediate French I	4
___FREN	202	Intermediate French II	4
___GERM	201	Intermediate German I	4
___GERM	202	Intermediate German II	4
___HIST	131	Latin American History *	3
___HIST	141	History of Africa *	3
___HIST	181	East Asian History and Civilization *	3
___HIST	240	American Indian History *	3
___MUS	127	Survey of American Popular Music	3
___MUS	163	Survey of World Music	3
___PHIL	111	World Religions	3
___SOC	103	Cultural Diversity *	3
___SOC	251	Race and Ethnic Relations *	3
___SPAN	201	Intermediate Spanish I	4
___SPAN	202	Intermediate Spanish II	4

ENGLISH COMPOSITION

Expected General Education Learning Outcomes: Communication, Critical Thinking, and Information Literacy.

Complete these two courses: (6 credits)

___ENGL	101	English Composition	3
___ENGL	102	English Composition	3

THE ASSOCIATE OF ARTS (A.A.) DEGREE

LABORATORY SCIENCE

Expected General Education Learning Outcomes: Mathematical, Scientific, and Symbolic Reasoning; and Critical Thinking.

Complete two courses from the following: (8 credits)

___ BIOL	100	Fundamentals of Biology *	4
___ BIOL	115	Introduction to Life Sciences *	4
___ BIOL	175	Human Biology *	4
___ BIOL	202	General Zoology	4
___ BIOL	203	General Botany	4
___ BIOL	205	General Soils	4
___ BIOL	221	Forest Ecology	4
___ BIOL	227	Human Anatomy & Physiology I w/cadaver	4
___ BIOL	228	Human Anatomy & Physiology II w/cadaver	4
___ BIOL	231	General Ecology and Lab	4
___ BIOL	241	Systematic Botany	4
___ BIOL	250	General Microbiology/Bacteriology	4
___ CHEM	100	Concepts of Chemistry I	4
___ CHEM	101	Intro. to Essentials of Gen. Chemistry I	4
___ CHEM	102	Intro. to Essentials of Gen. Chemistry II	4
___ CHEM	111	Principles of Gen. College Chemistry I	5
___ CHEM	112	Principles of Gen. College Chemistry II	5
___ ENSI	119	Intro to Environmental Science & Lab	4
___ GEOG	100	Physical Geography	4
___ GEOL	101	Physical Geology	4
___ GEOL	102	Historical Geology	4
___ GEOL	123	Geology of Idaho & the Pacific NW	4
___ PHYS	101	Fundamentals of Physical Science	4
___ PHYS	103	Elementary Astronomy & Lab	4
___ PHYS	111	General Physics I	4
___ PHYS	112	General Physics II	4
___ PHYS	211	Engineering Physics I	5
___ PHYS	212	Engineering Physics II	5

* NOTE: BIOL 100, BIOL 115, and BIOL 175 cannot be used in combination to meet the Lab Science requirements. See the course descriptions.

MATHEMATICS

Expected General Education Learning Outcome: Mathematical, Scientific, and Symbolic Reasoning.

Complete one of the following: (3-5 credits)

___ BUSA	271	Statistical Inference & Decision Analysis	4
___ MATH	123	Contemporary Mathematics	3
___ MATH	130	Finite Mathematics	4
___ MATH	143	College Algebra	3
___ MATH	144	Analytic Trigonometry	2
___ MATH	147	Pre-Calculus	5
___ MATH	160	Survey of Calculus	4
___ MATH	170	Analytic Geometry and Calculus I	4
___ MATH	175	Analytic Geometry and Calculus II	4
___ MATH	187	Discrete Math	4
___ MATH	253	Principles of Applied Statistics	3
___ MATH	275	Analytic Geometry and Calculus III	4

PHYSICAL EDUCATION AND DANCE

Expected General Education Learning Outcome: Wellness

Complete 2 courses from any P.E. activity or dance class:

SOCIAL SCIENCE

Expected General Education Learning Outcomes: Historical, Cultural, Environmental, and Global Awareness; and/or Social Responsibility/Citizenship, Critical Thinking, Valuing/Ethical Reasoning, Information Literacy.

Complete one course in each group, except Business Majors who may take the Economics 201-202 sequence. (12 credits).

Group 1

___ ANTH	102	Social and Cultural Anthropology	3
___ PSYC	101	Introduction to Psychology	3
___ SOC	101	Introduction to Sociology	3

Group 2

___ ECON	201	Principles of Economics (Macro)	3
___ ECON	202	Principles of Economics (Micro)	3
___ POLS	101	American National Government	3
___ POLS	105	Intro to Political Science	3

Group 3

___ HIST	101	History of Civilization to 1500	3
___ HIST	102	History of Civilization since 1500	3
___ HIST	111	U.S. History: Discovery-Reconstruction	3
___ HIST	112	U.S. History: Gilded Age-Present	3

Group 4

___ ANTH	101	Intro to Physical Anthropology	3
___ ANTH	230	Intro to Arch & World Prehistory	3
___ CHD	134	Infancy through Middle Childhood	3
___ HIST	131	Latin American History *	3
___ HIST	141	History of Africa *	3
___ HIST	181	East Asian History and Civilization *	3
___ HIST	240	American Indian History *	3
___ PHIL	131	Introduction to Religion	3
___ POLS	275	State & Local Government	3
___ PSYC	205	Developmental Psychology	3
___ SOC	102	Social Problems	3
___ SOC	103	Cultural Diversity *	3
___ SOC	220	Marriage and Family	3
___ SOC	251	Race and Ethnic Relations *	3

NON-CORE ELECTIVES

Complete 13-16 credits (these should be selected to meet major requirements at an intended transfer institution).

THE ASSOCIATE OF SCIENCE (A.S.) DEGREE

To qualify for an associate of science degree, a candidate must:

1. Complete a minimum of 64 semester credits of 100- and 200-level courses with a grade point average of 2.00 (C) or better in all work attempted; and,
 2. Satisfy distribution requirements listed below, with a grade of C- or better in each course.
- * Courses that are listed in more than one area may be used to fulfill only one requirement.

SOCIAL SCIENCE & ARTS AND HUMANITIES
Expected General Education Learning Outcomes:
 Historical, Cultural, Environmental and Global Awareness; and/or Social Responsibility/Citizenship, Critical Thinking, Aesthetic Response, Valuing/Ethical Reasoning, Information Literacy, Communication.

Complete 15 credits from the following two lists of courses.

Social Science: Complete at least 6 credits, including courses from 2 different disciplines:

___AIST	101	Intro to American Indian Studies	3
___ANTH	101	Intro to Physical Anthropology	3
___ANTH	102	Social & Cultural Anthropology	3
___ANTH	225	Native People of North America	3
___ANTH	230	Intro to Arch & World Prehistory	3
___CHD	134	Infancy through Middle Childhood	3
___ECON	201	Principles of Economics (Macro)	3
___ECON	202	Principles of Economics (Micro)	3
___HIST	101	History of Civilization to 1500	3
___HIST	102	History of Civilization since 1500	3
___HIST	111	U.S. History: Discovery-Reconstruction	3
___HIST	112	U.S. History: Gilded Age-The Present	3
___HIST	131	Latin American History	3
___HIST	141	History of Africa	3
___HIST	181	East Asian History and Civilization	3
___HIST	240	American Indian History	3
___PHIL	131	Introduction to Religion	3
___POLS	101	American National Government	3
___POLS	105	Introduction to Political Science	3
___POLS	237	International Politics and Problems	3
___POLS	275	State and Local Government	3
___PSYC	101	Introduction to Psychology	3
___PSYC	205	Developmental Psychology	3
___SOC	101	Introduction to Sociology	3
___SOC	102	Social Problems	3
___SOC	103	Cultural Diversity	3
___SOC	220	Marriage and Family	3
___SOC	251	Race and Ethnic Relations	3

Arts and Humanities: Complete at least 6 credits including courses from 2 different disciplines:

___ART	100	Survey of Art	3
___ART	101	History of Western Art I	3
___ART	102	History of Western Art II	3

___CINA	126	Film and International Culture	3
___COMM	220	Intro to Intercultural Communication	3
___ENGL	175	Introduction to Literature	3
___ENGL	257	Literature of Western Civilization	3
___ENGL	258	Literature of Western Civilization	3
___ENGL	267	Survey of English Literature	3
___ENGL	268	Survey of English Literature	3
___ENGL	277	Survey of American Literature	3
___ENGL	278	Survey of American Literature	3
___ENGL	295	Contemp. U.S. Multicultural Literature	3
___FLAN	207	Contemporary World Culture	3
___HUMS	101	Montage: Intro to the Humanities	3
___MUS	101	Survey of Music	3
___MUS	127	Survey of American Popular Music	3
___MUS	140	Introduction to Music Literature	3
___MUS	163	Survey of World Music	3
___MUS	251	Introduction to Music History	3
___PHIL	101	Introduction to Philosophy	3
___PHIL	103	Ethics	3
___PHIL	111	World Religions	3
___THEA	101	Introduction to the Theatre	3

All foreign languages are one Arts and Humanities discipline.

___ASL	201	Intermediate American Sign Language I	4
___ASL	202	Intermediate American Sign Language II	4
___CDA	201	Interm. Coeur d'Alene Language	4
___FREN	201	Intermediate French I	4
___FREN	202	Intermediate French II	4
___GERM	201	Intermediate German I	4
___GERM	202	Intermediate German II	4
___SPAN	201	Intermediate Spanish I	4
___SPAN	202	Intermediate Spanish II	4

COMMUNICATION

Expected General Education Learning Outcomes: Communication, Critical Thinking, and Information Literacy.

Complete this course: (3 credits)

___COMM	101	Intro to Speech Communication	3
---------	-----	-------------------------------	---

ENGLISH COMPOSITION

Expected General Education Learning Outcomes: Communication, Critical Thinking, and Information Literacy.

Complete these two courses: (6 credits)

___ENGL	101	English Composition	3
___ENGL	102	English Composition	3

THE ASSOCIATE OF APPLIED SCIENCE (A.A.S.) DEGREE

(Refer to Program Guidelines for A.A.S. degree requirements in specific programs)

The associate of applied science degree is designed to provide training in specialized skills that can connect with immediate employment opportunities. It is not intended as a preparation for transfer to bachelor degree programs, although many credits may transfer to other institutions.

To qualify for an A.A.S. degree a candidate must:

1. Complete a minimum of 60 semester credits of 100- and 200-level courses with a grade point average of 2.00 (C) or better in all work attempted in an identified Professional-Technical Program; and,
2. Complete a minimum of 16 credits of general education coursework selected from the general education core listed below; and
3. Satisfy the distribution requirements listed below, with a grade of C- or better in each course.

NOTE: Individual programs may require specific courses listed under the headings below.

ENGLISH COMPOSITION

Expected General Education Learning Outcomes: Communication, Critical Thinking, and Information Literacy.

Complete the following for a minimum of 6 credits:

Complete this course (required for an A.A.S. degree):

___ENGL 101 English Composition 3

Complete one of the following courses:

___ENGL 102 English Composition 3

___ENGL 202 Technical Writing 3

___COMM 101 Intro to Speech Communication 3

MATHEMATICS

Expected General Education Learning Outcome: Mathematical, Scientific, and Symbolic Reasoning.

Complete one or more of the following courses for a minimum of 3 credits:

___BUSA 271 Statistical Inference & Decision Analysis 4

___MATH 123 Contemporary Mathematics 3

___MATH 130 Finite Mathematics 4

___MATH 143 College Algebra 3

___MATH 144 Analytic Trigonometry 2

___MATH 147 Pre-Calculus 5

___MATH 160 Survey of Calculus 4

___MATH 170 Analytic Geometry & Calculus I 4

___MATH 175 Analytic Geometry & Calculus II 4

___MATH 187 Discrete Math 4

___MATH 253 Principles of Applied Statistics 3

___MATH 275 Analytic Geometry & Calculus III 4

NATURAL SCIENCES

Expected General Education Learning Outcomes:

Mathematical, Scientific, and Symbolic Reasoning; and Critical Thinking.

In addition to the above requirements, a candidate may complete **either one of the following courses, or additional courses from any category above, to satisfy the 16 credit hours of general education coursework.**

___BIOL	100	Fundamentals of Biology	4
___BIOL	115	Introduction to Life Sciences	4
___BIOL	175	Human Biology	4
___BIOL	202	General Zoology	4
___BIOL	203	General Botany	4
___BIOL	205	General Soils	4
___BIOL	221	Forest Ecology	4
___BIOL	227	Human Anatomy & Physiology I w/ cadaver	4
___BIOL	228	Human Anatomy & Physiology II w/ cadaver	4
___BIOL	231	General Ecology & Lab	4
___BIOL	241	Systematic Botany	4
___BIOL	250	General Microbiology/Bacteriology	4
___CHEM	100	Concepts of Chemistry I	4
___CHEM	101	Intro to Essentials of Gen. Chemistry I	4
___CHEM	102	Intro. to Essentials of Gen. Chemistry II	4
___CHEM	111	Principles of Gen. College Chemistry I	5
___CHEM	112	Principles of Gen. College Chemistry II	5
___ENSI	119	Intro to Envir Science & Lab	4
___GEOG	100	Physical Geography	4
___GEOL	101	Physical Geology	4
___GEOL	102	Historical Geology	4
___GEOL	123	Geology of Idaho & the Pacific NW	4
___PHYS	101	Fundamentals of Physical Science	4
___PHYS	103	Elementary Astronomy & Lab	4
___PHYS	111	General Physics I & Lab	4
___PHYS	112	General Physics II & Lab	4
___PHYS	211	Engineering Physics I & Lab	5
___PHYS	212	Engineering Physics II & Lab	5

* **NOTE:** BIOL 100, BIOL 115, and BIOL 175 cannot be used in combination to meet the Lab Science requirements. See the course descriptions.

THE ASSOCIATE OF APPLIED SCIENCE (A.A.S.) DEGREE

**SOCIAL SCIENCE/HUMAN RELATIONS/
INTERPERSONAL COMMUNICATIONS**

Expected General Education Learning Outcomes:

Historical, Cultural, Environmental and Global Awareness; or Valuing/Ethical Reasoning; or Social Responsibility/Citizenship; or Communication; or Critical Thinking; or Aesthetic Response; or Information Literacy.

Complete one or more of the following courses for a minimum of 3 credits:

___AIST	101	Intro to American Indian Studies	3
___ANTH	101	Intro to Physical Anthropology	3
___ANTH	102	Intro to Social & Cultural Anthropology	3
___ANTH	225	Native People of North America	3
___ANTH	230	Intro to Arch & World Prehistory	3
___ART	100	Survey of Art	3
___ART	101	History of Western Art I	3
___ART	102	History of Western Art II	3
___ASL	201	American Sign Language I	4
___ASL	202	American Sign Language II	4
___BUSA	101	Intro to Business	3
___BUSA	211	Principles of Management	3
___CDA	201	Interm. Coeur d'Alene Language	4

Program Guidelines

Program Guidelines 2010-2011

Accounting Assistant-Bookkeeping Emphasis

Technical Certificate

Professional-Technical Program

The Accounting Assistant program prepares students for occupational opportunities in the field of bookkeeping including payroll clerk, accounts receivable clerk, accounts payable clerk, and full-charge bookkeeper. Bookkeeping and related fields involve the day-to-day analyzing and recording of business transactions, preparing payroll, preparing financial reports, filing state and federal forms, and analysis and decision making. Students will complete general education, general business, and accounting specific courses that will lead to a technical certificate, an advanced technical certificate, or an associate of applied science degree. Emphasis is placed on manual and computerized accounting applications, current business taxes, credit, collection, and payroll. During the final semester of the A.A.S. degree students will participate in an accounting internship which is the capstone course for this program. The internship will include tips on job hunting, 135 hours of an off-campus internship, resume writing, interviewing skills, and occupational relations.

Program Requirements

Course No.	Title	Credit Hrs
ACCT-113	Payroll Accounting	3
ACCT-150	10-Key Skill Building	1
BUSA-101	Introduction to Business	3
CAOT-112	Keyboarding 1 ¹	1
CAOT-113	Keyboarding 2 ¹	1
CAOT-115	Outlook ¹	1
CAOT-120	Word Processing/Word 1 ¹	1
CAOT-121	Word Processing/Word 2 ¹	1
CAOT-130	Spreadsheets/Excel 1 ¹	1
CAOT-131	Spreadsheets/Excel 2 ¹	1
CAOT-132	Spreadsheets/Excel 3 ¹	1
CAOT-140	Database/Access 1 ¹	1
CAOT-250	Office Skills Capstone	1
ENGL-101	English Composition	3
ENGL-272	Business Writing	3
MATH-025	Elementary Algebra (or higher)	3-4

Choose one course from the following: 3

ACCT-110	Small Business Accounting
ACCT-201	Principles of Accounting

Choose one course from the following: 3

ACCT-111	Small Business Accounting II
ACCT-202	Managerial Accounting

Total Credits (minimum) 32

Notes:

¹ This class is offered in the Flexible Learning Center. Individuals with prior skills or knowledge should enroll in the class and inquire about a proof of competency exam.

Advanced Technical Certificate

Professional-Technical Program

The Accounting Assistant program prepares students for occupational opportunities in the field of bookkeeping including payroll clerk, accounts receivable clerk, accounts payable clerk, and full-charge bookkeeper. Bookkeeping and related fields involve the day-to-day analyzing and recording of business transactions, preparing payroll, preparing financial reports, filing state and federal forms, and analysis and decision making. Students will complete general education, general business, and accounting specific courses that will lead to a technical certificate, an advanced technical certificate, or an associate of applied science degree. Emphasis is placed on manual and computerized accounting applications, current business taxes, credit, collection, and payroll. During the final semester of the A.A.S. degree students will participate in an accounting internship which is the capstone course for this program. The internship will include tips on job hunting, 135 hours of an off-campus internship, resume writing, interviewing skills, and occupational relations.

Administration of Justice

Associate of Applied Science Degree

Professional-Technical Program

The Administration of Justice program is an option designed for working law enforcement professionals who aspire to have, or are entering, supervisory or administrative positions. Credit will be awarded for POST coursework. This program has a selective admissions process. Contact the law enforcement instructor in Hedlund Building 204B for more information.

Notes:

- ¹ POST Academy courses may satisfy the requirement for LAWE 219 - 228.
- ² Mathematics requirement includes any math course that is MATH 123 or higher and meets the A.A.S. degree requirement listed on page 52.
- ³ Credit may be given for LAWE 293 to individuals who have successfully completed the POST Basic Academy exam and have been continually employed as full-time law enforcement officers for more than six consecutive months.
- ⁴ Any foreign language course (French, German, Japanese, or Spanish) may satisfy this requirement. FLAN 106 or FLAN 207 does not satisfy this requirement.

Administrative Assistant

Associate of Applied Science Degree

Professional–Technical Program

The Administrative Assistant program combines a well-balanced academic program with expert administrative and computer instruction to give students the diversified educational training and background needed to hold a position of responsibility and importance in many areas of the business world. This program helps raise administrative skills to a professional level, gives the student a technical background through completion of technical skill courses, and includes an academic component that provides a mature understanding of professional responsibilities in our global economy. The administrative assistant has a variety of options in offices of their interest. These might be in travel, sports, or entertainment; banking, insurance, or real estate; technical, government, or foreign service; and public, private, or temporary agencies.

American Indian Studies

Associate of Arts Degree

Transfer Program

The American Indian Studies program was designed in collaboration with the Coeur d'Alene Tribe and examines the contemporary and ancient experiences and ways of life of the first peoples of North America from their perspective. The curriculum is designed to provide a study of American Indians from a holistic and humanistic viewpoint by focusing on their cultural, historical, and contemporary life. It is an interdisciplinary program drawing on the arts, humanities, social sciences, natural resources, science, and professional studies.

This program satisfies the requirements for either an Associate of Arts or Associate of Science academic transfer degree and is intended to serve both Indian and non-Indian students. Course selections should be tailored to match requirements of the intended transfer institution.

Art-Fine Arts Emphasis

Associate of Arts Degree

Transfer Program

The Art Department's transfer programs are structured as a broad introduction to the nature, vocabulary, media, styles and themes of the visual arts. Students pursuing a Fine Arts or Graphics Design major (the Graphic Design program is described on page 84) and transferring credits may complete all basic art requirements while at NIC. Students may pursue an Associate of Applied Science degree in Graphic Design as an occupational program.

The Art Department's curriculum emphasizes four major goals: developing the highest levels of individual artistic awareness and expression; providing coursework for students as part of their general education experience; combining rigorous training in technical and formal skills in graphic design; and maintaining a gallery as a visual arts resource in the region.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public institutions. The suggested coursework below normally fulfills the first half of baccalaureate degree requirements for Graphic Design or Fine Arts. Course selection should be tailored to match requirements defined by intended transfer institutions.

Students pursuing an art major have several options. Students transferring to a baccalaureate program after graduation to complete a bachelor of arts or bachelor of science degree may choose "emphasis electives" from either the Fine Arts or the Graphic Design area. Students interested in applying their art training immediately after graduation will want to consider the Graphic Design occupational degree option.

Fine Arts Emphasis

Courses in this area provide instruction in the creative process through studio art classes and art survey. This foundational coursework explores the aesthetic principles that lead to individual expression.

Graphic Design Emphasis

Graphic artists are visual specialists who convert ideas into symbols and devise print advertising, corporate identity systems, and electronic media. As the communications link between supplier and consumer, the commercial artist conceives and executes ideas that inform, motivate, educate, or sell. Students selecting a Graphic Design emphasis will be exposed to basic technical and conceptual skills using computers and other resources necessary to produce sophisticated and effective presentations. The Graphic Design Associate of Applied Science degree option is described on page 80.

Automotive Technology

Technical Certificate

Professional-Technical Program

This program is designed to prepare students for employment as entry-level technicians in the automotive repair industry. All ASE (Automotive Service Excellence) areas will be taught through the use of lecture, mock-ups, and customer vehicles. Successful completion of each semester or permission of the instructor is required for admission to the next semester. Due to the complexity of today's cars, the industry requires a high degree of reading and comprehension skills. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45). The North Idaho College Automotive Technology program is NATEF certified and is taught by ASE Master Technicians.

Current industry professionals may enroll in individual courses on a space-available basis and with the instructor's permission.

Automotive Technology

Associate of Applied Science Degree

Professional-Technical Program

This program is designed to prepare students for employment as entry-level technicians in the automotive repair industry. All ASE (Automotive Service Excellence) areas will be taught through the use of lecture, mock-ups, and customer vehicles. Successful completion of each semester or permission of the instructor is required for admission to the next semester. Due to the complexity of today's cars, the industry requires a high degree of reading and comprehension skills. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45). The North Idaho College Automotive Technology program is NATEF certified and is taught by ASE Master Technicians.

Current industry professionals may enroll in individual courses on a space-available basis and with the instructor's permission.

Program Requirements

In addition to the specific Automotive Technology courses, students must take a minimum of 16 credits of A.A.S. general education courses as specified in the program below. (The math requirement should be taken during the student's first semester of the program.)

First Semester

Course No.	Title	Credit Hrs
AUTO-105	Orientation, Safety, and General Shop Practices	1
AUTO-113L	Automotive Lab I	2
AUTO-114L	Automotive Lab II	2
AUTO-123	Brakes/Powertrain	5
AUTO-130	Gas Engine Fundamentals	4

Second Semester

AUTO-116L	Auto Lab	5
AUTO-126	Steering, Suspension, and Alignment	3
AUTO-141	Electrical System Fundamentals	6
ENGL-101	English Composition ²	<u>3</u>
		Semester Total 17

Third Semester

AUTO-210	Advanced Electrical	2
AUTO-215L	Advanced Auto Lab	5
AUTO-222	Engine Performance	5
AUTO-250	Computer Controls	2
_____	A.A.S. Social Science/Human Relations/ Interpersonal Communications Requirement ³	<u>3</u>
		Semester Total 17

Fourth Semester

AUTO-216L	Advanced Auto Lab	5
AUTO-260	Computer Controlled Systems	4
AUTO-270	Transmission/Transaxle	4
AUTO-280	Heating, Ventilation, Air Conditioning	2
_____	A.A.S. English Composition Requirement ³	<u>3</u>
_____	A.A.S. General Education Requirement ³	<u>3</u>
		Semester Total 21
		Program Total 72-73

Notes:

- ¹ Mathematics requirement includes any math course that is MATH 123 or higher and meets the A.A.S. degree requirements listed on page 52. If a 3-credit math course is taken, an additional A.A.S. degree general education course will be required to meet the 16-credit general education core.
- ² Satisfies the A.A.S. degree general education requirement.
- ³ Select from the A.A.S. degree requirements listed on page 52.

Biology, Botany, and Zoology

Associate of Science Degree

Transfer Program

The biological sciences deal with the basic principles of all living things: structure, function, and ecological associations. An understanding of biological principles is important in a wide variety of fields, including the health professions, education, agriculture, forestry, and environmental sciences.

Completion of the following courses results in an associate of science degree with an area of emphasis in Biology, Botany, and Zoology. The required coursework normally fulfills the first half of baccalaureate degree requirements in Biology, Botany, or Zoology. Course selection should be tailored to match requirements defined by intended transfer institution.

Program Requirements

Business Administration

Associate of Arts Degree

Transfer Program

Intended for transfer to Eastern Washington University and Gonzaga University.

The study of Business Administration leads to career opportunities in accounting, economics, information systems, finance, human resources management, marketing, production management, and other business-related fields. This program provides the first two years of study leading to a bachelor's degree in these business fields.

For admission to a College of Business and enrollment in 300-level business courses, the typical requirement is completion of a "business core." This usually includes the following five courses: ACCT 201 and 202 (Principles of Accounting), ECON 201 and 202 (Principles of Economics), and BUSA 271 (Statistical Inference and Decision Analysis).

Students who intend to transfer to the College of Business at the University of Idaho, Lewis-Clark State College, and most other business schools should complete CAOT 130 (Introduction to Spreadsheets) or possess equivalent knowledge. Accounting students are usually required to take additional courses beyond other business majors. Students should see their advisor for these requirements.

Students who intend to transfer to Lewis-Clark State College should take BUSA 265 (Legal Environment of Business) and BUSA 271 (Statistical Inference and Decision Analysis); ENGL 272 (Business Writing); and BUSA 240 (Computer Systems and Business Applications).

Completion of the following courses results in an associate degree. The associate degrees meet the general core requirements at the identified colleges and universities with the exception of Gonzaga University. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in Business Administration. Course selection should be tailored to match requirements defined by intended transfer institutions.

Business Leadership

Post Secondary Certificates

Professional-Technical Program

The Business Leadership Program allows students to design an associate of applied science degree to fit their educational and professional goals by completing a set of Post-Secondary Certificates. The components of the A.A.S. degree consist of four areas: a Post-Secondary Certificate in the Foundation Courses, a Post-Secondary Certificate in the General Business Core, two Post-Secondary Certificates selected from a rich mix of Professional-Technical Areas of Competence (PTAC), and completion of the General Education requirements for a total of 61 credits.

Successful completion of each of the Post-Secondary Certificate options will enable students to specialize in specific areas of interest for entry-level positions that meet their individual career goals. Placement in some of the courses in the Professional-Technical Areas of Competence may be determined by college assessment tests or prior to completion of prerequisites.

The requirements for the Associate of Applied Science Business Leadership degree is described on the next page.

Carpentry

Technical Certificate

Professional-Technical Program

The 10-month Carpentry program is intended to provide the skills and training for entry into the field of residential carpentry. Various aspects of carpentry connected with residential house construction will be taught. Site preparation, forming and placing concrete, trade math, framing, rafter and truss installation, stair layout, insulation, exterior finish, and interior finish are all areas which will be thoroughly covered in class and in the field. Students will use many hand, portable electric, and stationary power tools and must acquire good skills in the area, as well as understand all safety aspects of the tools used.

The Carpentry program involves actual work situations emphasizing teamwork, work ethics, safety, and communication. A general education component consisting of communications, occupational relations, and math is integrated into the program. Successful completion of the first semester or permission of the instructor is required for admission into the second semester. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Carpentry Management Technology

Associate of Applied Science Degree

Professional–Technical Program

Successful completion of the first-year certificate program or permission of the instructor is required in order to enroll in the Carpentry Management Technology program.

The second year of the Carpentry program leads to an A.A.S. degree in Carpentry Management Technology and is intended to advance the skills learned in the one-year certificate program. Successful students will demonstrate advanced materials and cost estimation, blueprint reading, job scheduling, and will receive a more in-depth view of what the construction industry requires of those who are in supervisory positions or intend to operate their own contracting business.

The Carpentry program's second year creates "real world" construction management experience through student participation in the construction of the North Idaho College Foundation Really Big Raffle house project as well as planning and management of other construction projects that are part of the program's laboratory curriculum each year. Second-year students are challenged at a higher level as they meet with subcontractors and obtain materials and special supplies throughout work on the project house. Interpersonal and supervisory skills are honed as students act as on-site foremen for groups of first-year students.

Advanced specialty carpentry skills are emphasized during the second year which allow students to improve their own technical skills. All students are required to take courses in computer aided design, communications, business, and computer applications. Cabinet making, commercial construction, architecture, welding, and masonry may also be addressed according to student's individual preferences.

In addition to the specific Carpentry Management Technology courses, students must take a minimum of 16 credits of A.A.S. general education courses as specified in the program below.

Notes:

- ¹ This General Education Requirement is met by the Program Requirements.

Child Development

Associate of Arts Degree

Transfer Program

The Child Development program provides two options for students wishing to pursue a career working with young children from birth to age eight. Students can complete courses for an associate's degree, which prepares for transfer to a four-year college or university and entry-level career opportunities. Students who do not intend to transfer may opt to pursue courses that prepare them to apply for a Child Development Associate Credential, a non-degree national credential.

The Child Development associate degree transfer program is designed to meet requirements for students transferring to four-year institutions in Child Development or Early Childhood Education. Students who earn an associate's degree in Child Development are qualified to seek entry-level career opportunities in early care and education, preschool, Head Start, and teaching in private education programs serving children and families from birth to age 8, both typically and atypically developing.

Further study leading to a baccalaureate degree, especially those programs offering the Blended Early Childhood/Early Childhood Special Education component, affords career options in elementary education (K-3), special education, and other child-related fields. An associate's degree meets the general core requirements at all Idaho public universities.

Course selection should be tailored to match requirements as defined by transfer institutions. To ensure appropriate courses are taken, those students intending to pursue the Blended Early Childhood/Early Childhood Special Education at Idaho transfer institutions should meet with an NIC Child Development advisor upon acceptance into the college.

The Child Development associate degree transfer program is designed to meet requirements for students transferring to four-year institutions in Child Development or Early Childhood Education. Students who earn an associate's degree in Child Development are qualified to seek entry-level career opportunities in early care and education, preschool, Head Start, and teaching in private education programs serving children and families from birth to age 8, both typically and atypically developing.

Further study leading to a baccalaureate degree, especially those programs offering the Blended Early Childhood/Early Childhood Special Education component, affords career options in elementary education (K-3), special education, and other child-related fields. An associate's degree meets the general core requirements at all Idaho public universities.

Course selection should be tailored to match requirements as defined by transfer institutions. To ensure appropriate courses are taken, those students intending to pursue the Blended Early Childhood/Early Childhood Special Education at Idaho transfer institutions should meet with an NIC Child Development advisor upon acceptance into the college.

Program Requirements

General Education Requirements (see pages 50-51)

Area of Study	Credits
Arts and Humanities (2 disciplines)	6
Communication	3
English Composition	6
Laboratory Science	8
Mathematics	3-5
Physical Education Activity and Dance	2
Social Science (2 disciplines)	6
Social Science and Arts and Humanities ¹	0

Program Requirements

Course No.	Title	Credits
CHD-115	Early Childhood Curriculum	3
CHD-134	Infancy through Middle Childhood	3
CHD-235	Observation and Assessment	3
CHD-243	Early Childhood Education	3
CHD-254	Child Guidance Theory	3
CHD-298A	Child Development Practicum A	3
CHD-298B	Child Development Practicum B	3
CHD-298C	Child Development Practicum C	3

Elective Requirements

Courses 100-level or higher	4-6
Total Credits (minimum) 64	

Notes:

- ¹ This General Education Requirement is met by the Program Requirements.

Child Development

Associate Certificate Program

Associate Credential Preparation Program

This program is intended for individuals preparing to work in early care and education settings and for those individuals already working in family child care or early childhood centers who wish to gain further knowledge and expertise in the field. The nationally recognized Child Development Associate (CDA) Credential is the minimum education standard required for employment in Head Start and accredited early childhood programs. Eighteen credits of coursework provide the theoretical and practical framework for establishing appropriate program practices for young children and families. After completing the courses and accompanying requirements, and with at least 480 documented hours of direct work with young children in an early childhood program, students will be ready to apply for the Child Development Associate Credential from the Council for Early Childhood Recognition.

A CDA candidate must be at least 18 years of age and have a high school diploma or equivalent and complete documentation requirements set by the Council for Early Childhood Recognition. These include a professional resource file, statements of competence for each of the six CDA Competency Goals, parent questionnaires, and the CDA Observation Instrument, which is completed by a trained advisor from the college.

The CDA credential is a recognized professional level on the Idaho Early Childhood Pathway of Professional Development. Credits earned for college coursework completed while pursuing a Child Development Associate Credential articulate directly into the NIC Child Development associate of arts and associate of science degrees.

Program Requirements

Course No.	Title	Credits
CHD-110	Child Health and Safety	3
CHD-134	Infancy through Middle Childhood	3
CHD-150	Professional Partnerships: Families, Schools, and Community	3
CHD-254	Child Guidance Theory	<u>3</u>
Program Total		12

Collision Repair Technology

Technical Certificate

Professional-Technical Program

The Collision Repair Technology program is a 10-month program designed to prepare students for entry-level employment as a collision repair technician and/or painter. All phases of refinishing are covered including basecoat and clear coat applications. MIG welding, plastic and fiberglass repair, sheet metal repair and replacement, estimating, glass replacement, damage analysis including unibody and full frame alignment, electrical and mechanical diagnosing, and other related topics are covered.

A general education component of communications, occupational relations, and computational skills is also integrated into the program. Successful completion of the first semester or permission of the instructor is required to continue to the next semester. Strong basic math and good reading skills are recommended. Placement in specific math and English courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program. (see page 45).

Program Requirements

First Semester

Course No.	Title	Credits
ACRR-151	Collision Repair Technology Theory I	6
ACRR-151L	Collision Repair Technology Lab I	5
MATH-015	Basic Mathematics (or higher)	3-4
WELD-140	Auto Collision Repair Welding	2
		Semester Total 16-17

Second Semester

ACRR-152	Collision Repair Technology Theory II	6
ACRR-152L	Collision Repair Technology Lab II	6
ATEC-117	Occupational Relations and Job Search ¹	2
ENGL-099	Fundamentals for Writing	3
or ENGL-101	English Composition	(3)
		Semester Total 17

Summer Session

ACRR-153	Collision Repair Technology Theory III	1
ACRR-153L	Collision Repair Technology Lab III	2
		Session Total 3
		Program Total 36-37

Notes:

- ¹ Students may substitute another course with written permission of instructor and division chair.

Communication

Associate of Arts Degree

Transfer Program

Communication is a discipline that teaches vital skills for success in today's society and provides professional preparation in communication fields. Communication provides the link for using all other technical skills and knowledge acquired in one's lifetime. Few assets are more valuable to career or community than a basic understanding of the dynamics of communication.

NIC offers program options or emphasis areas in Speech/General Communication and Journalism. Each program option includes a common core of courses required of all communication majors.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in Communication.

Speech/General Communication

Speech is a communication area that is not limited to public speaking. Speech includes the study of how people interact in relationships and groups, as well as public presentation situations. The course of study offered at NIC gives students the opportunity to explore all these areas of communication.

Journalism

Focusing on knowledge and essential skills, this course of study prepares students for careers in journalism through an associate degree transfer program. Theoretical training and laboratory workshop methods are combined with practical experience on the NIC newspaper, The Sentinel. See page 83 for program requirements.

Program Requirements

General Education Requirements (see pages 49-50)

Area of Study	Credits
Arts and Humanities (Group I, II)	6
Communication	3
Computer Science	3
Critical Thinking	3
Cultural Diversity	3
English Composition	6
Laboratory Science	8
Mathematics	3-5
Physical Education Activity and Dance	2
Social Science (Group I, II, III, IV)	12

Program Requirements

Choose 13 credits from the following: 13

COMM-103	Oral Interpretation
COMM-111	Interview Techniques
COMM-133	Improving Listening Skills
COMM-134	Non-Verbal Communication
COMM-220	Introduction to Intercultural Comm.
COMM-233	Interpersonal Communication
COMM-236	Small Group Communication
PSYC-101	Introduction to Psychology
THEA-101	Introduction to the Theatre

Elective Requirements

Courses 100-level or higher	0-2
Total Credits (minimum) 64

Computer Aided Design Technology-Architectural Option

Technical Certificate

Professional-Technical Program

The Computer Aided Design Technology program offers students the opportunity to learn skills required by today's industries. Students can pursue a two-semester technical certificate, a four-semester advanced technical certificate, and a four-semester associate of applied science degree.

The first semester focuses on design principles that will utilize technical drawing techniques and computer aided design software. The second semester focuses on computer aided design software principles that will be content specific in the student's area of choice: architectural, civil, or mechanical design. The third and fourth semesters will focus on specific content in the area of choice - architectural, mechanical, or civil; with emphasis on computer aided design applications.

Students can return for a third year to study the remaining two areas of specialty. Successful completion of each semester or permission of the instructor is required to continue into the next semester.

Portions of the associate of applied science degree options may transfer to various four-year institutions. Contact your advisor or the Coordinator of Professional-Technical Student Support Services at (208) 769-3468 for details.

Students entering the A.A.S. degree program should be prepared to complete MATH-143 in conjunction with MATH-143D (or higher) and ENGL-101 (or higher) during the first year of the program before they may continue. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Current industry professionals may enroll in a single course on a space available basis and with instructor permission.

Program Requirements

First Semester

CADT-101	Technical Sketching and Working Drawing Applications	4
CADT-103	2-D CAD Graphics	4
CADT-105	Descriptive Geometry	3
CAOT-164	Computer Fundamentals for Tech Programs	1
CAOT-165	Productivity Software for Tech Programs	1
CAOT-166	Living Online for Tech Programs	1
MATH-024	Technical Math (or higher)	3-4
		Semester Total 17-18

Second Semester

Computer Aided Design Technology-Mechanical Option

Associate of Applied Science Degree

Professional-Technical Program

The Computer Aided Design Technology program offers students the opportunity to learn skills required by today's industries. Students can pursue a two-semester technical certificate, a four-semester advanced technical certificate, and a four-semester associate of applied science degree.

The first semester focuses on design principles that will utilize technical drawing techniques and computer aided design software. The second semester focuses on computer aided design software principles that will be content specific in the student's area of choice: architectural, civil, or mechanical design. The third and fourth semesters will focus on specific content in the area of choice - architectural, mechanical, or civil; with emphasis on computer aided design applications.

Students can return for a third year to study the remaining two areas of specialty. Successful completion of each semester or permission of the instructor is required to continue into the next semester.

Portions of the associate of applied science degree options may transfer to various four-year institutions. Contact your advisor or the Coordinator of Professional-Technical Student Support Services at (208) 769-3468 for details.

Students entering the A.A.S. degree program should be prepared to complete MATH-143 in conjunction with MATH-143D (or higher) and ENGL-101 (or higher) during the first year of the program before they may continue. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Current industry professionals may enroll in a single course on a space available basis and with instructor permission.

Program Requirements

In addition to the specific Computer Aided Design Technology courses, students must take a minimum of 16 credits of A.A.S. general education courses as specified in the program below.

First Semester

CADT-101	Technical Sketching and Working Drawing Applications	4
CADT-103	2-D CAD Graphics	4
CADT-105	Descriptive Geometry	3
CAOT-164	Computer Fundamentals for Technology Programs	1
CAOT-165	Productivity Software for Technology Programs	1
CAOT-166	Living Online for Technology Programs	1
ENGL 101	English Composition ¹	3
		Semester Total 17

Second Semester

CADT-107	3-D CAD Graphics	6
CADT-109	Basic Mechanical Design	4
MATH-143	College Algebra (or higher) ¹	3
MATH-143D	College Algebra-Computer Aided Drafting Applications (or higher)	1
		Semester Total 14

Third Semester

CADT-251	Introduction to Mechanical Design	4
CADT-253	Machine Control Processes	3
CADT-256	Geometric Dimensioning and Tolerancing	4
_____	A.A.S. Social Science/Human Relations/Interpersonal Communications Requirement ²	3
_____	A.A.S. Natural Science Requirement ²	4
		Semester Total 18

Fourth Semester

CADT-257	Advanced Mechanical Design	4
CADT-259	Power Transmission	2
CADT-261	Statics and Strengths of Materials	3
_____	A.A.S. English Composition Requirement ²	3
_____	A.A.S. General Education Requirement ²	3
		Semester Total 15
		Program Total 64

Notes:

¹ Satisfies A.A.S. degree general education requirement.

² Select from the A.A.S. degree requirements listed on page 52.

Computer Applications

Post Secondary Certificate

Professional–Technical Program

The Computer Applications Certificate provides comprehensive training in the latest Microsoft Office software. This certificate is designed for anyone who desires to work with computers and/or advance their computer software skills.

The coursework prepares students for the Microsoft Certified Applications Specialist (MCAS) industry certification testing. Students are strongly encouraged to pursue MCAS (Microsoft Certified Application Specialist) Certification as part of this program.

Computer Information Technology

Technical Certificate

Professional-Technical Program

The Computer Information Technology (CITE) program prepares students for careers in information technology by offering a one-year technical certificate, a two-year advanced technical certificate, and an associate of applied science degree. The A.A.S. degree in Computer Information Technology is a two-year program that will prepare students for working with sophisticated networking hardware and operating system software and will lead to industry recognized certifications. It also includes all related coursework to complete A.A.S. degree requirements. The CITE one-year technical certificate teaches the foundation of information technology jobs skills and the two-year advanced technical certificate includes all the technical coursework of the A.A.S. degree, but with reduced general education requirements.

The Computer Information Technology program is designed to provide students with essential skills to plan, implement, administer, support, and secure networked computer systems and associated users, as well as install and configure routers and switches in multiprotocol internetworks using LAN and WAN interfaces. North Idaho College operates a Cisco Regional Academy and a Local Academy that delivers training directly to students and professionals. NIC is a Microsoft IT Academy and a Microsoft Developer Network Academic Alliance partner.

Continued advances in network technology have created an increased need for professionals trained in the information technology field. Students will gain essential technical instruction that enables them to perform tasks such as network design, installation, maintenance, and management as well as fill network administration and systems administration job roles.

This is a limited enrollment program. Successful completion of the first semester or permission of the instructor is required to continue to the next semester. Successful completion of the technical certificate or permission of the instructor is required for enrollment in third and fourth semester courses. Placement in specific math and English courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

- ³ Mathematics requirement includes any math course that is MATH 123 or higher and meets the A.A.S. degree requirements listed on page 52. If a 3-credit math course is taken, an additional A.A.S. degree general education course will be required to meet the 16-credit general education core.
- ⁴ Select from A.A.S. degree requirements listed on page 52.

Computer Science

Associate of Science Degree

Transfer Program

This program leads to career opportunities in a wide variety of computer science areas such as operating systems, expert systems, graphics, databases, software engineering, compilers, numerical analysis, etc. This program requires a good math background. Students should complete MATH 147.

Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in Computer Science. Course selection should be tailored to match requirements defined by intended transfer institutions.

Program Requirements

General Education Requirements (see pages 50-51)

Culinary Arts

Technical Certificate

Professional–Technical Program

The Culinary Arts program provides students with entry-level skills in the food service industry. Students receive instruction in cooking and baking, as well as theoretical knowledge that underlines competency in the field. Additional training involves table service, menus, cost controls, storeroom, and stewarding. Students will have the opportunity to:

- Learn and effectively practice basic and advanced technical skills in food preparation and service.
- Understand the principles of food identification, nutrition, and food and beverage composition.
- Gain experience in the proper use and maintenance of professional food service equipment.
- Become familiar with the layout and workflow of professional kitchens and bakeshops.
- Gain an appreciation for the history, evolution, and international diversity of the culinary arts.
- Develop a sense of professionalism necessary for working successfully in the food service industry.

Students spend approximately 10 hours a week in theory and 20 hours a week in the kitchen and dining room operating Emery's Restaurant to learn the front and back of restaurant operations. Successful completion of each semester or permission of the instructor is required for admission into the next semester. This is a limited enrollment program. Placement in specific math and English courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Diesel Technology

Post-Secondary Certificate

Professional-Technical Program

The Diesel Technology program is designed to prepare students for employment as entry-level truck/heavy equipment technicians. The program emphasizes extensive shop work using actual customer projects, as well as mock-up units and assemblies similar to those found in industry. Instruction includes theory and troubleshooting of problems involved in the repair and maintenance of engines, transmissions, differentials, brakes, steering, suspension, cooling, as well as hydraulics, undercarriages, fuel and air systems, and Class B Commercial Drivers License (CDL) training. Integrated in the program is a course in welding and cutting using both oxy-acetylene and electric arc. Successful completion of each semester or permission of the instructor is required to continue into the next semester. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Current industry professionals may enroll in individual courses on a space-available basis and with the instructor's permission.

Notes:

- ¹ Mathematics requirement includes any math course that is MATH 123 or higher and meets the A.A.S. degree requirements listed on page 52. If a 3-credit math course is taken, an additional A.A.S. degree general education course will be required to meet the 16-credit general education core.
- ² Satisfies A.A.S. degree requirement.
- ³ Select from A.A.S. degree general education requirements listed on page 52.

Education-Elementary or Middle School Teacher Education

Associate of Arts Degree

Transfer Program

The Education program is intended for students who wish to teach in an elementary or middle school education setting. It is strongly recommended that students who plan to teach kindergarten through grade eight in an elementary or middle school contact their transfer institution as soon as possible regarding specific coursework needed for the transfer institution's core curriculum, college of education requirements, and/or state certification requirements. Delay in contacting the transfer institution may result in taking unnecessary courses. The following courses have a high probability for transfer and meet core requirements for an associate's degree from North Idaho College.

Program Requirements

General Education Requirements (see pages 49-50)

Area of Study	Credits
Arts and Humanities (Group I, II)	6
Communication	3
Computer Science	3
Critical Thinking	3
Cultural Diversity	3
English Composition	6
Laboratory Science	8
Mathematics ¹	0
Physical Education Activity and Dance	2
Social Science (Group I, II, III, IV) ²	3

Program Requirements

Education-Secondary Education

Associate of Arts Degree

Transfer Program

The Education program is intended for students who wish to teach in a middle school, or high school setting. Most transfer institutions and state teacher certification standards require high school teachers to complete a major area of study such as English, History, Art, or Biology. In preparation for transfer, NIC students may enroll in courses which have a high probability for transfer and courses that support their major area of study. It is strongly recommended that students who plan to teach in a high school setting contact their transfer institution as soon as possible regarding specific coursework needed for the transfer institution's core curriculum, college of education requirements, and/or state certification requirements. Delay in contacting the transfer institution may result in taking unnecessary courses. Students wishing to pursue a career as a middle school teacher have two options. They can complete secondary requirements for high school teachers and be certified to teach grades 6-12 in their area. The second option would be to seek an elementary certification and seek an endorsement in their content area. Students who are uncertain about becoming a teacher may enroll in EDUC 201 as a sophomore. This course is designed to assist students in making an educated decision about teaching as a career choice.

Emergency Medical Services

Technical Certificate

Professional–Technical Program

The technical certificate in Emergency Medical Services (EMS) Program prepares students for positions in Emergency Medical Services (EMS) and certification at the advanced level. Advanced EMTs perform emergency patient care, basic life support, and limited advanced life support in the field, as well as transporting injured and ill patients to hospital emergency departments. They also perform care in hospital emergency departments. All Advanced EMT students must have an Idaho license or Nationally Registered as an EMT-Basic.

Students have a choice of two educational tracks, one designed to prepare students for administrative positions within the EMS and the other designed to provide students with advanced, specialized technical skills.

Upon successful completion of the program, graduates will be eligible to take the National Registry Advanced EMT exam. Graduates will be prepared for employment with professional private ambulance companies, fire department-based, and other community EMS systems. Graduates interested in pursuing additional EMS education will be prepared for entrance into paramedic and bachelor degree programs in EMS.

The EMS program is a limited enrollment program with specific high school course or college equivalent course requirements. Interested students are encouraged to contact the Health Professions Office at (208) 676-7132.

Admission Requirements

1. A health examination and copies of immunization records are required to be held in NIC's Student Health Services.
2. Hold a current National Registry or Idaho certification as an EMT Basic.
3. Hold a current certification in an approved course in cardiopulmonary resuscitation (Healthcare Provider CPR or Professional Rescuer).
4. Have never been convicted of a felony under the laws of Idaho or the United States.
5. Pass a successful background investigation.
6. Have never had an EMS license or certificate revoked or suspended by any certifying agency.

Program Requirements

Course No.	Title	Credit Hrs

Engineering-Electrical

Associate of Science Degree

Transfer Program

A full range of engineering and related courses are offered to satisfy freshman and sophomore requirements for students planning to transfer to institutions offering baccalaureate degrees in engineering or engineering technology. A solid foundation is laid for further studies in civil, mechanical, chemical, and electrical engineering. This program provides the flexibility needed by students interested in emerging fields like computer science, robotics, bioengineering, geological engineering, environmental engineering, and many others.

The advantages of small class size, individual attention, a knowledgeable professional staff, and state-of-the-art instructional equipment incorporating modern CAD (computer aided design) are well suited to meeting the lower division requirements for degrees in engineering. A solid math and science background is important preparation for a college engineering program.

Completion of the following courses normally fulfills half of bachelor degree requirements in Electrical Engineering. Course selections should be tailored to match requirements of the intended transfer institution.

English

Associate of Arts Degree

Transfer Program

The study of literature and composition helps students to acquire valuable interdisciplinary communication skills for a wide range of professions. Classes focus on the pleasures and challenges of reading and writing. Students learn to read critically, to think logically, to analyze and organize a wide variety of concepts, to research and evaluate sources, and to communicate clearly and effectively. Studying literature provides students with strong reading comprehension abilities and inspires cultural, social, philosophical, and historical inquiry. Studying composition teaches students to express their ideas artfully and to integrate diverse perspectives into convincing essays. English majors can apply these skills to a range of professional fields, such as business, advertising, media, law, health professions, and education.

Completion of the following courses normally fulfills the first half of bachelor degree requirements in English. Course selections should be tailored to match requirements of the intended transfer institutions.

Fire Service Technology

Associate of Applied Science Degree

Professional–Technical Program

The Fire Service Technology curriculum is designed to develop and upgrade firefighting skills and knowledge of volunteer and paid firefighters, and covers all phases of firefighting. The intent is to provide firefighters with the skills needed to save lives and protect property in a safe and efficient manner. Participants must be members of a paid or volunteer fire department. Technical skills courses are developed through the Idaho Division of Professional Technical Education, Emergency Services Training program, and are offered through fire departments under the coordination of NIC’s Workforce Development department. Fire service curricula is developed to the National Fire Protection Association (NFPA) Standards. Upon completion of the technical classes, students may choose to complete the NIC general education core classes and apply for an A.A.S. degree in Fire Service Technology. Upon completing the A.A.S. degree, students may transfer to Lewis-Clark State College to complete a bachelor of applied science degree in Fire Service Technology.

Program Requirements

General Education (Student must complete a minimum of 16 credits from the courses below).

Course No.	Title	Credits
ENGL-101	English Composition	3
_____	English Composition Requirement ¹	3
_____	Math Requirement ²	3-4

Additional courses:

FST-100	Fire Service Technology	48
---------	-------------------------	----

This course is used to transcript the following courses:

- Rapid Intervention Team Training Firefighter
- Safety and Survival
- Fire Fighter I
- Fire Fighter II
- Technical Rescue – Operations Elective
- Flashover Survival Training
- Hazardous Materials Awareness
- Hazardous Materials Operation
- Wildland Basic Firefighter II
- Wildland/Urban Interface
- Emergency Medical Technician Basic
- Arson Detection for First Responders
- Building Construction Combustible
- Building Construction Non-Combustible
- Incident Command System
- Silent Wars: Air and Blood Borne Pathogens
- Driver Operator/Pump Operations
- Fire Officer I
- Instructor I

Program Total 64

Notes:

- ¹ Select from A.A.S. degree requirements listed on page 52.
- ² Mathematics requirement includes any math course that is MATH 123 or higher and meets the A.A.S. degree requirements listed on page 52. If a 3-credit math course is taken, an additional A.A.S. degree general education course will be required to meet the 16-credit general education core.

Forestry/Wildlife/Range Management

Associate of Science Degree

Transfer Program

This program provides required coursework for students interested in pursuing a career in natural resource management. The program acquaints students with the physical, biological, and social sciences, as well as the humanities. The curriculum provides a basis of general education and scientific-professional courses addressing the use of forests, rangelands, and related natural resources.

Completion of the following courses results in an associate degree with an area of emphasis in Forestry/Wildlife/Range Management. The required coursework normally fulfills the first half of baccalaureate degree requirements in natural resource management for a variety of disciplines, including Forestry, Wildlife, Fisheries, Range Management, etc. Course selection should be tailored to match requirements defined by the intended transfer institution.

Total Credits (minimum)	64

General Studies

Associate of Science Degree

Transfer Program

This program is suggested for students wishing to pursue a general studies option. Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in a General Studies program. Course selection should be tailored to match requirements defined by intended transfer institutions.

Program Requirements

General Education Requirements (see pages 50-51)

Area of Study	Credits
Arts and Humanities (2 disciplines)	6
Communication	3
English Composition	6
Laboratory Science	8
Mathematics	3-5
Physical Education Activity and Dance	2
Social Science (2 disciplines)	6
Social Science and Arts and Humanities	3

Elective Requirements

Courses 100-level or higher	<u>24-27</u>
Total Credits (minimum) 64	

Geology

Associate of Science Degree

Transfer Program

This program is for students interested in pursuing a baccalaureate degree in Geology. Geology is the science that deals with the history of the earth and its life, especially as recorded in rocks. Small classes, excellent laboratories, and close proximity to classical geological field environs are especially well suited to providing the lower-division requirements for geology majors. A strong background in science and mathematics is important preparation for a college geology program.

Completion of the following courses results in an associate degree with an area of emphasis in Geology. The required coursework normally fulfills the first half of baccalaureate degree requirements in Geology. Course selection should be tailored to match requirements defined by intended transfer institutions.

Graphic Design

Technical Certificate

Transfer Program

This occupational program prepares graduates to meet the challenges of graphic design and related professions. The curriculum aims to equip students with the skills, knowledge, and abilities necessary to enter the job market. The broad range of media used to implement creative and aesthetic solutions includes work in print advertising, packaging, and a variety of electronic media including computer graphics and the Internet. This program fulfills the requirements for an Associate of Applied Science degree.

Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC/R)

Technical Certificate

Professional–Technical Program

Completion of the nine-month certificate program in Heating, Ventilation, Air Conditioning, and Refrigeration prepares students for entry-level positions in this challenging occupation. Entry-level HVACR technicians typically work on residential and light commercial HVACR systems performing equipment installations, preventative maintenance and service, and repair tasks. Additional opportunities are also available in system design and sales occupations.

Students will study basic HVACR systems, electricity, heating systems, local fuel codes, applied thermodynamics, refrigeration cycle, psychometrics, duct system design, and system diagnosis. These skills are taught in classroom theory and learned in hands-on lab exercises and cooperative work experiences. A general education component consisting of communications, occupational relations and math is integrated into the program. Successful completion of the first semester or permission of the instructor is required to continue into the second semester.

Successful completion of this program satisfies the four-year related training requirement and the first year of OJT for the Idaho State HVAC apprenticeship program.

Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Current industry professionals may enroll in a single course on a space available basis and with the instructor’s permission.

Program Requirements

History

Associate of Arts Degree

Transfer Program

The history major is designed for students desiring a broad liberal arts background either as preparation for a profession or for personal enrichment. Careers in history include teaching (primary, secondary, or college level), museum work, historical research and writing, and preserving and interpreting history for the general public through a variety of local, state, and federal agencies. The history major is also highly recommended preparation for law, politics, the ministry, and public service. Because it develops breadth of knowledge as well as critical thinking and problem-solving skills, a history degree is widely considered an excellent foundation for many managerial and executive careers. For this reason, it is a fine choice for the general studies student.

Completion of the following courses normally fulfills the first half of bachelor degree requirements in history. Course selections should be tailored to match requirements of the intended transfer institutions.

Interdisciplinary Studies

Associate of Arts Degree

Transfer Program

NIC's interdisciplinary associate degree program helps students to develop critical and creative thinking skills that will prepare them to succeed in a complex, interconnected world and in a variety of professions. Students may choose two main disciplines of study from two different departments. In interdisciplinary classes and other courses taught by faculty participating in the program, students are encouraged to recognize connections among disciplines and reflect on integrated community themes, such as sustainability, economic development, the arts, learning and leadership, and health and wellness. Experiential learning, writing and speaking across the curriculum, collaborative learning, and individualized advising unite faculty and students in the program.

Completion of the following courses results in either an associate of arts degree or associate of science degree and meets the general core requirements defined by intended transfer institutions. Collaboration among NIC and Coeur d'Alene campuses of the University of Idaho and Lewis-Clark State College make a local baccalaureate degree in Interdisciplinary Studies accessible.

Law Enforcement

Post-Secondary Certificate

Professional-Technical Program

This program prepares students for entry-level positions as city, county, or state law enforcement officers. Students may select to complete either the technical certificate requirements or an A.A.S. degree requirements and are eligible to challenge for peace officer certification in Idaho.

Applications for the technical certificate program may be picked up from Room 204B, Hedlund Building.

Applications for the sophomore Law Enforcement block may be picked up from Room 204B, Hedlund Building, four weeks before the midterm week of Fall or Spring Semesters. Application and acceptance into the sophomore Law Enforcement block is required before enrolling in courses numbered 200 and above. Applicants for the sophomore Law Enforcement block must undergo a polygraph examination, fingerprinting, and a background check. A Hepatitis B vaccination is available at the sophomore Law Enforcement level for a fee.

This program consists of two semesters of academic courses, followed by one block of technical LAWE courses, and one semester of internship. LAWE 219-228 courses are offered in the Fall and Spring Semesters and LAWE 290 and 293 are offered in the Fall and Spring Semesters. This is a selective admissions program. Successful completion of each semester or permission of the instructor is required to continue into the next semester.

Certified Law Enforcement Professionals

Students who successfully complete or challenge the POST Academy will be given credit for LAWE 219-228. Credit may also be granted for LAWE 290 and 293, the internship sequence, for individuals who have successfully completed the POST Academy and have been continuously employed as full-time law enforcement officers for more than six consecutive months. Contact the Law Enforcement program instructor or coordinator for more information.

Admission Procedures

1. When applying for admission to the college, students will be accepted as Pre-Law Enforcement.
2. Applications for the technical certificate program may be picked up from Room 204B, Hedlund Building. Applications for the Sophomore Law Enforcement block may be picked up from the Law Enforcement Program Coordinator.
3. Applicants will complete an Idaho POST (Peace Officers Standards Training) Personal History Statement and Health Questionnaire, and sign an Authority to Release Personal Information form.
4. Applicants will provide three letters of reference and military discharge papers (if applicable).
5. All Idaho POST standards and NIC academic requirements must be met at the time of application or by the start of the Vocational Block. (Summer school can be attended to complete coursework prior to the Fall Semester).

Program Requirements

Course No.	Title	Credits
LAWE-219	Self Defense/Law Enforcement	3
LAWE-220	Basic Police Law	2
LAWE-221	Professional Orientation	1
LAWE-222	Police Procedures	2
LAWE-223	Patrol Procedures	1
LAWE-224	Practical Problems	1
LAWE-225	Investigation	3
LAWE-226	Enforcement Skills	1
LAWE-228	Police Physical Fitness	1
Program Total		15

6. Applicants are required to pass a written exercise, oral board interview, and a background investigation, which includes a polygraph test and fingerprinting.
7. Any questions regarding physical, medical, or mental condition to participate in the program may result in referral to the NIC Health Services and/or personal physician for examination and/or release to participate.

Admission Requirements

1. High school diploma or GED.
2. Minimum age of 20 by the first day of school (if entering the technical certificate program).
3. Minimum grade of "C" (2.00) in prerequisite courses. If currently enrolled, midterm grades will be considered until final grades are available.
4. No course may be repeated more than once to achieve a 2.00 grade point average.

1. High school diploma or GED.
2. Minimum age of 20 by the first day of school (if entering the technical certificate program).
3. Minimum grade of "C" (2.00) in prerequisite courses. If currently enrolled, midterm grades will be considered until final grades are available.
4. No course may be repeated more than once to achieve a 2.00 grade point average.

Legal Administrative Assistant

Advanced Technical Certificate

Professional-Technical Program

The Legal Administrative Assistant program is a rich mix of specific coursework in the legal area combining a blend of academic schooling and technical expertise. A legal administrative assistant is a skilled professional who performs all general office work in addition to specialized legal assignments. Employment opportunities include working in public defender's offices, prosecuting attorney's offices, private law firms, government agencies, and legal departments of large manufacturing, banking, insurance, or real estate firms. This specialized assistant uses transcribing machines, creates and modifies legal instruments and documents utilizing computer technology, and adheres to court procedures such as calendaring, scheduling, and docketing. In addition, the legal administrative assistant files legal documents, maintains clients' fees, and performs law office public relations.

Machine Technology

Technical Certificate

Professional-Technical Program

The Machine Technology program prepares students for entry-level employment in the machining and manufacturing industries. The curriculum features basic to advanced machining concepts involving various machine tools such as conventional lathes, mills, grinders and their Computer Numerical Control (CNC) counterparts. Coursework also involves blueprint reading, geometric dimensioning and tolerancing, shop math, and statistical and mechanical measurements. The second year of the program places emphasis in CNC and CAD/CAM systems in preparation for employment in computerized manufacturing processes. Opportunity to certify in MasterCAM Mill is available to students who successfully complete the program.

Successful completion of each semester or permission of the instructor is required to continue into the next semester. Prospective students should have solid math skills and demonstrate mechanical aptitude. Computer and keyboarding skills are recommended. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Current industry professionals may enroll in individual courses on a space-available basis and with the instructor's permission.

Notes:

- ¹ Select from A.A.S. degree general education requirements listed on page 52.
- ² Mathematics requirement includes any math course that is MATH-123 or higher and meets the A.A.S. degree requirements listed on page 52. If a 3-credit math course is taken, an additional A.A.S. degree general education course will be required to meet the 16-credit general education core.
- ³ Satisfies A.A.S. degree general education requirement.

Maintenance Mechanic/Millwright

Technical Certificate

Professional-Technical Program

This 11-month program prepares students for employment as industrial plant maintenance mechanics or millwrights. Students learn the basics of maintenance, fabrication, installation and alignment of equipment used in modern industrial and manufacturing plants.

Theory classes provide technical information pertaining to welding, hydraulics, electricity, rigging, pipe fitting, mechanical drive/transmission systems, pumps, and equipment installation and alignment.

Laboratory classes teach students to skillfully perform welding and fabrication tasks as well as the maintenance of hydraulic, electro/mechanical systems. The well-equipped lab includes the latest technology in laser alignment of rotating equipment. Blueprint reading and shop math are taught and used in all areas of training. A general education component of English, occupational relations, and math is integrated into the program. Successful completion of the first semester or instructor permission is required to continue into the second semester and summer session.

Interested students should possess basic math skills (knowledge of basic algebra and geometry), reading skills, and have a keen interest in mechanics. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Mathematics

Associate of Science Degree

Transfer Program

This program leads to careers in teaching, industry, government, actuarial work, or as support for many science disciplines. The mathematics background assumed for entry is four years of high school mathematics through pre-calculus and trigonometry. These entry-level courses, if needed, are also available through the college. Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in mathematics. Course selection should be tailored to match requirements defined by intended transfer institutions.

Medical Administrative Assistant

Associate of Applied Science Degree

Professional-Technical Program

For those who have always been interested in the medical field but find their strengths lie in clerical administration, a career as a medical administrative assistant could be the perfect choice. Medical administrative assistants combine clerical skills and word processing with specialization in medical terminology, anatomy, medical transcription, and medical coding.

Physicians rely on well-trained medical administrative assistants to help them in the documentation of patient care. The medical administrative assistant's job, using the latest technology, may include transcribing reports, composing and processing correspondence, coding of diagnoses and procedures, completing insurance forms, maintaining financial records, greeting and scheduling patients, and other related duties. Strong human relation skills are a must in this field.

Students will be provided opportunities to develop skills to gain employment in clinics, private medical practices, hospitals, nursing homes, medical insurance and billing companies, and a variety of other health care facilities. With experience, the graduate may advance to office manager or department supervisor.

Medical Assistant

Technical Certificate

Professional–Technical Program

The Medical Assistant program prepares students to work as entry-level health care providers in settings such as physician's offices, health care clinics, and hospitals. The role of the medical assistant is to assist the physician and other professionals in managing the care of clients. Medical assistants are responsible for performing duties in the areas of office management, patient care, and collecting and processing laboratory specimens. Medical assistants work under the direct supervision of a physician or other designated professional.

Successful completion of the Medical Assistant program will result in eligibility to take the national certification exam for medical assisting.

Students interested in the program are encouraged to contact the Health Professions Office at (208) 676-7132.

Admission Requirements

1. Demonstrate an ability to key 35 net words per minute.
2. Complete the following prerequisite courses:
 - a. ALTH 106 (Working In Health Care)
 - b. BIOL 175 (Human Biology)
3. Minimum grade of C or 2.00 must be earned in each of the courses required for the program.

Medical Billing Specialist

Associate of Applied Science Degree

Professional–Technical Program

Trained, qualified medical billing specialists are in demand, particularly if they possess ICD and CPT coding skills. The medical billing specialist program is designed to prepare individuals for entry-level positions processing and managing third-party reimbursement and managing patient accounts receivables in non-hospital health care settings. Physician practices, clinics, health maintenance organizations, and other health care entities including private billing services are all employment options. The Medical Billing Specialist Associate of Applied Science degree includes both theoretical and practical laboratory instruction.

Students will complete general education courses and courses in medical terminology, coding, insurance reimbursement, medicolegal issues, manual and computerized accounting, and credit and collections. With a variety of career experiences, a professional medical billing specialist may pursue a Certified Coding Associate (CCA) credential by passing the national certification examination administered by the American Health Information Management Association (AHIMA) or the Certified Professional Coder (CPC) credential by passing the national certification examination administered by the American Academy of Professional Coders (AAPC). The medical billing specialist pursues a lifelong program of continuing education.

Medical Office Transcriptionist/Pre-Health Information Technology

Technical Certificate

Professional-Technical Program

Graduates of the Medical Office Transcriptionist/Pre-Health Information Technician certificate program may begin employment as a medical office transcriptionist or may continue their education with Idaho State University (ISU) and earn an associate of applied science degree in Health Information Technology. ISU courses required to complete the A.A.S. degree are offered through distance education so students can complete the degree without moving to ISU's campus. Upon completion of ISU's Health Information Technology A.A.S. degree, graduates are eligible to take the national certification examination through the American Health Information Management Association (AHIMA). Successful completion of the examination results in earning the Registered Health Information Technician (RHIT) credential.

Health Information Technology through Idaho State University

Idaho State University offers the following courses for the completion of the A.A.S. degree in Health Information Technology. NIC students can transfer their credits from the above technical certificate program to ISU and take the 32 credits listed below to receive an A.A.S. degree in Health Information Technology from ISU.

Medical Receptionist

Technical Certificate

Professional–Technical Program

Medical receptionists hold key positions in a medical office in greeting patients, scheduling appointments, processing patient information, managing the reception desk, and assisting with other administrative responsibilities. In today's modern medical office environment, the medical receptionist requires skills in human relations, data and word processing, records management, release of information, and respect for the confidential nature of patient information. Job opportunities are found in physician offices, hospitals, clinics, and medical facilities. Characteristics for career success include an interest in medicine; a desire to work with physicians and health care professionals; the ability to multi-task and prioritize work; a positive, caring personality; high energy; and a desire to help people.

Medical Transcriptionist

Associate of Applied Science Degree

Professional-Technical Program

A nationwide shortage currently exists for well-trained medical transcriptionists. These specialists type physician-dictated reports describing a patient's medical care and condition. These reports include office chart notes, history and physical examinations, consultations, operative reports, discharge summaries, laboratory/pathology reports, and diagnostic studies. Medical transcriptionists may work in either general or specialized fields of medicine. Medical clinics, hospitals, doctors' offices, private transcription agencies, and home offices offer various employment settings. The variety of each day's work presents unique challenges and opportunities for continuing medical knowledge.

The professional transcriptionist enjoys learning about the medical field; possesses mastery skills in medical terminology, spelling, grammar, punctuation, and keyboarding; works independently; and strives for quality and excellence. Graduates of this program will be prepared to sit for the national Registered Medical Transcriptionist (RMT) exam. With a variety of career experiences, a professional transcriptionist may pursue a Certified Medical Transcriptionist (CMT) credential by passing the national certification examination administered by the Association for Healthcare Documentation Integrity (AHDI). The medical transcriptionist pursues a lifelong program of continuing education.

Modern Languages

Associate of Arts Degree

Transfer Program

The study of world cultures is an integral part of a well-rounded education. Learning a modern language provides a sense of shared humanity and offers insight into the human mind, thus helping international understanding. It improves intellectual skills, helps the learner understand the customs, culture, and literature of other countries, and provides a wealth of material in other languages. The knowledge of modern languages is in demand in business and commerce, civil service, law, media, applied sciences, service occupations, tourism, social sciences, and engineering among others. Students wanting to major in a modern language are urged to complete an Associate of Arts degree. Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in modern language. Course selection should be tailored to match requirements defined by your intended transfer institution.

It is strongly suggested that students majoring in modern language take courses in at least two modern languages since many universities require such before issuing a bachelor of arts in modern languages.

Music

Associate of Arts Degree

Transfer Program

This program is designed for students who wish to pursue a professional career in music by providing the necessary background in music theory, history, and performance. Students also may pursue their musical interests as an avocation through the program. Music courses promote skills which prepare students for fields outside of music, emphasizing communication, literary, physical, technical, and business skills. There are no program prerequisites. Previous experience in high school or community music programs would be helpful. Students interested in scholarships must audition, and selection is based on performance, grades, and letters of recommendation.

Nursing: Practical Nursing (P.N.)

Technical Certificate

Professional-Technical Program

This 11-month program prepares students for entry-level employment as practical nurses in hospitals, home health care, convalescent homes, and related health service professions. A technical certificate is awarded upon successful completion of the program. Students who wish to continue to the R.N. level should consult with their advisor for those program requirements.

This program has a selective admission process. Applications are due by Jan. 28, 2011. See below for details regarding specific requirements.

Graduates are eligible to take the National Council Licensure Examination (NCLEX-PN). Students who pass the exam are qualified to practice as licensed practical nurses in Idaho and may apply for licensure in other states by endorsement.

The curriculum includes basic and clinical foundations of nursing, medical and surgical nursing, maternal and infant care, nursing of children, psychiatric nursing, pharmacology, and geriatrics. The program is offered in cooperation with Kootenai Medical Center, local extended care facilities, physician offices, and the Idaho Division of Professional-Technical Education.

Admission Procedures

Application Deadline: Jan. 28, 2011 for acceptance into Fall 2011.

In addition to the regular college admissions requirements, students applying for the Practical Nursing program need to complete a Nursing Application, which consists of:

1. Application for Admission to NIC (if not already complete).
New and former students must complete the formal admissions process as listed for Degree Seeking (Matriculating) students.
2. NIC Admission application fee (if not previously paid).
3. Practical Nursing Program Application.
4. Results from the entrance exam (see application packet for information on scheduling the exam).
5. High school and college transcripts.
6. Applicants who have attended any other nursing program must submit a recommendation from an instructor or administrator of that program.

Currently enrolled students should already have an application fee and transcripts on file. Application packets for the Practical Nursing program will be available at the NIC Admissions Office and on the NIC Practical Nursing website two months prior to the application deadline.

Admission Requirements

1. High school diploma or GED.
2. A minimum cumulative grade point average of 2.50 calculated on all courses which meet the curriculum requirements for the Practical Nursing certificate.
3. Prerequisite Courses: The following courses must be successfully

Total Credits (minimum) 40

completed by June 30 of the year application for admission is made:

- a. CHEM-101 (Intro to Essentials of General Chemistry I), or one year of high school chemistry with lab, with a grade of C/2.0 or higher each grading period.
- b. MATH-102 (Computational Skills for Allied Health). No substitutions are accepted.
- c. PSYC-101 (Introduction to Psychology)
- d. ENGL-099 (Fundamentals for Writing) or ENGL 101 (English Composition), or NIC assessment scores, taken within two years prior to application for admission to the program, indicating placement above ENGL-099.
4. Minimum grades of C/2.00 must be earned in each of the courses required for the program.
5. The NIC Admissions Office will determine if previous college courses will be acceptable for transfer.
6. A criminal background check will be required upon acceptance into the practical nursing program. Violations which appear on the criminal background check may result in denied access to clinical sites and therefore inability to complete the program.

Nursing: Registered Nursing (R.N.)

Associate of Science Degree

Transfer Program

The faculty of the Associate Degree Nursing program upholds the mission of North Idaho College in supporting student success, teaching excellence, and responding to the needs of the community.

The mission of the nursing program is to provide the opportunity for eligible individuals to acquire the education necessary for entry into the profession of nursing as a registered nurse. In collaboration with the healthcare community, the program strives to provide competent, caring registered nurses who are committed to lifelong learning. The curriculum includes general education courses in the arts and sciences and nursing courses, which provide nursing theory in the classroom and clinical experiences in health care agencies.

Upon completion of the program, graduates will have demonstrated the ability to:

1. Act in accordance with professional values, ethics, legalities and standards.
2. Collaborate effectively with others in planning, providing, and evaluating care within the health care system.
3. Apply the nursing process in practice using scientific and nursing knowledge and critical thinking in problem-solving, decision-making, and clinical judgment.
4. Practice nursing in a safe, competent, and caring manner which meets the multidimensional health care needs of individuals, families, and communities.

Graduates are eligible to take the National Council Licensure Examination (NCLEX-RN). Passing the examination qualifies the individual to apply for licensure as a registered nurse in any state. The program prepares the graduate for employment in entry level positions in a variety of health care settings and areas of nursing practice. The program is designed as a transfer degree and will satisfy core requirements at Idaho public colleges and universities which offer RN to BSN programs.

The Associate Degree Nursing Program is approved by the Idaho Board of Nursing and is accredited by the National League for Nursing Accrediting Commission. Inquiries can be made by contacting the above agencies at: Idaho Board of Nursing, P.O. Box 83702, Boise, ID 83720-0061, 208.334.3110, www2.state.id.us/ibn/ibnhome.htm, and/or National League for Nursing Accrediting Commission, 3343 Peachtree Road N.E. Suite 500, Atlanta, GA, 30326 or www.nlnac.org

The Associate Degree Nursing program has a selective admission process requiring specific prerequisite courses. See below for details regarding specific requirements. It is highly recommended that potential applicants meet with a nursing advisor as they begin planning their pre-nursing coursework. Licensed Practical Nurses (LPNs) are eligible to apply for advanced placement. LPNs must meet the same admission criteria as other program applicants. Applicants desiring advanced placement should meet with the chair of the Nursing Advanced Placement Committee for advisement.

Admission Procedures

Application deadlines: Sept. 24, 2010 for acceptance into Spring Semester 2011. Jan. 28, 2011 for acceptance into Fall 2011.

In addition to the regular college admissions requirements, students applying for the Registered Nursing program need to complete a Nursing Program Application, which consists of:

1. Application for Admission to NIC (if not already complete).

New and former students must complete the formal admissions process as listed for Degree Seeking (Matriculating) students.

2. NIC Admission application fee (if not previously paid).
3. Associate Degree Nursing Program Application.
4. Official high school and college transcripts.
5. Results from the entrance exam (see application packet for information on scheduling the exam).
6. Applicants who have attended any other nursing program must submit a recommendation from an instructor or administrator of that program.

Application forms may be obtained from the Admissions Office and on the NIC website two months prior to the application deadline.

Admission Requirements

1. High school diploma or GED.
2. Valid Certified Nursing Assistant (CNA) certification.
3. Evidence of completion of an approved medical terminology course with a grade of C/2.0 or higher within three years prior to application to the program.
4. Prerequisite courses: The coursework must be successfully completed prior to the term for which application for admission is made. See application packet for specific deadlines:
 - a. Algebra: Demonstrate competency in algebra above the MATH-025 level. Competency can be demonstrated through ACT, SAT, or COMPASS scores from testing within two years prior to application or by completion of MATH-025 or MATH-108 or a math course from the Math list for the North Idaho College A.S. degree with a grade of C/2.0 or better.
 - b. BIOL-227 (Human Anatomy and Physiology I)
 - c. BIOL-228 (Human Anatomy and Physiology II)
 - d. ENGL-101 (English Composition)
5. A minimum cumulative grade point average of 2.50 is required. The required GPA is calculated on all courses which meet the nursing curriculum requirements for the North Idaho College associate of science degree.
6. A minimum grade of C/2.0 must be earned in each of the courses which are a part of the nursing program curriculum.
7. Lab science courses which were completed more than seven years prior to application to the program must be repeated. Applicants who completed Anatomy and Physiology more than seven years ago with the required grade(s) of C/2.0 or better may repeat it or complete an approved pathophysiology course with a grade of C/2.0 or better.

Additional Information

Enrollment in the Nursing program is limited. Because of the number of applicants, completion of all admission requirements does not ensure acceptance into the program. Candidates for admission are selected from the pool of qualified applicants using a point-based process. Students with the highest point total will be accepted until the designated enrollment limit is reached. An alternate list will be developed using the same process.

Specific information on the selection process and point system can be obtained from the NIC Admissions Office, (208) 769-3311, or from a nursing faculty advisor two months prior to the application deadline.

1. The additional coursework required to meet the A.S. degree requirements that is not completed at the time of admission to the Nursing program, must be completed no later than the

Nursing: Registered Nursing (R.N.) Continued

Associate of Science Degree

sequence identified in the nursing curriculum in order to meet prerequisites for nursing courses. All required courses must be completed by the end of the program.

2. The Admissions Office will determine transferability of courses from other colleges.
3. The Nursing Department will determine if previous nursing credits will be acceptable for transfer.
4. Advanced placement is available for Licensed Practical Nurses. Applicants must meet the same criteria and deadlines as other program applicants. For further information, view the Nursing (RN) homepage by going to the college website at www.nic.edu and clicking on instructional programs or contact the NIC Division of Health Professions and Nursing at (208) 769-3329 for specific guidelines and further information.
5. A criminal background check will be required upon acceptance into the nursing program. Violations which appear on the criminal background check may result in denied access to clinical sites and therefore inability to complete the program.

Notes:

- ¹ This General Education Requirement is met by the Program Requirements.
- ² This General Education Requirement is partially met by the Program Requirements.

A grade of C or 2.00 GPA or better is required in each nursing course and general education course that is part of the nursing curriculum. General education courses must be completed with the required grade in the sequence listed to meet prerequisites and progress to the next nursing course. Achievement of a designated score on a standardized NCLEX-RN Predictor Exam is required for graduation from the program. For students who wish to continue their education in nursing, BSN completion programs are available through colleges in Idaho, Eastern Washington, and throughout the country.

Office Specialist/Receptionist

Technical Certificate

Professional–Technical Program

The Office Specialist/Receptionist program provides coursework required for a technical certificate that prepares students for entry-level career positions in today's offices. Students who complete this program earn a technical certificate and will have the foundation to earn an advanced certificate or an associate of applied science degree in any of NIC's Computer Applications and Office Technology programs. Students develop skills to enhance their opportunities for employment, including interpersonal skills, telephone skills, and customer relations skills. Students also become proficient using up-to-date computer applications, including word processing, spreadsheets, database, and presentation software.

RRM-140	Leadership Principles	3
RRM-230	Leisure and Recreation Programming	3
RRM-250	Risk Management in the Resort Industry	3

Outdoor Power/Recreational Vehicle Technology

Technical Certificate

Professional–Technical Program

This 10-month program is designed to prepare students for entry-level employment in the small engine/power equipment industry. Graduates of this program will be ready to work as outdoor power equipment, motorcycle, and recreational vehicle technicians.

This program begins with the basics of power theory and progresses through aspects of engine, drivetrain, and ancillary systems that make up modern small engine powered equipment. Students will learn theory, application, and troubleshooting of 2- and 4-stroke engines, electrical systems, fuel systems, powertrain systems, and many other related systems pertaining to these and other topics.

Successful completion of each course or permission of the instructor is required to continue into the next course. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Current industry professionals may enroll in individual courses on a space-available basis and with the instructor's permission.

Program Requirements

First Semester

Course No.	Title	Credits
ATEC-117	Occupational Relations & Job Search ¹	2
OPRV-105	Orientation/Safety/Shop Practices	2
OPRV-110	2- and 4-Cycle Gas Engines	5
OPRV-110L	2- and 4-Cycle Gas Engines Lab	2
OPRV-120	Power Equipment Service and Repair	5
OPRV-120L	Power Equipment Service and Repair Lab	<u>2</u>
		Semester Total 18

Second Semester

ENGL-099	Fundamentals for Writing	3
or ENGL-101	English Composition	(3)
MATH-024	Technical Mathematics (or higher)	3-4
OPRV-130	ATV and Snowmobile Systems	5
OPRV-130L	ATV and Snowmobile Systems Lab	2
OPRV-140	Motorcycle Systems	5
OPRV-140L	Motorcycle Systems Lab	<u>2</u>
		Semester Total 20-21

Summer Session

OPRV-150	Advanced Service Procedures	2
OPRV-150L	Advanced Service Procedures Lab	<u>2</u>
		Session Total 4
		Program Total 42-43

Notes:

- ¹ Students may substitute another course with written permission of instructor and division chair.

Paralegal

Associate of Applied Science Degree

Professional-Technical Program

This program provides coursework required for an Associate of Applied Science degree that leads to positions in legal environments. A paralegal, under the supervision of an attorney, applies knowledge of law and legal procedures in rendering direct assistance to attorneys, clients, and courts. They may conduct initial client interviews and follow up on investigation of factual information. Paralegals design, develop and modify procedures, techniques, services, and processes; prepare and interpret legal documents; and detail procedures for practicing in certain fields of law. Paralegals research, select, assess, compile, and use information from the law library and other references, and analyze and handle procedures and problems that involve independent decisions.

PLEG-291	Paralegal Internship II	

Total Credits (minimum) 73-76

Notes:

- ¹ This General Education Requirement is met by the Program Requirements.
- ² This class is offered in the Flexible Learning Center. Individuals with prior skills or knowledge should enroll in the class and inquire about a proof of competency exam.

Pharmacy Technology

Technical Certificate

Professional-Technical Program

The Pharmacy Technology program prepares graduates for positions working under the supervision of a licensed and registered pharmacist in retail and institutional pharmacy practice settings. Students completing the program will have a basic understanding of anatomy, physiology, medical terminology, pharmacy law, and the therapeutic classification and use of the top 200 prescription drugs. Students will develop skills in pharmaceutical preparation, maintaining patient profiles or records, sterile products preparation, performing stock procedures, communication and presentation, and computer use to enter, store, and recall patient information.

The Pharmacy Technology program is a selective admissions program, which is explained below. Approximately 12-16 students are admitted to the program each Fall Semester. Course requirements prior to the technical pharmacy courses are open to all students who meet specific course prerequisites. The technical certificate can be obtained in an 11-month course of study.

Contact the Health Professions Division at (208) 676-7132 for further information.

Admission Procedures

Application Deadline: June 1 for acceptance into Fall Semester.
The application packet for the Pharmacy Technology program may be obtained from the Admissions Office or the Health Professions Office.

In addition to the regular college admissions requirements, students applying to the Pharmacy Technology program need to complete an application form. Current students should already have paid their application fee and have transcripts on file, but still need to submit an Application for Admission to the Pharmacy Technology program. An Application Packet for the Pharmacy Technology program may be picked up at the Admissions Office after May 1.

1. Submit a Pharmacy Technology Program Application by June 1.
2. New, returning and transfer students must submit an NIC Application for Admission by June 1.
3. Complete an entrance exam by June 1. Testing will be scheduled during the month of May. Call (208) 676-7203 for an appointment. There is a fee for the test.
4. Submit official high school transcripts or GED scores to the NIC Admissions Office no later than June 1.
5. Submit official college transcripts to the Admissions Office no later than June 1. Only courses that appear on the official transcript will be used to determine points for admission.
6. Submit documentation for health occupation credential. This documentation must be a transcript indicating completion of a program and the certificate, license, or degree awarded. No points will be awarded without this documentation.
7. Submit a copy of your Summer class schedule. Students who are enrolled in prerequisite courses in the Summer Session in a school other than North Idaho College must submit a copy

Program Requirements

Course No.	Title	Credits
ALTH-105	Infection Prevention	2

PHAR-185	Pharmacy Technology Practicum and Seminar II ¹	4
Total Credits (minimum)		40

Notes:

- ¹ One-half of students will be scheduled in retail pharmacy experience and one-half will be scheduled in hospital pharmacy experience. Both must be completed to obtain a certificate.

of their current schedule. This will validate eligibility to meet all prerequisites.

Admission Requirements

1. High school diploma or GED.
2. Completion of the NIC COMPASS test (or equivalent) with an algebra score of 41 or higher or completion of MATH-025 with a grade of C or better and an English score of 68 or the completion of ENGL-099 or ENGL-101 with a grade of C or better.
3. Transfer applicants must submit official transcripts of work-in-progress from current college. Final transcripts are required when available.
4. Completion of entrance examination. (Testing will be scheduled in May 2010. Phone (208) 676-7203 for an appointment. There is a \$20 testing fee.)
5. No course may be repeated more than once to achieve a 2.00 grade point average.
6. Completion of a criminal record background check prior to enrolling in PHAR-180.
7. Prerequisites: A minimum grade of C (2.00) must be achieved in prerequisite courses:
 - a. ALTH-106 (Working In Health Care)
 - b. BIOL-175 (Human Biology) or BIOL-100 (Fundamentals of Biology)
 - c. CAOT-112 (Keyboarding 1)
 - d. CAOT-113 (Keyboarding 2)

Philosophy

Associate of Arts Degree

Transfer Program

The Philosophy program provides excellent preparation for most professions or fields of graduate study, especially business, law, medicine, public administration, and education. Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities.

Completion of the following courses normally fulfills the first half of bachelor degree requirements in Philosophy. Course selections should be tailored to match requirements of the intended transfer institution.

Photography

Associate of Arts Degree

Transfer Program

The photographic image plays a vital role in contemporary society. The photography program focuses on the constantly evolving knowledge, skills, and abilities needed to create visual images that communicate and stand on their own as an art form. The course of study offered at NIC gives students the opportunity to explore their role as photographers capturing images, creating art, and communicating their vision.

Physical Education-K-12 Education Emphasis

Associate of Science Degree

Transfer Program

The associate of science degree is recommended to students pursuing this option.

NIC's Physical Education Department provides students with the competence, confidence, and motivation necessary to ensure health, fitness, and life-long learning. This program is for students interested in pursuing careers in teaching, coaching, athletic training, recreation, fitness, and health promotion fields. Areas of instruction include human movement studies, motivation studies, rules and practice of specific sports, exercise/fitness principles and techniques, basic athletic injury prevention/treatment, and organizing/leading fitness and recreation programs. The suggested coursework normally fulfills the first half of baccalaureate degree requirements for physical education.

Physics/Astronomy

Associate of Science Degree

Transfer Program

Physics is the science that deals with matter and energy and their interactions in selected fields such as mechanics, acoustics, and electricity. A strong background in science and mathematics is important preparation for a college physics program.

Completion of the following courses results in an associate degree with an area of emphasis in Physics. The required coursework normally fulfills the first half of baccalaureate degree requirements in Physics. Course selection should be tailored to match requirements defined by intended transfer institutions.

Political Science and Pre-Law

Associate of Arts Degree

Transfer Program

The Political Science and Pre-Law associate degree transfer program provides a sound foundation toward an undergraduate degree in pre-law, secondary teaching with an emphasis in social studies, international studies and other related social sciences. The Associate of Arts degree program is designed for students that desire transfer to institutions in political science with an emphasis in foreign language skills. The Associate of Science degree program should be pursued by those seeking transfer to political science programs that emphasize work in statistics or research methods. Students are strongly encouraged to check with their undergraduate transfer institution for specific degree and coursework requirements. Please see the American Political Science Association's website at http://www.apsanet.org/content_6718.cfm for a complete list of potential careers with an undergraduate degree in political science. Completion of the suggested coursework results in an associate degree and meets the general core requirements at all Idaho public universities.

Pre-Medical Related Fields

Associate of Science Degree

Transfer Program

The pre-medical field has a wide variety of options, including Pre-Dental Hygiene, Pre-Medical/Pre-Dental Studies, Pre-Optometry, Pre-Pharmacy, Radiologic Technology, Respiratory Therapy, Radiographic Science, Speech Pathology and Audiology, and Sports Medicine. Most professional school admission requirements will be satisfied with a baccalaureate degree in biology or chemistry with substantial coursework in other disciplines. Professional schools are extremely competitive. It is important to contact an advisor at your transfer institution.

Completion of the following courses results in an associate degree with an area of emphasis in Pre-Medical Related Fields. Course selection should be tailored to match requirements of the transfer institution.

Pre-Microbiology/Medical Technology

Associate of Science Degree

Transfer Program

The Pre-Microbiology/Medical Technology program is designed for students who desire professional careers in applications of control and diagnosis of diseases, agriculture, food technology, genetic engineering, environmental/pollution control, clinical lab work in hospitals, public health and research labs, and in industrial and pharmaceutical laboratories.

Completion of the following coursework results in an associate degree with an area of emphasis in Pre-Microbiology/Medical Technology. The required coursework normally fulfills the first half of baccalaureate degree requirements in Microbiology/Medical Technology. Course selection should be tailored to match requirements of intended transfer institutions.

Pre-Nutrition

Associate of Science Degree

Transfer Program

This program is for students who love science, think critically, and want to help others live healthier lives. The required coursework is designed specifically for students who plan on transferring to the University of Idaho - Coeur d'Alene to complete a bachelor's degree in Food and Nutrition.

Completion of the following courses results in an associate of science degree with an area of emphasis in Pre-Nutrition. Course selection should be tailored to match requirements defined by intended transfer institution.

Pre-Physical Therapy

Associate of Science Degree

Transfer Program

This program is designed for students planning to transfer to a major suitable for entry into a physical therapy program. Physical therapy programs are very competitive and typically require an overall GPA of 2.75 or better and a 3.00 GPA in all prerequisite work (i.e., biology, zoology, chemistry, and physics). In addition, 75-80 hours (minimum) of work/observation under the direction of a licensed physical therapist are required for entry into physical therapy programs (may vary with transfer institution).

Completion of the following courses results in an associate degree with an area of emphasis in Pre-Physical Therapy. The required coursework normally fulfills the prerequisite requirements for most physical therapy programs. Course selection should be tailored to match requirements defined by intended transfer institutions.

Pre-Veterinary Medicine

Associate of Science Degree

Transfer Program

The states of Idaho and Washington have an agreement which guarantees a certain number of places in the Washington State University College of Veterinary Medicine to qualified Idaho residents. Normally, students must maintain an overall undergraduate GPA of at least 3.50 in their studies prior to admission to the program. Candidates with greater depth and breadth of academic background are given preference by WSU.

The Graduate Record Examination (GRE) scores must be received by October 1 of the year of application. While students may enter the program following completion of an associate degree program, acceptance is normally not gained until a baccalaureate program is completed.

Completion of the following courses results in an associate degree with an area of emphasis in Pre-Veterinary Medicine. The required coursework normally fulfills the first half of baccalaureate degree requirements in Pre-Veterinary Medicine. Course selection should be tailored to match requirements defined by intended transfer institutions.

Psychology

Associate of Arts Degree

Transfer Program

A baccalaureate degree with a major in psychology provides a solid foundation for many careers that require knowledge of human behavior in areas such as business, industry, government, or the helping professions. Completion of a graduate degree (master's or doctorate) is generally necessary, however, for careers specific to psychology. Therefore, students seriously considering such a career option should maintain a grade point average of 3.00 or higher.

Completion of the following courses normally fulfills the first half of bachelor degree requirements in Psychology. Course selections should be tailored to match requirements of the intended transfer institutions.

Program Requirements

Radiography Technology

Associate of Applied Science Degree

Professional-Technical Program

The Radiography Technology program prepares students to become a radiography technologist and member of a healthcare team. The program integrates knowledge from the biological sciences, social sciences, and math with the theory and practice of radiography technology to prepare students as entry-level technologists. Upon successful completion of this program students will graduate with an associate of applied science degree and be eligible to become certified by taking the registry examination of the American Registry of Radiologic Technologists (ARRT). The Radiography Technology associate of applied science degree program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). Inquiries can be made by contacting JRCERT at 20 North Wacker Drive, Suite 2850, Chicago, IL 60606-3182 or (312) 704-5300 or www.jrcert.org.

Admission Procedures

Application Deadline: Oct. 1, 2010 for acceptance into Spring 2011.

In addition to the regular college admissions requirements, students applying for the Radiography Technology program need to complete a Radiography Technology Application, which consists of:

1. Radiography Technology Program Application. (Applications will be available in the Spring).
2. High school and college transcripts.
3. Personal statement stating reason for applying to the program.
4. Three letters of recommendation submitted with your application.
5. Documentation of Clinical Observation Forms. Points in the selection process will be awarded for job shadowing in a Radiology Department. Forms are available at www.nic.edu and then going to the Radiography Technology program website.

Admission Requirements

1. High school diploma or GED.
2. A minimum cumulative grade point average of 2.50 on required courses.
3. A minimum grade of C or 2.0 must be earned in all required classes.
4. All BIOL courses which were completed more than seven years prior to application to the program must be repeated.
5. Prerequisite Courses: Coursework must be successfully completed by Dec. 17, 2010. Transcripts for all prerequisite courses not completed at NIC must be received in the Admissions Office by Jan. 3, 2011.
 - Algebra competency may be demonstrated by ACT, SAT, or COMPASS score taken in the two years prior to the program application deadline indicating placement above MATH-025 or completion of MATH-025 or MATH-108 or a math class meeting the A.A.S. degree math requirement as listed in the NIC catalog with a grade of C (2.0) or higher.
 - BIOL-227 (Human Anatomy & Physiology I)
 - BIOL-228 (Human Anatomy & Physiology II)
 - CAOT-179 (Medical Terminology). A medical terminology course less than 2 credits must be approved.

Additional Information

Acceptance to the Radiography Technology program is limited. Completion of all admission requirements does not ensure acceptance into the program. Candidates for admission are selected from the pool of qualified applicants using a point-based process. A personal interview will be given for the highest-ranking candidates. The total number of applicants interviewed will be narrowed to a predetermined number based on the number of students accepted. Acceptance into the program will be based on the score the applicant receives in the interview. Currently enrolled students should already have an application fee and transcripts on file.

Notes:

- ¹ This General Education Requirement is met by the Program Requirements.
- ² An approved higher A.A.S. math requirement may be substituted.

Students interested in this program are encouraged to contact the Health Professions Office at (208) 676-7132 or their academic advisor to get the necessary information. It is highly recommended that potential applicants meet with an advisor as they begin planning their pre-radiography coursework.

1. Letters informing students of their application status will be mailed no later than Dec. 3, 2010.
2. The NIC Admissions Office will determine if previous college prerequisites will be acceptable for transfer.
3. All required courses must be completed by the end of the program.
4. Upon acceptance into the radiography program, a criminal background check will be required for participation in clinical rotations.

Resort/Recreation Management

Associate of Applied Science Degree

Professional-Technical Program

This program gives students the necessary skills and certificates needed to obtain employment in the outdoor recreation field. The coursework in this curriculum is primarily field based and leadership development centered. Graduates will have confidence to excel in this growing industry.

Notes:

- ¹ These classes are offered in the Flexible Learning Center. Individuals with prior skills or knowledge should enroll in the class and inquire about a proof of competency exam.
- ² Satisfies the A.A.S. degree general education requirement listed on page 52.
- ³ The mathematics requirement includes any math course that is MATH 123 or higher and meets the A.A.S. degree requirements listed on page 52.
- ⁴ Select from the A.A.S. degree natural sciences requirement listed on page 52.

Social Work

Associate of Arts Degree

Transfer Program

This program is for students planning to transfer to a bachelor's degree program in social work (BSW). Career opportunities in social work include social services at federal, state, and local levels; health care social work in nursing homes, hospitals, and outpatient care facilities; mental health facilities; children and youth services; aging services casework; rehabilitation counseling; juvenile detention; family services; pre-adoption investigation; drug and alcohol counseling; group home casework and counseling; and employee assistance counseling. Completion of the following courses results in an associate degree and meets the general core requirements at Idaho public universities. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in social work. Course selection should be tailored to match requirements defined by intended transfer institutions. Students planning to attend Lewis-Clark State College should pursue the associate of science degree program.

Program Requirements

Sociology

Associate of Arts Degree

Transfer Program

Sociology is largely concerned with the study of American society and how it operates today. Graduates may work in society-related activities including sociology, social work, criminology, teaching, and a wide range of social service professions. Completion of the following courses results in an associate degree and meets the general core requirements at all Idaho public universities. The suggested coursework normally fulfills the first half of baccalaureate degree requirements in Sociology.

Theatre

Associate of Arts Degree

Transfer Program

This program is designed for students who want to emphasize the theatre arts in the planning of their undergraduate degree. Emphasis is placed on the theatre arts as a valuable study for a wide range of career choices. Theatre arts at NIC are not restricted to those who would like to make theatre a profession. Rather, through the study of communication, literary, physical, technical and psychological/emotional skills, theatre prepares students for success in many different professions. There are no program prerequisites. Previous experience is helpful. Scholarships are available. Participation in theatre requires some evenings and some weekends.

Virtual Administrative Assistant

Technical Certificate

Professional–Technical Program

The Virtual Administrative Assistant certificate is designed for students to develop administrative support skills that can be delivered virtually. These skills include in-depth computer applications, desktop publishing, transcription, and other general clerical skills. Graduates of this program have opportunities to work as employees who telecommute or are independent contractors providing much-needed administrative support skills to a wide variety of organizations.

Welding Technology

Technical Certificate

Professional-Technical Program

The Welding Technology program is designed to prepare students for entry-level employment. The program complies with national standards established by the American Welding Society (AWS). It combines theory and applied shop practice designed to develop welding skills. Students receive instruction on welding processes including OAC (oxy-acetylene cutting), SMAW (shielded metal arc welding), GMAW (gas metal arc welding), and GTAW (gas tungsten arc welding), as well as blueprint reading, layout procedures, metallurgy, and safety.

Successful completion of each semester and/or permission of the instructor is required for acceptance into the next semester. Placement in specific English and math courses is determined by the college assessment test. Prospective students who do not meet the initial eligibility requirements for a professional-technical limited-enrollment program will need to take selected courses to receive necessary skill building prior to entering the program (see page 45).

Note: Current industry professionals may enroll in individual courses on a space-available basis and with the instructor's permission.

- ² Satisfies A.A.S. degree requirement.
- ³ Select from A.A.S. degree general education requirements listed on page 52.

North Idaho College 2010-2011

Course Descriptions

Course Descriptions 2010-2011

DEFINITIONS

Corequisite

A corequisite in the course description means there is a requirement to enroll concurrently in another course or courses unless the corequisite has been previously completed with at least a "C-" grade.

Prerequisite

A prerequisite in the course description means there is a requirement that must be met prior to enrolling in the course. This may include, but is not limited to: completion of other courses, acceptance in certain programs, sophomore standing, instructor permission, and prescribed test scores. If the prerequisite is another course, then that course must have been completed with a minimum grade of "C-" in order to satisfy the pre-enrollment requirement.

Recommendation

A recommendation in the course description identifies previously established skill levels or completed courses that are important in assuring a successful enrollment. Recommendations should be carefully considered, but are not required.

COLLEGE-WIDE COURSE NUMBERS

203-Workshop

Credits arranged

Certain courses that are of a short duration are typically called workshops. They can be conducted by qualified NIC faculty members or other authorities in a particular field. Six credits maximum may be applied toward graduation.

Prerequisite: Permission of the instructor.

097, 197, or 297 Special Topic

Credits arranged

Special topic courses are semester-length courses dealing with unique subjects or timely topics conducted by qualified faculty or authorities in a particular field.

290-Internship

An internship is an off-campus experience directed by an on-site supervisor, but overseen by a faculty member designated to provide the student with an opportunity to observe and/or participate in a job-related activity that falls within the student's field of study. Six credits maximum may be applied toward graduation.

Prerequisite: Permission of the instructor

298-Practicum

A practicum is an out-of-classroom experience designed to give the student an opportunity to apply principles learned in academic course work to specific community-related or employment-related situations. Practicums are overseen by a faculty member. Eight credits maximum can be applied toward graduation.

Prerequisite: Permission of the instructor

299-Independent Study

Credits arranged

Independent study includes individual study involving reading or a project and is offered on demand only. Six credits maximum may be applied toward graduation. Contact the Registrar's Office for Independent Study Guidelines. Enrollment is accepted the first four weeks of each semester or the first two weeks of Summer Session.

ACCOUNTING

ACCT-110

3 Credits

Small Business Accounting

ACCT-110 is an introduction to accounting procedures for individual proprietorship businesses. Emphasis is on the accounting cycle, double-entry accounting system, special journals, payroll, and systems and procedures for handling accounting problems associated with small businesses. Accounting for both service and merchandising businesses will be included in this course. Students will practice proper accounting procedures manually, on spreadsheet software, and accounting software. This course is required for students in all Business and Office Technology programs and the Accounting Assistant program. It is also helpful to those who want to upgrade business skills for improved employability. Students may not receive duplicate credit for ACCT-110 and ACCT-201.

Lecture/Lab: 3 hours per week

Corequisite: CAOT-130

ACCT-111

3 Credits

Small Business Accounting II

ACCT-111 is a continuation of ACCT-110 with an introduction to accounting procedures for partnerships and corporations. Emphasis will include asset valuation, inventory valuation, and financial statement analysis for small businesses. This course is required for students in the Accounting Assistant Program and others who want to upgrade business skills for improved employability.

Lecture/Lab: 3 hours per week

Prerequisite: ACCT-110

ACCT-113

3 Credits

Payroll Accounting

ACCT-113 provides an in-depth study of payroll procedures. Included are a discussion of employees and independent contractors, how to calculate gross wages for hourly and salaried employees, mandatory and voluntary withholdings, employer taxes, recording payroll, and state and federal record keeping requirements. Current tax rates and current tax forms will be used. Some emphasis will be placed on computerized payroll accounting. Completion of a payroll practice set is required.

Lecture/Lab: 3 hours per week

Prerequisite: ACCT-110

ACCT-138

3 Credits

Accounting for Managers

This course is an introduction to accounting from a user's perspective. Students will explore accounting information's role in the decision-making process and how to use various types of accounting information found in financial statements and annual reports. This course will emphasize what accounting information is, why it is important, and how it is used by economic decision makers. This course is required in the Resort/Recreation Management program. Understanding how accounting information can be used to make better business decisions can benefit all students, regardless of their major course of study or chosen career. Prior completion of other courses is not required.

ACCT-140
3 Credits
QuickBooks Pro

ACCT-140 is an introduction to accounting and computers using QuickBooks. The course will focus on accounting for service and merchandising businesses with emphasis on sales and receivables, purchases and payables, general accounting, payroll accounting, and end-of-period procedures. Computerizing a manual accounting system will also be discussed.

Lecture/Lab: 4 hours per week

Prerequisite: ACCT-110

ACCT-150
1 Credit
10-Key Skill Building

This course is a self-paced course provided by online delivery. It is intended to introduce the methods used for 10-key data entry and calculators using a computer program and number key pad. Students must master the correct keystrokes and a minimum speed of 9,000 keystrokes per hour with no mistakes for minimum successful completion (a passing grade of C). Students must be in the Accounting Assistant program.

Lab: Online delivery

Recommended: CAOT programs and some keyboarding proficiency.

ACCT-201
3 Credits
Principles of Accounting

ACCT-201 is an introduction to contemporary financial accounting. It emphasizes basic terminology and concepts, the theoretical framework of double entry accounting, and descriptions and derivation of the primary financial statements prepared by accountants. This course is included in the Business Education and Business Administration curricula. It fulfills the accounting course requirement for all Business and Office Technology programs. Upon completion of ACCT-201 students may not receive credit for ACCT-110 and/or ACCT-111.

Lecture/Lab: 3 hours per week

ACCT-202
3 Credits
Managerial Accounting

ACCT-202 is a continuation of ACCT 201 with emphasis on accounting theory and procedures relating to corporations. Manufacturing accounting and accounting for managerial decision making, including analysis and interpretations of financial statements and introduction to cost behavior is emphasized. This course is included in the Business Education and Business Administration curricula.

Lecture/Lab: 3 hours per week

Prerequisite: ACCT-201

ACCT-244
3 Credits
Credit and Collections

ACCT-244 is an introduction to credit and its role in the economy. The topics to be covered will include understanding consumer and business credit, management and analysis of consumer and business credit, international trade credit, and collection management and control. Focus will be on decision making in granting credit and collection policies and procedures including current laws affecting collections.

Lecture: 3 hours per week

Prerequisite: ACCT-111

ACCT-246
3 Credits
Current Business Taxes

ACCT-246 provides necessary information to bookkeepers and business owners about local, state, and federal taxes that are currently

paid by area businesses. The course will examine business licenses, property tax, sales and use tax, income tax on corporations and payroll related taxes. Other federal compliance reports will also be discussed. Current tax rates and current tax forms will be used. Guest speakers will explain the history, current taxing environment, and benefits related to particular taxes.

Lecture: 3 hours per week

Prerequisite: ACCT-111

ACCT-248
4 Credits
Accounting Internship

ACCT-248 is the capstone course for the Accounting Assistant Program and should be taken after the completion of all required accounting courses. This course consists of on-campus meetings, as well as 135 hours of an off-campus internship which allows for the practical application of concepts learned throughout the program. Emphasis will be on accounting records of an existing business, records management, efficient telephone use, employee/employer relations, customer service, resumes, cover letters, interview techniques, and stress/time management.

Lecture: 15 hours

Internship: 135 hours of site work

Prerequisite: ACCT-113, ACCT-140, ACCT-244, ACCT-246

ALLIED HEALTH

ALTH-103
1 Credit
Mental Fitness and Aging

Students will explore current scientific understandings of how life-style behaviors, brain exercises, and memory boosting practices can maintain or even enhance our thinking processes as we age. Within a holistic perspective, strategies that support memory function will be emphasized. Students will be invited to participate in exercises that support these brain functions and will leave the class with a variety of resources for individual use.

Lecture: 1 hour per week

ALTH-104
1 Credit
**Saturday at the Movies
for Older Adults**

This course is designed for older adults wishing to discuss movies of interest, including those with aging-related themes. Films will vary year to year, based on student interest and film availability. Examples include Surfing for Life, On Golden Pond, Nobody's Fool, Young at Heart, The Bucket List, Steel Magnolias, etc. Discussion topics are likely to include myths and realities of aging, relationships with family and friends, the joys and challenges of coping with aging and loss, traditions of the past compared to the pressures of today, aging as a journey of the soul, and finding and maintaining your life's passions.

Lecture: 22 hours

ALTH-105
2 Credits
Infection Prevention

This course is an introduction to concepts regarding infection/prevention and control with major emphasis on the blood-borne pathogens HIV and Hepatitis B. Modes of transmission, prevention and OSHA standards for blood-borne pathogens, basic pathophysiology of HIV and Hepatitis B, and current treatments will be defined. Psychosocial, legal, and ethical issues about these diseases will also be discussed.

Lecture: 2 hours per week

ALTH-106
2 Credits**Working in Health Care**
(Formerly ALTH 101 and ALTH 102)

ALTH-106 exposes students to the structure, driving forces, concepts, and expectations of the health care system so that they can evaluate whether a health career will be a good fit for their interests and aptitudes. In addition to developing an understanding of the health care delivery system, students will participate in career exploration and development exercises, conduct informational interviews on selected health careers, and virtual or in-person health care facility tours.

Lecture: 2 hours per week

ALTH-107
1 Credit**Communication for Health Professionals**

This lecture/discussion course provides allied health students the opportunity to develop communication skills necessary for effective helping and teamwork relationships. This course is required for Practical Nursing and Medical Assistant program completion.

Lecture: 2 hours per week for 8 weeks

ALTH-110
2 Credits**Over the Counter and Herbal Medications**

This course provides an overview of the significance of over-the-counter (OTC) and herbal drug therapy in our society. The role of the pharmacy technician in selling and providing information about OTC and herbal therapy will be reviewed. Therapeutic drug classifications, indications, dosage forms, major ingredients, common side effects, and significant drug interactions will be covered for OTC drugs. For herbal medications, students will learn to associate the names of herbal medications with common uses, recognize potential adverse effects, and be aware of potential drug interactions between herbs and conventional medication. Federal regulation of OTC and herbal medications will be reviewed.

Lecture: 2 hours per week

ALTH-115
3 Credits**Human Body Structure and Function**
(Previously PN 104)

This course is a presentation of the essential anatomy and physiology of the human body. All body organ systems are discussed in a format of lecture, diagrams, and audiovisual materials. The course will introduce some aspects of chemistry and microbiology as it relates to health care. Knowledge of the anatomy and physiology of the human body as a basis for later study of disease processes is an essential part of the curriculum for students in the nursing profession. This course is limited to Practical Nursing students only.

ALTH-130
5 Credits**Nursing Assistant (CNA)**

This course serves as an introduction to health care as a provider. It prepares students to provide basic physical and environmental care for individuals in a variety of health care and home care settings. The course is designed as competency-based education, meaning that students will be required to demonstrate the knowledge and skills they have acquired. At the completion of this course, students will be eligible to take the state mandate written and clinical skills exams. Successful completion of the state exams meets the requirements of P.L. 100-203, Omnibus Budget Reconciliation Act (OBRA) of 1987.

Lecture: 4 hours per week

Lab: 4 hours per week

AMERICAN INDIAN STUDIES**AIST-101**
3 Credits**Introduction to American Indian Studies**

This course provides a general overview of Indian history, culture, philosophy, religious practices, music, art, literature, tribal law, government, and sovereignty. The course will focus on both traditional and contemporary cultures with an emphasis on issues in American Indian life. The course will also cover the origins and development of content and method in American Indian studies, focusing on patterns of persistence and change in American Indian communities, especially political, linguistic, social, legal, and cultural change. This course satisfies the Cultural Diversity requirement for the A.A. degree and partially satisfies the Social Science requirement for the A.S. degree.

Lecture: 3 hours per week

Recommended: Completion or concurrent enrollment in ENGL-101 and ANTH-101

ANTHROPOLOGY**ANTH-101** Introduction to Physical Anthropology
3 Credits

This course offers instruction in how the human species has developed over the past five million years. Information includes the African fossil finds, possible ancestors of the first humans, how human populations may differ from each other biologically, and the development of human abilities to live in all of earth's environments. This class satisfies a social science course requirement for the A.A. and A.S. degrees.

Lecture: 3 hour per week

ANTH-102
3 Credits**Introduction to Social and Cultural Anthropology**

ANTH-102 is a study of human culture which involves the information and techniques people use to survive and get along with each other. Included are examples from exotic peoples around the world in the areas of religion, magic, kinship, coming of age ceremonies, marriage rituals, economic activities, hunting techniques, etc. The course includes a broad understanding of how human beings live and how human customs vary throughout the world. This class satisfies a social science course requirement for the A.A. and A.S. degrees.

Lecture: 3 hours per week

ANTH-225
3 Credits**Native People of North America**

This course offers an examination of who the North American Indians are and who they were. Various facets of Indian culture are explored, including hunting, religion, art, living styles, foods, and relationships between the Native American tribes both now and in the past. ANTH-225 is an interesting course for students curious about Native Americans and their relationship with the environment. This course satisfies the Cultural Diversity requirement for the A.A. degree or three social science credits toward an A.S. degree.

Lecture: 3 hours per week

ANTH-230
3 Credits**Introduction to Archaeology and World Prehistory**

This course offers classroom instruction in the ways archaeologists unearth the remains of ancient peoples. Included is a brief

look at what those archaeologists have discovered in various places throughout the world from the earliest stone tools to the invention of agriculture. ANTH-230 is an interesting course for those students curious about the human past in both the Old and New Worlds, as well as students wishing to satisfy the Group 4 Social Science requirement for the A.A. degree or three social science credits toward an A.S. degree.

Seminar: 3 hours per week

ANTH-299 **Independent Study: Readings in the History of Anthropology**

3 Credits

This course is an individual study in which students complete readings from books relating to the development of modern anthropological thinking. Students will prepare a document based on those readings. This course is intended for anthropology majors wishing to transfer to B.A. granting institutions.

Instructor Contact: 3 hours per week

Prerequisite: ANTH-101, ANTH-102, ANTH-230, and ENGL-102

ART

ART-100 **Survey of Art**

3 Credits

ART-100 is designed to create a greater aesthetic understanding and appreciation of the various visual arts. Emphasis will be on painting, sculpture, architecture, and related art forms. When appropriate, gallery tours, films, and visiting artists will be included. A basic understanding of visual art coordinates with the principles emphasized in studio art classes. This course is appropriate for both non-art students and art majors who wish to view art with greater awareness and respond to and evaluate art, with approaches that are both objective and critically subjective. It satisfies an arts and humanities course requirement for A.A. and A.S. degrees.

Lecture: 3 hours per week

ART-101 **History of Western Art I**

3 Credits

This course offers an historical overview of the development of Western visual art in its principal phases from prehistoric societies to the 12th century AD. The arts of these cultures will be examined through the analysis of major monuments of architecture, sculpture, and painting with specific attention to the communicative function of the work of art in relation to its society. ART-101 expands an understanding in the visual arts and the societies that produced them, enables the student to make connections to contemporary society and culture, and increases individual aesthetic concepts. It satisfies an arts and humanities course requirement for the A.A. and A.S. degrees.

Lecture: 3 hours per week

ART-102 **History of Western Art II**

3 Credits

Survey of Art II offers an historical overview of the development of Western painting, sculpture, and architecture from the Renaissance to the present with emphasis on the struggle to find a universal and unified visual language for a world of changing values, new institutions, and unprecedented diversity. This course creates a higher understanding of the parallels and interconnections of visual art and the societies that made them. It enables students to thoughtfully view creative expression in its communicative function in relation to contemporary society and culture. This course satisfies an arts and

humanities course requirement for A.A. and A.S. degrees.

Lecture: 3 hours per week

ART-111 **Drawing I**

2 Credits

Offered Each Semester

Drawing I offers beginning experiences in the concepts of composition, line, value, form, perspective and texture, introduced through the use of still life, nature, and the model. The media used include charcoal, conte, pencil, and dry pastels. This course is also fundamental for the Graphic Design program and for transfer programs in fine arts and architecture. The concepts covered in this course will help students develop a visual vocabulary as well as a heightened ability to "see" and respond creatively.

Lecture/Lab: 4 hours per week

ART-112 **Drawing II**

2 Credits

ART-112 is a continuation of ART-111 with an emphasis on personal artistic expression and imagery. Students will be exposed to a variety of drawing mediums and approaches to the picture plane. Traditional, as well as contemporary trends in drawing, will be explored. The course is fundamental for the Graphic Design program, for transfer programs in fine arts and architecture, and for personal enjoyment.

Lecture/Lab: 4 hours per week

Prerequisite: ART-111

ART-121 **2D/Design Foundations**

3 Credits

This course offers instruction in the design process with consideration of abstract/concrete and intangible/tangible elements. These design elements are explored through various media in two-dimensional problems. ART-121 helps students to channel conceptual thinking and to organize and master skills of the basic elements of art. The course is necessary for the artist/designer in all fields. It is a required course in the Graphic Design program and for some transfer programs.

Lecture/Lab: 5 hours per week

ART-122 **3D/Design Foundations**

3 Credits

ART-122 offers instruction in the use of basic art fundamentals as applied to three-dimensional art work and the creative concepts evolving from these properties. This course helps students to channel conceptual thinking and organize and master skills of the basic elements of art as they relate to three-dimensional expression. Design II is important for artists and designers in all fields and is a required course in the Graphic Design program and for some transfer programs.

Lecture/Lab: 5 hours per week

ART-217 **Life Drawing I**

3 Credits

Life Drawing I offers an exploration of various media to develop an artistic understanding of the human form. Emphasis will include both anatomical analysis and interpretive drawing of the undraped and draped model. ART-217 helps to develop eye/hand coordination that is important for careers in applied arts and fine arts. ART-217 or ART-218 are required courses in the Graphic Design program.

Lecture/Lab: 5 hours per week

Prerequisite: ART-111 and ART-112

ART-218
3 Credits**Life Drawing II**

Life Drawing II is an exploration in the artistic expression of the draped and undraped human form. Included will be drawing in various media from the model with an emphasis on personal interpretation. ART-218 offers a basis for development in any of the visual arts. The course equally accommodates the gestural artist and the technical illustrator. ART-218 or ART-217 are required courses in the Graphic Design program.

Lecture/Lab: 5 hours per week

Prerequisite: ART-111 and ART-112

ART-231
3 Credits**Beginning Painting I**

Beginning Painting I develops competence with the oil paint medium through specific assignments designed to emphasize composition and the fundamentals of painting and color. Attention is given to visual thinking, exploration, exposure to materials, and technical procedures. The course is structured around individual instruction and group critiques. ART-231 helps develop ideas and competence with a creative medium. It promotes the articulation of feelings and objectives through a descriptive visual vocabulary. ART-231 or ART-232 are required courses in the Graphic Design program. Class supplies are to be purchased by the student.

Lecture/Lab: 5 hours per week

ART-232
3 Credits**Beginning Painting II**

ART-232 offers additional instruction in the knowledge and understanding of the paint medium with special emphasis on personal development. The course is structured around personal instruction and group critiques. Beginning Painting II encourages divergent thinking and different approaches with the medium through the presentation of abstract concepts. ART-232 or ART-231 are required courses in the Graphic Design program. Class supplies are to be purchased by the student.

Lecture/Lab: 5 hours per week

ART-241
3 Credits**Sculpture I**

Sculpture I provides an introduction to ideas and materials designed to facilitate the student's response to three-dimensional forms. Emphasis is on concepts of modeling, carving, and constructing. This course promotes confidence for the three-dimensional artist through technical fundamentals. It is a recommended elective for the Graphic Design program.

Lecture/Lab: 5 hours per week

ART-242
3 Credits**Sculpture II**

ART-242 is a continuation of Sculpture I. The course explores problems of greater complexity through both technical and personal involvement. The course further develops the necessary skills for three-dimensional work. It is a recommended elective for the Graphic Design program.

Lecture/Lab: 5 hours per week

ART-245
3 Credits**Intermediate Painting I**

This course is structured to meet students' needs and interests with an emphasis on creative expression and exploration beyond the visual image. The course includes individual instruction and group critiques. It promotes an appreciation for the complexity of the medium and

the range of possibilities associated with it. It is intended for the intermediate student who has a firm understanding of the properties and fundamentals of this studio discipline and is a recommended elective for the Graphic Design program. Class supplies are to be purchased by the student.

Lecture/Lab: 5 hours per week

Prerequisite: ART-231, ART-232

ART-246
3 Credits**Intermediate Painting II**

Intermediate Painting II is a continuation of ART-245. The course focuses on developing students' greater understanding of personal intent, continuing creative expression, and exploration beyond the visual image. The course offers individual instruction and group critiques. Class supplies are to be purchased by the student. It is a recommended elective for the Graphic Design program.

Lecture/Lab: 5 hours per week

Prerequisite: ART-231, ART-232

ART-251
3 Credits**Printmaking I**

Printmaking I explores the relief printmaking processes of woodcut, linocut, wood engraving, and collagraph. Emphasis is on developing compositional and design skills using the various methods, techniques, and exploration of materials. Additional focus will be placed on the historical influence of each medium and its relationship to other artistic expressions. The course is structured around individual instruction, group critiques, lectures/slides, and studio time. ART-251 is a recommended elective for the Graphic Design program.

Lecture/Lab: 5 hours per week

ART-252
3 Credits**Printmaking II**

Printmaking II provides additional exploration of the relief printmaking process. While concentrating on linocuts and one other medium of choice, the class explores various techniques and methods of printmaking. Focus is on developing compositional and design skills, using color, and developing personal expression. The course is structured around individual instruction, group critiques, lectures/slides, and studio time. ART-252 is a recommended elective for the Graphic Design program.

Lecture/Lab: 5 hours per week

ART-253
2 Credits**Letterform Design**

ART-253 offers instruction in type styles and design. The course includes characteristics of letters in relationship to technical, free style, and creative letter rendering as they apply within the graphic design and illustration fields. Letterform Design provides a fundamental knowledge of hand lettering.

Lecture/Lab: 4 hours per week

ART-261
3 Credits**Ceramics I**

Ceramics I introduces the student to wheel-thrown and handbuilt clay forming techniques, ceramic design concepts, and glaze experimentation. Emphasis is on the development of fundamental skills and understanding the creative potential of clay. This course helps develop sensitivity of design and aesthetics for the clay objects we use daily. The course enhances an appreciation for the creative process and establishes the student as a designer/craftsperson. It is a recommended elective for the Graphic Design program and a

fundamental course for transfer art majors or minors.

Lecture/Lab: 5 hours per week

ART-262
3 Credits

Ceramics II

ART-262 is a continuation of Ceramics I and is structured to develop the creative potential of the student using the medium of clay as a vehicle of communication. The course focuses on continued development of fundamental skills and expressive use of materials. Additional emphasis is placed on establishing individual design criteria and expanding awareness of aesthetic qualities of ceramics as art forms or as utilitarian vessels. This is a recommended elective for the Graphic Design program and may be repeated for a total of 12 credits.

Lecture/Lab: 5 hours per week

Prerequisite: ART-261

ART-281
3 Credits

Watercolor I

Watercolor I introduces the student to a water-based medium that includes the application of visual and tactile elements and the functions of design. Emphasis will be on visual thinking, exploration, exposure to materials, and technical approaches. Individual instruction and group critiques are utilized. ART-281 helps to develop an appreciation for complexities and the potential for creative expression. Class supplies are to be purchased by the student.

Lecture/Lab: 5 hours per week

ART-282
3 Credits

Watercolor II

ART-282 offers additional instruction in watercolor design to increase student awareness, knowledge, and understanding of the medium's potential. This course introduces mixed media for the purpose of combining with the watercolor medium. Individual approaches are encouraged and personal development is emphasized. This course helps to develop different approaches and divergent thinking through the presentation of abstract concepts. Class supplies are to be purchased by the student.

Lecture/Lab: 5 hours per week

AUTOMOTIVE TECHNOLOGY

NOTE: Course enrollment requires prior acceptance into the Automotive Technology Program. Successful completion of each semester and/or permission of the instructor is required for enrollment in the next semester.

AUTO-105
1 Credit

**Orientation, Safety,
General Shop Practices**

This course will introduce students to on-campus services including the library and College Skills Center. It will teach students about the industry, including wages, job opportunities, and the nature of the work. This course will also give instruction about safety equipment and procedures. Instruction will be given in a variety of general shop practices such as drilling and tapping holes and drilling out broken bolts. Students will also work on Heli-coils, double flares, soldering, and the care of equipment and floors.

AUTO-113L
2 Credits

Automotive Lab I

This course gives students hands-on exposure in a shop setting to those subjects covered in AUTO-105 and AUTO-130 theory classes. Instruction utilizes a variety of mock-ups, training aids, components,

and live work. The student will be able to explain and demonstrate proper safety precautions when lifting and supporting a vehicle, or using tools and equipment, or handling asbestos-containing materials.

Lab: 105 hours total

AUTO-114L
2 Credits

Automotive Lab II

This course gives students hands-on exposure in a shop setting to those subjects covered in AUTO-123 theory classes. Instruction utilizes a variety of mock-ups, training aids, components, and live work. The student will be able to explain and demonstrate proper safety precautions when lifting and supporting a vehicle, or using tools and equipment, or handling asbestos-containing materials.

Lab: 105 hours total

AUTO-116L
5 Credits

Auto Lab

This course will give the students hands-on exposure in a shop setting to those subjects covered in AUTO-126 and AUTO-141 theory classes. The instruction will utilize a variety of mock-ups, training aids, components, and live work. The student will be able to explain and demonstrate proper safety precautions when lifting and supporting a vehicle, using tools and equipment, or handling asbestos-containing materials.

AUTO-123
5 Credits

Brakes/Powertrain

This course will teach students the principles of hydraulic brakes and friction, as well as the operation and construction of drum and disc brake systems. Students will also learn the operation, construction and repair of clutch systems, drivelines, and constant velocity joints.

AUTO-126
3 Credits

Steering, Suspension, and Alignment

This course will teach the various steering and suspension systems used on today's cars and light trucks. The construction, service and repair of components will be taught along with their relation to the steering geometry of the vehicle. In-depth instruction will be given to four-wheel alignment principles using the Hunter D-111 Computerized Alignment machine.

AUTO-130
4 Credits

Gas Engine Fundamentals

This course will teach the student how to identify, repair, or replace components as necessary on gasoline engines. The four-stroke cycle and accompanying valve action will be taught, as well as the construction, operation, and servicing of cooling and lubrication systems. The student will learn proper engine disassembly, measuring, machining, and assembly procedures.

AUTO-141
6 Credits

Electrical System Fundamentals

This course will cover basic electrical theory, including types of circuits and components, as well as batteries, starter, and charging systems. Students will also learn about wiring schematics and diagrams, along with the 25 most common car wiring systems.

AUTO-210
2 Credits

Advanced Electrical

Students will explore a variety of accessory electrical circuits. Some of these include windshield wipers, power windows, door locks,

seats, and cruise control systems, as well as in-depth instruction on troubleshooting procedures and theories.

AUTO-215L **Advanced Auto Lab**
5 Credits

Students will perform troubleshooting on computerized engine controls on live vehicles that have been “bugged” by the instructor. Students will use various scanners and electronic test equipment typically used in the industry to diagnose the “bugs.”

AUTO-216L **Advanced Auto Lab**
5 Credits

This course will give students hands-on exposure in a shop setting to those subjects covered in AUTO-260, AUTO-270, and AUTO-280 theory classes. Instruction will utilize a variety of mock-ups, training aids, components, and live work.

AUTO-222 **Engine Performance**
5 Credits

This course will teach basic combustion theory, general tune-up procedures, as well as the various ignition systems used on today's cars. The use of electronic engine analyzers and the reading of scope patterns will also be taught. Instruction will include emission control systems and related regulations, as well as the use of the four-gas analyzer. Students will learn about “drivability” and how each of the systems work together to produce it.

AUTO-250 **Computer Controls**
2 Credits

The theory and systems of automotive computer controls will be covered including the various sensors and output devices. The use of scanners, computerized engine analyzers, and a multitude of special tools will also be taught.

AUTO-260 **Computer Controlled Systems**
4 Credits

Students will receive instruction on various automobile systems that are computer controlled such as fuel injection, anti-lock brakes, supplemental inflatable restraints, On-Board Diagnostics (OBD) II and III, and current industry trends.

AUTO-270 **Trans/Transaxle**
4 Credits

This course will cover the general theory of manual and automatic transmission and transaxle operation, as well as differential and four-wheel drive systems. Students will learn appropriate testing, disassembly, and repair procedures.

AUTO-280 **Heating, Ventilation, Air Conditioning**
2 Credits

Students will receive instruction in heating and air conditioning theory, as well as the use of equipment related to the evacuating, recycling, and recharging of air conditioning systems. The course will cover both R-12 and R-134A refrigerant handling.

BIOLOGY

BIOL-100 **Fundamentals of Biology**
4 Credits

This introductory course provides a general overview of evolution, the five kingdoms, DNA, cell structure, genetics, and human systems. BIOL-100 is designed to give non-biology majors a better understanding and appreciation of the living world. It is not intended as

a preparation for BIOL-115 or BIOL-175.

Upon completion of BIOL-115 or BIOL-175, BIOL-100 will count as elective science credits only and will not satisfy core lab science credits. This course may not be accepted as fulfilling biology course requirements for biology majors or some medical programs. Students should get clearance from their prospective transfer institution prior to taking this course. This course satisfies a laboratory science course requirement for the A.S., A.A., and A.A.S. degrees except after completing BIOL-115 or BIOL-175.

Lecture: 3 hours per week

Corequisite Lab: 2 hours per week (BIOL-100L)

BIOL-101 **Forestry Orientation**
1 Credit

BIOL-101 is an introduction to forestry and related natural resources management professions. Students will explore various career opportunities in natural resource management. This course does not fulfill a lab science requirement for an associate degree.

Lecture: 1 hour per week

BIOL-105 **Health Talk Seminar Series**
1 Credit

This course is a seven evening exploration into conditions which affect our health and well being. It is presented in a seminar fashion with questions and answers following a presentation by guest speakers. Seven topics will be selected from subjects such as depression, hypertension, cardiovascular disease, stroke, diabetes, obesity, arthritis, Parkinson's disease, food allergies, asthma, osteoporosis, multiple sclerosis, eye disorders, back problems, and sinus conditions.

Lecture: 14 hours per semester

BIOL-115 **Introduction to Life Sciences**
4 Credits

BIOL-115 is an introduction to the fundamental principles that govern living organisms, including molecular biology, cell biology, homeostasis, reproduction, genetics, and evolution. **Upon completion of BIOL-100 or BIOL-175, BIOL-115 will count as elective science credits only and will not satisfy core lab science credits.** It satisfies a laboratory science course requirement for the A.S., and A.A., degrees.

Lecture: 4 hours per week

Corequisite Lab: 3 hours per week (BIOL-115L)

Recommended: One year high school biology or chemistry

BIOL-175 **Human Biology**
4 Credits

This introductory course provides a general overview of the structure, function, healthy maintenance, and common diseases of the human body. BIOL-175 is designed to give the non-biology major a better understanding and appreciation of the human body.

Upon completion of BIOL-100 or BIOL-115, BIOL-175 will count as elective science credits only and will not satisfy core lab science credits. This course may not be accepted as fulfilling the course requirements for some medical programs. Students should get clearance from their prospective transfer institution prior to taking the class. This course satisfies lab science course requirements for the A.A., A.S., and A.A.S. degrees except after completing BIOL-100 or BIOL-115.

Lecture: 3 hours per week

Corequisite Lab: 3 hours per week (BIOL-175L)

BIOL-202
4 Credits
General Zoology

This course presents a survey of the animal kingdom from invertebrates through the vertebrates. It includes classification, structure, physiology, histology, reproduction, embryology, and life histories of representative forms of the major animal groups and their relationship, application, and economic importance to man. This course is often required for students in medicine, dentistry, optometry, pharmacy, veterinary medicine, certain forestry options, medical technicians, and biology majors. Students should get clearance from their prospective transfer institution prior to taking this course to assure that it is a requirement. This course fulfills a laboratory science requirement for the A.S., A.A. and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: Two 2-hour labs per week (BIOL-202L)

Recommended: BIOL-100 or BIOL-115

BIOL-203
4 Credits
General Botany

BIOL-203 is an introduction to the plant kingdom starting with the bluegreen algae or cyanobacteria and progressing in an evolutionary fashion through gymnosperms and angiosperms. When possible, each group is related to the higher plants. The course is designed for individuals pursuing a degree in biology, botany, agriculture, or forestry, and for others interested in a survey of the plant kingdom. BIOL-203 satisfies a lab science course requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: One 3-hour lab per week (BIOL-203L)

Recommended: BIOL-100 or BIOL-115

BIOL-205
4 Credits
General Soils

This course is an introduction to the basic physical, chemical, and biological properties of soils and land resources. BIOL-205 emphasizes is on the fundamental principles of soil processes and soil formation with examples drawn from numerous disciplines. This course is designed for a variety of majors such as crop sciences, forestry, landscape architecture, wildlife and fisheries, agribusiness, biosystems engineering, or agricultural education. This course satisfies the laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: 3 hours per week (BIOL-205L)

Prerequisite: CHEM-101 or CHEM-111

BIOL-207
3 Credits
Concepts in Human Nutrition

BIOL-207 offers instruction in basic nutrition concepts, current nutritional controversies, and food selection for individual needs. Topics covered include carbohydrates, fats, proteins, vitamins, minerals, energy balance, vegetarian diets, product labels and additives, life cycle needs, and diets for athletes. Individual dietary habits will be closely examined through a self-evaluation of personal diet studies. BIOL-207 provides important basic knowledge in making personal dietary decisions. This course does not fulfill a lab science requirement for an associate degree.

Lecture: 3 hours per week

BIOL-221
4 Credits
Forest Ecology (Same as BIOL-231)

Forest Ecology is an introduction to the relationships among living and non-living components in the environment, including an

examination of the processes which influence the distribution of plant and animal communities. This course exposes students to fundamental principles of ecology used in careers in natural resource management. It fulfills a science requirement for the A.A., A.S., and A.A.S. degree. This course is designed for forestry and biology majors with applications for pre-agriculture, zoology, environmental science, and botany disciplines.

Lecture: 3 hours per week

Corequisite Lab: 3 hours per week (BIOL-221L)

Prerequisite: BIOL-115

BIOL-227
4 Credits
Human Anatomy and Physiology I with Cadaver

This course offers a homeostatic approach to the study of the human body from the level of the cell to organ systems with emphasis on normal structure and function, as well as selected physiological imbalances. Systems covered include integument, skeletal, muscular, and nervous. It is designed primarily for students enrolled in health-related fields. Human Anatomy and Physiology will give students a strong background in the fundamentals of structure and function of the body. All aspects of life processes will be covered in a manner that should interest students wishing to take a science elective, as well as those in the health-related areas. The laboratory sessions require preserved cat dissection and identification of anatomical structures on prosected cadaver. This course fulfills a laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: 3 hours per week (BIOL-227L)

Recommended: BIOL-100 or BIOL-175

BIOL-228
4 Credits
Human Anatomy and Physiology II with Cadaver

This course is a continuation of BIOL-227. Systems covered include cardiovascular, digestive, urinary, respiratory, and reproductive, as well as the sense organs and metabolism. It is designed for students enrolled in health-related fields. This course gives students a strong background in the fundamentals of the structure and function of the body. All aspects of life processes will be covered in a manner which should interest students wishing to take a science elective, as well as those in the health-related areas. The laboratory sessions require preserved cat dissection and identification of anatomical structures on prosected cadaver. It fulfills a laboratory science requirement for the A.A., A.S., and A.A.S. degrees.

Lecture: 3 hours per week

Prerequisite: Complete BIOL-227 with a minimum grade of C-

Corequisite Lab: 3 hours per week (BIOL-228L)

BIOL-231
4 Credits
General Ecology (Same as BIOL-221)

This introductory course shows relationships between living and non-living components of the environment. It examines the processes which influence the distribution of plant and animal communities. It provides an exposure to the fundamental principles of ecology in natural resource management. This course is designed for forestry and biology majors with applications for pre-agriculture, zoology, environmental science, and botany disciplines. This course fulfills a laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: 3 hours per week (BIOL-231L)

Prerequisite: BIOL-100 or BIOL-115

BIOL-241 Systematic Botany
4 Credits

BIOL-241 offers instruction in plant identification focusing on local gymnosperms and spring angiosperms using a recognized botanical key. The course includes field trips and a plant collection. It is designed for students pursuing a degree in biology, botany, or forestry and for those interested in the identification of local plants. BIOL-241 fulfills a laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 2 hours per week

Corequisite Lab: Two 2-hour labs per week (BIOL-241L)

Recommended: BIOL-100 or BIOL-115

BIOL-250 General Microbiology
4 Credits

This course is an introductory survey of microorganisms emphasizing bacteria as examples of all microorganisms and as models for all living organisms/cells in regard to structure, physiology, and reproduction. This is a fairly rigorous lab course requiring attendance to cover various lab skills of media use, culturing, slide-staining, use of lab materials, and processes relating to microorganisms. This course has applications to programs in life sciences, the medical health field, health sciences, agriculture, food industries, pharmaceutical industries, environmental science, and laboratory research. BIOL-250 satisfies a laboratory science course requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: 3 hours per week (BIOL-250L)

Recommended: BIOL-100 or BIOL-115; CHEM-101

BIOL-251 Principles of Range Resources Management
2 Credits

BIOL-251 studies the development of range use, range resource management, rangeland vegetation types, current management issues, and the relationship of grazing use with other land uses and values. It does not satisfy a laboratory science requirement for an associate degree.

Lecture: 2 hours per week

Prerequisite: BIOL-100 or BIOL-115

BIOL-255 Microbial Diseases
3 Credits

This course is a natural extension of any microbiology class emphasizing the principles of disease and epidemiology, microbial mechanisms of pathogenicity, nonspecific and specific defenses of the human host, and a survey of diseases from a human systematic approach. This course has applications to programs in life sciences, the medical health field, health sciences, agriculture, food industries, pharmaceutical industries, environmental science, and laboratory research. In exploring the scientific material, application will be made to the art, history, literature, human rights issues, religions and socioeconomics for a mature view of the human condition.

Lecture: 3 hours per week

Prerequisites: BIOL-250

BIOL-260 Human Cadaver Prosection I
2 Credits

Supervised cadaver dissections will follow the sequence of gross anatomy studies observed in BIOL-227 and BIOL-228. Dissections for the semester will begin with a review of previous cadaver dissections. Cadaver dissection sequencing will follow this general outline: torso, upper extremity, lower extremity, ventral cavities, head and neck, and

finish with the dorsal cavities. Fall semester students will present a review of the muscle anatomy to the BIOL-227 students. This course is designed to improve competency in human gross anatomy.

Lab: 3 hours per week

BIOL-261 Human Cadaver Prosection II
2 Credits

Supervised cadaver dissections will follow the sequence of gross anatomy studies observed in BIOL-227 and BIOL-228. Dissections will begin with a review of previous cadaver dissections. Cadaver dissection sequencing will follow this general outline: torso, upper extremity, lower extremity, ventral cavities, head and neck, and finish with the dorsal cavities. Spring semester students will present a review of the vascular anatomy to the BIOL-228 students. This course is designed to improve competency in human gross anatomy.

Lab: 3 hours per week

BIOL-290 Principles of Wildlife Biology
2 Credits

This course introduces the principles of wildlife ecology including such topics as basic ecological laws, wildlife biology, and management of wildlife populations. This course does not satisfy a laboratory science requirement for an associate degree.

Lecture: 2 hours per week

Prerequisite: BIOL-100 or BIOL-115

Recommended: BIOL-202 or BIOL-203

BUSINESS ADMINISTRATION
BUSA-100 Introduction to Computers
3 Credits

BUSA-100 is the study of computer systems and applications. This course includes computer terminology, an introduction to computer hardware, application and system software, and Internet concepts. It also includes societal issues and concerns of security, privacy, computer crime, and viruses. This course is required for the Business Administration, Business Education, and Accounting Assistant programs. It meets the computer science requirement for the A.A. degree.

Lecture: 3 hours per week

BUSA-101 Introduction to Business
3 Credits

BUSA-101 is an introductory overview of the organization, functions, and activities of business in contemporary society. Emphasis is placed on the terminology necessary to understanding business principles and practices. The course also includes an exploration of business environments, human resources, management, marketing management, finance, management information tools, and international marketing. Focus is on critical factors essential to understanding the interdependence between different facets of business operations. This course is useful for those who are considering a career in business or who want an overview of what the study of business encompasses. This is a required course in the Administrative Assistant, Business Education, Office Information Specialist, and Accounting Assistant programs.

Lecture: 3 hours per week

Recommended: MATH-025

BUSA-180*1 Credit***Personal Finance**

Personal Finance is designed to empower students to analyze and develop their own personal financial plan. Students will be challenged to develop solid financial management skills through effective tax and savings strategies. Various financing options for large purchases such as automobiles and housing will also be discussed, along with developing techniques for controlling consumer credit. Students will learn how to evaluate different insurance options including life, health, and disability insurance. This course will also include some basic stock market strategies, including the choice to invest in stocks, mutual funds, or bonds.

Lecture: 15 hours

BUSA-211*3 Credits***Principles of Management**

BUSA-211 provides an overview of theories and practices of management. Topic areas include the evolution and scope of management and the universal functions of management including planning, organizing, directing, staffing, controlling, coordinating, and delegating. Emphasis is also placed on the art of negotiating, leadership skills, team performance and productivity, and creative problem solving. This course fosters an awareness of the operational skills and administrative activities of managers, and it also helps in upgrading management skills. Prior completion of other courses is not required.

Lecture: 3 hours per week

BUSA-221*3 Credits***Principles of Marketing**

This is an introductory course designed to provide an overview of marketing segments and environments, and marketing mixes. Issues relating to product, promotion, pricing, and distribution are discussed. This course promotes an awareness of the operational and administrative activities of marketing managers; it also helps in upgrading marketing skills. This is a required course in the Resort/Recreation Management program. Prior completion of other courses is not required.

Lecture: 3 hours per week

BUSA-234*3 Credits***Ethical Conduct in Business**

BUSA-234 introduces basic business ethical concepts, principles, and examples. Topics focus on solving moral dilemmas and introduce the stakeholder and issues management methods as a strategic and practical way for applying ethical reasoning in the workplace. Emphasis is placed on establishing solid decision criteria, moral creativity, and responsibility in ethical reasoning. This course also fosters an awareness of corporate responsibility in advertising, product safety and liability, and the environment. Timely ethical issues such as globalization, discrimination, sexual harassment, and whistle-blowing will be discussed as they relate to the workplace.

Lecture: 3 hours per week

BUSA-236*3 Credits***Introduction to Finance**

This course provides students with general concepts, processes, and tools necessary for the financial management of a business enterprise. The course also discusses the financial/business environment in which an enterprise operates. The course is designed to give students with a wide variety of backgrounds and interests a foundational knowledge about the world of finance. Topics covered include time value of

money, risk and return, capital asset pricing model (CAPM), cost of capital, and other topics.

Lecture: 3 hours per week

Prerequisite: Complete MATH-108 or higher with a minimum grade of C-.

BUSA-240*3 Credits***Computer Systems and Business Applications**

This course provides applied instruction using computer systems and Microsoft Office suite application software within the business environment. The course includes both lecture and hands-on learning and emphasizes practical concepts of file management; the creation of documents using word processing, spreadsheets, databases, and presentation software; use of the Internet to access and retrieve data; and how various software components work together efficiently and effectively. This is a highly recommended course for students majoring in the Business Administration and Business Education associate of science degree programs and meets the computer science requirements for the A.A. degree.

Lecture: 3 hours per week

Prerequisite: Math skills at a level equivalent to MATH-025 or higher.

Recommended: Basic computer literacy skills (BUSA-100 or CS-100 or equivalent) and keyboarding skills (CAOT-112).

BUSA-250*3 Credits***International Business**

This course provides an overview of the international business environment and conditions affecting firms that do business overseas. The course explores the economic and cultural context for global business, cross-border trade and investment, the global monetary system, and competition in the global environment. The course addresses issues of international marketing, research and development, production and operations management, and human resource management. This course is useful for those who are considering a career in business or who want an overview of what the study of international business encompasses.

Lecture: 3 hours per week

Prerequisite: BUSA-101

BUSA-255*3 Credits***E-Commerce**

This is a principles course in e-commerce covering the business strategies used in e-commerce and the technology needs. The course focuses on entry strategies, emerging web-based business models, legal and privacy issues, online payment systems, as well as contemporary web marketing, regulatory, technological, social, and ethical issues. Website development processes and website architectures are also presented. The course provides a solid foundation in conducting business in the networked economy. Emphasis is placed on online consumer behavior, customer service, online order and fulfillment, as well as capital and human infrastructure needs to make effective business decisions. This course should be of interest to students pursuing a career in business or anyone considering launching a web-based business, using e-commerce as a component of a traditional business or pursuing employment in occupations that involve e-commerce activities.

Lecture: 3 hours per week

BUSA-260*3 Credits***Principles of Banking**

Principles of Banking is an introduction to basic money, banking, and financial market concepts. The course includes an analysis of

mation profession. Students will build basic skills in the compilation, processing, and maintenance of health records in accordance with the standards and regulations governing these functions and the use of technology.

Lecture: 3 hours per week

BLDR-160 Business Communications
3 Credits

This course will analyze business situations, determine the specific communication strategies required, the audience, and the purpose as you prepare the most effective business communication format to address the situation. Students will apply concepts to team collaboration, various types of business correspondence, report writing, and business presentations. Proofreading skills, word processing skills, and keyboarding skills are strongly recommended.

Lecture: 3 hours per week

BLDR-170 Personal Role in Business Success
2 Credits

This course assesses the role of business, its internal structures, and its relationship to the external environment. Students will analyze the supervisor's role in the functions of business management, employee management, and HR management. Students will also learn the marketing, IT, accounting and finance processes, and how they interact and drive business decisions.

Lecture: 2 hours per week

BLDR-214 Budget and Finance
3 Credits

This course examines the methods of budgeting and financing of an organization. Topics include financial statement analysis, basic accounting terminology, working capital management, and budget and trend analysis.

Lecture: 3 hours per week

BLDR-216 Legal Issues for Supervisors
3 Credits

This course provides an overview of the general legal responsibilities of an organization. It analyzes the current employment laws in the United States and their impact on employers and employees. Students will examine the supervisor's role in dealing with harassment and discrimination in the workplace.

Lecture: 3 hours per week

BLDR-222 Project Management
3 Credits

This course is an overview of project management and focuses on developing project management skills. These skills will help students in their everyday lives as they work with people on projects in their organization.

Lecture: 3 hours per week

BLDR-225 Strategic Planning
3 Credits

This course covers the fundamentals of strategic planning to include ways to carefully and thoroughly examine external threats and opportunities and develop strategic plans including organization-wide plans with goals and objectives. Participants will learn to use strategic thinking in their day-to-day work lives and learn how to be part of the strategic planning team. Participants will also learn the importance of and ways to carry out and monitor the strategic plan.

Lecture: 3 hours per week

BLDR-240 Lean II
3 Credits

This course starts where Lean I left off. Further use of the Lean/Six Sigma tools is incorporated into actual work practices. Students will learn how to gather data, present data using charts and graphs, evaluate data, and make recommended improvements. Students will learn how to run a live Lean Team meeting where they will present data found in their own company and make recommendations for improvement.

Lecture/Lab: 60 hours

Prerequisite: BLDR-140

BLDR-242 Inventory and Supply Chain Management
2 Credits

This course covers the basics of supply chain management by examining ways to control and manage inventory, create flow, and set up efficient storage and retrieval systems. This course also examines logistics, freight management, and ways to control transportation costs. Students will learn how to develop a basic contract with vendors and suppliers and practice negotiating skills.

Lecture: 2 hours per week

BUSINESS MANAGEMENT

BMGT-210 How to Start a Small Business
1 Credit

This course provides a practical guide to the process of successfully launching and growing a small business. The course will cover a broad range of topics from opportunity recognition and feasibility analysis, assessing the financial viability, developing the necessary plans to secure financing and facilities, developing strategies to compete in the marketplace, and the process involved to meet the challenge of building a new venture team and planning for growth.

Lecture: 15 hours

BMGT-220 Business Plan Development
2 Credits

This course covers the important topic of writing a business plan which is a step that all start-up firms should do. Topics include the reasons for writing a business plan, a description of the audience for the business plan, what the audience is looking for, and guidelines to follow when preparing a written business plan. Students will work with an outline for preparing a business plan and develop the material for each section and then cover strategies for presenting the plan to the target audience.

Lecture: 30 hours

BMGT-230 Introduction to Entrepreneurship
3 Credits

This course gives students an understanding of the entrepreneurial process. It will include a discussion of entrepreneurship, the characteristics of successful entrepreneurs, the role of entrepreneurship in the economy, and practical financial and business considerations for the successful entrepreneur.

Lecture: 3 hours per week

BMGT-256 Problem Solving Through Team Dynamics
3 Credits

This course explores the creation of teams and their utilization to solve problems. Team dynamics and strategies, brainstorming, information gathering methods, interpersonal communication, interdependence, and synergy are examined. Prior completion of other courses is not required.

Lecture: 3 hours per week

BMGT-260 Human Resource Management
3 Credits

This is an introductory class to Human Resource Management. It is designed to give students an overview of the challenges faced by an organization in using employees in a legal and ethical manner. Emphasis will be placed on the legal issues and ethical dilemmas faced by business on a daily basis. This course will be useful to any students contemplating a career in business, as well as others who are interested in managing human resources. Prior completion of other courses is not required.

Lecture: 3 hours per week

BMGT-266 Small Business and Entrepreneurial Management
3 Credits

This is an intensive course that applies management and marketing concepts to planning, owning, and operating a small business. Topics covered include entrepreneurial opportunities, developing a business plan, marketing and management, financial management, and the social and legal environment of business. A major emphasis is on the business plan. Some knowledge of accounting, management, and marketing are recommended.

Lecture: 3 hours per week

BUSINESS MARKETING
BMKT-231 Principles of Retailing
3 Credits

This is an introductory course that provides an opportunity to explore the strategies and practices within retail and service industries. Students begin to develop the skills necessary to make efficient and productive decisions. Topics include retail marketing analysis and segmentation, buying and selling, inventory planning and control, and price setting and adjustment. The focus is on the evaluation of the role of a retail and service enterprise within a given economy through self-directed/team building activities. The course creates an awareness of the operational and administrative activities of a marketing manager and helps to upgrade marketing skills.

Lecture: 3 hours per week

BMKT-241 Fundamentals of Promotion and Advertising
3 Credits

This introductory course presents an overview of the basic principles and procedures in promoting a product, service or idea. Principles covered include target marketing positioning, buyer behavior, creative development (copy writing, art direction, and production), media planning and selection, and measurement of promotional effectiveness and related cost. Emphasis is placed on small business budgets. Prior completion of other courses is not required.

Lecture: 3 hours per week

BMKT-261 Principles of Professional Selling
3 Credits *Offered Upon Demand*

This is an introductory course in the fundamentals of selling and sales management. The course explores the evolution of selling techniques, learning selling skills, communicating messages, and the buying decision process. Students will learn how to apply a wide range of selling skills and how to prepare a sales demonstration. There will be some discussion on managing a sales force. Prior completion of other courses is not required.

Lecture: 3 hours per week

CARPENTRY

NOTE: Course enrollment requires prior acceptance into the Carpentry Program. Successful completion of each semester and/or permission of the instructor is required for enrollment in the next semester.

CARP-141 Introduction to Residential Carpentry
3 Credits

CARP-141 is a four-week class introducing the carpentry trade and its application as a career in the construction industry. Basic building materials and construction methods are thoroughly covered in preparation for the carpentry program's construction of NIC's "Really Big Raffle" house. Classroom emphasis is on construction-related math, reading and interpretation of house plans and blueprints, applicable building codes, house layout, and sustainable green construction methods. This course has a laboratory component that applies classroom curriculum to assigned shop projects, includes appropriate local field trips, and begins site preparation and layout for the fall and spring semester's class project house.

Lecture: 8 hours per week

Lab: 8 hours per week

CARP-142 Safe and Savvy Tool Use
3 Credits

CARP-142 is a four-week class that introduces and emphasizes safe and proper use of the tools of the carpentry trade. Shop and job-site safety issues are thoroughly covered, including developing a class safety plan for the year's construction of NIC's "Really Big Raffle" house. Hand tools, hand held power tools, and shop-based bench power tools are covered. The laboratory component of CARP-142 includes assigned projects in the shop as well as activities on-campus or on-site. Laboratory projects are designed to require use of all tools and procedures covered in the classroom.

Lecture: 8 hours per week

Lab: 8 hours per week

CARP-152 Carpentry Theory II
8 Credits

Students will spend time in the classroom and on-site learning techniques and methods of carpentry and building construction. The classroom curriculum will closely correspond with progress on the house project. Topics to be included are foundations, floor, wall, and roof framing. Emphasis will also be placed on teamwork, work ethics/habits, and job site safety.

CARP-152L Carpentry Laboratory II
8 Credits

The primary focus of this course is on the house project. Emphasis will be on practicing and refining previously learned skills as the house construction progresses. The project allows students to experience a "real life" job situation. Special attention will be paid to safety, accuracy, speed, and production. Most work will be performed in small groups with all students having the opportunity to both lead and follow within their groups.

CARP-153 Carpentry Theory III
8 Credits

Topics covered in this course will coincide with the house project. Such areas as stair layout, roofing, drywall and interior/exterior finish will be the primary focus. As time permits, new materials and techniques, commercial construction applications and related construction areas may be examined. Safety aspects will be covered throughout.

compounds. CHEM- 277 and CHEM-287 are required courses for transfer degree programs in chemistry, medicine, dentistry, pharmacy, some engineering programs, and related fields.

Lecture: 3 hours per week

Recommended: CHEM-278 (3 hours per week) is highly recommended, but not required.

Prerequisite: CHEM-112 with a grade of C- or better

CHEM-278 **Organic Chemistry I Lab** 1 Credit

CHEM-278 is the laboratory that accompanies CHEM-277. It is an introduction to organic laboratory techniques and spectroscopy, including organic compound synthesis. This course consists of three hours of laboratory per week.

Prerequisite: Prior successful completion or concurrent enrollment in CHEM-277

CHEM-287 **Organic Chemistry II** 3 Credits

CHEM-287 is a continuation of CHEM-277 and includes an introduction to biological molecules.

Lecture: 3 hours per week

Recommended: Concurrent enrollment in CHEM-288 (3 hours per week) is highly recommended, but not required.

Prerequisite: CHEM-277

CHEM-288 **Organic Chemistry II Lab** 1 Credit

CHEM-288 is the laboratory that accompanies CHEM-287. It is a continuation of organic synthesis and spectroscopy. This course consists of three hours of laboratory per week.

Prerequisite: CHEM-278 and prior successful completion or concurrent enrollment in CHEM-287

CHILD DEVELOPMENT

CHD-110 **Child Health and Safety** 3 Credits

This course introduces the student to essentials in creating a safe and healthy environment for young children, birth to age eight, both typically and atypically developing. Students will explore both the indoor and outdoor environment and learn how to promote health and nutrition in the classroom, prevent illnesses and reduce injuries, and create mentally healthy environments.

Lecture: 3 hours per week

CHD-115 **Early Childhood Curriculum** 3 Credits

Students will examine the critical role of curriculum in meeting the physical, social, emotional, and cognitive needs of typically and atypically developing children from birth through age eight. Strategies for creating a child-centered approach to curriculum will be practiced including the use of space, materials, relationships, and routines. Students will gain experience in observing, assessing, and documenting children's ideas and works. Self reflection and hands-on learning are vital components of this course. Some class sessions will be held at the NIC Children's Center to facilitate this process. Prior completion or concurrent enrollment in CHD-134 is encouraged, but not required.

Lecture: 3 hours per week

CHD-134 **Infancy through Middle Childhood** 3 Credits

CHD-134 provides an introductory overview of human development from conception through middle childhood. Physical, cognitive, and social-emotional development of typically and atypically developing children will be examined in the context of family and social issues. This is a required course for the Child Development program and is strongly recommended for Elementary Education majors.

Lecture: 3 hours per week

CHD-150 **Professional Partnerships - Families, Schools, and Community** 3 Credits

This course will cover the essentials for professionally managing an effective early care and education program or classroom by developing partnerships among staff, family, and community members. Topics include the design and implementation of contracts and policies, record keeping, communication strategies, family involvement, professional affiliations, and the importance of collaboration to supporting typically and atypically developing children and their families. Students will become aware of the impact personal attitudes and philosophies have on building partnerships, solving problems, and resolving conflicts. Students will become familiar with the NAEYC Code of Ethical Conduct and its practical application.

Lecture: 3 hours per week

CHD-235 **Observation and Assessment** 3 Credits

CHD-235 provides students with the skills necessary to observe, record, and interpret the behavior of young children.

Lecture: 2 hours lecture and 2 hours lab each week

Prerequisite: CHD-134

CHD-243 **Early Childhood Education** 3 Credits

This course introduces students to the field of early childhood education. Developmentally appropriate practices for programs serving both typically and atypically developing children birth to age eight are examined. Topics include curriculum, play theory, literacy, behavior guidance, early care, education programs in the U.S. and internationally, primary grade education, and working with families.

Lecture: 3 hours per week

CHD-254 **Child Guidance Theory** 3 Credits

Techniques are examined for understanding and effectively guiding the behavior of young children, both typically and atypically developing. Included are skills for managing classroom situations, encouraging conflict resolution, effective use of praise, preventing problems, promoting self esteem, and setting individualized goals for young children in a classroom setting. It is a required course for the Child Development program and is strongly recommended for Elementary Education majors. Prior completion or concurrent enrollment in CHD-134 is encouraged, but not required.

Lecture: 3 hours per week

CHD-298A **Child Development Practicum A** 3 Credits

This course offers a supervised experience working with young children in the NIC Children's Center and is the first of three practicum experiences for students in the associate of arts or associate of science

Child Development program. Students gain practical experience planning, preparing, and implementing curriculum, practicing behavior guidance techniques, working with families, and discussing how to meet the individual needs of children with varying abilities. It is a required course for the Child Development program.

Lecture: 2 seminar hours per week and 4 classroom hours per week

Prerequisite: CHD-134

CHD-298B Child Development Practicum B 3 Credits

CHD 298B offers continued experience working with young children in a supervised setting. Students may be placed in an approved off campus early childhood setting or continue practice at the NIC Children's Center. Emphasis is on practicing skills in curriculum development, behavior guidance, and working with families of young children both typically and atypically developing.

Lecture/Lab: 6 hours per week

Prerequisite: CHD-134 and CHD-298A

CHD-298C Child Development Practicum C 3 Credits

CHD-298C is the final experience working directly with young children in a supervised setting in the NIC Children's Center or in an approved off campus setting. Students continue practicing skills in curriculum development, behavior guidance, assessment, and working with families of young children of varying abilities

Lecture: 2 hours per week and lab 4 hours per week

Prerequisite: CHD-134 and CHD-298B

CHD-298D Child Development Practicum D 5 Credits

CHD-298D is intended primarily for those students who have completed degree or certificate programs, but need ongoing college credit for professional development purposes. This may include those professionals seeking CDA Certificate renewal, Head Start staff, and community early childhood teachers who have already completed child development courses at NIC but need further skill and development in a particular domain. Topics of study and application will be individualized according to student and program need.

Lecture/Lab: 6 hours per week

Prerequisite: CHD-134 with a grade of C- or higher.

CINEMA ARTS

CINA-126 Film and International Culture 3 Credits

This course presents films as artifacts of culture and history, examines foreign and North American films, and evaluates selected critical readings to promote meaningful comparative analysis. It focuses on becoming more critically aware of the rich and diverse forms of cinematic expression, developing an appreciation for our responses to visual imagery, and using basic concepts of film theory and cultural analysis to enrich our viewing experience. The concepts and methods introduced have applications to careers in broadcasting, graphic design, public relations, journalism, and corporate communications. This course is required for transfer into radio/television programs. It satisfies an arts and humanities course requirement for the A.S. and A.A. degrees.

Lecture: 3 hours per week

COLLEGE SKILLS

CSC-010 Reading and Spelling Fundamentals 3 Credits

CSC-010 provides basic reading and spelling skills that include word attack, word structure, sentence sense, main idea and spelling rules. This is an important skill-building course that can influence college success, but does not fulfill degree requirements. Enrollment is based on a COMPASS score below 61.

Corequisite: ENGL-045 or ENGL-099

CSC-013 Reading Comprehension and Vocabulary Development 3 Credits

CSC-013 is designed to enhance reading and vocabulary skills with an emphasis on comprehension of expressed and implied main ideas. The course also focuses on developing vocabulary skills including contextual clues, synonyms, antonyms, and affixes. Enrollment is based on a COMPASS score of 61–80. This class does not fulfill degree requirements.

CSC-043 Reading in Applied Technology 1 Credit

This course is an open-entry, open-exit course designed to improve reading skills for technical materials. This course emphasizes learning for critical and efficient reading, including reading for information, following directions, critical reading, checking information, drawing conclusions, vocabulary, and understanding graphics in technical materials. Enrollment is based on a COMPASS score between 61-80.

CSC-100 College Transition 1 Credit

This course is designed to provide the student with a general introduction and transition to the college experience. It will assist students in developing a meaningful education plan in accordance with their personal values, needs, and career goals. This class will orient students to the processes, resources, and multiple services available at North Idaho College.

Lecture: 1 hour per week

CSC-104 College Reading 2 Credits

CSC-104 is a college level reading class designed for the skilled reader who would like to learn strategies for improving reading comprehension, enhancing textbook reading skills, and developing flexible reading rates. Reading techniques are applied to reading assignments in content areas such as sciences, social sciences, and humanities. The course is taught using lecture, computer aided instruction, and small group participation.

Lecture: 2 hours per week

Prerequisite: College level reading ability verified with appropriate placement test scores

CSC-105 College Study Skills 2 Credits

This course provides instruction and practical study techniques essential for academic success. This course emphasizes managing time, taking notes, reading textbooks efficiently, and preparing for and taking exams.

Lecture: 2 hours per week

CSC-106 College Internet Skills
1 Credit

This course covers the basics of taking an interactive course via the Internet. The student will learn how to use Angel for Internet classes. This involves developing skills concerning the use of e-mail, online discussion boards, world wide web access, equipment needs, and navigating an online course. Additionally, the student will analyze the difference between online and traditional courses to evaluate his or her learning style in order to develop good academic skills to succeed in online classes. This class provides an excellent opportunity to learn how to navigate classes on Angel before taking an Internet class.

Lecture: 16 hours

CSC-107 College Educational Technology Skills
1 Credit

This course is designed to introduce students to Dragon Naturally Speaking Voice Recognition software and Kurzweil 3000 scan and read software. Following the introduction of both programs, students will have the choice of focusing on the one program that best meets their needs and interests.

Lecture: 16 hours

CSC-108 Tutoring Skills
1 Credit

This course provides an introduction to learning theories, styles, and techniques as related to tutoring. Topics will include active listening, effective questioning, diversity awareness, implementation of tutoring strategies, and assessment of learning styles and study skills. Participatory classroom activities will be included to develop communication, critical thinking, and problem solving skills. This course provides participants with leadership and communication skills that may be applied throughout the college experience. Students do not need to be a peer tutor to be enrolled in this course.

Lecture: 16 hours

CSC-109 TRIO Peer Tutoring, Level I
1 Credit

This course is designed to prepare peer tutors for their role as a tutor. This course provides instruction in practical tutoring techniques and processes essential for tutoring success. Students will become knowledgeable about tutoring responsibilities, tutoring methodology, learning differences, boundaries, and assistive technology. Experiential learning activities will be used to develop communication, critical thinking, problem solving skills, and diversity awareness.

Lecture: 4 hours per day for 1 week

CSC-110 TRIO Peer Tutoring, Level II
1 Credit

This course is designed to prepare peer tutors for their role as tutors. This course provides instruction in practical tutoring techniques and processes essential for tutoring success. Students will become knowledgeable about tutoring methodology, leadership, adult learners, at-risk students, cultural differences, and advanced tutoring strategies. Experiential learning activities will be used to develop communication, critical thinking, problem solving skills, and diversity awareness.

Lecture: 4 hours per day for 1 week

Prerequisite: CSC-109 with a minimum grade of C.

CSC-111 TRIO Peer Mentor Training
1 Credit

This course is designed to prepare peer tutors for their role as mentors. This course provides instruction in practical mentoring techniques

and processes essential for mentoring success. Students will become knowledgeable about mentoring responsibilities, tutoring methodology, learning differences, boundaries, coaching, relationships, assistive technology, and campus and community resources. Experiential learning activities will be used to develop communication, critical thinking, problem solving skills, and diversity awareness.

Lecture: 4 hours per day for 1 week

COLLISION REPAIR TECHNOLOGY

NOTE: Course enrollment requires prior acceptance into the Collision Repair Technology Program. Successful completion of each semester and/or permission of the instructor is required for enrollment in the next semester.

ACRR-151 Collision Repair Technology Theory I
6 Credits

Collision Repair Technology Theory I offers classroom instruction in all phases of automobile refinishing. Course topics include base coat and clear coat systems; cutting, heating and gas metal arc welding; basic body panel repair; fiberglass; and plastic parts repair. Health and safety rules are also taught.

ACRR-151L Collision Repair Technology Lab I
5 Credits

This lab features hands-on shop experience in all phases of auto refinishing, gas metal arc welding, basic body panel repair techniques, fiberglass, and plastic parts repair. Mock-up vehicles as well as actual customer work will be experienced. Health and safety practices are promoted.

ACRR-152 Collision Repair Technology Theory II
6 Credits

Collision Repair Technology Theory II presents classroom instruction in such areas as automobile construction and panel identification, estimating, hardware and fastener identification, body panel replacement, uni-body and frame alignment, steering and suspension components, glass replacement, and cooling and air conditioning components.

ACRR-152L Collision Repair Technology Lab II
6 Credits

This lab offers hands-on shop experience in repair, estimating, replacement of hardware and body panels, alignment of uni-body vehicles and frames, steering, and suspension parts. Other areas included are replacement of auto glass, restoring cooling and air conditioning systems. Health and safety practices, along with quality work, is promoted.

ACRR-153 Collision Repair Technology Theory III
1 Credit

ACRR-153 presents instruction in wreck rebuilding and meeting production shop schedules.

ACRR-153L Collision Repair Technology Lab III
2 Credits

This course provides hands-on shop experience in wreck rebuilding and meeting production shop time schedules. Quality work is promoted.

COMMUNICATION

COMM-101 Introduction to Speech Communication 3 Credits

This course introduces students to what communication is and how it affects human interaction. Emphasis is on public speaking with attention to audience analysis and organizational and delivery skills. The controlled and supportive classroom environment is an ideal setting for students to practice and perfect those communication skills of effective speaking and critical listening valued in all professions, the community, and personal relations. It is, however, a complex discipline of reading, writing, research, and performance; therefore, **course success relies strongly on college level reading and writing abilities.** This course is a requirement for both the A.A. and A.S. degrees.

Lecture: 3 hours per week

Recommendation: Minimum reading placement scores of 81 on the COMPASS; 19 on the ACT; or 470 on the SAT. Minimum writing scores of 68 on the COMPASS; 18 on the ACT; or 450 on the SAT. Concurrent enrollment in ENGL-101 is also recommended

COMM-103 Oral Interpretation 3 Credits

Making literature come alive through effective reading and interpreting is the goal of this course. Students will learn to select, analyze, and perform literary pieces including stories, plays, poems, and famous orations. COMM-103 is a useful elective for elementary education, performing arts, literature, and communication majors, as well as for parents.

Lecture: 3 hours per week

COMM-111 Interview Techniques 2 Credits

This course provides practical experience in the development of interviewing techniques for a variety of settings and career applications. The process is analyzed and practiced, including setting up, conducting, and assessing the interview. Students learn to design and carry out effective interviews through study and practice of the practical "do's and don'ts" for several types of interviews. Skills gained are helpful to those pursuing careers in journalism, communications, law enforcement, psychology, oral history, and counseling. Use of an audio tape recorder is suggested.

Lecture: 3 hours per week for 14 weeks

COMM-133 Improving Listening Skills 1 Credit

This course involves instruction in the skills necessary for effective listening. These skills apply to all aspects of life from the job to personal relationships. Listening is the most used (and least trained) of the four basic communication skills.

Lecture: 3 hours per week for 5 weeks

COMM-134 Nonverbal Communication 2 Credits

This course is an introduction to the basic concepts in the study of body language, symbols, and various means of communicating without using spoken language. The study of nonverbal communication will help students better understand how people communicate in relationships at work and at home, and may create an awareness of the students' own nonverbal communication style.

Lecture: 3 hours per week for 11 weeks

Recommended: Strong college-level reading and writing skills

COMM-209 Argumentation 3 Credits

This course is an introduction to the principles and practices of argumentation as a form of communication. Analysis, reasoning, evidence, and refutation skills are stressed. It provides skills in reasoned argumentation and is useful for pre-law, business, and careers where logical analysis and structured reasoning is stressed.

Lecture: 3 hours per week

Recommended: COMM-101 and strong college-level reading and writing skills

COMM-220 Introduction to Intercultural Communication 3 Credits

This course is an introduction to cultural differences and their effects on communication. The course attempts to help students become more sensitive to the needs of people from other cultures with whom we interact. With more diversity in our country, and to create and maintain positive relationships with minimal hostility and friction, an understanding of how to communicate across cultures will prove to be a considerable asset. Communication competence with people of other cultures calls for a repertoire of communication skills rarely taught in any other college course. This course satisfies the cultural diversity requirement for the A.A. degree and partially satisfies the arts and humanities requirement for the A.S. degree.

Lecture: 3 hours per week

Prerequisites: COMM-101

COMM-233 Interpersonal Communication 3 Credits

This course is an introduction to the skills and concepts that impact how people deal on a one-to-one level within interpersonal relationships. Emphasis is on self-examination and understanding how "I communicate with others" and how that can be improved. This is an excellent course for developing skills necessary for everyday life where relationships must be developed and maintained.

Lecture: 3 hours per week

COMM-236 Small Group Communication 3 Credits

This course is designed to present the fundamentals of small group communication in such a way that the student actually experiences the small group process and evaluates his/her own and other's behaviors for success. The course will combine theory and practical application.

Lecture: 3 hours per week

COMPUTER AIDED DESIGN TECHNOLOGY

NOTE: Course enrollment requires prior acceptance into the Computer Aided Design Technology Program. Successful completion of each semester and/or permission of the instructor is required for enrollment in the next semester.

CADT-101 Technical Sketching and Working Drawing Applications 4 Credits

CADT-101 is developed for entry-level students in the Computer Aided Design Technology program. This course teaches skills to convey a thought or idea on paper. Students will develop an ability to visualize and sketch orthographically and pictorially. The use of various drafting techniques, lettering, geometric construction,

orthographic projection, pictorial drawings, and basic dimensioning will be included. Students will develop skills that will aid in the interpretation and application of working drawings for various disciplines. Concepts will be reinforced through hands-on activities that focus on these skills.

Lecture: 4 hours per week

CADT-103 **2-D CAD Graphics** 4 Credits

CADT-103 is developed for entry-level students in the Computer Aided Design Technology program. This course focuses on learning two-dimensional (2-D) computer aided design (CAD) software and provides a comprehensive understanding of 2-D CAD software. The latest version of 2-D CAD software will be used in a windows operating environment. While learning 2-D CAD software, geometric construction techniques and the development of visualization skills will also be emphasized, along with plotting in paper space. Concentrated efforts will be made to stress the importance of accuracy and clarity of drawing solutions. At the same time, students will develop confidence and speed in drafting. In the lecture/lab environment students will be presented with hands-on activities to reinforce their learning. The content of this course will prepare students for CADT-105 and CADT-107.

Lecture/Lab: 4 hours per week

CADT-105 **Descriptive Geometry** 3 Credits

CADT-105 focuses on developing the knowledge and skills necessary for solving problems using descriptive geometry. Students will develop line projections, true size and shape of lines or planes, and piercing points of lines and planes in space. In addition, they will develop skills in pattern development. 2-D CAD software will be used as the instructional platform. Concepts will be reinforced through hands-on activities that focus on theories discussed.

Lecture: 3 hours per week

CADT-107 **3-D CAD Graphics** 6 Credits

This course focuses on 3-dimensional modeling and presentation. The course will develop a thorough understanding of the User Coordinate System in order to draw and visualize in 3-D. Parametric design and solid modeling will also be introduced. Emphasis will be placed on using CAD as a tool in the process of creating working drawings and pictorial renderings.

Lecture: 6 hours per week

CADT-109 **Basic Mechanical Design** 4 Credits

CADT-109 is developed for the second semester entry-level mechanical design student in the Computer Aided Design Technology program. The focus is to learn contemporary documentary procedures towards 2-D mechanical working drawings in accordance with current industry standards. Students will use 2-D CAD software as a design platform. Concentrated efforts will be made to stress the importance of accuracy and clarity in mechanical working drawings, procedures, and practices. Emphasis will also be placed on developing confidence and proficiency in the development of contemporary working drawings. In the lecture/lab environment students will be presented with hands-on assignments/projects to reinforce learning outcomes. The completion of this course will prepare students for CADT-251, Introduction to Mechanical Design.

Lecture/Lab: 4 hours per week

Prerequisite: CADT-103 with a minimum grade of C- or instructor permission

CADT-111 **Basic Architectural Design** 4 Credits

CADT-111 is developed for the second semester entry-level architectural design student in the Computer Aided Design Technology program. This course teaches skills to use 2-D CAD software to produce residential working drawings. The use of various drafting techniques, lettering, geometric construction, orthographic projection, pictorial drawings and basic dimensioning will be included. Students will develop skills that will aid them in the interpretation and the application of residential working drawings. Concepts will be reinforced through hands-on activities that focus on these skills. Concentrated efforts will be made to stress the importance of accuracy and clarity in architectural working drawings, procedures, and practices. Emphasis will also be placed on developing confidence and proficiency in the development of residential working drawings. In this lecture/lab environment students will be presented with hands-on assignments/projects to reinforce learning outcomes.

Lecture/Lab: 4 hours per week

Prerequisite: CADT-103 with a minimum grade of C- or instructor permission

CADT-113 **Basic Civil Design and Survey** 4 Credits

CADT-113 is developed for the second semester entry level civil design student in the Computer Aided Design Technology program. This course introduces students to design techniques and plan preparation in the civil engineering and survey fields utilizing civil 3-D software. The focus is on introduction to civil 3-D software, importing and working with survey data, civil design concepts, and civil and survey plan preparation. Students will work with survey field data, point objects, 3-D terrain model surfaces, and learn civil 3-D styles and settings. In this lecture/lab environment students will be presented with hands-on assignments and projects to reinforce learning outcomes. The completion of this course will prepare students for CADT-241, Civil Design Fundamentals.

Lecture/Lab: 4 hours per week

Prerequisite: CADT-103 with a minimum grade of C- or instructor permission

CADT-230 **Architectural Design and Its History** 4 Credits

This course introduces students to the concepts, practices, standards, and drafting techniques needed for residential design. A major focus is on developing a clear understanding of the evolutionary processes of residential styles and how they relate to present day residential design. Students will study the concepts of form follows function including the factors that affect exterior and interior design, and the relationship between rooms and their sizes. Upon completion students will be able to go from conceptual design, to design development, and the productions of usable working drawings.

Lecture: 4 hours per week

Prerequisite: CADT-111 with a minimum grade of C- or instructor permission

CADT-232 **Architectural Print Reading and Estimating** 4 Credits

This course focuses on architectural print reading and estimating in the area of residential design. Students will become familiar with industry standard symbols facilitated in the reading and interpretation of residential design plans. Students will become familiar with

industry estimating standards.

Lecture: 4 hours per week

Prerequisite: CADT-111 with a minimum grade of C- or instructor permission

CADT-234 Architectural Green Building and Sustainable Design
4 Credits

This course introduces students to residential green building fundamentals and sustainable design. Students will learn the issues of sustainability, what makes a building green, and the process involved in achieving energy efficiency. A component of study will include Leadership in Energy and Environmental Design (LEED). The latest edition of the International Residential Code (IRC) will be used as a resource.

Lecture: 4 hours per week

Prerequisite: CADT-111 with a minimum grade of C- or instructor permission

CADT-236 Architectural Design and Construction Practices
4 Credits

This course further emphasizes the residential design process while relating these principles to general construction practices. Students will further enhance their design skills using 2-D CAD software. The major focus will be to develop a complete set of working drawings for a residence of the students' choice, with the approval of the instructor. A minor component of 3-D parametric modeling will be added as appropriate.

Lecture: 4 hours per week

Prerequisite: CADT-230, CADT-232, and CADT-234 with a minimum grade of C- or instructor permission

CADT-237 Structural Design and 3-D CAD Modeling
4 Credits

This course will focus on the structural design for frame construction for a residential dwelling. Students will become familiar with industry standard building components for frame construction. 3-D CAD software will be used to further enhance the study of structural design for frame construction for a residential dwelling.

Lecture: 4 hours per week

Prerequisite: CADT-230, CADT-232, and CADT-234 with a minimum grade of C- and/or instructor permission

CADT-241 Civil Design Fundamentals
4 Credits

Students will continue to learn civil 3-D and civil design concepts. Civil 3D software will be utilized to work with 3-D terrain model surfaces, alignments and profiles, roadway design, assemblies/design templates/sections, grading, drainage and pipe systems, and parcel layout. In this lecture/lab environment students will be presented with hands-on assignments/projects to reinforce learning outcomes. The completion of this course prepares students for CADT-248, Advanced Civil Design.

Lecture: 4 hours per week

Corequisite: ENGR-214, ENGR-214L and/or instructor permission

CADT-243 Advanced Print Reading-Civil
2 Credits

CADT-243 builds on the knowledge learned in CADT-101. This course will focus on advanced print reading in the area of civil design. Students will become familiar with industry standard symbols

facilitating the reading and interpretation of civil design plans.

Lecture: 2 hours per week

Prerequisite: CADT-101 with a minimum grade of C- and/or instructor permission

CADT-245 Land Planning
2 Credits

CADT-245 will address artistic issues of land development with discussion and evaluation of competing theories in feature placement. The artistic license of the designer will be explored within the limitations of state and local ordinances and requirements, such as road type and location, lot size and shape, and building site orientation and layout. Historical models will be compared with contemporary models.

Lecture: 2 hours per week

Pre or Corequisite: CADT-241 and/or instructor permission

CADT-248 Advanced Civil Design
5 Credits

This course provides second-year students the opportunity to continue to use Civil 3-D and learn advanced civil design concepts. Lessons include subdivision layout; advanced road design; advanced grading, including cut/fill balancing and earthwork volumes; sewer and water system design; design calculations; drainage, including pond and swale design; and erosion control. Completion of this course will prepare students for careers in the civil field as an engineer technician or CAD designer.

Lecture: 5 hours per week

Prerequisite: CADT-241, ENGR-214, and ENGR-214L with a minimum grade of C- or instructor permission

CADT-249 GIS/Cartography
3 Credits

CADT-249 is an introduction to the creation and use of a geographic information system database. Industry standard software will be utilized. Facilities management and cartography, as well as the influence of global positioning systems and the Internet will be covered.

Lecture: 3 hours per week

Prerequisite: ENGR-214 with a minimum grade of C- and/or instructor permission

CADT-251 Introduction to Mechanical Design
4 Credits

CADT-251 presents the elements and principles involved in conventional design and analysis of mechanical components, assemblies, and drawings. Course emphasis will be in fundamental mechanical design principles through feature-based parametric modeling software for the creation of parts, assemblies, and developing working drawings. Students will also apply design and evaluation methodology towards Form, Fit, and Functional requirements through rapid prototyping application as well as interact, to some degree, with the NIC Machine Technology program. The design portion of this course as intended to dovetail with the design portion of CADT-257.

Lecture: 4 hours per week

Prerequisite: CADT-109 with a minimum grade of C- and/or instructor permission

CADT-253 Machine Control Processes
3 Credits

CADT-253 introduces the product cycle theory in regards to Machine Control Processes via CAD/CAM/CAE methodology. CADT-253 is an exploratory/hands-on learning environment and will be engaged in visiting local industries to gain understanding of

CAOT-110
1 Credit**Windows 1**

CAOT-110 provides an introduction to the Windows operating system. The course includes utilizing and controlling windows, Help, file management using My Computer and Windows Explorer, sharing data between applications, printing using Print Manager, and working with the Control Panel. This course is useful for anyone who wants to learn how to use Windows software. This is a required course in the Accounting Assistant, Resort Recreation Management, and for all Computer Applications and Office Technology programs.

Recommended: Basic keyboarding

CAOT-111
1 Credit**Windows 2**

CAOT-111 is a continuation of CAOT-110. It is a valuable resource for those who are looking to enhance their operating system experience with tips and tricks to add to the usefulness of their Windows knowledge. This course is intended to provide students with the ability to become comfortable using the Windows operating system for personal and business reasons. A hands-on class using real world personal and business functions, it is a valuable course for those who want to gain more extensive knowledge of the current Windows technology.

Prerequisite: CAOT-110 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-112
1 Credit**Keyboarding 1**

CAOT-112 provides introductory development of basic keyboarding skills. It proceeds from basic alphabetic keyboarding through numeric and symbolic keyboarding. Emphasis is placed on developing touch control of the keyboard using proper keyboarding techniques and building speed and accuracy. This is a required course in the Accounting Assistant, Pharmacy Technology, Computer Information Technology, Business Education, Medical Assistant, and all Computer Applications and Office Technology programs. This is an important course for those who want to learn to key by touch and is especially useful for word processing. Prior completion of other courses is not required.

CAOT-113
1 Credit**Keyboarding 2**

CAOT-113 is a continuation of CAOT-112. Emphasis is placed on improving keystroke efficiency and on reinforcing and building keying speed and accuracy. This is a required course in the Accounting Assistant, Business Education, Medical Assistant, and all Computer Applications and Office Technology programs.

Prerequisite: CAOT-112 with a minimum grade of C-. Students may enroll and complete these courses during the same semester

CAOT-114
1 Credit**Internet 1**

This course will cover use of the Internet including information about the World Wide Web, connecting to and researching on the Internet, using e-mail, exploring blogs, exploring copyright issues, and privacy and security concerns. This course is intended to provide students with the ability to become comfortable using the Internet for personal and business reasons. This is a hands-on class using real world personal and business websites and is a valuable course for those who want to gain a beginning knowledge of current Internet technology. It is a required course in some Computer Applications and Office Technology programs. Prior completion of other courses is not required.

CAOT-115
1 Credit**Outlook**

This course will introduce the functions used in Microsoft Outlook including e-mail messages, calendar, contacts, tasks, journals, and notes. It is a required course in some Computer Application Office Technology programs. Prior completion of other courses is not required.

CAOT-120
1 Credit**Word Processing/Word 1**

CAOT-120 provides an introduction to word processing fundamentals in a hands-on environment with business-oriented examples. It includes creating, storing, retrieving, editing, printing, formatting paragraphs and documents, and tables. This is a valuable course for those who want to learn how to use word processing software. This is a required course in the Accounting Assistant and Resort Recreation Management program. This course fulfills the first credit of the word processing requirement for the Computer Applications and Office Technology, Medical Assistant, and Business Education programs.

Recommended: Completion of CAOT-112

CAOT-121
1 Credit**Word Processing/Word 2**

CAOT-121 is a continuation of CAOT-120. This course provides additional word processing functions, including graphics, themes and building blocks, merging, styles, templates, and developing multi-page documents. This course fulfills the second credit of the word processing requirement for the Medical Assistant, Business Education, and Computer Applications and Office Technology programs and counts as an elective for the Accounting Assistant program.

Prerequisite: CAOT-112 and CAOT-120 with a minimum grade of C-. Students may enroll and complete these courses during the same semester

CAOT-122
1 Credit**Word Processing/Word 3**

CAOT-122 is a continuation of CAOT-121. This course provides instruction in advanced word processing functions including working with references, integrating Word with other programs, advanced graphics, forms, collaboration, and customizing Word. This course fulfills the third credit of the word processing requirement for the Medical Assistant, Business Education, and Computer Applications and Office Technology programs and counts as an elective for the Accounting Assistant program.

Prerequisite: CAOT-112 and CAOT-121 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-130
1 Credit**Spreadsheets/Excel 1**

CAOT-130 is an introduction to spreadsheet fundamentals. This is a hands-on class that includes basic spreadsheet construction and formatting, formulas and functions, charts, and basic data analysis. This course fulfills the first credit of the spreadsheets requirement for the Accounting Assistant and Computer Applications and Office Technology programs and the spreadsheet requirement for the Resort Recreation Management program. Some computer knowledge and basic math skills are recommended.

CAOT-131
1 Credit**Spreadsheets/Excel 2**

CAOT-131 is a continuation of CAOT-130. This course provides additional spreadsheets functions including managing workbook data, using tables, analyzing table data, automating worksheet tasks, enhancing charts, sharing files, and incorporating Web information.

This course fulfills the second credit of the spreadsheets requirement for the Accounting Assistant and Computer Applications and Office Technology programs.

Prerequisite: CAOT-130 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-132 **Spreadsheets/Excel 3** 1 Credit

CAOT-132 is a continuation of CAOT-131. This course provides additional spreadsheets functions including using what-if analyses, pivottables, importing and exporting data, advanced worksheet management, and macros. This course fulfills the third credit of the spreadsheets requirement for the Accounting Assistant and Computer Applications and Office Technology programs.

Prerequisite: CAOT-131 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-140 **Database/Access 1** 1 Credit

CAOT-140 is an introduction to database management fundamentals. This is a hands-on class that includes basic skills for designing and manipulating a database, building and using queries, sorting and editing records, using forms and reports, and introduces database relationships. This course fulfills the first credit of the database requirement for Computer Applications and Office Technology and Resort Recreation Management programs.

Recommended: Completion of CAOT-110

CAOT-141 **Database/Access 2** 1 Credit

CAOT-141 is a continuation of CAOT-140. This hands-on class includes intermediate skills in database management software including advanced queried, forms, and reports; importing and exporting data; working with wizards and design view; and analyzing data. This course fulfills the second credit of the database requirement for Computer Applications and Office Technology programs.

Prerequisite: Complete CAOT-140 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-142 **Database/Access 3** 1 Credit

CAOT-142 is a continuation of CAOT-141. This hands-on class includes advanced skills in database management software including advanced reports, managing database objectives, macros, modules, and maintaining a database. This course fulfills the third credit of the database requirement for Computer Applications and Office Technology programs.

Prerequisite: Complete CAOT-141 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-150 **PowerPoint** 1 Credit

CAOT-150 provides an introduction to presentation software fundamentals using PowerPoint. A hands-on class that uses business-oriented examples, it includes planning, creating, storing, retrieving, editing, formatting, and viewing presentations. This is a valuable course for those that want to learn how to use presentation software. This course can be an elective for the Computer Applications and Office Technology programs.

Recommended: Some keyboarding proficiency

CAOT-160 **Desktop Publishing/Publisher 1** 1 Credit

CAOT-160 provides an introduction to desktop publishing fundamentals using Microsoft Publisher. A hands-on class, it includes creating, storing, retrieving, editing, and printing business publications.

Recommended: Some keyboarding proficiency

CAOT-161 **Desktop Publishing/Publisher 2** 1 Credit

CAOT-161 is a continuation of CAOT-160. This class will take an intermediate look at desktop publishing using Microsoft Publisher. This course is hands-on and will further explore desktop publishing techniques and terminology. This is a valuable course for those who create in-house publications.

Prerequisite: Complete CAOT-160 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-162 **Introduction to Computer Applications** 2 Credits

CAOT-162 is a rich interactive learning experience designed to give students the basic tools and aptitudes they need to meet today's technology challenges. This course explores how computers and their peripheral devices work and the capabilities of software to meet the needs of the user. Emphasis is placed on the use of computers to manage information for personal and professional uses. Software applications in word processing, spreadsheets, and databases are used during the semester. Lab assignments using software applications are a major portion of the course requirement. No prior experience is necessary.

CAOT-164 **Computer Fundamentals for Tech Programs** 1 Credit

This course covers basic computer concepts including computer hardware, computer software, and using an operating system. Emphasis will be placed on current industry-recognized business applications. Students will become familiar with the basic operations and performance of personal computers.

Lecture: 1 hour per week

CAOT-165 **Productivity Software for Tech Programs** 1 Credit

This course covers productivity software based on Microsoft Office including common program functions, word processing functions, spreadsheet functions, and presentation software functions. Emphasis will be placed on current industry-recognized business applications.

CAOT-166 **Living Online for Tech Programs** 1 Credit

This course covers the basics of the Internet, including networks and the Internet, electronic mail, using the Internet, and the impact of computing and the Internet on society. Emphasis will be placed on current industry-recognized business applications.

Lecture: 1 hour per week

CAOT-167 **Medical Software Applications** 1 Credit

This course prepares students for administrative tasks in health care practices. Using a medical administrative software package designed for Windows, students will learn to input patient information, schedule appointments, and handle billing. In addition, students

will produce various lists and reports and learn to handle insurance claims both on paper forms and electronically. The concepts learned in this course are general enough to cover most medical administrative software packages, and students who complete this course should be able to use other brands of software with minimum training. This is a required course in the Medical Administrative Assistant, Medical Assistant, Medical Billing Specialist, and Medical Receptionist programs.

Prerequisite: CAOT-113 with a minimum grade of C-

CAOT-179 Medical Terminology 2 Credits

This course is a comprehensive introduction to terminology used in the medical field. Taking a body systems approach, emphasis is placed on anatomy and physiology, abnormal conditions, diagnostic and surgical procedures, as well as medical roots, prefixes, and suffixes. Skill emphasis is placed on defining medical terms and abbreviations, understanding basic human anatomy, and spelling of medical terms.

Lecture/Lab: 2 hours per week

CAOT-180 Legal Issues in Health Care 1 Credit

This course provides an overview of the laws and ethical issues relevant to medical careers. Topics include medical practice acts and boards, risk management, basic elements of contract law, professional liability and medical malpractice, privacy, confidentiality and privileged communications, medical records and informed consent, and workplace legalities. This is a required course in the Medical Administrative Assistant, Medical Assistant, Medical Billing Specialist, Medical Receptionist, Medical Office Transcriptionist/Pre-Health Information Technology, and Medical Transcriptionist programs.

Prerequisite: CAOT-179 with a minimum grade of C- or instructor permission

CAOT-181 Legal Terminology 3 Credits

This course provides an introduction to the spelling, pronunciation, definition, and usage of legal terminology. Emphasis is placed on the correct use of terms in the major areas of law. CAOT-181 is a required course in the Legal Administrative Assistant and Paralegal programs.

Lecture: 3 hours per week

CAOT-183 Business Editing and Proofreading 3 Credits

This course deals with the principles of English grammar, punctuation, sentence structure, and usage necessary for preparation of all business communications with an emphasis on proofreading, spelling, and editing documents. This is a required course in Computer Applications and Office Technology programs. It is also useful for students who need to apply correct rules or the mechanics of our language to written communications.

Lecture: 3 hours per week

CAOT-184 Records Systems Management 3 Credits

This course provides instruction in the management of manual and electronic records. The life cycle of records from creation through disposal or permanent retention is covered. Emphasis is placed on the classification of records, application of the ARMA filing rules, the organization and management of manual and electronic information, types of records storage facilities, the importance of records retention

programs, and the necessity of providing for the safety and security of information. The use of manual, mechanical, and automated methods of information storage and retrieval including micrographic and optical disk storage is also discussed. This is a required course in Computer Applications and Office Technology programs.

Lecture: 3 hours per week

Pre/Corequisite: CAOT-120

Recommended Corequisite: CAOT-140 or some knowledge of Microsoft Access

CAOT-186 Medical Coding 3 Credits

This course is designed to help learners master the complexity of medical coding. Using the Current Procedural Terminology (CPT) and the International Classification of Diseases - Clinical Modification (ICD-9-CM) coding books, students will transform written descriptions of diseases, injuries, and procedures into numeric designations. Exercises will cover all medical specialties including dermatology, cardiology, primary care, and orthopedics and addresses the common coding problems encountered in the real world. Skill emphasis is placed on knowledge of coding theories and practical coding applications. This is a required course in the Medical Administrative Assistant and Medical Billing Specialist programs.

Prerequisite: CAOT-179 with a minimum grade of C- or instructor permission

CAOT-190 Office Specialist/ Receptionist Internship 1 Credit

This course provides supervised training in office skills through on-the-job experience. It provides a practical application of office skills learned in the Office Specialist/Receptionist program. Students work in an office environment six hours per week for eight weeks. It is a required course in the Office Specialist/Receptionist program and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

On-the-Job Activities: 6 hours per week for 8 weeks

CAOT-191 Medical Receptionist Internship 1 3 Credits

This course provides supervised training in medical receptionist skills through on-the-job experience in a medical-related office. It provides a practical application of medical receptionist skills as part of the learning process and involves approximately nine hours per week of in-office work. This is a required course in the Medical Receptionist program and is graded on a satisfactory/unsatisfactory basis.

In-Office Work: 9 hours per week

Prerequisite: Complete CAOT-179 and CAOT-212 with a minimum grade of C- and instructor permission.

CAOT-210 Office Procedures 3 Credits

This course is designed to provide students with the information necessary to be successful in today's rapidly changing office environment. In addition to providing students with opportunities to practice and use previously learned skills and abilities topics include office technology; the global economy; increased diversity in the workplace; career planning and preparation; the importance of interpersonal, oral and written communication skills; teamwork; critical thinking skills; ethical issues in the work environment; learning and applying effective telephone techniques; handling office callers; scheduling appointments; meetings, and conferences; making travel arrangements; handling the office mail; and stress and time management. This is a required course in Computer Applications

and Office Technology programs.

Lecture: 3 hours per week

Pre/Corequisite: CAOT-120

CAOT-211

1 Credit

Machine Transcription/ Document Formatting 1

CAOT-211 is an introduction to machine transcription and document formatting including formatting letters and memos. Students prepare business documents by listening to recorded dictation and transcribing the dictation using word processing software. Development of good listening skills is stressed. Emphasis is placed on developing proofreading and editing skills to produce mailable documents. Prior completion or concurrent enrollment in CAOT-183 Business Editing and Proofreading is recommended. This is a required course in the Computer Applications and Office Technology programs.

Prerequisite: CAOT-120 with a minimum grade of C-

CAOT-212

1 Credit

Machine Transcription/ Document Formatting 2

CAOT-212 is a continuation of CAOT-211. Students will enhance their machine transcription and document formatting skills and knowledge by formatting complex documents such as two-page letters, reports, agendas, itineraries, and news releases. Students prepare business documents by listening to recorded dictation and transcribing the dictation using word processing software. Development of good listening skills is stressed. Emphasis is placed on developing proofreading and editing skills to produce mailable documents. This is a required course in the Computer Applications and Office Technology programs.

Prerequisite: CAOT-211 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-213

1 Credit

Legal Transcription 1

This course provides an introduction to the transcribing and formatting of the legal documents required in different substantive areas of law. Legal procedures required for these different types of law are also emphasized. CAOT-213 is the first credit of a three-credit sequence of legal transcription courses and covers documents and procedures required in basic civil litigation and correspondence. This is a required course in some Computer Applications and Office Technology programs.

Prerequisite: CAOT-181 and CAOT-212 with a minimum grade of C-

CAOT-214

1 Credit

Legal Transcription 2

CAOT-214 is a continuation of CAOT-213. CAOT-214 is the second credit of a three-credit sequence of legal transcription courses and covers documents and procedures required in basic probate and family law. This is a required course in some Computer Applications and Office Technology programs.

Prerequisite: CAOT-213 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-216

1 Credit

Medical Transcription 1

This course is an introduction to transcribing recorded medical dictation and covers basic reports used in the medical field, related medical terminology, use of reference material, and specialized rules of grammar and punctuation peculiar to dictated medical reports. Emphasis is on the importance of correct usage of medical terms with an introduction to proofreading and editing of medical reports.

Medical reports will be transcribed from 4 individual case studies covering the reproductive, musculoskeletal, cardiopulmonary, and integumentary body systems. Application testing is completed under timed conditions. This is a required course for students in the Medical Administrative Assistant, Medical Receptionist, Medical Office Transcriptionist/Pre-Health Information Technology, and Medical Transcriptionist programs.

Prerequisite: CAOT-179 and CAOT-212 with a minimum grade of C-

CAOT-217

1 Credit

Medical Transcription 2

This course is a continuation of CAOT-216. Medical reports will be transcribed from six individual case studies covering the urinary, nervous, digestive, endocrine, lymphatic, and respiratory body systems. This is a required course for students in the Medical Administrative Assistant, Medical Receptionist, Medical Office Transcriptionist/Pre-Health Information Management Technician, and Medical Transcriptionist programs.

Prerequisite: CAOT-216 with a minimum grade of C-. Students may enroll and complete these courses during the same semester.

CAOT-218

1 Credit

Medical Transcription 3

This course builds on the foundation laid in the Medical Transcription 1 and 2 courses and bridges the gap between the typically easy-to-understand dictation in the beginning transcription course and the difficult, often indistinct, dictation heard in the work environment of a medical transcriptionist. Emphasis is on proofreading and editing of medical reports, knowledge of abbreviations used in a variety of medical specialties, and speed and accuracy of transcription. Application testing is completed under timed conditions. Medical specialty areas covered include surgery, cardiology, diagnostic imaging/interventional radiology, pathology, obstetrics/gynecology, orthopedics, and gastroenterology. This is a required course for students in the Medical Transcriptionist and Medical Office Transcriptionist/Pre-Health Information Technology programs.

Prerequisite: CAOT-217 with a minimum grade of C-

CAOT-219

1 Credit

Medical Transcription 4

This course is a continuation of CAOT-218. Medical specialty areas covered include respiratory/pulmonary medicine, urology/nephrology, oncology, hematology/infectious diseases, neurology/neurosurgery, plastic surgery, pediatrics/neonatology, otorhinolaryngology, ophthalmology, psychiatry, and dentistry/oral surgery. This is a required course for students in the Medical Transcriptionist and Medical Office Transcriptionist/Pre-Health Information Management programs.

Prerequisite: CAOT-218 with a minimum grade of C-. Students may enroll and complete these courses during the same semester

CAOT-220

3 Credits

Administrative Support Internship 1

This course provides supervised training in administrative skills through on-the-job experience in a business office. It provides a practical application of administrative office skills as a part of the learning process and involves approximately nine hours per week of in-office work. This is a required course in the Office Specialist Receptionist, Administrative Assistant, and Virtual Assistant programs and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

On-the-Job Activities: 9 hours per week

CAOT-221 Administrative Assistant Internship 2
3 Credits

CAOT-221 is a continuation of CAOT-220. It is a required course in the Administrative Assistant program and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

On-the-job Activities: 9 hours per week

Prerequisite: CAOT-220 with a satisfactory grade

CAOT-222 Legal Administrative Assistant Internship 1
3 Credits

This course provides supervised training in administrative skills through on-the-job experience in a legal-related office. It provides a practical application of legal administrative office skills as part of the learning process and involves approximately nine hours per week of in-office work. This is a required course in the Legal Administrative Assistant program for the A.A.S. degree and advanced technical certificate and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

In-Office Work: 9 hours per week

Prerequisite: CAOT-213 with a minimum grade of C-

CAOT-223 Legal Administrative Assistant Internship 2
3 Credits

This is a continuation of CAOT-222. It is a required course in the Legal Administrative Assistant program and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

In-Office Work: 9 hours per week

Prerequisite: CAOT-222 with a satisfactory grade

CAOT-224 Medical Administrative Assistant Internship
3 Credits

This course provides supervised training in administrative medical office skills through on-the-job experience in a medical-related office. It provides a practical application of administrative medical office skills as part of the learning process and involves approximately nine hours per week of in-office work. This course is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

In-Office Work: 9 hours per week

Prerequisite: CAOT-167 and CAOT-217 with a minimum grade of C- and instructor permission.

CAOT-225 Medical Billing Specialist Internship 1
4 Credits

This course provides supervised training in medical accounts receivables/insurance billing through on-the-job experience in a medical facility. It provides practical application of medical accounts receivables/insurance billing as part of the learning process and involves approximately 11 hours per week of on-site work. This is a required course in the Medical Billing Specialist program and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

On-Site Work: 11 hours per week

Prerequisite: ACCT-110, CAOT-167, and CAOT-186 with a minimum grade of C- and instructor permission.

CAOT-226 Medical Billing Specialist Internship 2
4 Credits

The Medical Billing Specialist Internship 2 is a continuation of CAOT-225. It is a required course in the Medical Billing Specialist program and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

On-Site Work: 11 hours per week

Prerequisite: CAOT-225 with a satisfactory grade.

CAOT-227 Medical Transcriptionist Internship 1
3 Credits

The Medical Transcriptionist Internship 1 provides supervised training in medical transcription skills through on-the-job experience in a medical facility. This course provides practical application of medical transcription as part of the learning process. It involves approximately nine hours per week of in-site work. This is a required course in the Medical Transcriptionist and Medical Office Transcriptionist programs and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

On-Site Work: 9 hours per week

Prerequisite: CAOT-217 and PHAR-151 with a minimum grade of C- and instructor permission.

CAOT-228 Medical Transcriptionist Internship 2
3 Credits

The Medical Transcriptionist Internship 2 is a continuation of CAOT-227. It is a required course in the Medical Transcriptionist and the Medical Office Transcriptionist/Pre-Health Information Technology programs and is graded on a satisfactory/unsatisfactory basis. Instructor permission is required.

On-Site Work: 9 hours per week

Prerequisite: CAOT-227 with a satisfactory grade and instructor permission.

CAOT-250 Office Skills Capstone
1 Credit

This course is an application-oriented capstone assessment of students' proficiency in Computer Application and Office Technology Skills.

Lecture: 1 hour per week

COMPUTER INFORMATION TECHNOLOGY

CITE-101 Networking 1
4 Credits

This course provides students with the fundamental knowledge and skills to install and configure server operating systems in a small business environment. It will focus on four main areas: installing, securing, networking, and basic network services. By the end of the course students will have installed and configured a server operating system that is secure, on the network, and providing basic network services to the end user.

Lecture/Lab: 4 hours per week

CITE-102 Networking 2
3 Credits

This course provides students with the knowledge and skills to configure server operating systems in a small to medium business environment. It will focus on four main areas: resource access, security, advanced networking, and advanced network services. By the end of the course students will have configured a server operating system that is fault-tolerant, secure, scalable, and providing advanced network services to the end user.

Lecture/Lab: 4 hours per week

Prerequisite: CITE-101

CITE-102A Networking 2 Certification Exam Preparation
1 Credit

This course is intended to assist students in preparing for the Networking 2 Information Technology industry certification examina-

simulate real-world internetworking. This course introduces students to the networking field.

Lecture: 10 hours per week

Lab: 6 hours per week

CITE-172 **Internetworking 2** 3 Credits

This course is titled “Internetworking 2: Introduction to Cisco Router Configuration” and begins with an overview of LAN’s covered in Internetworking 1 and continues to Wide Area Networks (WAN). Topics include Network layer, Cisco IOS (Internetwork Operating System), software user interface, display router configuration information, router startup and setup configuration, router configuration, sources for Cisco IOS software, TCP/IP, configuring router interfaces with IP addresses, router configuration and routing protocols (RIP and IGRP), and access lists. This is the second of four courses leading to the Cisco Certified Network Associate (CCNA certification). This course is part of the Cisco Network Academy Program.

Lecture/Lab: 8 hours per week for 8 weeks

Prerequisite: CITE-171

CITE-172A **Internetworking 2 Certification** 1 Credit **Exam Preparation**

This course is intended to assist students in preparing for the Internetworking 2 Information Technology industry certification examination by providing instructor mentoring, simulation certification practice exam questions, supplemental resources, and optional supplemental lab exercises.

Lab: 8-16 hours per week

Corequisite: CITE-172

CITE-201 **Networking 3** 3 Credits

This course provides students the fundamental knowledge and skills needed to configure network identity and access management services in a corporate business environment through the use of central administration and policy enforcement.

Lecture/Lab: 4 hours per week

Prerequisite: CITE-102

CITE-202 **Networking 4** 3 Credits

This course provides students the knowledge and skills needed to maintain and support network identity and access management services in a corporate business environment. Topics addressed include managing policies, performing backup and restore, and monitoring and troubleshooting directory services related issues.

Lecture/Lab: 4 hours per week

Prerequisite: CITE-201

CITE-202A **Networking 4 Certification** 1 Credit **Exam Preparation**

This course is intended to assist students in preparing for the Networking 4 Information Technology industry certification examination by providing instructor mentoring, simulation certification practice exam question, supplemental resources, and optional supplemental lab exercises.

Lab: 8-16 hours per week

Corequisite: CITE-202

CITE-203 **Networking 5** 3 Credits

This course addresses the responsibilities of server administration and the day-to-day operations and management of an infrastructure of servers for an enterprise organization. Topics addressed include server administration using scripts and batch files, remote administration, and managing hosted services.

Lecture/Lab: 4 hours per week

Prerequisite: CITE-202

CITE-203A **Networking 5 Certification** 1 Credit **Exam Preparation**

This course is intended to assist students in preparing for the Networking 5 Information Technology industry certification examination by providing instructor mentoring, simulation certification practice exam questions, supplemental resources, and optional supplemental lab exercises.

Lab: 8-16 hours per week

Corequisite: CITE-203

CITE-267 **Advanced New and** 1 Credit **Emerging Technologies**

This course introduces advanced new and emerging technologies in the Information Technology industry. These could include advanced desktop and network operating systems, advanced network services, and advanced hardware. The purpose of this course is to introduce students to these advanced new and emerging technologies with an emphasis on design, installation, and support.

Lecture/Lab: 16 hours

Prerequisite: CITE-102 or equivalent knowledge and experience

CITE-281 **Internetworking 3** 3 Credits

This course “Advanced Cisco Routing and Switching” provides students with the knowledge and skills to configure advanced routing protocols, LAN switching, and internetwork access methods. Students will be able to troubleshoot configurations using Cisco bridges, routers, and switches. This is the third of four courses leading to the Cisco Certified Network Associate (CCNA certification). This course is part of the Cisco Network Academy Program.

Lecture/Lab: 8 hours per week for 8 weeks

Prerequisite: CITE-171, CITE-172

CITE-282 **Internetworking 4** 3 Credits

This course titled, “Internetworking 4: Cisco WAN Design,” is the fourth and last course in a series of courses designed to prepare students for the Cisco Certified Network Associate (CCNA) exam and the Network+ exam. It provides students with the knowledge and skills to design and configure Wide Area Networks (WANs) using the Cisco IOS command set. This course is part of the Cisco Network Academy Program.

Lecture/Lab: 8 hours per week for 8 weeks

Prerequisites: CITE-171, CITE-172, CITE-281

CITE-282A **Internetworking 4 Certification** 1 Credit **Exam Preparation**

This course is intended to assist students in preparing for the Internetworking 4 Information Technology industry certification examination by providing instructor mentoring, simulation certifica-

tion practice exam questions, supplemental resources, and optional supplemental lab exercises.

Lab: 8-16 hours per week

Corequisite: CITE-282

CITE-283 **Fundamentals of Wireless LANs** 3 Credits

This course is an introduction of Wireless LANs, focusing on the design, planning, implementation, operation, and trouble-shooting of Wireless LANs and bridging. It covers a comprehensive overview of technologies, security, and design best practices with particular emphasis on hands-on skills in the following areas: Wireless LAN setup and troubleshooting, 802.11a and 802.11b technologies, products and solutions, Site Surveys, Resilient WLAN design, installation and configuration, WLAN Security, and vendor interoperability strategies. The Fundamentals of Wireless LANs will map against the Cisco Wireless LAN Support Specialist designation.

Lecture/Lab: 4 hours per week for 16 weeks

Prerequisites: CITE-171 and CITE-172, or a valid CCNA certification, or equivalent knowledge and skills.

CITE-285 **Fundamentals of Network Security** 4 Credits

The Fundamentals of Network Security course is designed for students interested in securing the network infrastructure. It focuses on the overall security process based on a security policy with the particular emphasis on hands-on skills in the area of secure perimeter, secure connectivity security management, identity services, and intrusion detection.

Lecture/Lab: 16 hours per week for 5 weeks

Prerequisites: CITE-281 and CITE-282 or CCNA certification

CITE-290 **Voice Over IP** 1 Credit

This course gives an overview of the subject of voice over IP and IP telephony. Students will learn how voice and data communications merge in the voice over IP (VoIP) technology. It will cover basic operation, issues that need to be considered when deploying voice over IP, and how these may be dealt with. It provides a foundation for understanding the protocols in use in VoIP networks.

Lecture/Lab: 16 hours

CITE-291 **Advanced Routing Technologies** 1 Credit

Advanced Routing Technologies introduces students to scaling IP networks. Students learn to use VLSM, private addressing, and NAT optimize IP address utilization. The majority of the course content is related to learning how to implement the RIPv2, EIGRP, OSPF, IS-IS, and BGP routing protocols as well as the important techniques used for route filtering and route redistribution.

Lecture/Lab: 16 hours

Prerequisites: CITE-281, CITE-282

CITE-295 **Computer Information Technology Internship** 4 Credits

The Computer Information Technology Internship involves a working partnership in which the sophomore students of the CITE program join with area employers in a structured, real-life relationship. Students will gain insight and on-the-job work experience doing projects that would normally be assigned to the employer's entry-level support staff. During this supervised experience, students will be evaluated on their performance of course competencies. Students

are responsible for finding an appropriate internship site and permission of the instructor is required. This is an elective course in the Computer Information Technology A.A.S. degree option. This course includes 135 hours of on-site work experience and 15 hours of directed study/lecture in occupational relations for 4 credits. This course may be used to substitute for ATEC-117.

Prerequisite: Sophomore standing in the CITE program

COMPUTER SCIENCE

CS-100 **Intro to Computers & Computer Science** 3 Credits

CS-100 is an introduction to computers and computer science for non-computer science majors. Prior experience with computers, such as using a graphical user interface and a word processor, is recommended. Students with no prior experience will be expected to attend out-of-class labs to learn the basics of a computer. Topics include an historical perspective, evolving hardware and software, using the Internet, creating web pages, social implications, and using a modern programming language. Problem solving and algorithm development are important themes of the class. The course involves substantial use of microcomputers outside of class and the possible use of minicomputers and alternative operating systems.

Lecture: 3 hours per week

Prerequisites: MATH-025 or COMPASS Algebra > 40, ACT > 18, or SAT > 430

CS-125 **Intro to Programming Using Visual Basic** 3 Credits

This course provides an introduction to programming using Visual Basic and Visual Basic Script. No prior programming experience is expected. The course is appropriate for any student interested in learning how to create applications for Windows or the World Wide Web. It provides an introduction to creating graphical user interfaces for Windows, Pocket PC, and WWW applications. The course focuses on algorithm design and implementation for event driven operating systems such as Windows. Object oriented programming and the syntax of Visual Basic are core topics. In addition, students will apply their knowledge to create interactive web pages and Visual Basic's database capabilities will be introduced.

Lecture: 3 hours per week

Prerequisites: MATH-108 or COMPASS Algebra > 45, ACT > 19, or SAT > 460

CS-150 **Computer Science I** 4 Credits

CS 150 offers an introduction to the field of computer science using a current programming language. Central themes of the class include an introduction to computer organization; algorithmic problem solving; structured and object oriented program design; and the societal and professional context in which computer science exists. Fundamental data types including arrays and structures will be explored and concepts such as complexity, invariants, abstract data types, pointers, and linked lists will be introduced.

Lecture: 3 hours per week

Corequisite: CS-150L (2 hours per week)

Recommended: CS-100 for students without computer experience.

Prerequisites: Entry is based on an appropriate score on the placement test, either COMPASS Algebra > 61, ACT Math > 23, SAT Math > 540, or a grade of C- or above in MATH-108.

CS-160
3 Credits
Computer Science II

CS-160 provides continuing experience in problem solving and software design methods. The analysis of algorithms, use of non-text files, and dynamic data structures are introduced and the entire software-design cycle is considered in greater depth. Standard algorithms for numeric and text processing, searching, and sorting will be covered, as well as a large group project. The exploration of recursion is continued.

Lecture: 3 hours per week

Prerequisites: CS-150, CS-150L

CS-211 Languages of Computer Science: C++
3 Credits

This course provides an introduction to object oriented programming using the language C++. Features of the UNIX operating system, programming for the Windows environment, and the Standard Template Library may be discussed. This course is suitable for students aspiring to major in computer science, but will also serve science and engineering majors as well as members of the community desiring to add object oriented programming to their repertoire of skills.

Lecture: 3 hours per week

Recommended: Prior programming experience in a structured language. This requirement may be met with a course in Java, C, or other high level language.

CS-212 Languages of the World Wide Web
3 Credits

This course is designed to teach programming and computational thinking skills to create rich, interactive documents for the World Wide Web. Focus is on using information resources, current markup and scripting languages, and creating applications utilizing current Web technologies. Students will learn to create documents that contain text, video, audio, and image data to request and process input from users. Image, video, and audio representation will be covered. Techniques of indexing, searching, and browsing data, the societal impact of the Internet, security, cryptography, and freedom of speech will be covered.

Lecture: 3 hours per week

Recommended: Experience using the World Wide Web and the Internet

CS-213 Languages of Computer Science: Java
3 Credits

This course provides an introduction to the programming language Java. The course will include the features of Java such as objects, classes, wrappers, constructors, inheritance, method overloading, threads, error handling with exceptions, applets, java.awt (the Abstract Windows Toolkit) and possibly other Java packages.

Lecture: 3 hours per week

Recommended: High level language programming class such as C++ or permission of the instructor

CS-214 Languages of Computer Science: C#
3 Credits

CS-214 provides an introduction to computer programming, using the unique visual and object-oriented features of the C# language and the Visual Studio.NET integrated development environment. Topics include object-oriented programming, Windows and Web applications, Web forms, database access using ADO.NET, file access, exception handling, and other current topics as time allows.

Lecture: 3 hours per week

Recommended: Prior programming experience in a structured and/or object oriented language such as Visual Basic Java, C, or C++

CS-228
2 Credits
Introduction to UNIX

CS-228 is offered with the primary goal of providing Computer Science majors with UNIX operating system experience to facilitate their transfer to a four-year university. It is also helpful for students who are interested in learning about the UNIX operating system which is used extensively in business and on the Internet. Course topics typically include basic command line use of the UNIX operating system; the file structure and permissions; using text editors; creating scripts; the shells, network and Internet tools; graphical environments; and an introduction to UNIX administration. Students will be expected to complete homework that may be completed on campus, on a PC or MAC using a UNIX variant, or via the Internet. Students will have accounts on a UNIX or Linux server on campus that can be accessed via the Internet.

Lecture: 2 hours per week

Recommended: Prior computer experience such as that gained in CS 100 including significant experience using the Internet and some programming experience is strongly recommended.

CS-240 Digital Logic
4 Credits

Digital logic concepts, logic design, Karnaugh maps, combinational and sequential networks, state tables, state machines, and programmable logic arrays are covered in this course. Laboratory activities use basic lab equipment, logic analyzers, and digital oscilloscopes.

Lecture: 3 hours per week

Corequisite Lab: CS 240L (2 hours per week)

Prerequisites: MATH-170 or MATH-187 or instructor permission

CS-250 Data Structures
3 Credits

Standard data structures are examined using a high level programming language such as C++, Stacks, queues, linked lists, and trees. Graphs are presented and explored through manipulation methods specific to each. Other topics include a continued development of skills in the analysis of algorithms, abstract data types, dynamic memory use, and the use of external files.

Lecture: 3 hours per week

Corequisite Lab: CS-250L (2 hours per week)

Prerequisites: Complete CS-150 or CS-160 with minimum grade of B and MATH-187 with a minimum grade of C-

CS-270 Computer Organization and Assembly Language
3 Credits

Course topics include register and processor level design of computer systems covering the ALU, control unit, assembly language, interrupts, DMA, cache control, scheduling algorithms, addressing methods, linkers, and loaders.

Lecture: 3 hours per week

Prerequisites: CS-150, CS-240

COOKING
COOK-110 Soups and Sauces
1 Credit

This course will focus on the fundamental knife skills and basic food organization and preparation. Students will learn techniques for preparing soups and sauces. A variety of sauces will be introduced including mother sauces, small sauces, clear soup, cream soup, chowders, purees, and specialties.

Lecture: 1 hour per week

COOK-111 Low-Fat/Low-Salt Cooking
1 Credit

This course will focus on how to prepare and serve healthy, low-fat/low-salt meals. Students will learn to use fresh herbs, salt alternatives, and healthy oils to prepare healthy satisfying meals. Cooking techniques will also be discussed.

Lecture: 1 hour per week

COOK 112 Cooking for One or Two
1 Credit

This course is about learning to prepare meals for one or two people. Focus will be placed on putting fun into preparing healthy, attractive meals. Planning, shopping, preparation, and storing will also be discussed.

Lecture: 1 hour per week

COOK-113 Cooking Around the World
1 Credit

This course will focus on the fundamentals of international cuisines. Students will learn to identify flavor combinations and cooking techniques from around the world. International cuisines explored will include Thai, Indian, Mediterranean, Central, and South American.

Lecture: 1 hour per week

COOK-114 Easy and Elegant Desserts
1 Credit

This course will focus on easy, yet elegant desserts. Students will work with both hot and cold desserts as well as combination desserts. Ingredients, proper tools, and techniques will be discussed. Ease and elegance are the keys to these recipes.

Lecture: 1 hour per week

CRIMINAL JUSTICE
CJ-103 Introduction to Criminal Justice
3 Credits (same as LAWE-103)

This course offers an introduction to the purpose, function, and brief history of the agencies dealing with criminal justice, while presenting a survey of requirements for entering criminal justice service. Students discuss crime, the criminal, traffic, and vice as social problems; the function of the courts; prosecution and defense attorneys; correctional and penal institutions; and probation and parole. This course will introduce the student to the various agencies and employment opportunities within the criminal justice system. This is a required course in the Law Enforcement program.

CJ-202 Corrections in America
3 Credits (same as LAWE-202)

This course includes a survey of the historical, philosophical, and legal bases of correctional procedures and institutions. It also includes an examination of current problems and innovations.

Prerequisites: LAWE-103 or CJ-103 or permission of instructor.

CJ-205 Criminal Procedure
3 Credits (same as LAWE-205)

This course includes an examination of the procedural aspects of criminal law. It will include specific applications of procedures by actors in the criminal justice process including police, prosecutors, defense attorneys, judges, and corrections officials. This examination will provide a basic understanding of state and local legal codes, as

well as current applications of law in both arrest and search and seizure.

CULINARY ARTS

NOTE: Course enrollment requires prior acceptance into the Culinary Arts program.

CULA-150 Sanitation and Safety
1 Credit

This course focuses on the basics of safety and sanitation as it applies to the food service industry. On completion of this course students will be certified by the National Restaurant Association in Applied Food Safe Sanitation. Students will be instructed in the basics of first aid as it relates to food service.

CULA-151 Introduction to Food Service
3 Credits

Through lecture and demonstration, this course includes an introduction to tools and equipment used in the food service industry. Students will also learn basic cooking principles and methods including the art of seasoning and flavoring. Recipe and menu development will also be taught, as well as forms and functions, measurements, conversions and food costs.

CULA-152 Breakfast Cookery and Food Presentation, Garnish, Quick Breads
1 Credit

This course will focus on the preparation of breakfast foods including eggs, dairy products, and meats. Basic bakeshop principles as they relate to an assortment of foods and breads, will also be explored. An introduction to food presentation and buffet service will also be included.

CULA-155 Preparation of Stocks, Soups, and Sauces
1 Credit

This course will focus on the fundamental knife skills and basic food organization and preparation. Students will be introduced to techniques required for preparing stocks, soups, and sauces. A variety of sauces will be introduced including mother sauces, small sauces, clear soups, cream soups, chowders, purees, and specialties.

CULA-156 Preparation of Meats, Poultry, Fish, and Shellfish
1 Credit

Students will gain an understanding of the composition and structure of meats, fish, poultry, and shellfish as they relate to the industry. Field trips to a production meat company and fishmonger will be included. Application of theories will be experienced in lab.

CULA-157 Preparation of Vegetables, Starches, Sandwiches, and Salads
2 Credits

Students will gain an understanding of the different techniques and methods used to prepare vegetables and starches as these techniques relate to quality. In addition, students will learn about various types of salads and dressings, as well as hot and cold sandwich preparation.

CULA-158 Bakeshop
2 Credits

Preparation techniques and procedures for a variety of baked goods will be explored. Breads, cakes, icings, cookies, pies, and pastries will be among specific items discussed.

CULA-165 Introduction to Customer Service
3 Credits

This course will focus on the basics of customer service. Quality customer service will be at the center of all discussions. Special attention will be placed on front-end restaurant and dining service procedures. Students will apply principles learned in class during the “on-the-job” lab in the College restaurant. A skills development log and completion of written assignments will be required. This course consists of approximately 30 hours of theory and 45 hours of lab.

CULA-165L Introductions to Customer Service Lab
0 Credits

On-the-job training lab to be taken in conjunction with CULA-165. Principles taught in CULA-165 will be applied in this lab.

CULA-166 Restaurant Customer Service Operations
3 Credits

This course will explore advanced customer service relations, dining room procedures, and internal customer service. Students will learn and experience a variety of front-end positions including service supervisor. Special service situations will be addressed as well as standards for industry communications. Students will apply principles learned in class during the “on-the-job” lab in the College restaurant. A skills development log and completion of written assignments will be required. This course consists of approximately 30 hours of theory and 45 hours of lab.

CULA-166L Restaurant Customer Service Operations Lab
0 Credits

This is an on-the-job training lab to be taken in conjunction with CULA-166. Principles taught in CULA-166 will be applied in this lab.

CULA-170 Culinary Arts Lab I
6 Credits

Students apply skills taught in theory while operating “Emery’s,” the College restaurant located in the Hedlund Building. Throughout the semester students will rotate to a variety of “stations” that are similar to those in the food service industry. Emphasis is placed on “hands-on” application.

CULA-171 Culinary Arts Lab II
6 Credits

Students will continue to apply the knowledge taught in theory classes by exploring more advanced complexities of menu offerings while operating Emery’s Restaurant.

Prerequisite: Completion of CULA-170

CULA-172 Specialty Food Design and Event Menu Planning
3 Credits

Students will gain an appreciation for the complexities in planning a special function with emphasis on food preparation. In addition, they will learn the art of cake and pastry decorating as well as the fundamentals of vegetable/fruit art as it relates to aesthetics and taste.

CULA-175 Culinary Arts Internship
1 Credit
Offered Summer Session

This course provides supervised training in culinary arts through on-the-job experience in a restaurant or related facility. It provides a practical application of culinary skills as part of the learning process and involves 45 hours of hands-on production. This is a required course in the Culinary Arts program and is graded on a satisfactory/unsatisfactory basis.

Onsite work: 45 hours

DANCE
DANC-105 Aerobic Dance/Fitness
1 Credit

This course combines cardiovascular conditioning, toning, flexibility exercises, and a fat burning intensity level. DANC-105 is offered in two levels: Nice and Easy, a low impact with moderate intensity for the beginner; and Intermediate, a muscle strengthening and higher level of intensity. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

DANC-111 Beginning Rhythm and Movement
1 Credit

This class will explore the many different forms of dance, from the Charleston to the waltz to jazz. It also covers different periods of history, styles, and rhythms. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

DANC-112 Social/Swing Dance I
1 Credit

Students will learn East Coast Swing dance, a popular couple dance. Single, double, and triple rhythm will be covered, along with both 6-count and Lindy Hop 8-count step versions. Other related dances (West Coast Swing, Jive, Foxtrot) may be introduced depending on the students’ interests and skill level. Students will get a moderate intensity workout that improves endurance, agility, coordination, balance, and posture. This course satisfies one of the P.E. requirements for the A.A. and A.S. degrees and may be repeated for a total of 4 credits. No prior dance experience is required. A special activity fee may be required.

Activity: 2 hours per week

DANC-112A Social/Swing Dance I for Seniors
1 Credit

Seniors will learn a variety of social dances with an emphasis on East Coast Swing, Foxtrot, Waltz, Cha Cha, and Rumba. Basic footwork and beginning figures will also be covered, giving students the ability to dance to a variety of musical styles. Students will get a moderate intensity workout that improves endurance, agility, coordination, balance, and posture. This seniors course does not meet A.A. or A.S. degree requirements. A special activity fee may be required. No prior dance experience is required.

Activity: 2 hours per week

DANC-113 Jazz Dance I
1 Credit

DANCE-113 is an introduction to the movements and styles of today’s jazz dancer. It emphasizes exercises and combinations of steps and explores theatrical, lyrical, and “funk” styles set to popular music. This course is a fun alternative to sports and helps develop an appreciation for the art form, music, rhythm awareness, and coordination. It also provides physical conditioning through strength and flexibility. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

DANC-114 Jazz Dance II
1 Credit

This is a continuation of DANC-113, exploring movements and

styles of today's jazz dancer. It emphasizes exercise, combination steps, and explores theatrical, lyrical, and "funk" styles to popular music. This course provides an alternative to sports and helps develop an appreciation for the art form, music, rhythm awareness, and coordination. It also provides physical conditioning through strength and flexibility. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Recommended: DANC-113 or some knowledge of jazz dance

DANC-115 **Modern Dance: Beginning I**
1 Credit

DANC 115 is a discovery of dance movement through the physical and mental discipline techniques of Graham and Cunningham. It includes an insight into how dances are created through improvisation, and by analyzing these movements, students will explore choreography. This course provides a creative outlet and physical conditioning of strength and flexibility. It also develops coordination and an appreciation of the art form. This is an excellent course for theatre and performing arts students. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

DANC-117 **Ballet: Beginning I**
1 Credit

This course focuses on basic technique, body alignment, and the development of step combinations. It includes related terminology and history of the art form. DANC-117 helps improve flexibility, muscle strength and control, and mental discipline over the body and promotes the aesthetic understanding and appreciation of classical ballet. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

DANC-118 **Ballet: Beginning II**
1 Credit

This course is a continuation of DANC 117 for beginners and concentrates on technique, alignment, and progressions. The student is introduced to more complex steps through faster-paced instruction. The course increases flexibility, muscle strength and control, and mental discipline over the body and enhances an appreciation of the art form as technique improves. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Prerequisite: DANC-117 or equivalent

DANC-119 **Multicultural Dance**
1 Credit

Students will learn authentic ethnic group dances and steps from such countries as Ireland, Africa, Japan, Greece, Romania, Mexico, the United States, and others. Students will get a moderate intensity workout that improves endurance, agility, coordination, balance and posture. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits. Prior dance experience is not required. A special activity fee may be required.

Activity: 2 hours per week

DANC-120 **Latin Social Dance**
1 Credit

Students will learn popular and exciting Latin couple dances, with an

emphasis on Salsa and Cha cha. Students will learn steps, techniques, and Latin motion style particular to these social dances. Other Latin dances may be introduced (Rumba, Samba, Merengue) depending on students' interest and skill level. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits. Prior dance experience is not required. A special activity fee may be required.

Activity: 2 hours per week

DANC-121 **Tap Dance: Beginning I**
1 Credit

This course is a basic class in standard taps dance technique. The class will focus on an introduction to the history of American tap dance. Students will be given exposure to fads and current styles which are popular in the tap technique syllabus. This includes classical tap, stomp, step dance and clogging, and rhythm tap. This course satisfies one of the P.E. requirements for the A.S. and A.A. degrees and may be repeated for a total of 4 credits.

Lab: 2 hours per week

DIESEL TECHNOLOGY

NOTE: Course enrollment requires prior acceptance into the Diesel Technology program. Successful completion of each semester and/or permission of the instructor is required for enrollment in the next semester.

DSLT-105 **Orientation/Safety/General Shop Practices**
2 Credits

This course introduces students to on-campus services such as the library and College Skills Center. It includes instruction about the industry, including wages, job opportunities, and the nature of the work. This course also teaches students about safety equipment and procedures. Instruction is provided on general shop practices such as drilling and tapping holes, drilling out broken bolts, installing Heli-coils, double flares, soldering, and the care of equipment and floors.

DSLT-111 **Basic Electrical Systems I**
2 Credits

This course teaches students fundamental electrical theory concepts, basic electrical system formulas, and troubleshooting and repair procedures for heavy-duty electrical systems. Students will gain an understanding of electrical principles as they relate to the components used in trucks and heavy equipment, writing schematics, and lighting along with associated testing and repair procedures for each system.

Lecture: 2 hours per week

DSLT-112 **Basic Electrical Systems Lab I**
2 Credits

This course gives students hands-on exposure in a shop setting to those subjects covered in DSLT-111. Instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

Lab: 4 hours per week

DSLT-113 **Basic Electrical Systems II**
2 Credits

This course teaches students the theory, operation, construction, and repair of heavy-duty electrical system components. Students will gain an understanding of starting systems, charging systems,

and batteries along with associated testing and repair procedures for each system.

Lecture: 2 hours per week

DSL-114 Basic Electrical Systems Lab II
2 Credits

This course gives students hands-on exposure in a shop setting to those subjects covered in DSL-113. Instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

Lab: 4 hours per week

DSL-117L Diesel Lab
2 Credits

This course provides students with hands-on exposure in a shop setting on the subjects covered in the DSL-195 theory class. Instruction utilizes a variety of mock-ups, training aids, components, and limited live customer work. Primary emphasis will be placed on suspension system and steering diagnostics and repair.

DSL-118L Diesel Engine Lab
2 Credits

This course will give students hands-on exposure in a shop setting to those subjects covered in the DSL-120 theory classes. This instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

DSL-119L Electrical Systems Lab
1 Credit

This course provides students with hands-on exposure in a shop setting on the subjects covered in the DSL-122 theory class. This instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

DSL-120 Diesel Engines
5 Credits

This course will include instruction on the basics of how to identify, repair, rebuild, and/or replace diesel engines. Students will learn two-stroke and four-stroke combustion engine theory as well as engine performance criteria. Instruction will include the operation and basic principles of various diesel engine components and their respective systems.

DSL-122 Electrical Systems
4 Credits

This course will include instruction on theory, operation, construction, and repair of heavy-duty electrical systems. Students will gain an understanding of starting systems, charging systems, batteries, wiring schematics, and lighting, along with associated testing and repair procedures for each system.

DSL-128L Powertrain Lab
2 Credits

This course provides students with hands-on exposure in a shop setting on the subjects covered in the DSL-130 theory class. This instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

DSL 129L Brake Systems Lab
1 Credit

This course provides students with hands-on exposure in a shop setting on the subjects covered in the DSL-132 theory class. This instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

DSL-130 Powertrain
5 Credits

This course will teach students the operation, construction, service, and repair of heavy-duty clutch systems, manual transmissions, drivelines, universal joints, single and two-speed differentials, as well as axles and bearings.

DSL-132 Brake Systems
4 Credits

This course will teach students the operation, construction, service, and repair of heavy truck and equipment air systems, foundation air brake systems, foundation hydraulic brake systems, as well as wheels and seals.

DSL-195 Specialization Study
2 Credits

This course teaches students the operation, construction, components, and repair of various truck and heavy equipment suspension systems including spring, pad, and air suspensions. Instruction also covers construction, components, and adjustments of truck steering systems as well as alignment procedures. Class B Commercial Drivers License training will also be covered.

DSL-218L Advanced Tune-Up Lab
2 Credits

This course will give students hands-on exposure in a shop setting to those subjects covered in DSL-221 theory classes. This instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

DSL-219L Computerized Engine Lab
2 Credits

This course will give students hands-on exposure in a shop setting to those subjects covered in diesel theory classes. The instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

DSL-220 Advanced Tune-Up
4 Credits

This course will teach students how to troubleshoot, adjust, repair, or replace components associated with tune up procedures for diesel engines. Exhaust emissions and other environmental issues pertaining to diesel engines will also be discussed. Students will also learn the operation, construction, and repair techniques associated with diesel fuel systems and induction systems. The course will provide students with the opportunity to become aware of the principles of theory for control devices, governors, and other controls related to diesel engines.

DSL-222 Computerized Engines
4 Credits

This course teaches students how to test, troubleshoot, adjust, repair, or replace components associated with computerized engines. Students will also learn the operation, construction, and theory of computerized engine controls.

DSL-228L Undercarriage/Powershift Lab
2 Credits

This course gives students hands-on experience in a shop setting. It is designed to provide opportunities for application of subjects covered in the DSL-230 theory class. Instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

DSLT-229L
2 Credits
Hydraulics Lab

This course gives students hands-on exposure in a shop setting to those subjects covered in DSLT-232 theory classes. The instruction will utilize a variety of mock-ups, training aids, components, and limited live customer work.

DSLT-230
4 Credits
Undercarriage/Powershift Transmissions

This course teaches students the operation, construction, and repair of heavy equipment undercarriages and heavy-duty power-shift transmissions. Instruction covers construction and repair of various power-train components used in the heavy equipment industry. Students will also gain an understanding of the operation, construction, and theory of torque converters and final drives.

DSLT-232
4 Credits
Hydraulic Systems

This course will teach students the theory of operation, construction, adjustment, maintenance, and repair of heavy equipment hydraulic systems. Students will also learn how to design hydraulic systems and implement changes to existing hydraulic systems.

ECONOMICS
ECON-201
3 Credits
Principles of Economics (Macro)

This course is an introductory study of our national economy. This includes the tools of supply and demand, the measurement of inflation and employment, and discussion of the definition, role, and importance of national income and money and the banking system. The course also analyzes the role of government and the effects of international trade on the U.S. economy. Economic vocabulary and analysis of economic situations are emphasized. ECON-201 is a required course in the Business Administration, Business Education, and the Accounting Assistant programs. It satisfies a social science requirement for the A.S., A.A. and A.A.S. degrees.

Lecture: 3 hours per week

Recommended: MATH-108 or two years of high school algebra

ECON-202
3 Credits
Principles of Economics (Micro)

ECON-202 is an introductory study of the economic behavior of individual consumers and suppliers. It examines consumer response to price and income changes and levels of satisfaction, supplier response to costs, and business response to degree of competition. Economic vocabulary and analysis of economic situations are emphasized. This is a required course in the Business Administration and Business Education programs. It satisfies a social science requirement for the A.S., A.A. and A.A.S. degrees. Prior completion of other courses is not required.

Lecture: 3 hours per week

Recommended: Sophomore standing, MATH-108 or two years of high school algebra; ECON-201 also helps to provide familiarity with vocabulary and methodology

ECON-225
3 Credits
International Economics

ECON-225 investigates aspects of international economics such as international trade, exchange rates, and related monetary matters. Emphasis is placed on understanding why nations trade, the impact of tariffs and non-tariff barriers, and measures taken to liberalize

international trade. The course also includes a historic look at the United States' commercial policy, international and regional trade organizations, trade problems of developing countries as well as international financial relations, exchange rates, and international currency systems. Focus is placed on critical factors essential to understanding the interdependence among different facets of international economics. This course is useful for those who are considering a career in business or who want an overview of what the study of international economics encompasses.

Lecture: 3 hours per week

Prerequisites: ECON-201, ECON-202

EDUCATION
EDUC-190
1 Credit
Special Education Lab

This course involves observation of and involvement with exceptional individuals in a variety of educational settings. It includes interaction with practicing special educators and the exceptional individuals they are serving. This course provides valuable insights by observing the teaching techniques used by special educators as they teach.

Corequisite: EDUC-275

EDUC-201
3 Credits
Introduction to Teaching

EDUC-201 provides an introduction to the world of teaching by focusing on teachers, learners, curriculum, and the social context in which teaching occurs. Insight and understanding will be facilitated through reflection and analysis of the student's observations and participation in 30 hours of field experience in public schools. This course is required for some education transfer degrees. Its goals are to assist students in making an educated decision about teaching as a career choice, develop communication and interpersonal skills, encourage creativity and critical thinking, and provide opportunities to examine personal values and beliefs about teaching. Prior completion of other courses is not required.

Lecture: 2 hours per week

Field Experience: 30 hours per semester

Prerequisite: Sophomore standing or permission of instructor

Recommended: College-level reading, oral and written English language, and computer skills

EDUC-275
3 Credits
Education of the Exceptional Individual

This course offers a general overview of special education. It emphasizes an introduction to the different handicapping categories, teaching methods, and unique legal requirements associated with educating exceptional individuals. It provides knowledge about exceptional individuals throughout the educational system (not just special education classrooms). This course is appropriate for all education degrees.

Lecture: 3 hours per week

Field Experience: 30 hours per semester

Corequisites: EDUC-190

EMERGENCY MEDICAL SERVICES
EMS-101
5 Credits
Basic EMT

This course will transcript the fundamentals of emergency medical

practice including patient assessment, basic life support, trauma management, pediatrics and childbirth, and the management of medical and environmental emergencies. The course presents the foundational information and core competencies required at the EMT-Basic level. The course format conforms to the requirements of the Department of Transportation national EMT standards curriculum and the state of Idaho. This course is delivered at the North Idaho College Workforce Training Center in Post Falls.

Lecture: 80 hours

EMS-103 Basic EMT Lab and Practicum
5 Credits

This course will transcript the supervised practice in the fundamental skills required at the EMT-Basic level including patient assessment, airway, maintenance, spinal stabilization, trauma management, childbirth, and the use of medications. The learning experience will include a clinical rotation in an emergency room setting. The course presents the practical competencies required of the EMT-Basic. This course is delivered at the North Idaho College Workforce Training Center in Post Falls.

Lab: 144 hours

Corequisite: EMS-101

EMS-110 Advanced EMT
4 Credits

This course leads to eligibility for certification as an Advanced Emergency Medical Technician with the National Registry of Emergency Medical Technicians. Topics include the roles and responsibilities of the Advanced EMT-A, medical legal considerations of EMS, respiratory and cardiac emergencies, CPR, practical use of airway adjuncts, bleeding and shock, trauma management, medical emergencies and their management, environmental emergencies, emergency childbirth, pediatrics, geriatrics, exposure to hazardous situations, introduction to hazardous materials, psychological emergencies, patient packaging and triage, stabilization and transport of the sick and injured, and communication and report writing.

Lecture: 4 hours per week

Corequisite: EMS-113

EMS-113 Advanced EMT Lab & Practicum
2 Credits

This course provides supervised practice of the advanced skills required of the Advanced EMT. Training will include the use of advanced airway devices, the administration of intravenous fluids, blood drawing and blood glucose analysis, pulse oximetry, administration of medications, and defibrillation. In addition, students will complete clinical rotations in emergency room and pre- and post-operative settings. This course covers the practical competencies required of the Advanced EMT-A.

Lab: 6 hours per week

Corequisite: EMS-110

ENGINEERING

ENGR-105 Engineering Graphics
2 Credits

This course provides instruction in computer-aided engineering drafting with emphasis on visualization of points, lines, planes, and solids in space; freehand sketching; orthographic projection; isometric and oblique drawing; sectioning; dimensioning; descriptive geometry; and 3D modeling. It provides engineering students with beginning

skills in computer-aided engineering drawing, but is not intended to train AutoCAD technicians.

Lecture/Lab: 4 hours per week

Prerequisites: MATH-025 or COMPASS Algebra > 40, ACT > 18, or SAT > 430

ENGR-210 Statics
3 Credits

ENGR-210 is a study of vector analysis, resolution of forces, free body diagrams, equilibrium, friction, centroids, moments of inertia, statics of rigid bodies, trusses, frames, machines, and cables. The course provides basic engineering skills in mechanics necessary for analysis of structures and dynamics of rigid bodies.

Lecture: 3 hours per week

Prerequisite: MATH-170, PHYS-211

ENGR-214 Surveying
4 Credits

ENGR-214 presents theory and field applications of elementary surveying. It includes the use of instruments, error and precision, level circuits, running traverses, field calculations, boundary surveys, route surveys, construction surveys, triangulation, state coordinate systems, engineering astronomy, and photogrammetry. This course provides basic surveying skills that may help engineering students gain summer employment, but it is not intended as a preparation for direct entry into surveying occupations.

Lecture: 3 hours per week

Corequisite Lab: ENGR-214L, 3 hours per week

Prerequisite: MATH-147 or COMPASS College Algebra > 51, ACT > 27, or SAT > 620

ENGR-220 Dynamics of Rigid Bodies
3 Credits

ENGR-220 is the study of kinematics and kinetics of particles and rigid bodies. Topics include position, velocity, acceleration, relative velocity and acceleration, translation and rotation by Newton's 2nd Law, energy, momentum methods, collisions, and vibrations. It provides basic engineering skills that apply to all machines and other engineering bodies in motion.

Lecture: 3 hours per week

Prerequisite: MATH-175, ENGR-210

ENGR-223 Engineering Analysis
3 Credits

ENGR-223 introduces a combination of numerical analysis skills, problem solving and design techniques, and various computer software as they are utilized in basic engineering applications. Students will utilize oral and written communication skills in presenting their solutions.

Lecture: 2 hours per week and 2 hours of lab

Corequisite: MATH-175

ENGR-240 Circuits I
4 Credits

ENGR-240 presents a study of Ohm's Law, analysis methods, network theorems, Ideal Operational Amplifiers, and energy storage elements. It includes the exploration of electrical circuits using hands-on lab activities and computers.

Lecture/Lab: 3 hours of lecture per week, 2 hours of lab per week

Prerequisite: MATH-175 or permission of instructor

Corequisite Lab: ENGR-240L

ENGR-241
4 Credits

Circuits II presents a study of power, three phase, transformers, filters, Fourier transforms, and Laplace transforms. It includes the exploration of electrical circuits using hands-on lab activities and computers.

Lecture: 3 hours per week

Corequisite Lab: ENGR-241L (2 hours per week)

Prerequisite: ENGR-240

Circuits II
ENGR-295
3 Credits

ENGR-295 is the study of material strength, including elasticity, stress, strain, beam analysis, analysis of structural forms, torsion, deformation, modes of failure, and column analysis. The course provides a basic understanding of how structures and machines should be designed to prevent failure.

Lecture: 3 hours per week

Prerequisite: ENGR-210, MATH-175

Note: This course is equivalent to U of I Engineering 350

Strength of Materials
ENGLISH

THE WRITING CENTER: The Writing Center, a comprehensive facility serving the entire campus, is located in the Lee Hall Annex. It is open daily from 8 a.m. to 3 p.m. The English Division encourages all NIC students and faculty to drop in for assistance in document organization, sentence style, grammar, and punctuation. Computers and resource materials are available for use. Mini-courses and one-on-one tutoring are available to all programs, students, faculty, and staff.

NOTE: Once placed in an English class, students must pass that class with a C- or above before enrolling in the next class in the sequence. Classes in a sequence cannot be skipped once the student has been placed. Students should be prepared to provide a hard copy of their placement scores to their instructor.

ENGL-045
3 Credits

English 045 offers introductory instruction in grammar, sentence construction, and paragraph development. This class includes instruction in constructing simple, compound, and complex sentences; writing thesis and topic statements; and developing a paragraph with primary and secondary support. Writer's Workshop is helpful to those who need to improve skills before taking a college composition course. It is an important skill-building course that can influence college success, but will not fulfill degree requirements. A grade of C- or above allows the student to enroll in ENGL-099.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test-either between 0-30 on the COMPASS Writing, or 0-14 on the ACT English, or 0-370 on the SAT Verbal.

Writer's Workshop
ENGL-099
3 Credits

Fundamentals for Writing is a course focusing on building sentence, paragraph, and basic essay skills. This class teaches some related language skills, such as dictionary use and spelling development. ENGL-099 positively influences college success by providing entry-level skills necessary to tackle required English composition courses. It will not fulfill A.A. or A.S. degree requirements, but applies toward a Certificate of Completion in the Professional/Technical programs.

Fundamentals for Writing

A grade of C- or above allows the student to enroll in ENGL-101.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test-either between 31-67 on the COMPASS Writing, or between 15-17 on the ACT English, or between 380-440 on the SAT Verbal, **OR** a grade of C- or above in ENGL-045.

ENGL-101
3 Credits

English 101 prepares students for the demands of academic and professional writing. Students will learn processes and strategies for writing clear, precise, and accurate prose and will demonstrate their abilities in a series of expository essays. Students will also learn to read, analyze, synthesize, and respond to a collection of written texts. This course is required for all degree programs. A grade of C- or above allows students to enroll in ENGL-102.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test-either 68-94 on the COMPASS Writing, or 18-24 on the ACT English, or 450-560 on the SAT Verbal, **OR** a grade of C- or above in ENGL-099.

English Composition
ENGL-102
3 Credits

English 102 provides instruction in the research process, which includes the gathering, the critical evaluation, and the presentation of evidence. Critical thinking is emphasized as vital to drawing conclusions from evidence. This class helps provide techniques for conducting research in all areas of study. It is required for all transfer degree programs.

Lecture: 3 hours per week

Prerequisite: ENGL-101 with a grade of C- or above. A score of 95-98 on the COMPASS Writing, or 25-30 on the ACT English, or 570-690 on the SAT Verbal will result in placement into ENGL-102 and credit for ENGL-101. A score of 31-37 in the ACT English, or 700-800 in the SAT Verbal will result in credit for ENGL-101 and ENGL-102.

English Composition
ENGL-114
1 Credit

English-114 provides focused instruction and practice in the writing process. Based on writing across the curriculum principles, sections are offered on specific topics that supplement courses, subject areas, or writing tasks, with some sections emphasizing research and documentation. This course is a hybrid course, involving traditional classroom instruction, flexible-learning modules, Internet resources, and individual instruction in the Writing Center.

Lecture: 1 hour per week

Writing Across the Curriculum
ENGL-175
3 Credits

This is a survey of literature's many forms including essay, short story, poetry, and drama. This course focuses on literature as a primary vehicle for ideas and values and helps students to recognize and appreciate the humanistic and artistic elements of literature. It satisfies an arts and humanities course requirement for the A.S., A.A., and most transfer degrees.

Lecture: 3 hours per week

Prerequisite: ENGL-101

Introduction to Literature
ENGL-202
3 Credits

Technical Writing offers instruction in the writing skills applicable to business and industry. This class emphasizes factual information in the form of writing instructions and describing mechanisms and

Technical Writing

processes. It includes the fundamentals of composing memos, letters, and reports. Technical Writing is designed for those interested in practical applications of technical writing principles. This class is required for some occupational programs and is a useful general elective for all programs in science and technology. Prior completion of ENGL-099 and sophomore standing or permission of the Division Chair are required.

Lecture: 3 hours per week

Recommended: ENGL-101

ENGL-203A 1 Credit

Trestle Creek Review

This workshop offers students interested in poetry and short fiction an introduction to the world of small-press publishing in which most writers get their start. Students read manuscripts submitted from all over North America and beyond and collaboratively determine the content of this year's edition of *Trestle Creek Review*, an annual literary magazine published in May and mailed to contributors, subscribers, regional libraries, and bookstores. Students become conversant with contemporary literature written by "real" people, gain skills in literary criticism, learn how to submit their own work, and receive acknowledgment on the title page as members of the editorial staff.

ENGL-205 3 Credits

Interdisciplinary Writing

This course builds on writing skills gained from ENGL 101 and ENGL-102. In addition, the course enables students to make connections among many disciplines and instructs students to write effective papers in the sciences, social sciences, history, business fields, as well as in the humanities. Emphasis is placed on the student's own writing of essays and explications.

Lecture: 3 hours per week

Prerequisite: ENGL-101, ENGL-102

ENGL-210 3 Credits

Literary Analysis

ENGL-210 introduces the basic methods and theories of literary analysis, research, and writing. This course provides the critical vocabulary, skills, and methodologies with which to understand not only what a literary (or visual) text means, but also how it means. The course emphasizes the development of the skills necessary for analytical writing about literature and the importance of composing clear, compelling, and valid arguments in the interpretation of a text.

Lecture: 3 hours per week

ENGL-216 3 Credits

Mythology

Mythology surveys both Greek myths and themes common to all Western mythologies, particularly those of the hero quest. This course includes the study of a variety of stories, poems, plays, and films, and focuses on learning to identify the mythological elements at work within them. Mythology creates an awareness and appreciation of mythological stories and themes as a base for much of our literature and art; therefore, it enhances literary and artistic experiences.

Lecture: 3 hours per week

Prerequisite: ENGL-101

ENGL-257 3 Credits

Literature of Western Civilization

English 257 examines significant literary works of Western Civilization from about 800 B.C. through Shakespeare. This course focuses on the values, traditions, themes, and ideas that have shaped Western culture and have influenced other disciplines such as art, psychol-

ogy, and philosophy. This course helps link the basic concepts of early literature to the contemporary world. It satisfies an arts and humanities course requirement for the A.S., A.A., and most transfer degrees.

Lecture: 3 hours per week

Prerequisite: ENGL-101

ENGL-258 3 Credits

Literature of Western Civilization

English 258 is the study of Western (European and North American) classics from the mid-1600s to the present. This course includes internationally-acclaimed writers who are representative of the major literary movements (Enlightenment, Romantic, Realist, and Modernist traditions) and who are significant in shaping Western Civilization. ENGL-258 serves as a foundation to the humanities through an exploration of writers and works that comprise the core of our literary and philosophical tradition. It satisfies an arts and humanities course requirement for the A.S., A.A., and most transfer degrees.

Lecture: 3 hours per week

Prerequisite: ENGL-101

ENGL-267 3 Credits

Survey of English Literature

This course is a study of historical documents, poetry, fiction, drama, and essays illustrating the development of English literature from the Anglo-Saxon period through the 18th century. This course enhances cultural literacy and awareness of pertinent issues in the humanities. It satisfies an arts and humanities course requirement for the A.A., A.S., and most transfer degrees.

Lecture: 3 hours per week

Prerequisite: ENGL-101

ENGL-268 3 Credits

Survey of English Literature

English 268 is a study of historical documents, poetry, fiction, drama, and essays illustrating the development of English literature from the Romantic period to the present. This course enhances cultural literacy and awareness of pertinent issues in the humanities. It satisfies an arts and humanities course requirement for the A.A., A.S., and most transfer degrees.

Lecture: 3 hours per week

Prerequisite: ENGL-101

ENGL-272 3 Credits

Business Writing

Business Writing offers instruction in the practical application of business writing principles. It includes business writing strategies for memos, letters, and reports, and emphasizes audience analysis, content planning, language effectiveness, and message layout. ENGL-272 helps develop writing skills necessary for effective business communication. It is required for some business and business-related programs.

Lecture: 3 hours per week

Prerequisite: Entry is based on an assessment score of 68-94 on the COMPASS Writing or 18-24 on the ACT English or 450-560 on the SAT Verbal, OR a grade of C- or above in ENGL-099.

Recommended: ENGL-101

ENGL-277 3 Credits

Survey of American Literature

English 277 is a study of selected historical documents, journals, essays, poetry, and fiction illustrating the development of Ameri-

can literary ideas, values, and philosophy from the Colonial Period (1620) to the end of the Civil War (1865). This course satisfies an arts and humanities course requirement for the A.A., A.S., and most transfer degrees.

Lecture: 3 hours per week

Prerequisite: ENGL-101

ENGL-278 **Survey of American Literature** *3 Credits*

English 278 is a study of selected historical documents, journals, essays, poetry, fiction, and drama illustrating the development of American literary ideas, values, and philosophy from the Civil War (1865) to the present. This course satisfies an arts and humanities course requirement for the A.A., A.S., and most transfer degrees.

Lecture: 3 hours per week

Prerequisite: ENGL-101

ENGL-285 **American Indian Literature** *3 Credits*

English 285 explores traditional American Indian world views and belief systems as reflected in myths and legends, as well as contemporary poetry, short stories, and novels by Native Americans. The difference between American Indian and Eurocentric world views and the implications of these differences will be considered, as illustrated in literature. The course will also explore political, sociological, and psychological effects on American Indians of U.S. governmental policies and actions taken in regard to various tribes.

Lecture: 3 hours per week

Prerequisite: ENGL-101

Recommendation: Prior completion of ENGL-175

ENGL-291 **Creative Writing I** *3 Credits*

English 291 introduces the principles and techniques of poetry writing, examined through exercises and discussions of student and professional writing. Exact content will depend on student preference. This course helps develop a personal, advanced writing style and an appreciation of literary forms. An above average writing ability and some familiarity with literature are necessary.

Lecture: 3 hours per week

Prerequisite: ENGL-175

ENGL-292 **Creative Writing II** *3 Credits*

English 292 introduces the principles and techniques of fiction and nonfiction writing, examined through exercises and discussions of student and professional writing. The exact content of the course will depend on student preference. This course helps develop a personal, advanced writing style and an appreciation of literary forms. Above average writing ability and some familiarity with literature are necessary.

Lecture: 3 hours per week

Prerequisite: ENGL-175

ENGL-295 **Contemporary U.S. Multicultural Literature** *3 Credits*

English 295 provides a study of fiction, nonfiction, poetry, and film across a diverse range of cultures in the United States. Selections each semester will include works from the 1960s to the present, including the perspective of women and men who may represent diverse races, ethnicities, social classes, religions, sexual orientations, ages and abilities. Since the Civil Rights movement, writers once marginalized are now published in the mainstream, expressing diverse themes in

challenging, experimental styles. This course fulfills a Cultural Diversity requirement for the A.A. degree or an Arts and Humanities requirement for the A.S. degree.

Lecture: 3 hours per week

Prerequisite: ENGL-101 with a grade of C- or above

ENGLISH AS A SECOND LANGUAGE

ESL-090 **ESL Conversant Program** *1-2 Credits*

ESL-090 is a lab course for students who wish to master spoken English. It emphasizes idioms, pronunciation, and language styles appropriate for informal and formal situations both on and off campus. This course is designed for students whose native language is not English. It will be individualized to suit student objectives and may be repeated for a total of four credits. Graded either satisfactory or unsatisfactory.

Lecture: 1 hour per week per credit

Prerequisite: Student whose native language is not English

ESL-100 **ESL Grammar and Structure** *4 Credits*

ESL-100 is an intensive review of the grammar and sentence structures of written English. Particular attention is given to complex verb forms, verbal phrases, models, preposition, modifiers, and basic sentence strategies. Attendance at the language laboratory is required. This course prepares students to compete successfully with native English speakers in an academic setting and provides an important language base for students planning to enter English composition courses. Students must have earned a minimum score of 500 on the Test of English as a Foreign Language (TOEFL). The course may be repeated for a total of eight credits. Placement is determined by instructor.

Lecture: 4 hours per week per credit

Prerequisite: Minimum score of 500 on the TOEFL (Test of English as a Foreign Language)

ESL-101 **ESL Composition** *3 Credits*

ESL-101 helps non-native speakers of English to understand and produce the kind of academic writing required in college. Emphasis is on the most common and effective formats of academic writing and on editing for accuracy of expression, grammar, and sentence structure. This course is valuable for building fluency in written expression. It prepares students for success in competing with native English speakers in college writing courses. A working knowledge of English grammar and basic sentence strategies is required. Students must have earned a minimum score of 500 on the Test of English as a Foreign Language (TOEFL). The course may be repeated for a total of eight credits. Placement is determined by instructor.

Lecture: 3 hours per week

Prerequisite: Minimum score of 500 on the TOEFL (Test of English as a Foreign Language)

ENTREPRENEURSHIP

ENTP-110 **Starting and Managing the Business Enterprise** *3 Credits*

This course introduces students to processes for starting a new venture. Topics include the characteristics of an entrepreneur, aspects of starting a business, evaluation of entrepreneurial opportunities and

risks, and legal structures for new ventures. Focus is on developing new venture concepts, identifying and solving problems, planning for survival and growth, and enhancing profitability. Human resource needs and services for an entrepreneurship will also be covered.

Lecture: 3 hours per week

ENTP-120 Marketing the Business Enterprise 3 Credits

This course will help students learn about conducting market research, making strategic marketing decisions, wisely allocating budget funds to implement marketing goals, selecting the proper tools for advertising/sales and public relations to capture business markets, building customer loyalty, and measuring business promotional efforts to effectively enhance their marketing strategies. Emphasis will be on developing a marketing plan using marketing research techniques.

Lecture: 3 hours per week

ENTP-130 Finances and Taxes for Entrepreneurs 3 Credits

This course emphasizes consideration and selection of financing vehicles, financial forecasting, and various accounting and legal issues considered in strategic decision-making. Participants will review various types of financial statements in order to analyze business operations. In addition, tax responsibilities, tax forms, and how to access resources to ensure effective financial management for small business opportunities and growth potential will be covered.

Lecture: 3 hours per week

ENTP-140 Writing a Business Plan 3 Credits

ENTP-140 offers students the opportunity to write a high-impact business plan. This course integrates all the components of a business plan including the business description and focus, location selection, marketing strategies, financial planning, personnel and management needs, and strategic planning for business growth. Participants will explore and develop a practical business plan for success by establishing realistic goals and objectives, developing strategies for a secure business, preparing for contingencies, and writing a plan.

Lecture: 3 hours per week

ENVIRONMENTAL SCIENCE

ENSI-119 Introduction to Environmental Science 4 Credits

ENSI-119 reviews basic concepts of chemistry, biology, the growth of human population, man's use of energy and other resources, species extinction, and pollution of the environment. This course satisfies a laboratory science course requirement for the A.S. and A.A. degrees.

Lecture: 3 hours per week

Corequisite Lab: ENSI-119L (2 hours per week)

Prerequisite: MATH-025 or COMPASS Algebra >40, ACT Math > 19, or SAT Math >430

FIRE SERVICE TECHNOLOGY

FST-100 Fire Service Technology 48 Credits

This course will transcript the non-credit Idaho State Fire Fighters certification courses to 48 credits so they can be utilized as the technical skills course for the Fire Service Technology A.A.S. degree. These

courses are delivered through fire departments statewide.

Lecture: 622 hours

Lab: 222 hours

FOOD AND BEVERAGE MANAGEMENT

FDBV-110 F & B Customer Service Management 3 Credits

This theory course will focus on basic principles for creating an exceptional dining experience for customers. Students will cover topics such as menu development, restaurant supplies and equipment, facility requirements, labor costs and revenue, casual/theme restaurant environments, banquets and catered events and on-site food service operations. Upon completion of this course, students will demonstrate a thorough understanding of guest-driven service.

Lecture: 3 hours per week

FDBV-125 Hospitality Supervision 2 Credits

This course discusses key supervisory and communication skills essential for effective leadership in the hospitality industry. Students learn techniques that will prepare them to juggle the expectations of management, guests, and employees. Industry-driven case studies will help students practice solving problems that they face on the job.

FDBV-230 F & B Operations Management 3 Credits (same as HOSP-215)

This course will focus on profit/cost margins, daily balance sheets, banking procedures, charting and forecasting products and services, personnel development and management, documentation systems, target marketing, and regulations governing the food and beverage industry.

Lecture: 3 hours per week

GEOGRAPHY

GEOG-100 Physical Geography 4 Credits

Physical Geography is an introduction to the earth's physical systems and the interaction among the atmosphere, hydrosphere, biosphere, and lithosphere. It emphasizes the atmospheric sciences (weather and climate), landforms, water resources, and soils. Concurrent enrollment in GEOG-100L is required. This course satisfies a laboratory science course requirement for the A.S. and A.A. degrees, and a general education requirement for the A.A.S. degree.

Lecture: 3 hours per week

Corequisite Lab: GEOG-100L (2 hours per week)

GEOLOGY

GEOL-101 Physical Geology 4 Credits

Physical Geology is the study of the origin and development of the earth. It includes the detailed study of the development of the earth's crust, its minerals, rocks, volcanoes, glaciers, mountains, and continents. This course provides an understanding of the natural and physical processes of the planet earth and an appreciation for the impact geology has on everyday life. Concurrent enrollment in GEOL-101L is required. In combination with GEOL-101L, this

course satisfies a laboratory science course requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: GEOL-101L (2 hours per week)

GEOL-102 **Historical Geology** 4 Credits

This course is an introduction to the principles and interpretation of geologic history. It emphasizes the evolution of the earth's lithosphere (crust), atmosphere, and biosphere through geologic time. This course includes consideration of the historical aspects of plate tectonics, the geologic development of North America, and important events in biological evolution and the resulting assembly of fossils. GEOL-102 provides an appreciation for the vast extent of geologic time, the natural processes affecting change on the earth, and the identification of common fossil types. This course satisfies a laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: GEOL-102L (2 hours per week)

Recommended: Prior or concurrent enrollment in GEOL-101

GEOL-123 **Geology of Idaho and the Pacific Northwest** 4 Credits

GEOL-123 is the study of the geologic history of Idaho and the Pacific Northwest. It examines the development of existing geologic structures and rock types, focusing on the development and distribution of major topographic and scenic features. Included are field trips to areas of important mineral and gem occurrences. This course provides an appreciation for the development and distribution of geologic natural resources in the region. This course satisfies a laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: GEOL-123L (2 hours per week)

Recommended: Prior or concurrent enrollment in GEOL-101

GEOL-255 **Systematic Mineralogy** 4 Credits

This is a study of the classification and determination of minerals by physical, chemical, and crystallographic and optical properties. It emphasizes occurrences, identification, and uses of the silicate minerals and the non-silicate ore and rock-forming minerals. The weekly three-hour laboratory includes hands-on testing and identification of mineral samples including utilizing their optical properties in oil mounts and thin section, and field trips to significant mineral locations. Students learn to recognize and identify important ore and industrial minerals, while gaining an appreciation for the application of mineral resources to everyday life. A background in chemistry is helpful. This course satisfies a laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: GEOL-255L (3 hours per week)

Prerequisite: GEOL-101, GEOL-101L

GEOL-270 **Geology of National Parks** 3 Credits

This course is designed to enhance student understanding of key geological concepts by examining features from selected national parks. Landscape genesis and evolution is studied in relation to the wider scope of regional geologic history. One three-day field trip is required.

Lecture: 3 hours per week

Prerequisite: GEOL-101, GEOL-102, GEOL-123 or GEOG-100

GRAPHIC DESIGN

NOTE: Course enrollment requires student to be a Graphic Design major.

GDES-101 **History of Graphic Design Style** 2 Credits

This course introduces students to the characteristic manner of expressions, basic designs, various constructions, and execution of graphic design, and its visual aesthetics at particular times and places throughout history. The course covers how the look of graphic design has evolved and what caused this evolution, starting with commercial art at the beginning of the industrial revolution in the 19th century and ending with the current digital era.

Lecture: 2 hours per week

Lab: 2 hours per week

GDES-112 **Drawing for Designers** 2 Credits

This course introduces students to the fundamentals of drawing for graphic designers. Topics and activities include hand-eye coordination, observation techniques, attention to format and proportion, perspective, and composition. Students will be introduced to current techniques used by working graphic designers. Students will be expected to complete a minimum of five projects.

Lecture: 2 hours per week

Lab: 2 hours per week

GDES-120 **Typography** 2 Credits

This course introduces the techniques used in typography, which is the visual communication of information through type. A historical perspective will trace the development of typography from its beginning to its current use in graphic design. Students will learn about the transition from traditional techniques and concepts to the creation of electronic documents utilizing quality typographic work. Attention to detail will be stressed so that students have an opportunity to acquire and demonstrate the use of the typographic skills necessary in today's graphic design work.

Lecture: 2 hours per week

Lab: 2 hours per week

Prerequisite: GDES-130, GDES-131, GDES-221

GDES-130 **Introduction to Apple Operating Systems** 1 Credit

This course is an introduction to Apple's current operating system for graphic designers. The course will cover the necessary hardware, the basics of the operating system, the necessary peripheral devices, the use of wireless networking, and Mac troubleshooting in a graphic design environment. Students will be exposed to basic software installation and troubleshooting basic problems. This course also provides knowledge and skills that will be used in other NIC Graphic Design courses.

Lecture: 1 hour per week

Lab: 1 hour per week

Recommended Corequisite: GDES-131

GDES-131 **Adobe Illustrator - Vector Graphics** 3 Credits

This course offers in-depth knowledge of the Adobe Illustrator for Graphic Design software program. This course introduces students to basic hardware and software, standard input and output devices,

and basic troubleshooting in a graphic design environment. Students will explore the fundamental concepts associated with Illustrator and learn the basics of computer-aided illustration.

Lecture: 2 hours per week

Lab: 2 hours per week

Recommended Corequisite: GDES-130

GDES-132 Adobe Photoshop - Raster Graphics 3 Credits

This course offers in-depth knowledge of the Adobe Photoshop - Raster Graphics software program. This course introduce students to basic hardware and software, standard input and output devices, and basic troubleshooting in a graphic design environment. In addition, students will gain experience in image creation and manipulation. This course will cover the fundamental concepts needed to scan, correct, manipulate, and enhance bitmap (Raster) images. This course should provide students with valuable knowledge of Raster imagery for use in NIC Graphic Design courses.

Lecture: 2 hours per week

Lab: 2 hours per week

Prerequisite: GDES-130

GDES-133 Adobe InDesign - Layout and Composition 2 Credits

This course offers in-depth knowledge of the Adobe InDesign software program. It also introduces students to basic hardware and software, standard input and output devices, and basic troubleshooting in a graphic design environment. Students will also gain experience in typesetting, and preparing single-page and multi-page layouts for publication. This course should provide the student with valuable knowledge of page design for future NIC Graphic Design courses.

Lecture: 2 hours per week

Lab: 2 hours per week

Prerequisites: GDES-130, GDES-131, GDES-132, GDES-221, GDES-222

GDES-210 Illustration I 2 credits

This course is an introduction to illustration from the perspective of a graphic design professional. Particular emphasis is placed on how to quickly and efficiently visualize and render objects, environments, and figures under the real-world constraints of time, media, and imagination. This course is a real-media artistic construction class that uses paint, ink, pens, and pencils to teach fundamental skill sets that prepare students for subsequent courses and digital illustration.

Lecture: 1 hour per week

Lab: 3 hours per week

GDES-211 Illustration II 2 credits

This course is a continuation of GDES 210, emphasizing the skills necessary to creatively solve visual problems and meet deadlines. Included will be newspaper illustration, technical illustration, literary illustration, and statistical illustration. This is a required course in the Graphic Design program.

Lecture/Lab: 4 hours per week

Prerequisite: GDES 210 with a C- or better

GDES-213 Digital Illustration 2 Credits

This course is a digital drawing fundamentals lab for graphic designers that includes working with a stylus and tablet, introduction to

various media techniques, and conceptual integration with design and layout tools to achieve a knowledgeable broad project overview from start to finish. Students will be introduced to tools and digital paradigms used by working professionals in creating digital visuals in a timely manner applicable to graphic design, web, game design and video production. This class is meant to develop hands-on experience within a series of five projects constructed in class.

Lecture: 2 hours per week

Lab: 2 hours per week

Prerequisites: GDES-120, GDES-131, GDES-132, GDES-210, GDES-221, GDES-222, GDES-223 or permission of instructor based on portfolio review.

GDES-221 Graphic Design 1 3 Credits

GDES-221 offers instruction in the principles of design. Students research case studies and use problem solving skills and techniques, gain an understanding of basic layout composition and color theories in print, web, and video. Students develop concepts with roughs and comprehensives on assigned projects including creation of their own business package. Field trips and students' presentations support theories and concepts learned in the classroom.

Lecture: 3 hours per week

Lab: 2 hours per week

Prerequisite: GDES-131, GDES-132 or permission of instructor

GDES-222 Graphic Design 2 3 Credits

GDES-222 is a continuation of GDES 221 and is designed to give students more hands-on experiences in developing skills with tools, materials, and professional methods for creating professional visuals. Students will learn to incorporate research, illustrations, and other graphics necessary to complete packaging, advertising proposals, and then present results individually and as a group. Continued emphasis is placed on computer applications and on assigned projects. This course is helpful in building visual literacy, expanding conceptual and technical skills, and improving creative problem solving.

Lecture: 3 hours per week

Lab: 1 hour per week

Prerequisite: GDES-120, GDES-131, GDES-132, GDES-133, GDES-221, or instructor permission

GDES-223 Graphic Design 3 3 Credits

GDES-223 is a continuation of GDES-222 and provides hands-on exposure to a variety of complex visual design problems. Real life interaction with customers provides opportunities to best prepare students for future design careers. GDES-223 develops the creative use of computer technologies and requires clients' proposal submissions, presentations, and respect to stringent deadlines.

Lecture: 3 hours per week

Lab: 1.5 hours per week

Prerequisite: GDES-120, GDES-130, GDES-131, GDES-132, GDES-221, GDES-222, or instructor permission

GDES-225 Introduction to Digital Video 2 Credits

This course introduces students to the basic technical skills necessary for using digital video cameras, lighting equipment, and audio/video editing software used in conjunction with Apple hardware and software. The course will cover the step-by-step processes necessary to create effective video projects including story boarding techniques and sequences related to a video production workflow. Individual

and team video projects produced in a DVD format will be required.

Lecture: 2 hours per week

Lab: 4 hours per week

Prerequisite: GDES-130, GDES-131, GDES-132, GDES-133, GDES-221, or instructor permission.

GDES-250

2 Credits

This course provides a systematic introduction to the complex print production process. By taking a step-by-step approach through simple, straightforward projects and examples, students will gain a better understanding of the essentials of digital color prepress. Students will learn which type of software to use for optimal results at each stage of the prepress process, the advantages and disadvantages of different proofing methods, and the steps graphic designers can take to ensure high-quality printed output. Students will experience both the theoretical and practical challenges of new prepress tools.

Lecture: 2 hours per week

Lab: 2 hours per week

Prerequisites: GDES-120, GDES-131, GDES-132, GDES-213, GDES-221, GDES-222, GDES-223 or permission of instructor based on portfolio review.

GDES-255

3 Credits

This is an introduction to HTML and CSS for web-based content. The course will focus on standards of contemporary web-interface development, keeping content, presentation, and behavior separate. Students will use optimized raster-graphics, typography, layout, and style to create operational websites from sketches to publication.

Lecture: 3 hours per week

Lab: 2 hours per week

Prerequisites: GDES-131, GDES-132, GDES-213, GDES-221, GDES-222, or with instructor permission.

GDES-256

2 Credits

GDES-256 is a continuation of GDES-255 into the study of web-interface design and development. The course will focus primarily on advanced layout and optimization techniques through CSS (Cascading Style Sheets), and also the creative process as applied to the web, user experience, content management systems, organization of assets, browser bugs, progressive enhancement, and email HTML.

Lecture: 3 hours per week

Lab: 2 hours per week

Prerequisite: GDES-131, GDES-132, GDES-213, GDES-221, GDES-222 GDES-255 or instructor permission.

GDES-257

2 Credits

This course teaches the fundamental structure of web coding languages, specifically XHTML (Extensible Hypertext Markup Language) and CSS (Cascading Style Sheets). Students will learn about three layers of coding structure; content, presentation, and behavior, plus web graphic optimization for CSS techniques. The class will focus on semantics, syntax and organization, as well as cross-browser quirks, coding with SEO (search engine optimization) in mind, "Graceful Degradation" of design, and anticipation of the performance restrictions of various web visitors.

Lecture: 2 hours per week

Lab: 2 hours per week

Prerequisite: GDES-120, GDES-131, GDES-132, GDES-213, GDES-221, GDES-222, GDES-255, GDES-283

Prepress

GDES-270

3 Credits

GDES 270 is an opportunity for students to develop a professional portfolio using the advanced design skills learned in previous graphic design courses. Students will be expected to use digital-file preparation, various printing formats, and meet established deadlines to produce their portfolio. Each portfolio will be submitted to a panel of professional graphic designers, who will give feedback to each student concerning the quality of their portfolio with suggestions for improvement to enhance the attention of potential employers.

Lecture: 1 hour per week

Lab: 4 hours per week

Prerequisites: GDES-101, GDES-120, GDES-130, GDES-131, 132, 133, GDES-213, GDES-221, GDES-222, GDES-223

GDES-271

3 Credits

This course includes the development of real-life design projects under the direction and guidance of experienced graphic design professionals. Students will complete publishable projects while performing client-graphic designer interaction, design pre-production, production and marketing costs, and delivery of the project to the customer in a variety of media for different markets. Students must be responsive to client-driven deadlines.

Lecture: 1 hour per week

Lab: 4 hours per week

Prerequisites: GDES-112, GDES-120, GDES-130, GDES-131, GDES-132, GDES-213, GDES-221, GDES-222, GDES-256, GDES-270

GDES-283

3 Credits

GDES-283 provides an overview of the graphic design profession, provides techniques to engage students in the first assembly of their graphic design professional resume and portfolio, and knowledge of essential job interview skills. The result of combining a first portfolio, while acquiring practical and relevant information about the industry, prepares students for internship opportunities. The class is designed to further prepare students toward clients' expectations, to stress deadlines and to reinforce necessary technical learning. Assigned projects mirror real life assignments, including professional ethics, communication, and production costs.

Lecture: 3 hours per week

Lab: 1.5 hours per week

Prerequisites: GDES-120, GDES-130, GDES-131, GDES-132, GDES-221, GDES-222, or instructor permission

GDES-290

1-3 Credits

GDES-290 provides students with practical, on-the-job experience in preparation for a successful career in the graphic design field. The internship is paired with in-class learning and weekly meetings with the sponsoring instructor and designated business or agency. An internship is an excellent job market pathway. An exit portfolio review is scheduled at the completion of the course. GDES-290 can be repeated up to five times with a credit maximum of six.

Prerequisites: GDES-120, GDES-130, GDES-131, GDES-132, GDES-221, GDES-222, or instructor permission

Professional Portfolio

Design Projects

Offered Each Semester

Portfolio Development

Internship

HEATING, VENTILATION, AIR CONDITIONING, AND REFRIGERATION

NOTE: Course enrollment requires prior acceptance into the Heating, Ventilation, Air Conditioning, and Refrigeration program. Students enrolled in this program are required to earn a grade of C- or better in their classes or receive instructor permission in order to advance to the next semester.

HVAC-161 3 Credits

HVAC/R Principles

This course is designed to explore the common aspects of HVAC/R technology. Discussion will focus on such topics as psychometrics, air distribution and balance, as well as system installation and controls. This is a required class in the HVAC/R program. Current industry professionals who want to update skills are invited to take this class as a stand alone course.

HVAC-161L 5 Credits

HVAC/R Lab I

This course provides an opportunity to apply and practice the theories taught in HVAC/R Principles, HVAC/R Electrical, and HVAC Heating Systems. Safety principles and procedures used in the field are also emphasized in this lab class. Students enrolled in the HVAC/R program are required to take this class concurrently with theory classes. Of the required 5 credits, a maximum of 2 credits can be substituted in an approved internship/co-op with instructor permission.

HVAC-165 4 Credits

HVAC/R Electrical

Basic electrical safety and electrical theory such as Ohms Law, circuit schematics and circuit characteristics/symbols will be discussed as it applies to DC and AC circuits in the HVAC/R industry. Basic control circuits, sequence of operation for basic HVAC/R applications and electric motor theory, as well as specific information on HVAC/R electrical component devices will also be covered. Both electrical testing and troubleshooting methods are taught and practiced. HVAC/R professionals are invited to take this class as a refresher to update skills. Students enrolled in the HVAC/R program are required to take this class as part of their program.

HVAC-167 4 Credits

HVAC Heating

This course will focus on basic heat transfer theory and concepts. Specific areas of study include the different mediums used for heat transfer, electric heat systems, and fossil fuel systems (natural gas, propane and fuel oil). Residential and light commercial system applications will be made throughout the program. Industry professionals who want to update skills are encouraged to take this class as a stand alone course. Students enrolled in the HVAC/R program are required to take this class as part of their program.

HVAC-171L 5 Credits

HVAC/R Lab II

This lab provides students an opportunity to apply and practice the theories taught in HVAC Systems, HVAC/R Heating, HVAC/R Codes and Licenses, and HVAC/R Principles. Safety principles and procedures used in the field will be a major focus. Students enrolled in the HVAC/R program are required to take this class concurrently with theory classes. Of the required 5 credits, up to 2 credits can be substituted in an approved internship/co-op with instructor permission.

HVAC-175 4 Credits

HVAC/R Systems

HVAC systems that utilize the refrigeration cycle will be the main focus of this class. Refrigeration, as it applies to air conditioning, typical operation conditions, heat pumps, room air conditioners, furnaces, and AC combined will be covered. Students will have the opportunity to explore troubleshooting methods for HVAC systems. Students enrolled in the HVAC/R program are required to take this class as part of their program. Industry professionals who want to update skills are encouraged to take this class as a stand alone course.

HVAC-177 4 Credits

Refrigeration

This course will introduce students to the refrigeration cycle. In addition, it will concentrate on the major components and flow control devices that are used in a refrigeration system. Major topics covered will include refrigeration and refrigerants, system evacuation, refrigerant management, system charging, evaporators, condensers, compressors, and flow controls. Focus will also be placed on applications and system troubleshooting practices. Students enrolled in the HVAC/R program are required to take this class as part of their program. Industry professionals who want to update skills are encouraged to take this class as a stand alone course.

HVAC-180 3 Credits

HVAC/R Codes and Licenses

This course provides information needed to successfully pass the Gas Fitter License exam and the EPA refrigerant license- Type II level. Students will have the opportunity to take both exams during the semester. Students enrolled in the HVAC/R program are required to take this class as part of their program. Current industry professionals that want to update skills are invited to take this class as a stand alone course.

HISTORY

HIST-101 3 Credits

History of Civilization to 1500

History 101 explores important chapters of the human past from the earliest civilizations through the middle ages. It focuses on Western cultures which have most influenced ours: Hebrew, Greek, Roman, barbarian, and medieval European. The course considers how people, ideas, and events are interconnected across such broad-ranging fields as politics, religion, social movements, technology, and the arts. This course is recommended for students seeking a broad background of general knowledge, whether as the foundation of a liberal arts education, out of curiosity, or to be well informed. It develops critical thinking skills essential in every career. It meets a social science requirement for A.A. and A.S. degrees.

Lecture: 3 hours per week

Recommended: ENGL-101 and good reading skills

HIST-102 3 Credits

History of Civilization Since 1500

History 102 explores human society's development and variety from the Renaissance to today, focusing on Western culture. It examines such world-changing events and ideas as the reformation and the age of discovery, the scientific revolution and enlightenment, the rise of nationalism and world war, technological change, and "future shock." Students will consider how the past affects the present and future. This course is recommended for any liberal arts program and is required for many degrees and majors. It provides an excellent

opportunity for students to discover how all fields of knowledge fit together into a big picture. It meets a social science requirement for A.A. and A.S. degrees.

Lecture: 3 hours per week

Recommended: ENGL-101 and good reading skills

HIST-103 **History of Civilization 20th Century** *3 Credits*

This course is a survey of the history of the 20th century, beginning in 1871 with the formation of the modern German state and continuing to the present. Emphasis will be placed on the causes and effects of the two World Wars, the dynamics of the Cold War, the rise of technology, and the role of the nation-state. Students are expected to read and write at college level and are required to participate in discussions.

Lecture: 3 hours per week

HIST-111 **U.S. History to 1876**

History 111 offers a broad chronological overview of U.S. History which deals with political, economic, social, and cultural development from the Pre-Columbian period through post-Civil War Reconstruction (c. 1876). Attention is focused on differing historical interpretations and on themes which illuminate current events. This course serves as partial fulfillment of the social science requirement for A.A. and A.S. degrees and is transferable to regional four-year institutions.

Lecture: 3 hours per week

Prerequisite: Good writing and communication skills

HIST-112 **U.S. History after 1876** *3 Credits*

HIST-112 offers a broad chronological overview of U.S. History including political, economic, social, and cultural development from the Gilded Age (c. 1876) through the present. The focus is on differing historical interpretations and on themes which illuminate current events. This course serves as partial fulfillment of the social science requirement for A.A. and A.S. degrees and is transferable to regional four-year institutions.

Lecture: 3 hours per week

Prerequisite: Good writing and communication skills

HIST-131 **History of Latin America** *3 Credits*

This course provides a survey of the historical development of Latin America from pre-Columbian times to the present day. The course examines the origins and legacies of economic, religious and political institutions and the cultural and social contributions of Native Americans, Africans, and Europeans. Students are expected to read and write at college level and will be required to participate in discussions. It meets a cultural diversity requirement for the A.A. degree or a social science requirement for the A.A., A.S., and A.A.S. degrees.

Lecture: 3 hours per week

HIST-141 **History of Africa** *3 Credits*

This course is an introductory survey of Africa history from ancient times to the present. The course covers traditional political systems and culture, the impact of Christianity and Islam, the economic and political intrusion of Europe, and the development of economic and political crises in contemporary Africa.

Lecture: 3 hours per week

HIST-181 **East Asian History and Civilizations** *3 Credits*

This course is a survey of East Asian history and civilization from ancient times to the present. It concentrates on East Asian contributions to civilizations. Areas to be covered are China, Korea, Japan and Southeast Asia. It meets a cultural diversity requirement for the A.A. degree or a social science requirement for the A.A., A.S., and A.A.S. degrees.

Lecture: 3 hours per week

HIST-207 **Explorations in the History of Civilization** *3 Credits*

This course provides an in-depth study of a historical period, geographical area, or historical theme. Topics will vary by semester and will be determined annually by history faculty. Reading, discussion, lectures, and media will focus on the issues and forces contributing to the chosen topic. See the class schedule for announcement of the semester's chosen topic(s).

Lecture: 3 hours per week

HIST-208 **Explorations in U.S. History** *3 Credits*

This course provides an in-depth study of a historical period, geographical area, or historical theme. Topics will vary by semester and will be determined annually by history faculty. Reading, discussion, lectures, and media will focus on the issues and forces contributing to the chosen topic. See the class schedule for announcement of the semester's chosen topic(s).

Lecture: 3 hours per week

HIST-223 **History of the Pacific Northwest** *3 Credits*

This course covers the history of Idaho, Oregon, and Washington. The first half of the semester is devoted to the general history of the Pacific Northwest. The remainder of the semester emphasizes the history of Idaho.

Lecture: 3 hours per week

HIST-240 **American Indian History** *3 Credits*

HIST-240 provides a historical overview of post-contact Indian and non-Indian relations and their effect on Indian culture, including reactions, adaptations, and conflicts in social, political, and economic systems. Some emphasis will be placed on prominent Indian personages and geographical groups, their migrations and intertribal and U.S. government relationships, including federal Indian policy. Students will gain a deeper sense of "nations" and an understanding of the importance of tribal heritage and identify from a historical perspective. It meets a cultural diversity requirement for the A.A. degree or a social science requirement for the A.A., A.S., and A.A.S. degrees.

Lecture: 3 hours per week

Prerequisite: AIST-101, ANTH-225 or HIST-101, or HIST-111 or HIST-112.

HIST-261 **Historical Roots of Modern Russia: An Introduction Through Film and Fiction** *3 Credits*

This course surveys the history of Russia from earliest times to the present. It investigates political, economic, multi-national, social, and cultural aspects of Russian and Soviet history by reading historical literature, novels, and analyzing films.

Lecture: 3 hours per week

HIST-290
3 Credits

HIST-290 provides an introduction to the discipline of history, to basic skills for coursework and research, and to major schools of historical writing. This course fulfills a major requirement for transfer institutions in Idaho.

Lecture: 3 hours per week

Prerequisite: ENGL-101

Prerequisite or Corequisite: ENGL-102

The Historian's Craft**HOSPITALITY****HOSP-105** **Food & Beverage Service Sanitation**
3 Credits

This course provides practical skills and knowledge for effective management of food and beverage service in outlets ranging from cafeterias and coffee shops to room service, banquet areas, and high-check average dining rooms. HOSP-105 presents basic service principles while emphasizing the special needs of guests. The course also emphasizes how to effectively manage sanitation to achieve high standards that will keep customers coming back.

Lecture: 3 hours per week

HOSP-110 **Front Office Procedures**
3 Credits

Front Office Procedures details the flow of business through a hotel beginning with the reservation process and ending with check-out settlement. Included are examinations of how front desk activities and functions influence other departments and impacts management. The course also addresses ethics and general strategies when dealing with the public.

Lecture: 3 hours per week

HOSP-115 **Hospitality Field Experience**
3 Credits

This is an introduction to actual on-the-job work experience. Exposure to the demands and practices of the hospitality industry is intended to help the student discover whether the hospitality field is an appropriate career choice. This course is waived for students with one full year of appropriate employment experience in the industry. The course includes student, employer, and coordinator evaluations; on-site work visits; written assignments; and oral presentations.

Lecture: 3 hours per week

HOSP-120 **Supervisory Housekeeping**
3 Credits

This course describes the management functions, tools, and practices required in the lodging housekeeping department.

Lecture: 3 hours per week

Prerequisites: HOSP-105, HOSP-110, HOSP-115, RRM-100

HOSP-125 **Hospitality Maintenance and Engineering**
3 Credits

This course is an introduction to the technical knowledge required to establish preventative maintenance procedures.

Lecture/Lab: 3 hours per week

Prerequisites: HOSP-105, HOSP-110, HOSP-115, RRM-100

HOSP-130
3 Credits

This course examines the issues surrounding the need for individualized security programs. It also explores how to make a difference in the safety and security of guests, hotel property, and fellow employees.

Lecture: 3 hours per week

Prerequisites: HOSP-105, HOSP-110, HOSP-115, RRM-100

Hotel Security Management**HOSP-210** **Food and Beverage Controls**
3 Credits

This course covers the principles involved in an effective system of food, beverage, labor, and sales income controls in the hospitality industry.

Lecture: 3 hours per week

Prerequisites: HOSP-105, HOSP-110, HOSP-115, RRM-100

HOSP-215 **Bar and Beverage Management**
3 Credits

This course explores how to balance marketing and control objectives, plan the business, select and train employees, and establish and maintain control systems. In-depth material on responsible alcohol service and range of beverage products is included.

Lecture: 3 hours per week

Prerequisite: HOSP-210

HUMANITIES**HUMS-101** **Montage: Introduction to the Humanities**
3 Credits

This course explores how the humanities, through many varied types of creative works, comment on human experiences and raise questions of value and meaning. Students will learn an approach to understanding a wide variety of works in art, music, literature, and philosophy, based on questions applicable to all genres. The course is highly interactive, with frequent class discussion and informal written responses to works being explored. This course provides a good foundation for further humanities study in courses focusing on one particular field such as literature, philosophy, or the arts. It is an ideal course for students who intend to focus on areas other than the humanities, but wish to broaden their education. It fulfills an arts and humanities requirement for the A.A. and the A.S. degrees.

Lecture: 3 hours per week

Prerequisite or Corequisite: ENGL-101

HUMAN RESOURCES ASSISTANT**HRA-110** **Diversity and Human Relations**
3 Credits

This course is designed to help human resources professionals recognize the need to incorporate diversity into all phases of the organization. Topics include understanding and valuing diversity, diversity in the workplace, managing diversity, cultural elements, and communication issues.

Lecture: 3 hours per week

HRA-210 **Recruiting, Selection, and Retention**
3 Credits

This course is designed to give students a basic understanding of the employment process. Emphasis is placed on legal compliance,

planning, recruitment, selection, and retention. By the end of the course students should understand the fundamentals and legal aspects of various methods and techniques in recruiting, selection, and employment.

Lecture: 3 hours per week

INTERDISCIPLINARY STUDIES

INTR-200 Interdisciplinary Seminar 3 Credits

Integrating a range of disciplines, including social sciences, the arts, history, literature, philosophy, and natural sciences, interdisciplinary studies courses explore issues related to sustainability and humanity's role in maintaining public and environmental health in the 21st century. Utilizing field trips, service-learning, writing across the curriculum, reading, research, and special projects; students use problem-solving skills to explore these issues.

Lecture: 3 hours per week

Prerequisite or Corequisite: ENGL-101

INTR-290 Internship Credits arranged

The interdisciplinary internship is an off-campus experience designed to give students the opportunity to apply their chosen areas of interdisciplinary study to specific community-related or employment-related situations. The internship will be overseen by a faculty member either in the interdisciplinary studies program or in one of the student's main areas of study. Eight credits maximum can be applied toward graduation.

Prerequisite: Permission of the instructor

INTR-299 Independent Study Credits arranged

Independent Study involves readings or projects integrating the students' two selected areas of study, designed under the supervision of a faculty member in the Interdisciplinary Studies program or in one the student's main areas of study. Six credits maximum may be applied toward graduation. Contact the Registrar's Office for Independent Study Guidelines.

Prerequisite: Sophomore standing (26 credits completed), 3.00 GPA, and permission of the instructor.

JOURNALISM

COMJ-100 Sentinel (NIC Newspaper) Staff 1 or 2 Credits

This course provides technical training and application of journalism theory and techniques. Students are staff members of *The Sentinel*, the NIC student newspaper, and work positions that reflect a professional journalism organization. *Sentinel* students learn the practical workings of a newspaper, including reporting, editing, design, photo journalism, computer technologies, and advertising. Projects contribute to a student's portfolio and provide the basis for refining journalistic skills supporting career development. The course may be repeated for a total of 10 credits. Previous or concurrent news writing, photo, art and/or web page experience is advised.

Lab Class Coordinating: Varies according to credits

Prerequisite or Corequisite: COMJ-121

COMJ-121 News Writing 3 Credits

This course provides an introduction to the principles of news writing, focusing on organization and writing methods for media. Students

develop news stories in lab and outside of class. Sentence structure competence is necessary. Mastering the basics of news writing, students will improve their abilities to participate as members of communications professions in print, broadcast, and corporate areas.

Lecture: 4 hours a week combined with lab time

Prerequisite or Corequisite: ENGL-101

COMJ-140 Mass Media in a Free Society 3 Credits

This course examines today's American media - their development, successes, and failures. Career options are explored through tours and guest presentations by working professionals. After completion of COMJ-140, students will know if a media career is an option to pursue. Students will gain a clear view of themselves as media consumers. Topics that will be covered in upper division coursework will be introduced.

Lecture: 3 hours per week

COMJ-222 Reporting 3 Credits

Reporting provides practical experience working with different types of news sources. Students gather and write articles about on-and off-campus events. Assignments include writing multisource stories, features, editorials, columns, and research pieces. Some "deadline critical" situations related to professional newspaper practices are included. Students learn reporter duties in preparation for advancement to upper division coursework and journalism career development.

Lecture/Lab: 3.5 hours per week

Prerequisite: COMJ-121

COMJ-255 Editing 3 Credits

This course studies the elementary principles of newspaper makeup and fundamentals of editing copy and photographs. It includes practice in news selection and evaluation, writing headlines and photo captions, and newspaper design and composition. The course uses Macintosh computers for desktop publishing. Students learn and practice the responsibilities of an editor, including copy reading and measuring, article evaluation, headlining, page design, photo editing, and ethics decisions. Skills gained contribute to portfolio development and career preparation.

Lecture/Lab: 3 hours per week

Prerequisite: COMJ-121

COMJ-298 Journalism Practicum 2 Credits

Journalism Practicum provides on-the-job training and experience through averaging a four-hour weekly internship in a media-related workplace. Developed as a "contract" agreement between the student intern and a "host" organization with permission of the instructor, this practicum offers practical work experience supporting preparation for upper division college studies or career entry. Students seeking clarification of career direction or "real-world" experience will benefit. This course may be repeated for a total of 8 credits.

Time: Varies according to project

LAW ENFORCEMENT

NOTE: LAWE-103, LAWE-202, and LAWE-205 may be taken without being accepted into the Law Enforcement program. All other LAWE courses require application and acceptance into the program before enrolling.

**LAWE-103 Introduction to Criminal Justice
(same as CJ-103)**
3 Credits

Offered Each Semester This course offers an introduction to the purpose, function, and brief history of the agencies dealing with criminal justice, while presenting a survey of requirements for entering criminal justice service. Students discuss crime, the criminal, traffic, and vice as social problems; the function of the courts; prosecution and defense attorneys; correctional and penal institutions; and probation and parole. This course will introduce the student to the various agencies and employment opportunities within the criminal justice system. This is a required course in the Law Enforcement program.

**LAWE-202 Corrections in America
(same as CJ-202)**
3 Credits

This course includes a survey of the historical, philosophical, and legal bases of correctional procedures and institutions and an examination of current problems and innovations.

Prerequisites: LAW-103 or CJ-103 or permission of instructor.

**LAWE-205 Criminal Procedure
(same as CJ-205)**
3 Credits

This course includes an examination of the procedural aspects of criminal law. It will include specific applications of procedures by actors in the criminal justice process including police, prosecutors, defense attorneys, judges, and corrections officials. This examination will provide a basic understanding of state and local legal codes, as well as current applications of law in both arrest and search and seizure.

LAWE-219 Self Defense/Law Enforcement
3 Credits

This course covers the use of force; baton training; pepper spray training; electroshock weapons; handcuffing techniques; people searches; firearms liability; safety, inspection, and maintenance; basic marksmanship; day and night range practice; and handgun, shotgun, and rifle qualifications.

Lecture/Lab: 35 hours per week

LAWE-220 Basic Police Law
2 Credits

This course is the study of basic police law as it relates to the U.S. Constitution, Idaho Codes, liquor laws, rules of evidence, criminal law, arrest, search and seizure, traffic code, and Idaho Fish and Game Laws. After completing the course, students will be able to determine traffic offenses, criminal offenses, probable cause for arrest, and how to process cases. This is a required course in the Law Enforcement program.

LAWE-221 Professional Orientation
1 Credit

This course studies the human dimensions of the police profession including standards for police ethics and professionalism, media relations, crime prevention, and human relations. This is a required course in the Law Enforcement program.

LAWE-222 Police Procedures
2 Credits

This course teaches fundamental patrol skills such as searching buildings, operating emergency vehicles, and writing reports. It also includes jail procedures, communication methods, officer survival, and courtroom demeanor and testifying. This is a required course in the Law Enforcement program.

LAWE-223 Patrol Procedures
1 Credit

This course teaches patrol procedures and techniques for crimes in progress, including responding to armed robberies; low-risk, high-risk, and felony traffic stops; prowler calls, hostage situations; and domestic disputes. This is a required course in the Law Enforcement program.

LAWE-224 Practical Problems
1 Credit

This course provides an opportunity for the student to demonstrate and utilize classroom skills in simulations and exercises in crime scene investigation, search warrant application, traffic stops, arrest situations, and domestic disputes. This is a required course in the Law Enforcement program.

LAWE-225 Investigation
3 Credits

This course provides theory, techniques, and procedures for the investigation of traffic accidents, auto theft, juvenile crimes, allegations of child abuse, DUI situations, and suspicious deaths. It includes techniques and procedures for drug identification, protection of crime scenes, collecting evidence, fingerprinting, interviewing, notification, and interrogation. This is a required course in the Law Enforcement program.

LAWE-226 Enforcement Skills
1 Credit

This course provides hands-on training in handgun retention, arrest and control techniques, and handling hazardous materials. This is a required course in the Law Enforcement program.

LAWE-228 Police Physical Fitness
1 Credit

This course provides physical health and conditioning methods and includes work on agility, flexibility, and conditioning. Students must pass the Idaho POST Physical Fitness Test. This is a required course in the Law Enforcement program.

LAWE-230 Law Enforcement Professionalism
2 Credits

This course introduces principles and concepts of law enforcement professionalism. Emphasis is placed on preparing for courtroom testimony, cultural diversity, community policing, and preventing misconduct. Topics include understanding the role in the courtroom, stereotyping, prejudice and discrimination, cultural conflicts, the problem-solving process, ethical dilemmas, and developing integrity as a leader.

Entry-Level Skills: Minimum competency levels in reading, writing, and mathematics.

LAWE-231 Officer Survival
3 Credits

This course is designed to increase officer safety, enhance professionalism, decrease citizen complaints, decrease vicarious liability, and lessen personal stress on the job and at home. The course covers laws regarding the use of force, civil and criminal liability, mental conditioning, post-shooting trauma, and the dynamics of lethal force. Also included are dealing with gangs, suicide, crisis negotiating, and off-duty officer survival. The principles discussed in this course have applications for a variety of law enforcement operations.

Entry-Level Skills: Minimum competency levels in reading, writing, and mathematics.

LAWE-232
3 Credits**Career Enhancement**

This course provides analyses of cutting-edge contemporary criminal justice issues. Topics may include terrorism, public perceptions of crime, legal issues, and school violence. Focus will be on high-impact police leadership and the fundamentals of interpersonal relations, supervising techniques, and professional ethics. Report-writing skills to prepare a legally sound report will also be covered. This course is designed to enhance skills of the already practicing police officer.

Entry-Level Skills: Minimum competency levels in reading, writing, and mathematics.

LAWE-233
3 Credits**Initial Investigations**

This course provides an examination of the fundamentals of criminal investigation from the crime site to the courtroom preparation experience. Topics include an analysis of techniques for crime scene procedures, interviews, field notes and reporting, follow-up investigation, developing rapport, lie detection, and rules of evidence. Specific detail is given to investigations involving DUIs, elderly abuse and mentally disturbed persons, computer crime, crash investigations and advanced interviewing techniques.

Entry-Level Skills: Minimum competency levels in reading, writing, and mathematics.

LAWE-234
3 Credits**Drug Investigations**

This course provides instruction in the multifaceted aspects of drugs and alcohol within the criminal justice system. The course will teach students theories of addiction, substance abuse identification, seizure procedures and requirements, informant development, investigative techniques, surveillance methods, and risk factors of undercover investigations.

Entry-Level Skills: Minimum competency levels in reading, writing, and mathematics.

LAWE-235
2 Credits**Enhanced Patrol**

This course is designed to increase officer safety through enhanced patrol procedures and techniques. Students will examine and practice appropriate responses to active shooters, commercial trucking violations, outlaw bikers, emotionally disturbed persons, robbery, homicide, in-progress crimes, drug interdiction, stolen vehicles, and document forgery. The elements of a successful field training officer program will be introduced. In addition, National Incident Management System (NIMS) and Incident Command Systems (ICS) awareness will be addressed.

Entry-Level Skills: Minimum competency levels in reading, writing, and mathematics.

LAWE-236
2 Credits**Terrorism**

This course introduces officers to terrorism, specifically those terrorist acts that present the greatest threat to the United States today. A thorough examination of the causes of terrorism, prevailing terrorist networks including domestic terrorists, operations, common characteristics of terrorists, surveillance detection, hostage survival, and protective measures will be presented. Special emphasis will be placed on basic medical techniques for officers in a critical incident.

Entry-Level Skills: Minimum competency levels in reading, writing, and mathematics.

LAWE-237
1 Credit**Use of Force**

This course will introduce students to an overall understanding of techniques and strategies for employing the appropriate level of force in a given situation. Students will learn about the requirements for the application of less-than-lethal force, tactics used in gun retention, and respiratory compliance techniques.

Entry-Level Skills: Minimum competency levels in reading, writing and mathematics.

LAWE-238
3 Credits**Idaho Law Enforcement**

This course is designed to provide in-depth instruction in Idaho law enforcement procedures such as laws of arrest, legal liability, use of force, officer's rights, and the court systems for adult detention, juvenile detention, and juvenile probation. Students will also examine and practice appropriate responses in domestic violence, sexual assault, and child abuse situations. In addition, agro-terrorism awareness will be addressed.

Entry-Level Skills: Minimum competency levels in reading, writing and mathematics.

LAWE-248
3 credits**General Instructors Course**

The objective of this course is to prepare individuals to become effective instructors. This course provides the skills necessary to create lesson plans, including correct procedures for documenting the citing references. Students will walk away from the class with a basic understanding of adult learning and the five phases of the Instructional Systems Development (ISD) model. Students will also learn how to incorporate the ISD model as they research and write their own lesson plans.

This course covers the evaluation process for performance testing to include types of tests, characteristics of good tests, and uses of test results. Methods and strategies that are used in the classroom to provide an efficient and effective learning experience are covered, along with the use of proper communication techniques for a classroom setting. In order to give students multiple tools to enhance instruction, ways to incorporate the use of audio-visual aid is also covered. Upon completion of the course, students will have learned the tools necessary to become effective instructors who are able to transfer their knowledge to others.

LAWE-290
3 Credits**Law Enforcement Theory**

LAWE-290 meets weekly to evaluate, critique, and document intern performance and experiences. It incorporates specialized or refresher training as needs arise during the intern experience. This is a required course in the Law Enforcement program.

Prerequisite: LAW-219, LAW-228

LAWE-293
10-12 Credits**Law Enforcement Internship**

This is an internship experience with law enforcement agencies designed to match the student's abilities and career goals. Students will function in a law enforcement position under the direct supervision of a selected, experienced law enforcement officer. Students are evaluated on a daily basis in accordance with the agency's established training policies for new officers. Students will be expected to participate in the enforcement activities performed by the supervising officer. This is a required course in the Law Enforcement program.

Prerequisite: LAW-219, LAW-228

MACHINE TECHNOLOGY

NOTE: Enrollment requires acceptance into the program. Successful completion of each semester and/or permission of the instructor is required for enrollment in the next semester.

MACH-151 Machining Technology Theory I
4 Credits

This basic course consists of learning terminology, measuring systems, and using measuring tools. Some of the instruments used are hand tools, mechanical instruments, lathes, and mills. Students will use shop math for problem solving. Machining Technology Theory is necessary for the safe, efficient operation of industrial machinery.

MACH-151L Machining Technology Laboratory I
6 Credits

Machining Technology Lab consists of machining projects designed to promote machining skills on all shop machinery and hand tools. Projects are graded to assure that blueprint tolerances are met. Skills learned in theory sessions are transferred to the lab through projects. Students must acquire their own tools, but may use shop tools temporarily. A tool list is supplied to students at the beginning of the course.

MACH-152L Machining Technology Laboratory II
5 Credits

This lab is a continuation of MACH-151L. Students continue to progressively attempt more difficult projects. The main project for the class is the manufacture of a model Stirling Engine utilizing an assortment of materials and machining strategies. The nature of tolerance build-up in assemblies and effective time management are emphasized.

MACH-160 Manufacturing Processes
4 Credits

This course covers manufacturing strategies from interchangeability of common parts through various “waves” of production techniques including “lean manufacturing” as practiced in the Toyota production system and others. This course also includes an introduction to computer aided machining (CAM) and word address programming.

Lecture: 4 hours per week

MACH-171 Blueprint Reading I
2 Credits

Blueprint reading consists of a series of exercises involving visualization skills. This series takes students from basic knowledge to a point where they can interpret simple orthographic blueprints. Blueprint reading is essential to produce required work pieces on machines.

MACH-172 Blueprint Reading II
2 Credits

This course is a continuation of MACH-171 with an emphasis on more complex prints, geometric dimensioning, and tolerancing.

MACH-185 Statistical Process Control and Mechanical Measurements
1 Credit

This class is geared to real life application in the machine trades and concentrates on the statistical concepts of mode, median, mean, and standard deviation for samples and populations. Success is dependent on being able to read precision measuring instruments and applying it to real manufactured parts for data gathering. The lab addresses the application of methods of inspection and measurement of mechanical parts. Activities include measuring instruments, gauging equipment,

work holding methods, and surface finishes. The lab utilizes tools found in machine shops and inspection departments.

MACH-186 CNC Theory
3 Credits

This course covers the history of CNC, Basic Word Address Programming (G and M codes), CNC lathe basics, operation and set-up of CNC machining center, Haas control simulators, and a Mastercam 2 ½ D tool paths for mills. Students will earn entry-level CNC skills facilitating employment as a CNC operator or machinist. Mastercam student version required.

Lecture: 6 hours per week

Prerequisites: Completion of the previous two semesters with a C grade or better in all classes.

MACH-186L CNC Lab
3 Credits

This course teaches the successful set up and operation of a Computer Numerical Control machining center in the production of a variety of required projects. The course offers the opportunity to earn Mastercam 2 1/2 D certification.

Prerequisites: Completion of the previous two semesters with a C grade or better in all classes.

MACH-231 Computers in Machining
3 Credits

This course is designed to provide students with extensive experience with CAD/CAM systems. Students will use PCs to prepare for employment in the computerized manufacturing workplace with the opportunity to become certified in Master CAM Mill. Students will also explore other software applications commonly used in the workplace.

MACH-253L Advanced Machining Laboratory I
5 Credits

This course is a hands-on learning experience using tools and techniques discussed in the first year machining program and MACH-253. Students will gain experience on CNC lathes, CNC mills, and precision grinders, as well as advanced technique practice on other manual machines.

Prerequisite: MACH-152L or instructor permission

MACH-254L Advanced Machining Laboratory II
5 Credits

This course offers hands-on experience under work-like conditions and in-depth CNC and manual projects that build on skills acquired in MACH-253L. Upon successful completion of this course, students should have the necessary skills to be employed as an entry-level machinist.

Prerequisite: MACH-253L

MACH-273 Intermediate Blueprint Reading
3 Credits

Students will learn to interpret advanced drawings and blueprints as well as make sketches with dimensions and additional information necessary to complete projects. Study of all types of section views, complex drawings, and unusual methods of drawing parts to better show features will also be completed. Students will receive hands-on experience sketching and interpreting sketches.

Prerequisite: MACH-172

problem solving and can generate many options very rapidly. In the group process module, the students will work in teams to complete various projects.

Lecture: 15 hours

Lab: 30 hours

MFGT-130 Applied Tech Skills in MFG 1
2 Credits

This class is comprised of three modules: reading, writing, and math. Each module will have several assignments associated with them requiring written responses for reading and writing segments. The math section will involve problem solving and weekly assignments related to manufacturing, as well as the use of an electronic calculator.

Lecture: 30 hours

MFGT-140 Applied Tech Skills in MFG 2
2 Credits

This class is comprised of a research project and math (fractions, decimals, percentages, and linear measurement). In this module the student will build upon the reading and writing skills demonstrated in MFGT-130. This module also focuses on solving mathematical problems. All projects and problem solving will be completed in simulated manufacturing situations.

Lecture: 30 hours

MFGT-150 MFG Manual Machine Operation
2 Credits

This course provides an orientation on several major types of manual machines and will give the students the opportunity to practice their use. Instruction and demonstration will be on the band saw, drill press, and belt sander. Additional machines may be covered at the instructor's discretion.

Lab: 60 hours

MFGT-160 Health and Safety
2 Credits
Offered Each Semester

Students will use the OSHA and Labor and Industry websites to become more familiar with functions performed by these organizations. They will also learn about common personal protective equipment as well as reviewing potential shop accident conditions and the way in which they can be prevented. There is also a focus on major types of hazardous materials used in manufacturing operations and the health effects, safe handling, and responding to incidents such as spills or fires.

Lecture: 30 hours

MFGT-170 Print Reading in MFG
1 Credit

This course introduces the student to the various sources of information found within technical drawings and provides practice interpreting various projections.

Lecture: 15 hours

MFGT-180 Basic Precision Measurement
2 Credits

This course is a basic and precision measurement course that gives the student the information to measure object dimensions carefully and precisely. It is one of the keys to high quality manufacturing. Measurement will be taught with the machinist's rule, the tape measure, the protractor, the vernier/dial caliper, the one inch external micrometer, the height gage, the dial indicator, and a coordinate measuring machine.

Lecture: 15 hours

Lab: 30 hours

MFGT-190
2 Credits

Capstone Project

This course provides instruction that combines the learning outcomes from all of the classes that make up the certificate in Basic Manufacturing. Students involved with the capstone project will demonstrate competency in blueprint reading, math, precision measurement, health and safety, teamwork, and computer skills. The necessary work processes for hand tools used in manufacturing will also be included. Students will also have the opportunity to demonstrate employability skills in listening, observation, and reading.

Lecture: 15 hours

Lab: 60 hours

MATHEMATICS

NOTE: Once placed in a mathematics class students must pass that class with a C- or above before enrolling in the next class in the sequence. Classes in a sequence cannot be skipped once the student has been placed. Students should be prepared to provide a hard copy of their placement scores to their instructor.

MATH-015 Basic Mathematics
3 Credits

MATH-015 is an introduction to operations and applications of whole numbers, fractions, ratios and proportions, decimals, percents, positive and negative numbers, geometry, and solving algebraic equations. The course format includes lecture, frequent skill assessment, and available online support. Students are assisted in developing proficiency in basic computational skills, the language of mathematics, and problem solving required for pre-college level math courses.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, COMPASS Pre-Algebra < 53. This score is under review—refer to the online catalog for up-to-date information.

MATH-024 Technical Mathematics
3 Credits

MATH-024 is designed as a basic math course for students in technical programs. Each section of the course will be specific to one technical program and appropriate applications for that program will be stressed throughout. All sections will review operations of fractions and decimals, percents, ratios and proportions, calculator usage, signed numbers, evaluating formulas, equation solving, geometry, and the metric system. Trigonometry will be introduced when appropriate.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS Pre-Algebra > 32 or a grade of C- or above in MATH-015. These scores are under review—refer to the online catalog for up-to-date information.

MATH-025 Elementary Algebra
3 Credits

MATH-025 is an introduction to mathematical concepts dealing with signed numbers, variables, polynomials, exponents, factoring, solving and graphing first-degree equations, and inequalities. The course also introduces solving factorable second-degree equations. It emphasizes the practical applications of these concepts. The course provides important skill-building for those who have not taken or have had difficulty with high school algebra.

Note: MATH-025 carries no credit if taken after successful comple-

tion of a higher numbered math course.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS Pre-Algebra > 44 or a grade of C- or above in MATH-015

MATH-102 **Computational Skills for Allied Health** 3 Credits

MATH-102 includes instruction in systems of measurement (including metric and apothecary); conversions; reductions; dimension analysis; interpreting drug orders and labels; calculating oral, parenteral, and pediatric dosages; intravenous (IV) and advanced IV calculations; ratios and proportions; solving linear equations, formulas, and solution; and mixture problems. MATH-102 does not satisfy the core math requirement for the A.A. or A.S. degrees.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS Algebra > 40, ACT Math > 18, SAT Math > 430, or a grade of C- or above in MATH-025, enrollment limited to Practical Nursing and Pharmacy Technician students.

MATH-108 **Intermediate Algebra** 4 Credits

MATH-108 continues development of mathematical concepts beyond MATH-025 or first year high school algebra. It includes linear and quadratic equations, algebraic fractions, radicals, circles and parabolas, complex numbers, functions, and logarithms. There is an emphasis on the application of these skills. The course provides important skill building for entry into college-level math courses. Enrollment is based on placement test results. This course does not fulfill the math requirement for the A.A., A.S., or A.A.S. degrees.

Note: MATH-108 carries no credit if taken after successful completion of a higher numbered math course with the exception of MATH-123 or MATH-130

Lecture: 4 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS Algebra > 40, ACT Math > 18, SAT Math > 430, or a grade of C- or above in MATH-025.

MATH-123 **Contemporary Mathematics** 3 Credits

In MATH-123, mathematical methods and concepts are applied to modern day situations. Intended primarily for liberal arts majors, this course offers many useful techniques and insights for our increasingly technical world. It is assumed that students coming into the course have a working knowledge of algebra at an intermediate level. Topics may vary as textbooks change, but typically include a variety from the following: voting theory, apportionment, probability, statistics, consumer finance, paths and networks, scheduling, fair division, right-angle trigonometry, similarity and scaling, exponential and logistic growth, renewable resources, linear programming, and game theory. MATH-123 satisfies the math requirement for the A.A., A.S., and A.A.S. degrees.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS Algebra > 45, ACT Math > 19, SAT Math > 460 or a grade of C- or above in MATH-108.

MATH-130 **Finite Mathematics** 4 Credits

MATH-130 is the study of solutions and practical applications to systems of linear equations and inequalities, linear programming, sets, counting techniques, probability, and elementary concepts of

statistics. This course provides useful skills to aid decision making in many diverse fields, but focuses primarily on business applications. It satisfies the mathematics requirement for the A.S., A.A., and A.A.S. degrees and is often required for transfer business degrees.

Lecture: 4 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS Algebra > 45, ACT Math > 19, SAT Math > 460 or a grade of C- or above in MATH-108

MATH-143 **College Algebra** 3 Credits

MATH-143 begins by taking a deeper look at the definition of functions, their properties and notation in both an algebraic and graphical context. The course then focuses on the study of equations and graphs of polynomial, rational, exponential, and logarithmic functions. Additional topics include conic sections and sequences. This course prepares students for MATH-160. The combination of MATH-143 followed by MATH-144 may be used in place of MATH-147 as the prerequisite for MATH-170. MATH-143 satisfies the math requirement for the A.A., A.S., and A.A.S. degrees.

Note: MATH-143 carries no credit if taken after successful completion of any higher numbered Math course with the exception of MATH-148.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS Algebra > 61, ACT Math > 23, SAT Math > 540 or a grade of C- or above in MATH-108.

MATH-143D **College Algebra-Computer Aided Drafting Applications** 1 Credit

MATH-143D is a lab/recitation course for students in the Computer Aided Drafting Technology program. This course includes radian measure, applications of right triangle trigonometry, areas of triangles, Laws of Sines and Cosines, and vectors. Mathematical modeling with drafting emphasis is stressed.

Lecture/Recitation: 1 hour per week

Prerequisite: MATH-108 or successful completion of two years of high school algebra and an appropriate score on the placement test.

Corequisite: MATH-143

MATH-143E **College Algebra- Electronics Applications** 1 Credit

MATH-143E is a lab/recitation course for students in the Electronic Technology program. This course includes radian measure, applications of right triangle trigonometry, graphs of trigonometric functions, complex numbers, polar coordinates, and vectors. Mathematical modeling with electronics emphasis is stressed.

Lecture/Recitation: 1 hour per week

Prerequisite: MATH-108 or successful completion of two years of high school algebra and an appropriate score on the placement test

Corequisite: MATH-143

MATH-144 **Analytic Trigonometry** 2 Credits

MATH-144 includes angles, trigonometric functions, their graphs and the application thereof, right-triangle trigonometry, trigonometric identity verification, trigonometric formulas, inverse trigonometric functions, and the law of sines and cosines. It satisfies two credits towards the mathematics requirement for the A.A., A.S., and A.A.S. degrees.

Note: MATH-144 carries no credit if taken after successful completion of any higher numbered Math course with the exception of

MATH-148, MATH-157, MATH-160, and MATH-253.

Lecture: 2 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS College Algebra > 51, ACT Math > 27, SAT Math > 620 or a grade of C- or above in MATH-143.

MATH-147 5 Credits

Pre-Calculus

MATH-147 is designed for the well-prepared mathematics student who wishes to condense the one-year sequence of MATH-143 and MATH-144 into one semester. It is the study of polynomial and rational equations, functions and their inverses, graphs, systems of equations, complex numbers, exponential and logarithmic functions, trigonometric functions, identities and graphs, applications of triangles, and polar coordinates. This course prepares students for calculus courses which are required for degrees in mathematics, engineering, computer science, physics, chemistry, and others. It satisfies the mathematics requirement for the A.A., A.S., and A.A.S. degrees.

Note: MATH-147 carries no credit if taken after successful completion of any higher numbered math course with the exception of MATH-148. MATH-147 carries two credits if taken after MATH-143.

Lecture: 5 hours per week

Prerequisites: Entry is based on an appropriate score on the placement test, either COMPASS Algebra > 61, ACT Math > 23, SAT Math > 540 or a grade of C- or above in MATH-108.

MATH-148 1 credit

Mathematics Technology

This course explores the use of technological tools such as graphing calculators and mathematical software to solve problems in mathematics. Opportunities to perform basic operations including computation, graphing, and manipulation of statistical data are presented. Students are encouraged to compare different techniques and develop strategies to determine how to effectively utilize the available tools. This course counts as an elective towards the A.A. or A.S. degrees.

Lecture: 1 hour per week

Prerequisite: MATH-108 with a grade of C- or higher

MATH-157 3 Credits

Mathematics for Elementary Teachers I

MATH-157 is a lecture/lab course that is required for elementary teacher certification by the State of Idaho. It does not satisfy the math core requirement for the A.A., or A.S. degrees at NIC. This course provides prospective elementary school teachers with a problem-solving approach to the topics of the elementary school math curriculum. Focus is on teaching basic arithmetic operations on the set of real numbers while strengthening prospective teachers' mathematical skills and appreciation of mathematics.

Lecture: 3 hours per week

Lab: 1 hour per week

Prerequisite: Completion of MATH-143 or MATH-147 with a C- or better; or an appropriate score on the placement test, either COMPASS College Algebra > 51, ACT Math > 27, SAT Math > 620.

MATH-160 4 Credits

Survey of Calculus

MATH-160 is the introduction to calculus as used in business, social sciences, and life sciences. It focuses on functions, graphs, limits, the derivative, exponential and logarithm functions, and

integration applications. The course develops an understanding of the fundamentals of differential and integral calculus and how to apply these principles and theories to the solution of real problems. MATH-160 satisfies the math requirement for the A.A., A.S., and A.A.S. degrees.

Note: MATH-160 carries no credit if taken after successful completion of any higher numbered math course with the exception of MATH-187, MATH-253, and MATH-257.

Lecture: 4 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS College Algebra > 51, ACT Math > 27, SAT Math > 620 or a grade of C- or above in MATH-143 or MATH-147.

MATH-170 4 Credits

Analytic Geometry and Calculus I

MATH-170 is an introduction to calculus as the mathematics of change and motion. It emphasizes limits, the derivative, techniques of differentiation, and the integral. This course builds a foundation for all further study in mathematics and science that is typically required in mathematics, engineering, computer science, physics, chemistry, and other transfer degrees.

Note: MATH-170 carries no credit if taken after successful completion of a higher numbered math course with the exception of MATH-187, MATH-253, and MATH-257.

Lecture: 4 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS College Algebra > 51 and Trigonometry > 51, ACT Math > 29, SAT Math > 650 or a grade of C- or above in MATH-147 or MATH-143 and MATH-144.

MATH-175 4 Credits

Analytic Geometry and Calculus II

MATH-175 is a continuation of the calculus sequence emphasizing techniques of integration, applications of integration, polar coordinates, parametric equations, sequences, and series. It is required for most transfer degrees in mathematics and science.

Note: MATH-175 carries no credit if taken after successful completion of a higher numbered math course with the exception of MATH-187, MATH-253, MATH-257, and MATH-335.

Lecture: 4 hours per week

Prerequisite: MATH-170 with a grade of C- or higher

MATH-187 4 Credits

Discrete Mathematics

MATH-187 is intended for computer science majors, mathematics majors, and for other students wishing to pursue in-depth study in computer science. Topics covered will include basic set theory, propositional and predicate logic, number systems, Boolean algebra, combinatorics, and graph theory. Little or no programming will be done.

Lecture: 4 hours per week

Prerequisite: MATH-147 with a grade of C- or higher

Recommended: Knowledge of programming language such as C++ or Java

MATH-253 3 Credits

Principles of Applied Statistics

MATH-253 is an introduction to statistical methods covering both descriptive statistics and inferential statistics, which includes hypothesis testing, correlations and regression, chi-square, and analysis of variance. Probability is included as needed. This course is suitable for a broad range of majors.

Lecture: 3 hours per week

Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS Algebra > 61, ACT Math > 23, SAT Math > 540 or a grade of C- or above in MATH-130, MATH-143, or MATH-147.

MATH-257 **Mathematics for Elementary School Teachers II**
3 Credits

This course is a lecture/lab course that is a continuation of MATH-157 and is required for elementary teacher certification by the State of Idaho. It does NOT satisfy the math requirement for the A.A., A.S., or A.A.S. degree. This course has a topical emphasis on statistics, probability, geometry, and measurement. It demonstrates the usefulness of math in ordinary life, the aesthetic side of math, and the overall richness of the study of geometry.

Lecture: 3 hours per week

Lab: 1 hour per week

Prerequisite: MATH-157 with a grade of C- or higher.

MATH-275 **Analytic Geometry and Calculus III**
4 Credits

MATH-275 is a continuation of the calculus sequence. It includes the study of vectors and vector valued functions, and the ideas of the calculus of a single variable are extended to functions of several variables. Partial differentiation and multiple integration are used to examine Green's Theorem, Stokes' Theorem, and the Divergence Theorem from vector analysis. This course provides an understanding of the mathematics necessary for mathematics degrees and the study of multivariable physical phenomena in the physical science, chemistry, and engineering areas.

Note: MATH-275 carries no credit if taken after successful completion of MATH-370.

Lecture: 4 hours per week

Prerequisite: MATH-175 with a grade of C- or higher

MATH-335 **Linear Algebra**
3 Credits

This course includes the study of linear systems, matrices, determinants, vector spaces, linear transformations, eigenvalues, and diagonalization of matrices with applications.

Lecture: 3 hrs per week

Prerequisite: MATH-170 with a grade of C- or higher

MATH-370 **Introduction to Ordinary Differential Equations**
3 Credits

MATH-370 studies classification, initial value problems, exact equations, second order equations with constant coefficients, variation of parameters, Laplace transforms, series methods, and linear and non-linear systems of equations amid various applications.

Lecture: 3 hours per week

Prerequisite: MATH-275 with a grade of C- or higher

MEDICAL ASSISTANT

MAST-100 **Phlebotomy**
2 Credits

This course provides students with the knowledge and skills needed for specimen collection in healthcare facilities. The fundamentals of blood drawing and testing will be taught. Students will perform multiple venous and capillary blood withdrawal techniques. Students will be trained in blood testing that is commonly used in healthcare facilities. Phlebotomy and laboratory quality control measures will

be emphasized throughout this course. The use of aseptic technique and universal precaution procedures will be taught as a standard element of all procedures.

Lecture: 1 hour per week

Lab: 3 hours per weeks

MAST-101 **Clinical Skills for Medical Assistants I**
3 Credits

This course is an introduction to the clinical aspect of medical assisting. Students will become familiar with a physician's clinical office environment and use of equipment. Clinical procedures include vital signs, sterile surgical trays, sterilization techniques, and rooming of patients including a complete physical examination. Basic patient nutrition/wellness and how to handle medical office emergencies will be discussed. Written and verbal communication skills, charting methodologies, and patient education will be utilized. The use of aseptic technique and universal precaution procedures will be emphasized throughout the course.

Lecture: 1.5 hours per week

Lab: 4.5 hours per week

Prerequisite: ALTH-106 and BIOL-175

Corequisite: CAOT-179

MAST-111 **Administrative Skills for Medical Assistants I**
3 Credits

This course introduces students to the components of the administrative aspects of work in a physician's office, medical clinic, and other healthcare facilities. Students will learn the requirements to become a medical assistant and the role they perform as a member of the health care team. A variety of operational tasks such as telephone technique, reception duties, and managing patient appointments will be taught. Maintaining manual and electronic medical records will be performed. Written and verbal communication skills, charting methodologies, and patient education will be utilized.

Lecture: 2 hours per week

Lab: 3 hours per week

Prerequisite: ALTH-106 and BIOL-175

Corequisite: CAOT-179

MAST-115 **Diseases of the Human Body**
2 Credits

This course provides an introduction to diseases of the human body. Topics will include infectious diseases, congenital conditions, neoplasms, and diseases which are specific to body systems.

Lecture: 2 hours per week

Prerequisite: ALTH-106 and BIOL-175

Corequisite: CAOT-179

MAST-201 **Clinical Skills for Medical Assistants II**
3 Credits

This course builds on the knowledge acquired in MAST-101. Using body systems as a framework, students will learn specific health testing, procedures, and treatments utilized in physician's offices, outpatient facilities, and hospital settings. Students will learn the medical assistant's role in assisting with adult and child health and wellness/illness examinations. Training will include equipment maintenance, quality control and procedures used in testing, and treatments performed in outpatient facilities.

Lecture: 1.5 hours per week

Lab: 4.5 hours per week

Prerequisites: MAST-100, MAST-101, MAST-111, and MAST-115 with a grade of C or better.

MAST-205 Administration of Medications
3 Credits

This course provides the knowledge and skills necessary to safely administer medications in the ambulatory care setting. A review of the principles of pharmacology, standard math conversions, and calculation of medications will be provided. The use of aseptic technique and universal precautions procedures will be emphasized throughout the course. Students will be expected to demonstrate knowledge of HIPPA regulations, charting methodologies and patient education skills acquired in previous Medical Assistant courses.

Lecture: 2 hours per week

Lab: 3 hours per week

Prerequisites: MAST-100, MAST-101, MAST-111, and MAST-115 with a grade of C or better.

MAST-211 Administrative Skills II
3 Credits

This course builds on the foundational knowledge provided in MAST-111 and provides students with a more in-depth understanding of the administrative aspects of working in a medical office environment. Students will learn the medical assistant's role in medical records management using paper and electronic formats. The course provides an introduction to health insurance programs, health care billing systems, medical office bookkeeping systems, and banking services. Students will engage in job preparation activities such as job search, completing applications, creating a resume, and mock interviews.

Lecture: 2 hours per week

Lab: 3 hours per week

Prerequisites: MAST-100, MAST-101, MAST-111, and MAST-115 with a grade of C or better.

MAST-215 Medical Assistant Externship
6 Credits

This course is the last component of formal education and training. Clinical externship is a non-paid, supervised, 270 contact hour experience working in an ambulatory health care setting.

Lab: 18 hours per week

Prerequisite: MAST-100, MAST-101, MAST-111, MAST-115, MAST-201, MAST-205, MAST-211

MILITARY SCIENCE
MSA-101 Introduction to Military Science
1 Credit

This course is a basic introduction to military science. The course will introduce students to the mission and organization of the U.S. Army and provide background in role of an Army officer as a career choice in either the active Army or the National Guard/Reserves. Students will participate in lecture, conference, and activities dealing with military subjects and will have the option of participating in challenging outdoor activities such as whitewater rafting, mountaineering, rifle marksmanship, and rappelling. Texts and labs fees will be provided by the department. There is no mandatory uniform to wear. Students will also learn about available two- and three-year scholarships and other financial programs for which they may be eligible. Participation entails no military obligation.

Lecture: 1 hour per week

Corequisite: MSA-111

MSA-111 Leadership Lab
1 Credit

Students will build fundamental characteristics of leadership using a military model and hands-on training in small group leadership.

Lab: 2 hours every other week

Corequisite: MSA-101

MSA-102 Fundamentals of Leadership and Management
1 Credit

This course is a continuation of MSA-101. Students will develop a greater understanding of roles and responsibilities of Army officers. The course will consist of lecture, conference, and activities dealing with military subjects. Students will participate in challenging outdoor activities such as orienteering, mountaineering, and weapons qualification. Students will occasionally be required to wear a uniform. Texts, uniforms, and lab fees will be provided by the department. In this course there will be more focus on leadership development and the development of personal confidence. Participation entails no military obligation.

Lecture: 1 hour per week

Prerequisite: Complete MSA-101 with a minimum grade of C-.

Corequisite: MSA-112

MSA-112 Leadership Lab
1 Credit

Students will build fundamental characteristics of leadership using a military model and hands-on training in small group leadership.

Lab: 2 hours every other week

Corequisite: MSA-102

MSA-151 ROTC Physical Fitness
2 Credits

This course is designed to introduce students to a physical fitness program that is used by the U.S. Army. Students will learn how to instruct a physical training exercise and will be tested on their ability to complete a two-mile run, two minutes of push-ups, and two minutes of sit-ups. Grades will be given for participation not scores. This course is open to all students. This course fulfills one PE requirement for the A.A. and A.S. degrees.

Lab: 3 hours per week

MSA-152 Physical Fitness Training
2 Credits

Students will participate in physical fitness training focused on Army Standard for instruction and testing. Open to all NIC students. This course fulfills one PE requirement for the A.A. and A.S. degrees.

Lab: 3 hours per week

MSA-201 Applied Leadership and Management
2 Credits

MSA-201 is the first of two courses designed to teach applied leadership and management. This course focuses on the application of leadership and management skills to various situations. Emphasis is placed on enhancing leader and communication skills by using a variety of hands-on training. The labs provide practical field training in a variety of outdoor skills (rappelling, rafting, rifle marksmanship, and orienteering) geared toward the application of classroom studies.

Lecture/Lab: 2 hours per week

Prerequisite: MSA-102 with a minimum grade of C-

Corequisite: MSA-211

MSA-202 Applied Leadership and Management
2 Credits

MSA-202 is the second of two courses designed to teach applied leadership and management. This course focuses on the application of leadership and management skills to various case studies. Emphasis is placed on enhancing leader and communication skills by using a variety of hands-on training at the infantry squad level. The labs provide practical field training in a variety of outdoor skills (rappelling, rafting, rifle marksmanship, and orienteering) geared toward the application of classroom studies.

Lecture/Lab: 2 hours per week

Prerequisite: MSA-201 with a minimum grade of C-.

Corequisite: MSA-212

MSA-211 Leadership Lab
1 Credit

Students will build fundamental characteristics of leadership using a military model and hands-on training in small group leadership.

Lab: 2 hours every other week

Corequisite: MSA-201

MSA-212 Leadership Lab
1 Credit

Students will build fundamental characteristics of leadership using a military model and hands-on training in small group leadership.

Lab: 2 hours every other week

Corequisite: MSA-201

MSA-251 Physical Fitness Training
2 Credits

Students will participate in physical fitness training focused on Army Standard for instruction and testing. Open to all NIC students. This course fulfills one PE requirement for the A.A. and A.S. degrees.

Lab: 3 hours per week

Corequisite: MSA-201

MODERN LANGUAGES

One full year of high school study in a modern language is generally considered equivalent to one semester's work in college. To receive college credit for high school or independent work, a student must take an advanced placement examination in the target language and complete the next semester advanced level with a grade of "C" or better. Placement in and completion of the second elementary level (102) allows students to petition for credits for the 101 level; placement in and completion of the third semester level (201) allows students to petition for two elementary levels; and placement in and completion of the second semester level (202) allows students to petition for credits for the three semesters of the target language. While native speakers may take Modern Language courses at the 202 level, credit will not be offered to them at the 101, 102, or 201 levels.

ASL-101 Elementary American Sign Language I
5 Credits

This course is designed for students with no previous language study. It creates a visual-gestural environment to introduce to ASL grammar and vocabulary without presenting English equivalents. This course includes interactive activities, cultural awareness education, and individual feedback. Emphasis is on appropriate language use in common communication settings. ASL-101 will prepare students for ASL-102.

Lecture: 5 hours per week

ASL-102 Elementary American Sign Language II
5 Credits

American Sign Language II is designed for students continuing from ASL-101. It creates a visual-gestural environment to introduce to ASL grammar and vocabulary without presenting English equivalents. This course includes interactive activities, cultural awareness education, and individual feedback. Emphasis is on appropriate language use in common communication settings. ASL-102 will prepare students for intermediate ASL classes at other colleges/universities to satisfy cultural diversity and/or foreign language requirements (depending on the institution).

Lecture: 5 hours per week

Prerequisite: ASL-101

ASL-201 Intermediate American Sign Language I
4 Credits

This course is designed for students continuing from ASL-102. It continues the learning process in visual-gestural environment and enforces linguistic/grammatical principles in the use of the target language. The English Glossing and Transcription systems will be introduced to help accelerate vocabulary acquisition. This course includes interactive activities, cultural awareness education, and individual feedback. Emphasis is on appropriate language use in common and uncommon communication settings. This course fulfills the Cultural Diversity requirement for the A.A. degree and fulfills the arts and humanities requirement for the A.S. degree.

Lecture: 4 hours per week

Prerequisite: ASL-102

ASL-202 Intermediate American Sign Language II
4 Credits

ASL-202 is a continuation of ASL-201. This course has the same degree applications as ASL-201.

Lecture: 4 hours per week

Prerequisite: ASL-201

CDA-101 Elementary Coeur d'Alene Language I
5 Credits

CDA-101 is an introduction to an American Indian language designed for students with no previous foreign language study. The course will include specialized methods of working with an unwritten language and emphasize pronunciation, beginning grammar, vocabulary-building, and an introduction to Coeur d'Alene Tribal culture. Successful completion of CDA-101 and CDA-102 allows entry into the intermediate level course that satisfies the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirement for the A.S. degree.

Lecture: 5 hours per week

CDA-102 Elementary Coeur d'Alene Language II
5 Credits

CDA-102 is the second semester of an introduction to the native language of the Coeur d'Alene Tribe. It completes the outline of the major grammatical systems of the language. The skills acquired in CDA-101 and CDA-102 will prepare students for the intermediate level course that satisfies the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirement for the A.S. degree.

Lecture: 5 hours per week

Prerequisite: CDA-101

CDA-201 Intermediate Coeur d'Alene Language
4 Credits

CDA-201 provides training in conversational proficiency in an American Indian language. It features detailed discussion of grammar knowledge gained in CDA-101 and CDA-102 and insights into Coeur d'Alene culture revealed in the traditional oral literature. This course satisfies four credits of the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirement for the A.S. degree.

Lecture: 4 hours per week

Prerequisite: CDA-102

FLAN-106 Collaborative Cultural Exchange Program
1-2 Credits

This course is designed to match non-native speakers of English with American, or other native English students, to the mutual benefit of both. They will study and converse with one another in a structured and monitored situation, working on projects in established courses and in short-term EFL programs. The course may be repeated for a total of three credits.

Interactive Conversation Class: 2-4 hours per week, depending on credits

FLAN-207 Contemporary World Cultures
3 Credits

Foreign Language 207 examines a single national culture in terms of its historical background and expression in contemporary life, language, institutions, literature, art, music, and lifestyles. This course provides a basis for comparative cultural studies for students interested in multicultural or international scholarship. It meets the cultural diversity requirement for the A.A. degree and satisfies an arts and humanities requirement for the A.S. degree. The national culture selected for study may change each semester, allowing students to repeat the course for elective credit.

Lecture: 3 hours per week

FREN-101 Elementary French I
5 Credits

Elementary French I is designed for students with no previous language study. This course provides training in the acquisition and application of basic language skills and culture. Successful completion of FREN-101 and FREN-102 allows entry into the intermediate level courses that satisfy the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree.

Lecture: 5 hours per week

FREN-102 Elementary French II
5 Credits

This course is the second semester of Elementary French and continues the acquisition and application of basic language skills and culture. Successful completion of this course gives students the required skills to take the intermediate level courses which satisfy the cultural diversity requirement of the A.A. degree or one of the arts and humanities requirements for the A.S. degree.

Lecture: 5 hours per week

Prerequisite: FREN-101 or appropriate language placement test score

FREN-104 Open Door to French I
2 Credits

This course emphasizes conversation skills, contemporary language, and culture. The content is designed to meet the professional or

leisure linguistic needs of the community.

Lecture: 2 hours per week

FREN-105 Open Door to French II
2 Credits

FREN-105 is a continuation of FREN-104. This course is designed to meet the linguistic needs of the community.

Lecture: 2 hours per week

Prerequisite: FREN-104

FREN-201 Intermediate French I
4 Credits

Intermediate French provides training in the acquisition and application of basic language skills and culture. It satisfies four credits of the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree.

Lecture: 4 hours per week

Prerequisite: FREN-102 or appropriate language placement test score

FREN-202 Intermediate French II
4 Credits

The second semester of Intermediate French provides additional training in the acquisition and application of basic language skills and culture. Intermediate French II satisfies four credits of the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree.

Lecture: 4 hours per week

Prerequisite: FREN-201 or appropriate language placement test score

GERM-101 Elementary German I
5 Credits

This course concentrates on the study and application of vocabulary and pronunciation at an introductory level. Students will develop proficiencies in speaking, reading, listening, and writing while enhancing their understanding of the language, culture, and geography of German-speaking countries.

Lecture: 5 hours per week

GERM-102 Elementary German II
5 Credits

This course is a continuation of GERM-101, stressing the further expansion of basic fluency in German.

Lecture: 5 hours per week

Prerequisite: GERM-101 or appropriate language placement test score

GERM-201 Intermediate German I
4 Credits

Intermediate German provides additional development in the language with an emphasis on conversation, reading, grammar, and composition. Varied aspects of the current cultural climate of Germany are woven into the course, so students increase proficiency of their language skills. This course meets the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. **Lecture:** 4 hours per week

Prerequisite: GERM-102 or appropriate language placement test score

GERM-202 Intermediate German II
4 Credits

This course is a continuation of GERM-201 and meets the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree.

Lecture: 4 hours per week

Prerequisite: GERM-201 or appropriate language placement test score

ITAL-101
5 Credits
Beginning Italian I

This course includes the study of vocabulary, grammar, and pronunciation. It emphasizes the development of proficiencies in speaking, reading, listening, and writing. Students will enhance their understanding of the Italian language and culture, as well as the physical and political geography of Italy. Outside listening comprehension is a part of the course.

Lecture: 5 hours per week

ITAL-102
5 Credits
Beginning Italian II

This course is a continuation of ITAL-101, emphasizing further development of basic language fluency. Students will enhance their understanding of the Italian language and culture, as well as the physical and political geography of Italy. Outside listening comprehension is a part of the course.

Lecture: 5 hours per week

Prerequisite: ITAL-101 or appropriate language placement test score

SPAN-101
5 Credits
Elementary Spanish I

This course includes the study of vocabulary, grammar, and pronunciation. It emphasizes the development of proficiencies in speaking, reading, listening, and writing and a better understanding of the language, culture, and geography of the Hispanic world. A lab is included in the course.

Lecture: 5 hours per week

SPAN-102
5 Credits
Elementary Spanish II

This course is a continuation of SPAN-101, emphasizing further development of basic language fluency. A laboratory is included in the course.

Lecture: 5 hours per week

Prerequisite: SPAN-101 or appropriate language placement test score

SPAN-104
3 Credits
Spanish for the Professions

This course is a three semester-hour class focused on the needs of those who are, or will be, working in the community in occupations where a basic knowledge of the Spanish language and culture is needed. The course is not designed as an alternative to the traditional Spanish 101, 102, 201, 202 sequences, but will focus on the special vocabulary, basic grammatical structures, and cultural insights needed to effectively serve the Spanish-speaking community. Special emphasis is placed on oral proficiency as it relates to various real-world applications corresponding to the profession selected for the particular course. Each semester a specific profession is chosen for emphasis on a rotational basis. The one-semester courses include Spanish for Medical Personnel, Spanish for Law Enforcement, and Spanish for Social Services. This course counts as a non-core elective for students working toward their degrees at NIC. No prior knowledge of Spanish is necessary.

Lecture: 3 hours per week

SPAN-184
2 Credits
Open Door to Spanish I

This introductory course is designed for students who wish to learn elementary communication skills in Spanish. Subjects discussed include traveling, food, lodging, and shopping. Students will gain practical conversation skills and become familiar with cultural differences likely to be encountered in the Hispanic world.

Lecture: 2 hours per week

SPAN-185
2 Credits
Open Door to Spanish II

SPAN-185 is a continuation of SPAN-184. Prior completion of SPAN-184 with a grade of C- or better is required.

Lecture: 2 hours per week

Prerequisite: SPAN-184

SPAN-201
4 Credits
Intermediate Spanish I

This course further develops Spanish fluency with emphasis on conversation, reading, grammar, and composition. The culture and literature of Spain and Latin America are included. This course provides a continuation and refinement of language skills and greater depth in the study of cultural aspects. It meets the cultural diversity requirement for the A.A. degree or one of the arts and humanities requirements for the A.S. degree. Laboratory work is included.

Lecture: 4 hours per week

Prerequisite: SPAN-102 or appropriate language placement test score

SPAN-202
4 Credits
Intermediate Spanish II

Spanish 202 is a continuation of SPAN-201. This course has the same degree applications as SPAN-201. Laboratory work is included.

Lecture: 4 hours per week

Prerequisite: SPAN-201 or appropriate language placement test score

SPAN-205
3 Credits
Intermediate Spanish Conversation

This course is for students who wish to further their conversational skills in Spanish at the intermediate level. The emphasis is on the development of oral and written discourse skills, and on the acquisition of cultural and linguistic knowledge related to specific Spanish-speaking countries. This course is conducted entirely in Spanish.

Lecture: 3 hours per week

Prerequisite or Corequisite: SPAN-202

MUSIC
MUS-101
3 Credits
Survey of Music

Survey of Music is an introduction for students (majors and non-majors) to musical styles of our civilization. The study will include music of different periods and its cultural context, including a study of the American culture and the present musical scene. This course is designed to enhance students' musical appreciation through an increase in musical knowledge. It fulfills an arts and humanities requirement for either the A.A. or A.S. degree.

Lecture: 3 hours per week

MUS-103
1 Credit
North Idaho College Cardinal Chorale

Concert Choir is North Idaho College's large vocal ensemble organized to perform standard and mixed choir arrangements. This course may be taken as an ensemble elective for music majors and it may be repeated for credit. Credit may be transferrable. Choir membership is open to college students and area residents.

MUS-104
1 Credit
Vocal Jazz Ensemble

The North Idaho College Vocal Jazz Ensemble is a small group that

performs studio quality popular and swing jazz music. It provides a choral learning atmosphere with an emphasis on small group dynamics, solo performance, and an aggressive singing style. This course is for students interested in an intense study of the vocal jazz form. It may be repeated for credit.

Prerequisite: Audition and permission of instructor

MUS-106 North Idaho College Wind Symphony 1 Credit

The North Idaho College Wind Symphony is an instrumental ensemble designed to perform traditional and contemporary concert band literature. Band membership is open to college students and area residents. This course provides students and area residents a chance to enhance their music appreciation through musical performance. It may be repeated for credit.

MUS-107 Cardinal Pep Band 1 Credit

The Cardinal Pep Band is an instrumental ensemble designed to perform at athletic events and other school events. It may be repeated for credit.

Lecture: 2 hours per week

Prerequisite: Audition and permission of instructor

MUS-110 Vocal Ensemble 1 Credit

This course introduces students to literature for the particular type of ensemble and includes involvement in regular public performances with other small ensembles. It is designed to provide a variety of vocal experiences for the student: male quartet, mixed quartet, female trio, duets, musical theater, etc. Ensemble membership is open to college students and area residents. This course may be repeated for credit.

Prerequisite: Audition and permission of instructor

MUS-111 Instrumental Ensemble 1 Credit

Instrumental ensembles are small groups of brass, woodwind, string, percussion, pit orchestra, or mixed instruments organized to perform a standard chamber music repertoire. Credit may be transferable and can be repeated for credit. Ensemble membership is open to college students and area residents.

Prerequisite: Audition and permission of instructor

MUS-112 Introduction to Voice 1 Credit

This introductory level course is designed to provide group instruction in the basic techniques of vocal performance. This course will emphasize reading musical notation and vocal production. Students enrolling need no prior musical background. This course may be repeated for credit.

MUS-113 North Idaho Jazz Ensemble 1 Credit

North Idaho Jazz Ensemble is a group designed to perform jazz literature in all 20th century styles. Ensemble membership is open to college students and area residents. This course provides students and area residents a vehicle for jazz appreciation through performance. It may be repeated for credit.

Prerequisite: Audition and permission of instructor

MUS-114 Individual Instruction 2 Credits

MUS-114 provides individual instruction for non-majors in voice and on piano, guitar, and all orchestra and band instruments. Indi-

vidual instruction in an area of choice can assist students of all levels to improve their performance abilities. Special fees apply. Two credits requires one half-hour lesson per week. This course requires public performance and may be repeated for credit.

Lecture/Lab: One half-hour session per week

MUS-117 Music Convocation 0 Credit

Concert attendance is required for all music majors. Attendance at six concerts is required each semester.

MUS-120 Fundamentals of Music 3 Credits

MUS-120 is an introduction to the basic materials of music. Areas explored are acoustics, rhythmic and melodic notation of music, scales, keys, and basic harmony. Fundamentals of Music is for the novice or experienced musician who wants to develop or refresh music reading skills.

Lecture: 3 hours per week

MUS-124 Individual Instruction 2 or 4 Credits

MUS-124 provides instruction in voice and on piano, guitar, and all band and orchestra instruments. This course is designed for music majors and requires prior musical experience. Individual instruction in an area of choice can assist students of all levels to improve their performance skills. A jury examination is required. Special fees apply. It may be repeated for credit. The number of credits must be approved by the instructor.

Lecture/Lab: One half-hour lesson per week for 2 credits; one one-hour lesson per week for 4 credits.

Prerequisite: MUS-114 or permission of instructor

MUS-127 Survey of American Popular Music Since 1900 3 Credits

MUS-127 is an introduction for students (majors and non-majors) to the various styles of American popular music—its roots and development. Music will be presented with regard to its historical and social implications. Study includes Dixieland, swing, bebop, fusion, musical theatre, country western, and all types of rock 'n' roll. This course is designed to enhance musical appreciation through an increase in musical knowledge. It fulfills an arts and humanities requirement for the A.S. degree and a cultural diversity requirement for the A.A. degree.

Lecture: 3 hours per week

MUS-130 Introduction to Piano 1 Credit

This introductory level course is designed to provide group instruction at the piano keyboard. The emphasis of this course is on reading music and playing melody with simple chord accompaniment. Students enrolling need no prior musical background. This course may be repeated for credit.

MUS-140 Introduction to Music Literature 3 Credits

MUS-140 is an introduction to the art and nature of music with an emphasis on aural skills, historical styles, musical forms, and the literature of music. It is designed for freshman music majors and other students interested in humanities-oriented subject matter. This course fulfills an arts and humanities requirement for the A.A. and A.S. degrees.

Lecture: 3 hours per week

MUS-141 **Harmony and Theory I**
3 Credits

MUS 141 is the study and application of the basic materials of music in four-part harmony. Emphasis is placed upon a thorough knowledge of the fundamentals of music, development of composition skills, and beginning analysis skills. It deals with harmonic practice from the year 1600 on. This course fulfills a theory requirement for music majors.

Lecture: 3 hours per week

Corequisite: MUS-141L

MUS-141L **Harmony and Theory I Laboratory**
1 Credit

This laboratory assists students in the development of aural skills such as sight-singing, rhythmic, melodic, and simple harmonic music dictation, and recognition. Emphasis is on materials covered in MUS-141. This course fulfills a theory requirement for music majors and expands upon musical understanding developed in MUS-141.

Lecture: 2 hours per week

Corequisite: MUS-141

MUS-142 **Harmony and Theory II**
3 Credits

This course is a continuation of MUS-141, emphasizing expanded use of harmonies in writing and analysis. It fulfills a theory requirement for music majors.

Lecture: 3 hours per week

Corequisite: MUS-142L

Prerequisite: MUS-141

MUS-142L **Harmony and Theory II Laboratory**
1 Credit

This laboratory is a continuation of MUS-141L. It fulfills a theory requirement for music majors.

Lecture: 2 hours per week

Corequisite: MUS-142

Prerequisite: MUS-141L

MUS-145 **Piano Class I**
1 Credit

This is the first in a four-semester sequence designed for music majors and minors preparing for a keyboard competency exam. Emphasis is on developing basic piano technique, music-reading skills, and reinforcement of music theory fundamentals. Music selections range from classic to contemporary. A minimum grade of C- is required to advance to MUS-146. This class may be repeated for a maximum of 2 credits.

Lecture: 2 hours per week

Prerequisite or Corequisite: MUS-141 or permission of instructor

MUS-146 **Piano Class II**
1 Credit

This class is a continuation of MUS-145 and prepares music majors and minors preparing for a keyboard competency exam. Technique, sight reading, harmonization, transposition, improvisation, and piano literature are areas of emphasis. A minimum grade of C- is required to advance to MUS-245. This class may be repeated for a maximum of 2 credits.

Lecture: 2 hours per week

Prerequisite: MUS-145 or permission of instructor

MUS-163 **Survey of World Music**
3 Credits

This course explores musical cultures throughout the world, including but not limited to Africa, the Americas, Asia, Near East, Europe, and South Pacific. The course is designed to enhance the student's appreciation for the diversity of music throughout the world as well as the people that perform it. Students gain an understanding of features in the music that distinguish one style from another and the cultural and social-historical factors that shape the development of music. Lectures, films, recordings, and live presentations assist students in their understanding of topics. Though a knowledge of music is helpful, a music background is not required. It partially fulfills the arts and humanities requirement for the A.S. degree and the cultural diversity requirement for the A.A. degree.

Lecture: 3 hours per week

MUS-215 **Computer Music Notation**
1 Credit

This course is an introduction to the use of Finale software (on Macintosh computers) for use of music printing and playback. The course provides musicians training in current technological advances important to the field of music.

MUS-216 **Advanced Computer Music Notation**
1 Credit

This is a continuation of MUS-215 with an emphasis on mastery of advanced computer editing skills using Finale software.

Prerequisite: MUS-215

MUS 241 **Harmony and Theory III**
3 Credits

This course is a continuation of MUS-142 with an emphasis on writing and analysis of music through the Romantic era. It fulfills a theory requirement for music majors.

Lecture: 3 hours per week

Corequisite: MUS-241L

Prerequisite: MUS-142

MUS-241L **Harmony and Theory III Laboratory**
1 Credit

This laboratory is a continuation of MUS 142L. It fulfills a theory requirement for music majors.

Lecture: 2 hours per week

Corequisite: MUS-241

Prerequisite: MUS-142L

MUS-242 **Harmony and Theory IV**
3 Credits

This course is a continuation of MUS 241 with emphasis on writing and analysis of music in the 20th century. It fulfills a theory requirement for music majors.

Lecture: 3 hours per week

Corequisite: MUS-242L

Prerequisite: MUS-241

MUS-242L **Harmony and Theory IV Laboratory**
1 Credit

This laboratory is a continuation of MUS-241L. It fulfills a theory requirement for music majors.

Lecture: 2 hours per week

Corequisite: MUS-242

Prerequisite: MUS-241L

MUS-245
1 Credit
Piano Class III

MUS-245 is a continuation of MUS-146 and prepares music majors and minors preparing for a keyboard competency exam. Further development of technique, sight reading, harmonization, improvisation, and repertoire with addition of score reading is emphasized. A minimum grade of C- is required to advance to MUS-246. This class may be repeated for a maximum of 2 credits.

Lecture: 2 hours per week

Prerequisite: MUS-146 or permission of instructor

MUS-246
1 Credit
Piano Class IV

This course is a continuation of MUS-245 and prepares music majors and minors preparing for a keyboard competency exam. Emphasis will be on reviewing previously acquired phases in technique, sight reading, harmonization, transposition, improvisation, and score reading. More complex harmonies will be introduced. The piano repertoire is at an intermediate level. A minimum grade of C- is required to complete pretesting requirements. This class may be repeated for a maximum of 2 credits.

Lecture: 2 hours per week

Prerequisite: MUS-245 or permission of instructor

NURSING: PRACTICAL NURSING

NOTE: Course enrollment requires prior acceptance into the Practical Nursing program.

PN-106
6 Credits
Practical Nursing Theory I

This course includes an introduction to the fundamentals of nursing and therapeutic skills. A lifespan approach will be used to assist students in the theory of oxygenation, circulation, nutritional, fluid, elimination, activity, and safety needs of patients of all ages. Growth and development and an introduction to pediatric and geriatric care will be included.

Prerequisite: Acceptance into the Practical Nursing program

PN-106L
6 Credits
Practical Nursing Laboratory I

This course involves supervised practice in providing patient care utilizing the campus laboratory for skills practice and clinical settings such as nursing homes, the hospital, and day care centers for actual practice. It comprises a progression of nursing skills.

Prerequisite: Acceptance into the Practical Nursing program

PN-107
8 Credits
Practical Nursing Theory II

PN-107 explores nursing responsibilities in more complex diseases of major body systems. Medical-surgical nursing, pediatrics, maternity nursing, and psychiatric nursing are included.

Prerequisite: ALTH-107, BIOL-175, PN-106, PN-106L

PN-107L
6 Credits
Practical Nursing Laboratory II

PN-107L correlates PN-107 theory with practice in clinical settings. Students rotate through medical-surgical, maternity and pediatric units, operating room, recovery room, short stay unit, minor care, EKG, respiratory therapy, and Central Services. Clinical experience in physicians' offices is included.

Prerequisite: ALTH-107, BIOL-175, PN-106, PN-106L

PN-108
3 Credits
Practical Nursing Theory III

PN 108 covers oncology, death and dying, emergency nursing and will introduce advanced concepts of geriatric care. An opportunity for review of all previous nursing theory will be provided.

Prerequisite: PN-107, PN-107L

PN-108L
5 Credits
Practical Nursing Laboratory III

Supervised clinical experience takes place in various health care settings including acute care hospitals, nursing homes, and physicians' offices. Students complete a clinical preceptorship in a chosen field of interest.

Prerequisite: PN-107 and PN-107L

PN-205
1 Credit
Intravenous Therapy for LPNs-Part I

This course provides theory and hands-on instruction in skills relating to the LPN's role in IV therapy. It will include the essential responsibilities in IV therapy and the initiation and maintenance of IV infusion. The course meets the requirements for Part I of the Rules and Regulations of the Board of Nursing for LPNs who wish to perform functions related to IV therapy.

PN-210
2 Credits
Intravenous Therapy for LPNs-Part II

This course provides theory and hands-on instruction in all skills relating to the LPN's role in IV therapy. It will include the essential responsibilities in IV therapy, initiation, and maintenance of IV infusions, and monitoring and maintenance of central venous lines. The course meets the requirements of the Rules and Regulations of the Board of Nursing for LPNs who wish to perform functions related to IV therapy.

PN-215
3 Credits
Nursing Management for LPNs

This course provides theory and hands-on instruction in all skills relating to the LPN's role in nursing management. The course is designed to prepare the LPN to function in the role of charge nurse in long-term care facilities according to federal and state regulations. It gives the LPN the means to perfect management skills and assess them on a continuing basis.

NURSING: REGISTERED NURSING

NOTE: Enrollment requires prior acceptance into the program.

NURS-190
8 Credits
Nursing Practice I

NURS-190 provides the foundation for nursing practice and caring relationships. The course focuses on the whole person from birth through the lifespan. The course is directed toward the student's acquiring knowledge, increasing personal and professional understanding, and developing intellectual, interpersonal, and psychomotor nursing skills to assist the person in optimizing health. Learning experiences in health care agencies and community settings provide opportunities for students to apply course content utilizing therapeutic nursing interventions to assist individuals and families in meeting their needs as they adapt to lifespan stressors and environmental stressors.

Lecture: 4 hours per week

Lab: 12 hours per week

Prerequisite: BIOL-227, BIOL-228, ENGL 101

NURS-195
8 Credits**Nursing Practice II**

NURS-195 focuses on the medical-surgical management of pathological processes common through the lifespan, effects on person/family, and implications for nursing care. The course emphasizes the application of the nursing process, caring relationships, and other therapeutic nursing interventions to assist the person in adaptation. Learning experiences in health care settings provide students with opportunities to develop skills in implementation of the nursing process, application of communication abilities, caring behaviors, and utilization of therapeutic nursing interventions.

Lecture: 4 hours per week

Lab: 12 hours per week

Prerequisite: NURS-190, BIOL-250, PSYC-101, COMM-101

NURS-196
4 Credits**LPN Transition**

This eight-week course is intended for students who are Licensed Practical Nurses and are seeking advanced placement in the Associate Degree Nursing Program at North Idaho College. The course consists of 30 hours of lecture and includes both classroom and online components. The course is designed to provide content from the first year nursing courses that is not typically covered in LPN programs. The course content includes legal/ethical issues, teaching/learning principles, therapeutic communication, group and nursing process, and dosage calculations. The 90-hour clinical component is designed to transition the LPN to the RN student role, as well as introduce the student to the ADN Program requirements.

Lecture: 3.75 hours per week for 8 weeks

Lab: 11.25 hours per week for 8 weeks

NURS-198
1 Credit**Nursing Practice Clinical Practicum**

This course is an elective for students enrolled in the Associate Degree Nursing program. It provides students with opportunities to apply the theory and skills from preceding nursing courses in clinical nursing practice. Patient care experience in an acute care health setting allows students to further develop skills in critical thinking and application of the nursing process, effective communication with patients, family and other health care providers, and implementing therapeutic nursing interventions. This course may be repeated twice for credit.

Lab: 45 hours per two-week block

Prerequisite: NURS-190, NURS-195

NURS-290
8 Credits**Nursing Practice III**

Nursing Practice III focuses on providing nursing care for persons and families experiencing acute or chronic illness. The course also focuses on providing care for persons and families with mental health disorders. Emphasis is placed on utilizing knowledge of the altered physiology/pathology, treatment modalities, critical thinking, and therapeutic nursing interventions to optimize health. Learning experiences in health care settings provide students with opportunities to further develop nursing competencies while collaborating with others in caring for multiple clients.

Lecture: 4 hours per week

Lab: 12 hours per week

Prerequisite: NURS-195, ENGL-102, SOC-101, and a MATH course that meets the A.S. degree requirements.

NURS-295
9 Credits**Nursing Practice IV**

Nursing Practice IV focuses on providing nursing care at any of the

six levels of health care: preventative, primary, secondary, tertiary, restorative, and continuing care. The course also focuses on providing nursing care for persons and families experiencing pregnancy and childbirth. The course emphasizes the development of critical thinking and the development of competencies required to provide care for individuals, families, and groups of patients in a variety of health care settings. Learning experiences take place in acute care and long term care facilities, and community health care settings. The hallmark of this course is the precepting experience which provides the student opportunities to develop competencies in providing care, clinical decision making, collaborating with other health care providers, and professional development.

Lecture: 4 hours per week

Lab: 15 hours per week

Prerequisite: NURS-290

**OUTDOOR POWER/
RECREATIONAL VEHICLE TECHNOLOGY****OPRV-105**
2 Credits**Orientation/Safety/Shop Practices**

This course introduces students to on-campus services including the library and College Skills Center. It includes instruction about the industry including wages, job opportunities, and the nature of the work. Instruction will be provided on a variety of general shop practices, procedures, shop safety, and proper equipment usage.

OPRV-110
5 Credits**2- and 4-Cycle Gas Engines**

This course teaches students how to identify, repair, rebuild, and/or replace small engines used in outdoor power equipment. Students will learn two-stroke and four-stroke combustion engine theory as well as engine performance criteria. They will gain understanding in the operation and basic principles of the various components and their respective systems related to small engines.

OPRV-110L
2 Credits**2- and 4-Cycle Gas Engines Lab**

Students will receive hands-on experience using hand and power tools in performing repairs and maintenance on a variety of 2- and 4-cycle gas engines and related components common to outdoor power equipment. Emphasis will be placed on industry accepted practices and techniques as well as shop safety.

OPRV-120
5 Credits**Power Equipment Service and Repair**

This course includes the study of hydraulic system principles and operation, transmission and final drive theory of operation, and advanced electrical system concepts. Students will learn proper disassembly, measuring, reassembly and troubleshooting procedures. They will gain an understanding of the operation and basic principles of the various components and their respective systems related to outdoor power equipment.

OPRV-120L
2 Credits**Power Equipment Service
and Repair Lab**

Students will receive hands-on experience using hand and power tools in performing repairs and maintenance on outdoor power equipment. Instruction will utilize group and individual class projects including a variety of mock-ups, training aids, components, and limited live customer work.

OPRV-130 ATV and Snowmobile Systems
5 Credits

This course will teach students fundamental principles of operation, troubleshooting techniques, and repair procedures for all-terrain vehicles and snowmobile equipment. Students will learn the basics of how to identify, repair, rebuild, and/or replace components and systems.

OPRV-130L ATV and Snowmobile Systems Lab
2 Credits

Students will receive hands-on experience using hand and power tools in performing repairs and maintenance on various types of ATVs and snowmobiles. Instruction will utilize group and individual class projects including a variety of mock-ups, training aids, components, and limited live customer work.

OPRV-140 Motorcycle Systems
5 Credits

This course will teach students the theory and principles of operation for various motorcycle systems. Students will be introduced to concepts related to engines, powertrains, chassis, suspension, electrical, warranty, pre-delivery, service and repair procedures, and performance characteristics.

OPRV-140L Motorcycle Systems Lab
2 Credits

Students will receive hands-on experience using hand tools, power tools, and related shop equipment in performing troubleshooting, repairs and maintenance on various types of motorcycles. Instruction will utilize group and individual class projects including a variety of mock-ups, training aids, components, and limited live customer work.

OPRV-150 Advanced Service Procedures
2 Credits

This course introduces students to advanced principles and concepts related to motorcycles, ATVs, and snowmobiles. Students will learn performance tuning and set-up procedures for various vehicle systems as well as racing and aftermarket applications.

OPRV-150L Advanced Service Procedures Lab
2 Credits

This course introduces students to advanced performance applications as related to motorcycles, ATVs, and snowmobiles. In addition, students will have the opportunity to specialize in particular areas of interest related to occupational opportunities and learn various procedures related to those areas.

PARALEGAL

PLEG-101 Introduction to Law and Legal Practice
2 Credits

This course is an introduction to the American and Idaho legal institutions and processes. It examines the sources of law, the relationships between the federal and state court systems, legal reasoning, ethical standards, and the role of the paralegal. This course is a required course in the Paralegal and Legal Administrative Assistant programs.

Lecture: 2 hours per week

PLEG-103 Criminal Procedures
2 Credits

This course will introduce students to the process by which the criminally accused is dealt with by the State. The fundamental rights of citizens will be examined in detail, including freedom from unreasonable search and seizures, the right to counsel, and due process. This course is a required course in the Paralegal program.

Lecture: 2 hours per week

PLEG-105 Civil Procedures
3 Credits

Civil procedures is a course designed to teach students the steps necessary to institute and advance a civil lawsuit from the initial client interview through trial. Emphasis is placed on drafting documents instrumental in a civil lawsuit as well as understanding the process. This is a required course in the Paralegal and Legal Administrative Assistant programs.

Lecture: 3 hours per week

PLEG-125 Contracts
3 Credits

This course is a study of contract law as found in the Common Law and Article Two of the Uniform Commercial Code. This is a required course in the Paralegal program.

Lecture: 3 hours per week

Prerequisite: PLEG-101

PLEG-135 Torts
3 Credits

This course examines the principles of civil wrongs and liabilities (torts) including causes of action from negligence, industrial injuries, and professional malpractice. The course addresses fault and without-fault actions, strict liability, and intentional torts. Defenses and damages are also explored. This is a required course in the Paralegal program.

Lecture: 3 hours per week

Prerequisites: PLEG-101

PLEG-201 Legal Ethics
1 Credit

This course is a survey of ethics as applied to the legal profession. The Code of Professional Responsibility and the Code of Judicial Ethics are used to examine the boundaries of authorized practice, confidentiality, and delegation of authority. This is a required course in the Paralegal program.

Lecture: 1 hour per week

PLEG-205 Law Office Management
1 Credit

This course is an overview of procedures for managing a law office. Emphasis is placed on various structures and their organization, legal fees, timekeeping, billing, and docket control systems. Specific management topics include financial, records, file, and library management. This is a required course in the Paralegal program.

Lecture: 1 hour per week

PLEG-210 Legal Research and Writing
4 Credits

This course is an introduction to legal resource materials and methodology. Research skills are developed through law library research and drafting assignments. Emphasis is placed on the use of the legal database and on effective communication of research results through

on recordkeeping and medical ethics to better fulfill the technical needs of the students and bring the program in line with national standards.

PHAR-151 **Introduction to Pharmacology**
2 Credits

This course is designed to provide an overview of pharmacologic principles with an emphasis on therapeutic drug classifications. For each therapeutic drug classification, basic mechanism of drug actions, side effects, routes of administration, and common indications will be reviewed. Students will become familiar with common abbreviations and vocabulary terms related to drug therapy. Additionally, the course will prepare students to recognize the top 200 drugs (generic and brand name).

PHAR-152 **Advanced Pharmacology**
3 Credits

PHAR-152 is designed to teach students how to categorize commonly prescribed/dispensed oral and injectable drugs into their therapeutic drug classifications. Emphasis will be on the top 200 prescription drugs and top 100 injectable drugs prescribed in the U.S. For each top 200 drug, the student will distinguish between generic and brand name, recognize common indications and identify available dosage forms, strengths, routes of administration, common dosing regimens, contraindications, side effect profiles, and significant drug interactions. As the therapeutic drug classifications are studied, human medical conditions (as related to anatomy and physiology) will be reviewed.

Prerequisite: PHAR-151

PHAR-171 **Applied Pharmacy Tech I**
3 Credits

This course is designed to provide students with the background information and knowledge about pharmacy practice in a variety of settings including ambulatory, home care, and institutional pharmacy. Overviews of prescription processing and filling in both ambulatory and institutional settings will be covered. Students will develop entry skills for prescription interpretation and processing by completing both paper and electronic assignments. In addition to prescription processing, other topics that will be covered include the following: role of the pharmacist and the technician, dosage forms, routes of administration, drug/medical abbreviations, insurance billing, drug information, medication errors, purchasing and inventory control, computer technology, professionalism, and customer service. The knowledge base and skills developed in this course will focus toward preparing students for their first practicum experience during Spring Semester.

Prerequisite: Acceptance into the Pharmacy Technology program.

PHAR-172 **Applied Pharmacy Tech II**
2 Credits

PHAR-172 continues to provide students with the knowledge and skills necessary for competent performance of technical pharmacy tasks in institutional and ambulatory settings. Institutional pharmacy will be emphasized, especially sterile products preparation, pharmacy calculations, and unit dose drug distribution systems. Emphasis will also be on gaining competency (speed and accuracy) in filling ambulatory prescriptions. Extemporaneous compounding will be introduced with students completing basic compounding recipes. Students will develop skills by completing laboratory exercises.

Prerequisite: PHAR-171, MATH-102

PHAR-175 **Pharmacy Technician
Certification Exam Preparation**
1 Credit

This course is designed to prepare students for the National Pharmacy Technician Certification Exam. The course covers the major areas of focus for the national exam: assisting the pharmacist in serving patients, maintaining medication and inventory control systems, and participating in the administration and management of pharmacy practice. The course will also cover test taking techniques and strategies for success on the national exam.

Lecture: 1 hour per week

PHAR-180 **Pharmacy Technology
Practicum and Seminar I**
4 Credits

This is a supervised pharmacy technician practice in a retail or institutional setting. Instruction and guidance are provided by the staff of participating pharmacies. Emphasis is on application of classroom content in the pharmacy setting.

Prerequisite: PHAR-151 and PHAR-171

PHAR-185 **Pharmacy Technology
Practicum and Seminar II**
4 Credits

This is a supervised pharmacy technician practice in a retail or institutional setting. Instruction and guidance are provided by the staff of participating pharmacies. Emphasis is on application of classroom content in the pharmacy setting.

Prerequisites: PHAR-152, PHAR-172, PHAR-180

PHILOSOPHY

PHIL-101 **Introduction to Philosophy**
3 Credits

This course is the discovery and exploration of major intellectual problems of humankind through methods of questioning, analysis, synthesis, and critique. It emphasizes developing a world view and higher-order reasoning skills through consideration of such issues as the nature of time and physical reality, mind and consciousness, free will, evil, truth, ethics, and the nature and existence of God. This course is for students interested in the meaning of life and the implications of modern science for understanding our world. It fulfills an arts and humanities requirement for the A.S. and A.A. degrees.

Lecture: 3 hours each week

Recommended: ENGL-101

PHIL-103 **Ethics**
3 Credits

Ethics is the investigation and discussion of personal, social, and professional moral issues and the principles and thinking skills used for their resolution. Emphasis is on the development and application of reasoning skills for decision making in the moral domain. This course provides awareness, sensitivity, insights, and skills essential to the success and moral integrity of the person in today's morally complex world. It fulfills an arts and humanities requirement for the A.S. and A.A. degrees.

Lecture: 3 hours each week

Recommended: ENGL-101

PHIL-111 **World Religions**
3 Credits

World Religions presents an overview of the historical and cultural settings, main beliefs, and practices of American Indian indigenous

spirituality and the great Eastern and Western religions-Hinduism, Buddhism, Taoism, Confucianism, Judaism, Christianity, and Islam. Attention is given to similarities and differences in concepts of humanity and our relations to society, nature, and the divine. This course is for students interested in humankind's religious heritage and cultures of other parts of the world. It fulfills the cultural diversity requirement for the A.A. degree and an arts and humanities requirement for the A.S. degree.

Lecture: 3 hours per week

Recommended: ENGL-101

PHIL-131 Introduction to Religion 3 Credits

This course introduces the study of religion as a cultural institution. It focuses on the nature, history, functions, structure, and features of religion in society. Emphasis will be given to exploring the psychology of religious experience and behavior, the influence of religion on social structures and community, and the patterns and issues of belief, ritual, and symbolism associated with the sacred. The course does not focus on any one or group of religions, but draws on a wide variety of religious contexts to exemplify and illustrate the elements of religion identified above. It is not an introduction to Christianity or a course in Bible study. The course features a strong emphasis on cultural diversity.

This course satisfies Group IV of the Social Science requirement for the Associate of Arts degree and partially satisfies the Arts, Humanities, and Social Science requirement for the Associate of Science degree. Independent of an NIC Associate's degree, the course will transfer as an elective to most colleges and universities in the United States.

Lecture: 3 hours each week

PHIL-201 Logic and Critical Thinking 3 Credits

PHIL-201 is a general introduction to the reasoning skills and psychological approaches used for effective decision-making, problem-solving, and argument analysis and evaluation. This course provides instruction in skills essential to success in everyday life, citizenship, and as a professional in any career. It fulfills the critical thinking requirement for the A.A. degree, but does not fulfill an arts and humanities requirement for either the A.A. or A.S. degrees.

Lecture: 3 hours each week

Recommended: ENGL-101 and/or COMM-101

PHOTOGRAPHY

PHTO-181 Introduction to Film Photography 3 Credits

This introductory course uses the 35mm S.L.R. film camera to build basic skills in students who have an interest in photography, but no prior experience. Using a combination of lecture, demonstration, and hands-on exercises, this course explores basic photographic techniques and artistic concerns involved in making photographs. These include camera handling, composition, effective use of light, shooting color and black and white film, basic darkroom techniques, and developing a photographic vision. Students must have a 35mm camera with adjustable f-stops, shutter speeds, and focus. Students are responsible for all photographic film and paper.

Lecture: 3 hours per week

PHTO-183 Introduction to Digital Photography 3 Credits

This introductory course uses the advanced digital camera to build basic skills in students who have an interest in photography, but no prior experience. Using a combination of lecture, demonstration, and hands-on exercises, this course will explore basic photographic techniques and artistic concerns involved in making photographs. These include camera handling, composition, effective use of light, file management, digital image manipulation, and developing a photographic vision. Students entering the course must have (at minimum) a 5 megapixel digital camera with aperture priority, shutter priority, and exposure compensation. Students are also responsible for all digital storage media.

Lecture: 3 hours per week

PHTO-283 Intermediate Film Photography 3 Credits

This course is designed to expand the photographic knowledge of motivated students who have completed PHTO-181. Basic skills in shooting, printing, and processing black and white film will be refined, and students will work to develop a personal photographic vision. Further photographic experience will enhance students' abilities through exposure to more challenging concepts including the zone system of exposure control, and printing and presenting the fine print. Students entering this course must have a 35mm camera with adjustable f-stop, shutter speeds, and focus. Students are responsible for all photographic film and paper.

Lecture: 3 hours each week

Prerequisite: PHTO-181

PHTO-285 Nature Photography 3 Credits

This course is an introduction to outdoor and nature photography with a specific focus on understanding common wildlife species, basic photographic skills, marketing opportunities, magazine analysis, and other subjects related to nature photography. It provides basic skills and knowledge for students interested in photographing nature and marketing photographs.

Lecture: 3 hours each week

Prerequisite: PHTO-181, PHTO-183, or PHTO-281 with a grade of C- or better.

PHTO-288 Intermediate Digital Photography 3 Credits

This intermediate level course is designed to expand the knowledge and abilities of motivated students who have completed PHTO-183 Introduction to Digital Photography. Basic photographic and post-process skills learned in PHTO-183 will be refined as students work to develop a personal photographic vision. Each student will be challenged visually and intellectually, exploring four major photographic themes. Students will create a portfolio of unique photographs to fit one of those themes. Students entering this course must have (at minimum) a 5-megapixel digital camera with aperture and shutter priority and exposure compensation. Students are also responsible for all digital storage media and purchasing an online book (portfolio) of their work.

Lecture: 3 hours per week

Prerequisite: PHTO-183 with a grade of C or better.

PHTO-289 Photojournalism 3 Credits

This course provides exposure to the challenge of publications photography for students who have completed an introductory

photography course. Through lecture, demonstration, and hands-on exercises, students develop their visual communication abilities. Students will gain valuable skills in recognizing photo opportunities, covering news events and features, and composing page layouts. Most importantly, students will refine capabilities to create storytelling photographs in individual and photo essay formats. Students entering this course must have (at minimum) a 5-megapixel digital camera with aperture and shutter priority and exposure compensation. Students are also responsible for all digital storage media

Lecture: 3 hours each week

Prerequisite: PHTO-181, PHTO-183, or PHTO-281 with a grade of C- or better.

PHYSICAL EDUCATION

NOTE: Some physical education activity and lecture courses have an extra fee which is payable at registration. These fees are for such courses as kayaking, rock climbing, sailing, equestrian, mountain biking, golf, racquetball, bowling, cardio training, lake kayaking/canoeing, skiing and snowboarding, whitewater rafting, wilderness backpacking, wilderness survival, whitewater guiding, mountaineering, mountaineering II, outdoor adventure, outdoor program leadership, team dynamics, care and prevention of athletic injuries, lifeguard training, first aid, rowing, swimming, swim conditioning, water aerobics, fly fishing, fencing, and dance.

ACTIVITY COURSES:

The following courses fulfill physical education activity course requirements for the A.A. and A.S. degrees with the exception of PE-112 courses. Courses may be repeated for a total of 4 credits. In special situations, subject to approval by the division chair, students may be allowed to exceed the maximum number of credits.

PE-105 **Varsity Sports** 1 Credit

This course is restricted to varsity athletes who compete in golf, soccer, volleyball, wrestling, basketball, and softball. Student athletes practice daily during the season. This course offers development of skills and personal potential for student athletes interested in improving their performance or preparing for further competition at upper collegiate level. This course satisfies a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

PE-105Z **Cheerleading** 1 Credit

This course involves instruction and practice in cheerleading for members of the NIC cheerleading squad. Areas developed include gymnastics, dance, communication, group leadership, and social skills. It provides experience for improving self-confidence, public performance, and gymnastic abilities. Students must participate in team tryouts to earn a place on the squad. This course satisfies one of the physical education requirements for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

PE-110A **Beginning/Intermediate Swimming** 1 Credit

Students are taught fundamental swimming and water safety skills for the non-swimmer or beginner. This course requires two hours of practice weekly. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110B **Beginning Whitewater Kayaking** 1 Credit

The purpose of this course is to introduce students to the lifetime sport of whitewater kayaking. Theoretical and practical aspects of kayaking equipment, trip planning, river hazards, reading whitewater, accidents, rescue issues, group leadership, and processing will be taught through lecture, discussion, video, and practical experience. Emphasis is placed on proper equipment, safety, and general preparedness for river outings. A strong component of the course will deal with leadership principles in the organization, presentation, and conduct of river outings. This is a beginning course. Do not expect to emerge from this class as a proficient boater or qualified instructor of whitewater kayaking. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110C **Beginning Rock Climbing** 1 Credit

The purpose of this course is to introduce the lifetime sport of rock climbing. This course emphasizes the basic skills needed for the safe and enjoyable participation of this sport. Basic skills and knowledge include climbing technique, equipment, belay techniques, knots, rope work, anchors, safety, and rescue information. Suggested reading is *Mountaineering: The Freedom of the Hills, 7th Edition*. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110CC **Tai Chi** 1 Credit

This course teaches a traditionally structured Tai Chi form that builds the physical skills and knowledge required for correct performance of Tai Chi Chuan. An emphasis on employing the eight methods and five directions, as well as demonstrating the 10 essential body principles during form practice is a focus of this course. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110D **Beginning Sailing** 1 Credit

This course introduces students to the lifetime sport of sailing. Theoretical and practical aspects of sailing equipment, boat handling, terminology, basic navigation, and group leadership will be taught through lecture, discussion, video, and practical experience. Emphasis will be placed on proper equipment, safety, and general preparedness for sailing. A strong component of the course is leadership principles in the organization, presentation, and conduct of sailing trips. This is a beginning course. Do not expect to emerge from this class as a proficient sailor or qualified sailing instructor. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110E **Beginning Yoga** 1 Credit

The purpose of this course is to develop techniques that enhance strength, flexibility, and body/mind awareness through breathing, yoga postures, concentration, and relaxation. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110F Cardiovascular Training
1 Credit

The purpose of this course is to enable students to improve their cardiovascular fitness and muscular strength, as well as gain knowledge about basic exercise physiology and personal health and wellness. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110G Equitation
1 Credit

Equitation is the art and science of riding a horse. Equitation is different from all the other P.E. classes in that you are working with a live animal with feelings and you need to learn teamwork, be partners, and learn to dance together. Students will learn how to approach, catch, halter, lead, and tie up horses using horse behavior and psychology to handle and control the horse at all times. Students will learn and use horse communication skills at all times. Students will learn how to prepare the horse for riding by proper grooming and feet cleaning procedures before putting the blanket, saddle, and bridle on. Students will learn how to mount properly as though without a cinch, guide the horse at the walk jog, canter in correct leads by using the correct aids, and ride by "feel". By using their mind and body students will learn how to do lateral work, transition from one gait to another, stop, and back up under objectives. Safety, control, respect, relaxation, balance, and calmness, is stressed and practiced at all times. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110H Exercise for Women
1 Credit

This course introduce exercise techniques specifically for the woman's body. Students will be taken through a variety of stretches, exercises, and postures while being taught the benefit of each. The class includes isometrics, strengthening exercises, yoga, calisthenics, light aerobics, stress-relieving techniques, walking sessions, and discussions on diet concerns. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110I Intermediate Yoga
1 Credit

This course is designed to develop techniques which enhance strength, flexibility, and body/mind awareness through breathing, yoga postures, concentration, and relaxation. This course follows the beginning yoga course and builds on skills learned there. Outcomes, assessment, evaluation, and schedules remain similar or identical to the beginning course. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Prerequisite: PE-110E

PE-110J Jogging/Powerwalking
1 Credit

The purpose of this course is to introduce the lifetime fitness activity of jogging/power walking. This class includes aerobic jogging/walking at a brisk, powerful pace using all of the major muscle groups in the upper and lower body simultaneously, resulting in a complete aerobic workout. Jogging/walking with power will help students achieve a high overall fitness level when done correctly for the proper amount

of time. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110K Cardio Kickboxing
1 Credit

Cardio kickboxing is a pre-designed non-contact aerobic class that uses no equipment. The cardio section uses intensity drills and energy sprints in an interval format followed by work recovery sections. Each class will consist of 40 minutes of an aerobic session followed by 10 minutes of conditioning and cool down. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110L Lake Kayak/Canoe
1 Credit

The purpose of this course is to introduce the lifetime sports of lake kayaking and canoeing. This course will emphasize the basic skills needed for safe and enjoyable participation in these sports. Basic skills and knowledge include equipment, paddle strokes, navigation, and essential kayaking/canoeing safety and rescue information. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110M Pilates
1 Credit

The focus of this class is core conditioning. This course encourages individuals to have a better body awareness. Students will challenge strength, balance, and learn principles of pilates and yoga. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110NN Mall Walking
1 Credit

Mall walking is a low impact workout that utilizes proper walking techniques combined with upper body conditioning to improve and maintain cardiovascular fitness, muscular strength, flexibility, balance, and coordination. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110O Self-Defense
1 Credit

The purpose of this course is to introduce self-defense. The course emphasizes the basic skills needed for safe and enjoyable participation, along with self-defense skills for personal protection. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110OO Intermediate Self Defense
1 Credit

The purpose of this course is to introduce intermediate self-defense. The course emphasizes the skills needed for safe and enjoyable participation, along with more advanced self-defense skills for personal protection. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110P*1 Credit*

The purpose of this course is to learn basic skiing and snowboarding skills. The course focuses on skill improvement and development, equipment selection, and safety issues. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Skiing/Snowboarding**PE-110Q***1 Credit*

This step class is a low impact, aerobic activity. Movements will be performed on and off a step platform with risers. Intensity level is determined by speed, travel, and execution of movement patterns. Each class will consist of 40 minutes of an aerobic session followed by 10 minutes of conditioning and cool down. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Step Aerobics**PE-110R***1 Credit*

The purpose of this course is to teach the lifetime fitness activity of weight training. The course will familiarize students with weight training equipment, teach proper training principles and mechanics, and help students develop a personalized training program. Weight training has been shown to improve metabolism, cardiovascular fitness, body composition, muscular strength/endurance, flexibility, and emotional wellbeing. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Strength Training**PE-110S***1 Credit*

The purpose of this course is to enable students to work on improving endurance, speed, and efficiency in the water as well as general cardiovascular fitness. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Swim Conditioning**PE-110SS***1 Credit*

The purpose of this course is to provide students with fundamental swimming techniques and water safety skills for the beginner open water swimmer. Basic swimming skills are required. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Open Water Swimming**PE-110T***1 Credit*

The focus of this course is total body conditioning. Students will use weights, balls, bands, steps, mats, and the great outdoors to improve their health. Students will experiment with many different forms of exercise including pilates, yoga, cardiovascular training, and total body strengthening. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Tone and Trim**PE-110U***1 Credit*

Water aerobics is a low impact workout that utilizes water resistance to improve or maintain cardiovascular fitness, muscular fitness, flexibility, balance, and coordination. This is a fun activity class for all levels from beginner to advanced athletes. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Water Aerobics**PE-110V***1 Credit*

The purpose of this course is to introduce multiple cardiovascular conditioning workouts. Students will learn how to monitor intensities through heart rate and ratings of perceived exertion; gain an understanding of progressive overload as it pertains to aerobic fitness; and improve technique, form and coordination with a variety of aerobic based activities. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Cardio Cross Training**PE-110W***1 Credit*

The purpose of this course is to introduce the lifetime sport of mountain biking. This course will emphasize the basic skills needed for safe and enjoyable participation. Basic skills and knowledge include bike maintenance and related equipment, riding techniques, and safety information. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Mountain Biking**PE 110X***1 Credit*

The purpose of this course is the study of Kenpo Karate. The course will emphasize the basic skills needed for safe and enjoyable participation, along with self defense skills for personal protection. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Kenpo Karate**PE-110XX***1 Credit*

The purpose of this course is to build on the skills acquired through the Kenpo Karate class. The course will emphasize the skills needed for safe and enjoyable participation, along with more advanced self defense skills for personal protection. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Prerequisite: PE-110X

Intermediate Kenpo Karate**PE-110Y***1 Credit*

The focus of this course is on fundamental instruction in the activity of bowling. This is an introductory course. Topics include bowling basics and tips, warm up stretches, manual and computer scorekeeping, plus bowling etiquette and terms. While content is applicable to many levels of bowling, the coursework is focused on fundamentals of the game and aimed at introducing bowling as a sport to enjoy for exercise and recreation. This course fulfills a physical education

Bowling

requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-110Z **Beginning Fly Fishing** *1 Credit*

This course will teach students the basic skills related to catching fish with the use of a fly rod. This is an activity lab course where students will participate daily. Students will develop the skills and knowledge that they will be able to use in the natural environment. Instruction and participation will include casting, equipment, entomology, knot tying, safety, reading the water, approach, and presentation. Hands-on activities will include practice casting and knot tying skills. Each class will include a variety of visual presentations from the instructor and resource people from the community. We will conclude with a class fishing experience on the Coeur d'Alene River. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111A **Basketball** *1 Credit*

The purpose of this course is to introduce the lifetime sport of basketball. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include rules of the game, fundamentals, and strategies of the game, along with safety principles. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111B **Beginning Golf** *1 Credit*

The purpose of this course is to introduce the lifetime sport of golf. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include rules of the game, grip, stance, strokes, and safety principles. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111BB **Intermediate Golf** *1 Credit*

The purpose of this course is to advance individual golf skills/knowledge to a higher level. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include rules of the game, mechanics of the swing, establishing a repeatable swing, establishing a USGA handicap, basic club/grip assembly, and safety principles. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Prerequisite: PE-111B

PE-111C **Multiple Sports** *1 Credit*

The purpose of this course is to introduce students to multiple sports for participation over a lifetime. The sports selected offer a mix of both team and individual sports, along with the emphasis on cardiovascular fitness. Each unit will be two to three weeks in length and consist of three phases: safety and skill development, rules of the game, and game competition. Sports will be selected from ultimate Frisbee, soccer, flag football, kickball, disc golf, whiffle ball, dodge

ball, volleyball, 3-on-3 basketball, and 5-on-5 basketball. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111D **Racquetball** *1 Credit*

The purpose of this course is to introduce the lifetime sport of racquetball. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include rules of the game, grip, stance, racquet strokes, individual and doubles play, and safety principles. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111E **Softball** *1 Credit*

The purpose of this course is to introduce the lifetime sport of softball. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include rules of the game, fundamentals, strategies of the game, and safety principles. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111F **Beginning Tennis** *1 Credit*

The purpose of this course is to introduce the lifetime sport of tennis. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include rules, etiquette, and game strategy. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111FF **Intermediate Tennis** *1 Credit*

The purpose of this course is to advance the students' tennis skills/knowledge to a higher level. This course will focus on tennis stroke technique, control of the ball, consistency, accuracy, variety, power, and physical conditioning as well as singles and doubles strategy. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

Prerequisite: PE-111F

PE-111G **Volleyball** *1 Credit*

The purpose of this course is to introduce the lifetime sport of volleyball. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include rules of the game, passing, setting, serving, and basic principles of game play. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111H **Whitewater Rafting** *1 Credit*

This course is an introduction to whitewater rafting. Paddling skills as well as river running competencies will be taught through hands-on experience on the river with attention given to the safety and logistical concerns of whitewater rafting. This course fulfills a

physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111K
1 Credit

Rowing

The purpose of this course is to introduce the lifetime sport of rowing. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include use of equipment, paddle strokes, navigation, and safety principles. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111M
1 Credit

Soccer

The purpose of this course is to introduce the lifetime sport of soccer. The course will emphasize the basic skills needed for safe and enjoyable participation. The basic skills and knowledge include rules of the game, fundamentals, strategies of the game, and safety principles. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111N
1 Credit

Beginning Fencing

This course introduces students to Olympic-style fencing. Fencing has been part of the modern Olympics since its inception and comprises the three disciplines of foil, epee, and saber. Students will learn how to fence with the foil. The course will cover fencing movements (stances, footwork, blade work), tactical concepts, Olympic fencing rules, proper use of equipment, and principles of safety. The course will prepare students for individual and team competitions. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-111NN
1 Credit

Intermediate Fencing

This course builds on skills introduced in Beginning Fencing. It focuses on refining fencing actions and combining skills in different tactical situations. The course covers additional footwork and blade actions and students will learn the basics of epee and saber fencing. Bouting will be emphasized. Students will have the opportunity to participate in a novice fencing tournament.

Activity: 2 hours per week

Prerequisite: PE-111N

PE-111O
1 Credit

Outdoor Adventures

The purpose of this course is to introduce the students to a variety of outdoor adventure sports. During the semester, students will be exposed to sea kayaking, sailing, whitewater rafting, hiking, rock climbing, snow shoeing, cross country skiing, and seasonal activities. Students will learn the very basics of each of these lifetime sports and hopefully pursue them in the future. This course fulfills a physical education requirement for the A.A. and A.S. degrees and may be repeated for a total of 4 credits.

Activity: 2 hours per week

PE-112B
1 Credit

Tai Chi for Seniors

Tai Chi for Seniors is an introductory course for an exercise system that is performed slowly in a relaxed fashion with fluid graceful

motions and that is accessible for any fitness level. It is based on traditional Chinese philosophies and is useful for improving the health of body and mind. It increases balance, range of motion, and helps to relieve stress. Through learning Tai Chi, students develop techniques and skills which enhance balance, strength, bone density, flexibility, and general vitality. The course includes traditional warm-up of soft style calisthenics and accupoint massage, followed by a 24-movement simplified form of Tai Chi Chuan; with a traditional closing sequence of An-Mo (self-massage). Proper breathing, postural alignment, balance, weight shifting, and awareness of sequential muscular effort are emphasized throughout. This senior course does not meet A.A. or A.S. degree requirements.

Activity: 2 hours per week

PE-112BB
1 Credit

Intermediate Tai Chi for Seniors

Intermediate Tai Chi for Seniors teaches a more complex, traditionally structured Tai Chi form that builds on the skills and knowledge of simplified Tai Chi acquired in the Tai Chi for Seniors course. An emphasis on employing the eight methods and five directions, as well as demonstrating the 10 essential body principles during form practice is a prime focus of this course. This senior course does not meet A.A. or A.S. degree requirements.

Activity: 2 hours per week

PE-112E
1 Credit

Yoga for Seniors

Yoga is an integrated system of education for the body, mind, and inner spirit. Yoga is all about being flexible. Yoga can be practiced by anyone, regardless of age or physical ability. It will enhance your studies, reduce stress, and help you enjoy your free time. This senior course does not meet A.A. or A.S. degree requirements.

Activity: 2 hours per week

PE-112F
1 Credit

Tennis for Seniors

This course focuses on learning and/or improving each student's fundamental tennis skills, match play, game strategy, and physical fitness. This senior course does not meet A.A. or A.S. degree requirements.

Activity: 2 hours per week

PE-112T
1 Credit

Senior Fitness

The purpose of this course is to teach the lifetime fitness activity of weight training and yoga. This course will familiarize senior citizens with weight training equipment and teach proper training principles and mechanics through a circuit training workout. The yoga section of the course will focus on the development of techniques which enhance strength, flexibility, and body/mind awareness through breathing, yoga postures, concentration, and relaxation. This senior course does not meet A.A. or A.S. degree requirements.

Activity: 3 hours per week

PE-112X
1 Credit

Kenpo Karate for Seniors

The purpose of this course is to expose students to the study of Kenpo Karate. The course will emphasize the basic skills needed for safe and enjoyable participation, along with self defense skills for personal protection. Historical perspectives as well as philosophical overviews will be presented to familiarize students with all aspects of Kenpo Karate. This senior course does not meet A.A. or A.S. degree requirements.

Activity: 2 hours per week

PROFESSIONAL/ACADEMIC COURSES

The following courses are professional and/or academic courses and will not fulfill physical education activity requirements for A.A. and A.S. degrees.

PE-160 Foundations of Physical Education 3 Credits

This course presents an overview of the history and development of professional physical education and related fields including principles and objectives of program development and management. It is beneficial for students considering a career in physical education or recreation services.

Lecture: 3 hours each week

PE-220 Sports Ethics 2 Credits

The interrelationship of sports with other aspects of culture, economics, drugs, gambling, and media will be among the topics studied in this course. The role of sports in American society will also be discussed.

Lecture: 2 hours each week

PE-221 Fitness Activities and Concepts 2 Credits

This course includes individual fitness development with focus on developing personal skills in presenting and teaching fitness activities for public and private sector programs. This is a combined lecture/lab course.

Lab/Lecture: 2 hours each week

PE-222 Wellness Lifestyles 3 Credits

Wellness Lifestyles examines contemporary health/wellness with emphasis on personal decision making and behavioral changes to create a personal lifestyle which promotes high level wellness.

Lecture: 3 hours each week

PE-223 Exercise Physiology 3 Credits

This class covers physiological responses/adaptations to exercise. Topics include neuromuscular, metabolic, cardiovascular, hormonal, and respiratory systems as they pertain to acute and chronic exercise. The goal of the class is to develop a basic understanding of exercise physiology that will allow students to utilize exercise physiology in their daily lives and future profession, and prepare students to take additional courses in exercise science.

Lecture: 3 hours per week

PE-224 Nutrition for Health, Fitness, and Exercise 3 Credits

This course examines the basic concepts of nutrition related to exercise training to improve fitness, health, and athletic performance.

Lecture: 3 hours per week

PE-234 Team Dynamics 3 Credits

This course is designed to introduce students to the design and application of a challenge course, and to train students in the technical skills required to instruct and sequence various activities on a challenge course. Topics include team building, equipment, individual element description and safety, belay techniques, activity introduction and framing, spotting techniques, instructor awareness, activity variations and introductory processing, inspection, maintenance,

emergency procedures, participant screening, accident reporting, and rescue skills.

Lecture: 1 hours per week

Lab: 4 hours per week

PE-237A Wilderness Backpacking 3 Credits

This course teaches skills and knowledge needed for camping and traveling in a wilderness environment with special attention given to trip leadership. The course focuses on trip leadership, minimum-impact techniques, wilderness navigation, equipment selection, and safety issues.

PE-237B Wilderness Survival 3 Credits

This course provides students with basic life-support skills and knowledge to predict and prepare for emergencies encountered in a wilderness environment. Focus is on emergency procedures, life-support skills, signaling, equipment selection, and safety issues.

PE-237C Whitewater Guiding 3 Credits

This course develops whitewater guiding skills and competencies through hands-on experience with attention given to the safety concerns of whitewater rafting. The skill and competencies include trip leadership, risk management, reading whitewater, maneuvering rafts, swiftwater rescue, and outfitting.

PE-237D Mountaineering 3 Credits

This course provides a foundation of mountaineering skills with special attention given to trip leadership. Focus is also on snow and glacier travel, avalanche awareness, winter camping, backcountry travel, rock climbing, minimum-impact techniques, equipment selection, and safety issues.

PE-237DD Mountaineering II 1 Credit

This course builds on the skill sets acquired in Mountaineering (PE-237D) with special attention given to trip preparation, logistics, and route finding. Students will attempt to climb Mount Rainier. This course meets one P.E. requirement for A.S. and A.A. degrees.

Lab: 2 hours per week

Prerequisite: PE-237D or instructor permission

PE-237E Outdoor Programming and Leadership 3 Credits

This course develops the skills and knowledge needed for leading and programming outdoor adventure sports with special attention given to leadership and teaching methods. This course will focus on trip leadership, risk management, teaching methods, group dynamics, communication, activity selection, and methods of programming.

PE-237F Outdoor Navigation 3 Credits

This course introduces students to the importance of using a map and compass while working and recreating. It covers the reading of forest service and topographical maps which include symbols, legends, border information, and contour lines. The course includes the use of magnetic compasses and GPSs in an outdoor environment and functions that plot a course on maps. Supplemental navigation skills are included.

Lecture: 1 hours per week

Lab: 4 hours per week

PE-237G
1 Credit**Avalanche Level 1**

Students can expect to develop a good grounding in how to prepare for and carry out a trip, to understand basic decision making while in the field, and to learn rescue techniques required to find and retrieve a buried person in avalanche country.

Lecture/Lab: 22.5 hours

PE-241B
2 Credits**Coaching Methods: Volleyball**

This course offers instruction in methods of volleyball with emphasis on fundamentals, strategy, conditioning, and practical applications. This course is beneficial to students considering a career in physical education with a coaching option who will need an endorsement for coaching sports at the interscholastic level.

Lecture: 2 hours per week

PE-241C
2 Credits**Coaching Methods: Soccer**

This course offers instruction in methods of soccer with emphasis on fundamentals, strategy, conditioning, and practical applications. This course is beneficial to students considering a career in physical education with a coaching option who will need an endorsement for coaching sports at the interscholastic level.

Lecture: 2 hours per week

PE-241D
2 Credits**Coaching Methods: Softball/Baseball**

This course offers instruction in methods of softball and baseball with emphasis on fundamentals, strategy, conditioning, and practical applications. This course is beneficial to students considering a career in physical education with a coaching option who will need an endorsement for coaching sports at the interscholastic level.

Lecture: 2 hours per week

PE-241E
2 Credits**Coaching Methods: Basketball**

This course offers instruction in methods of basketball with emphasis on fundamentals, strategy, conditioning, and practical applications. This course is beneficial to students considering a career in physical education with a coaching option who will need an endorsement for coaching sports at the interscholastic level.

Lecture: 2 hours per week

PE-241F
2 Credits**Coaching Methods: Wrestling**

This course offers instruction in methods of wrestling with emphasis on fundamentals, strategy, conditioning, and practical applications. This course is beneficial to students considering a career in physical education with a coaching option who will need an endorsement for coaching sports at the interscholastic level.

Lecture: 2 hours per week

PE-242
2 Credits**Sports Officiating**

This course is designed to provide students opportunities to acquire knowledge, skill, and experience to function effectively as a sports official. This course stresses philosophy of officiating, officiating tips, code of ethics for officials, dealing with aggressive behavior, and preventative officiating. Other topics covered include personal equipment, pre-game and game duties, post-game duties, rules and regulations, and proper field or floor mechanics. The goal is to de-

velop confidence as an official in order to feel comfortable refereeing intramural, AAU, city recreation, and high school games.

Lecture: 2 hours per week

PE-243
2 Credits**Play and Game Theory**

This course offers instruction and practice in the principles of play and game strategy for high- and low-organization activities. It is beneficial for students considering a career in physical education or recreation.

Lecture: 2 hours each week

PE-248
3 Credits**Care and Prevention of Athletic Injuries**

This course offers instruction and practice in the care, prevention, and evaluation of injuries common to athletics. It is designed for PE majors, coaches, and individuals considering a career in athletic training or physical therapy.

Lecture: 3 hours each week

PE-250
3 Credits**Clinical Athletic Training**

This course offers a traditional work experience for students interested in the field of athletic training. Students will provide care for varsity athletes while being under the direct supervision of a certified athletic trainer. Special emphasis will be placed on taping, wrapping, evaluation, and rehabilitation techniques.

Lab: 10 hours per week

Prerequisite: Complete PE-248 and PE-288 with a grade of C-.

PE-251
2 Credits**ACE Personal Trainer Certification**

This course provides theoretical knowledge and practical skills in preparation for a national certification exam in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise; essentials of the client-trainer relationship; conducting health and fitness assessments; and designing and implementing appropriate exercise programming.

Lecture: 2 hours per week

PE-253
2 Credits**ACE Group Fitness Instructor Certification**

This course is designed to provide theoretical knowledge and practical skills in preparation for a national certification exam in group fitness instruction. Topics include guidelines for instructing safe, effective, and purposeful exercise; essentials of the instructor-participant relationship; the principles of motivation to encourage adherence in the group fitness setting; effective instructor-to-participant communication techniques; methods for enhancing group leadership; and the group fitness instructor's professional role.

Lecture: 2 hours per week

PE-259
2 Credits**Lifeguard Training**

This course offers instruction and skill development for non-surf lifeguarding, including hazard management, rescue procedures, and interaction with the public. Students may elect to qualify for American Red Cross (ARC) certification. This is designed for students interested in aquatic safety and advanced training. To enroll, students must pass a lifeguarding skills test requiring strong swimming ability. Completion of First Aid and CPR training is necessary to qualify for Lifeguard Training Certification.

PE-266 Water Safety Instructor
2 Credits

This course involves training in water safety for the aquatics instructor and meets requirements for the American Red Cross Water Safety Instructor course. Emphasis is on theory and application of aquatic skills, teaching methods, and practice in instruction. It is designed for students interested in teaching aquatic skills and safety. Students will have the opportunity to qualify for American Red Cross (ARC) certification.

Prerequisite: A current ARC Emergency Water Safety or Lifeguarding Certificate.

PE-277 Lifeguard Instructor
1 Credit

This course offers training for those wishing to teach American Red Cross (ARC) Basic Water Safety, Emergency Water Safety, and Lifeguard Training courses. Emphasis is on the practice of teaching ARC methods. Students will have the opportunity to qualify for ARC certification. It is designed for students interested in teaching aquatic skills and safety.

Prerequisite: Current lifeguard training certification is required.

PE-288 First Aid
3 Credits

This course offers instruction and practice in the emergency care for victims of injury or sudden illness. Students will have an opportunity to qualify for American Red Cross certification in First Aid and CPR. It is designed for students interested in safety, prevention, and first aid treatment.

PHYSICS

PHYS-101 Fundamentals of Physical Science
4 Credits

This course is designed for the non-science major interested in an overview of the physical sciences and in developing an appreciation for the nature of the physical universe. It includes physics, chemistry, astronomy, and geology and their relation to the world and universe in which we live. It fulfills one of the laboratory science requirements for the A.A., A.S., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: PHYS-101L (2 hours per week)

Prerequisite: MATH-025 or COMPASS Algebra > 40, ACT Math > 17 or SAT Math > 430

PHYS-103 Elementary Astronomy
4 Credits

PHYS-103 is an introductory study of astronomy. Topics include the history of astronomy; the motions and physical properties of the sun, moon, and earth; the electromagnetic spectrum; solar system planets, satellites, and minor bodies; stars; galaxies; evolution of the solar system; the universe; and cosmology. It fulfills a laboratory science requirement for the A.A., A.S. and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: PHYS-103L (2 hours per week)

PHYS-111 General Physics I
4 Credits

This course is the study of mechanics, sound, linear and rotational motion momentum, energy, vectors, elasticity, vibration, and mechanical wave motion. It fulfills a laboratory science requirement for

the A.A. and A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: PHYS-111L (2 hours per week)

Prerequisite: MATH-147 or MATH-143 and MATH-144 or COMPASS Trig > 21

PHYS-112 General Physics II
4 Credits

This is the study of electricity and magnetism, light, optics, and modern physics. It fulfills a laboratory science requirement for the A.A., A.S., and A.A.S. degrees.

Lecture: 3 hours per week

Corequisite Lab: PHYS-112L (2 hours per week)

Prerequisite: PHYS-111 or PHYS-211

PHYS-211 Engineering Physics I
5 Credits

This is the study of kinematics and dynamics, Newton's Laws, work and energy, rotational dynamics, linear and angular momentum, collisions, static equilibrium, oscillations, gravity, central forces, fluid dynamics, and sound waves. It fulfills a laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 4 hours per week

Corequisite Lab: PHYS-211L (2 hours per week)

Corequisite: MATH-170

Prerequisite: MATH-143 and MATH-144, or MATH-147, or appropriate score on the placement test.

PHYS-212 Engineering Physics II
5 Credits

This is the study of heat and thermodynamics, electric and magnetic fields and potentials, DC and AC circuits, electromagnetic waves, and geometric and physical optics. It fulfills a laboratory science requirement for the A.S., A.A., and A.A.S. degrees.

Lecture: 4 hours per week

Corequisite Lab: PHY-212L (2 hours per week)

Corequisite: MATH-175

Prerequisite: MATH-170, PHYS-211

POLITICAL SCIENCE

POLS-101 American National Government
3 Credits

Political Science 101 is the study of the foundation of the United States government and the evolution of constitutional principles. Special attention is given to the Declaration of Independence, the United States Constitution, the three branches of national government, powers and limits of national government, civil rights, political parties, campaigns, political participation, interest groups, media, public opinion, and select public policies. This is an essential course for students majoring in political science, pre-law, or law enforcement. It fulfills a social science requirement for A.A. and A.S. degrees.

Lecture: 3 hours per week

POLS-105 Introduction to Political Science
3 Credits

This course is designed to introduce the student to several of the major subfields embodied in political science. Specifically, these subfields include international relations, comparative politics, political

philosophy, and research methods. Important theories and models to politics will be introduced as well as how political science study is conducted. Students typically will be required to write a literature review on a political topic of their choice and offer suggestions on additional ways that this topic could be studied, thus demonstrating some comprehension of how research is conducted in political science. Additionally, this course addresses cultural diversity by giving students an introduction into different philosophies of government and how various political systems of the world may be organized. This course is important for those majoring in political science and it fulfills a social science requirement for A.A. and A.S. degrees.

Lecture: 3 hours per week

Recommended: ENGL-102

POLS-237 **International Politics and Problems**
3 Credits

This course offers a basic introduction to the nature of politics in the international arena with special attention to nation-states' power, nongovernmental organizations, diplomacy, international law, human rights and ethics, international economic practices and ideas, military strategy and defense policies, alliance systems, and contemporary global issues such as demographics, energy, environment, terrorism, and refugees.

Lecture: 3 hours per week

Recommended: POLS-105

POLS-275 **State and Local Government**
3 Credits

Using a comparative approach, this course examines the characteristics and qualities of both state and local governments. Emphasis is placed on how local and state governments are organized and how they operate. Additional issues that are examined from a state and local government context include federalism, the role of political parties, participation, land use, finances, and various policies that are important to government at the state and local levels. This course fulfills a social science requirement for both the A.A. and A.S. degrees.

Lecture: 3 hours per week

POLS-298 **Political Involvement Practicum**
1-6 Credits

In this practicum, students are participants and observers within local, state, or national government. They will be supervised by a government employee and an NIC political science instructor. A maximum of two credits per semester is offered to students serving as student government officers/board members. This course is useful for students wishing to obtain practical experience in government operations. Permission of the instructor, who will find a practicum assignment for the student, is required.

PROFESSIONAL-TECHNICAL

ATEC-109 **Occupational Relations**
1 Credit

This course includes instruction on the practical application of on-the-job interpersonal relations as it applies to students as an employee, supervisor, or consumer.

Lecture: 1 hour per week

ATEC-110 **Successful Job Search**
1 Credit

This course serves as an introduction to the fundamental techniques necessary to gain entry-level employment. Its underlying assumption is that it is better to teach someone how to find his or her own

job, than to find one for that person. Techniques include identifying skills, resumes, interviewing, and conducting a successful job search.

Lecture: 1 hour per week

ATEC-117 **Occupational Relations and Job Search**
2 Credits

ATEC-117 is designed to expose students to a variety of skills for workplace success. Topics to be discussed include learning styles, change, communications, conflict, work teams, leadership, and attitude. Students will also explore the fundamental techniques necessary to get a job, such as matching skills to job requirements, writing resumes and cover letters, and learning strategies for successful interviewing.

Lecture: 2 hours per week

ATEC-119 **Occupational Relations/Work Ethics**
2 Credits

This course includes instruction in the practical application of on-the-job interpersonal relations as it applies to employees, supervisors, or consumers. A variety of work ethic topics will be covered that will help employers define you as a "good" employee such as punctuality, staying on task, being a team player, cleanliness/neatness in the work area, thoroughness, pride in workmanship, and flexibility.

Lecture: 2 hours per week

ATEC-120 **Occupational Relations**
3 Credits

This course provides instruction in practical application of on-the-job interpersonal relations, including work habits, attitudes and fundamental job search and preparation techniques. A variety of topics will be covered including learning strategies for work, adapting to change, taking responsibility, work habits, sexual harassment, teamwork, communications, and problem solving. Emphasis will be placed on identifying skills, resumes, cover letters, and interviewing.

Note: ATEC-120 is 2 credits if ATEC-110 has been completed and 1 credit if ATEC-119 has been completed.

Lecture: 3 hours per week

ATEC-125 **Career Relations and Technology**
3 Credits

This course provides instruction in the application of career-related interpersonal relations and the use of technology to improve employability skills. It is structured to provide hands-on experience in developing proficiency with technology used in the workplace. Topics include workplace communications, team problem solving, change in the workplace, labor laws, resume writing, interview techniques, and the use of a computer as a job search tool. Basic computer skills will be taught and industry-specific software will be introduced.

Lecture/Lab: 3 hours per week

ATEC-194 **Cooperative Workbased Learning I**
1-3 Credits

This course is designed to provide students with career-related experience and an opportunity to reflect on those experiences. The experiences in the field (the job) give students the chance to apply the skills and knowledge gained in theory/lab, while the classroom component gives students a chance to complete the necessary paperwork as well as discuss their experiences with other students and receive guidance from the instructor.

Prerequisite: Enrollment as a freshman in a Professional-Technology program.

ATEC-195 Cooperative Workbased Learning II
1-3 Credits

This course is designed to provide the students with career-related experience and an opportunity to reflect on those experiences. The experiences in the field (the job) give students the chance to apply the skills and knowledge gained in theory/lab, while the classroom component gives students a chance to complete the necessary paperwork as well as discuss their experiences with other students and receive guidance from the instructor.

Prerequisite: Enrollment as a freshman in a Professional-Technology program.

ATEC-294 Cooperative Workbased Learning III
1-3 Credits

This course is designed to provide students with career-related experience and an opportunity to reflect on those experiences. The experiences in the field (the job) give students the chance to apply the skills and knowledge gained in theory/lab with other students and receive guidance from the instructor.

Prerequisite: Enrollment as a sophomore in a Professional-Technical program.

ATEC-295 Cooperative Workbased Learning IV
1-3 Credits

This course is designed to provide students with career-related experience and an opportunity to reflect on those experiences. The experiences in the field (the job) give students the chance to apply the skills and knowledge gained in theory/lab with other students and receive guidance from the instructor.

Prerequisite: Enrollment as a sophomore in a Professional-Technical program.

PSYCHOLOGY

PSYC-101 Introduction to Psychology
3 Credits

This course provides students with a general overview of the science which seeks to understand and explain behavior and mental processing. Variations in psychology faculty training and research interest influence topic emphasis. However, students will be introduced to many of the major contemporary theories and concepts in psychology. This course will prove interesting and useful to those students wishing to better understand human behavior and thinking. It should prove helpful to students preparing for a career that will bring them into contact with other people. This course fulfills a social science elective for both the A.A. and A.S. degrees.

Lecture: 3 hours per week

Recommended: Strong reading and writing skills

PSYC-205 Developmental Psychology
3 Credits

This course covers the full spectrum of human development from conception through death. Students examine the biological, cognitive, and social aspects of an individual's development. Individual faculty preparation will determine areas of emphasis. This course is valuable to students pursuing a career that will necessitate working with and being sensitive to people of various ages (teachers, social workers, nurses, law enforcement officers, etc.). This course fulfills a social science requirement for both the A.A. and A.S. degrees.

Lecture: 3 hours per week

Prerequisite: PSYC-101

Recommended: Strong reading and writing skills

PSYC-211 Abnormal Psychology
3 Credits

This course provides a study of the nature, cause, treatment, and prevention of patterns of emotional disturbance and personality disorganization. It introduces the major categories of mental disorders as defined in the DSM-IV. This course will not fulfill a requirement for the A.A. or A.S. degree and may not be transferable.

Lecture: 3 hours per week

PSYC-218 Intro to Research in the Behavioral Sciences
4 Credits

Psychology 218 is primarily designed for behavioral and social science majors. In this course, students will be introduced to the basic methods of behavioral research. This will be accomplished through active participation in the design, implementation, and analysis of class research projects. This class involves three one-hour lectures and a two-hour lab per week. This course is applicable for those students who plan to pursue an undergraduate and graduate degree in one of the behavioral or social sciences.

Lecture: 3 hours per week

Lab: PSYC-218L (2 hours per week)

Prerequisite: PSYC-101

Corequisite: PSYC-218L

Recommended: Strong reading and writing skills

PSYC-223 Stress Management
3 Credits

This course explores the concepts of stress from a holistic approach, emphasizing identification of sources of stress, understanding physical and emotional consequences, and developing techniques for dealing with stress. Students will gain improved personal stress management skills through discussion and practice in communication techniques, nutrition, exercise, relaxation, values clarification, and will learn strategies for dealing with change, loss, and enhancing self-esteem.

Lecture: 3 hours per week

RADIOGRAPHY TECHNOLOGY

RADT-101 Introduction to Radiography
2 Credits

The course includes an introduction to, and overview of, radiology and basic radiation protection instruction to allow students to begin the clinical practicum. Students will learn basic radiographic principles: image acquisition and processing, factors affecting radiographic quality, calibration, equipment design, filters, electromagnetic radiation, exposure factors, quality assurance and control testing, fundamentals of computers, and the Internet in radiology.

Lecture: 2 hours per week

RADT-102 Patient Care in Radiography
3 Credits

The course provides an introduction to fundamental patient care procedures. Students will learn the role of the radiographer and other members of the health care team, patient and technologist interactions, body mechanics and patient transfer, aseptic technique, patient care during special exams, mobile and surgical radiography, emergency procedures, drug administration and use, and care of support equipment in preparation for patient contact. Students will receive an introduction to the hospital environment, health care teams, and basic patient care through supervised clinical rota-

tions. Students will rotate through areas which support the radiology department such as the admissions area and patient transport.

Lecture: 2 hours per week

Lab: 45 hours

RADT-104 **Radiographic Images I** 2 Credits

This course includes beginning image evaluation and radiographic anatomy. Students will learn disease causes, definitions, radiographic manifestations, and effects on image production. Students will present radiographs taken in the laboratory or clinic with emphasis on exam indication, pathology, positioning, radiographic technique, and anatomy demonstrated.

Lecture: 2 hours per week

Prerequisite: RADT-101, RADT-102, RADT-105, and RADT-110 with a grade of C or higher.

RADT-105 **Radiation Protection** 2 Credits

This course includes principles of radiation safety, biological effects of radiation, x-ray production, radiation units, radiation detection devices, measurement, regulations, personnel monitoring and objectives of a radiation protection program.

Lecture: 2 hours per week

RADT-106 **Radiographic Procedures I** 3 Credits

This course introduces radiographic anatomy and positioning procedures necessary to produce beginning diagnostic radiographs. Students will learn proper technical factors for different imaging situations, radiographic equipment operation, radiation protection, positioning terminology, patient considerations, and radiographic pathology.

Lecture: 2 hours per week

Lab: 3 hours per week

RADT-107 **Radiography Physics** 3 Credits

This course includes electromagnetic radiation, electromagnetism, and x-ray physics. Students will learn the x-ray circuit, generators, equipment, quality control, radiation units, production, interactions, image intensification, fluoroscopy, conventional tomography, computed tomography, and mammography. Students will perform technique selection problems with advanced formula application.

Lecture: 3 hours per week

Prerequisites: MATH-143, RADT-101, RADT-102, RADT-105, and RADT-110 with a grade of C or higher.

RADT-108 **Radiographic Procedures II** 2 Credits

This course is the second course in radiographic anatomy and positioning procedures necessary to produce diagnostic radiographs of the entire body (except skull). Students will learn proper technical factors for different imaging situations, radiographic equipment operation, radiation protection, positioning terminology, patient considerations, and radiographic pathology.

Lecture: 2 hours per week

Lab: 6 hours per week

Prerequisite: RADT-101, RADT-102, RADT-105, RADT-106, RADT-110, RADT-180 with a grade of C or higher.

RADT-110 **Law and Ethics for Radiography** 1 Credit

This course introduces students to ethical principles related to radiography technology. Students will learn the historical and philosophical basis of ethics in radiography; ethical and legal concepts in health care; the legal responsibilities of the technologist; and how professional organizations, credentialing, and development influence the role of the radiologic technologist.

Lecture: 1 hour per week

RADT-180 **Clinical Education I** 3 Credits

This course consists of supervised rotations through routine diagnostic areas. Students will perform beginning radiologic examinations on patients under direct supervision of a technologist until competency has been achieved.

Clinical: 135 hours per week

Prerequisite: RADT-101, RADT-102, RADT-105, and RADT-110 with a grade of C or higher.

RADT-181 **Clinical Education II** 3 Credits

This course is the second course in clinical education for the radiography technology program. This course consists of supervised rotations through routine diagnostic areas. Students will perform radiologic examinations on patients under direct supervision of a technologist until competency has been achieved.

Clinical: 135 hours

Prerequisite: RADT-101, RADT-102, RADT-105, RADT-106, RADT-110, RADT-180 with a grade of C or higher.

RADT-191 **Clinical Education III** 8 Credits

This course consists of supervised rotations through routine diagnostic areas. Students will perform radiologic examinations on patients under direct supervision of a technologist until competency has been achieved.

Clinical: 360 hours

Prerequisites: RADT-108, RADT-181 with a grade of C or higher.

RADT-201 **Pharmacology and Contrast Procedures in Radiography** 2 Credits

This course includes an introduction to the uses, contraindications and pharmacology of contrast media. Students will learn pharmacology principles, drug classification and safety, routes of administration, intravenous drug therapy, current practice status, and informed consent. Procedural considerations for contrast studies (such as upper gastrointestinal exams and barium enemas) and fluoroscopic techniques will be covered.

Lecture: 2 hours per week

Prerequisite: RADT-108, RADT-181 with a grade of C or higher.

RADT-202 **Radiographic Images II** 2 Credits

This course is a continuation of RADT 104 with advanced image evaluation, radiographic anatomy, and pathology. Students will present radiographs taken in the laboratory or clinic highlighting exam indication, positioning, pathology, radiographic technique and anatomy demonstrated. Emphasis will be on higher level procedures.

Lecture: 2 hours per week

Prerequisite: RADT-104, RADT-107, RADT-191, RADT-201, RADT-205 with a grade of C or higher.

RRM-120 **Natural Resource Conservation
and Management**
3 Credits

This course includes an overview of ethical practices and behavior for those utilizing wilderness resources. Topics of study include low-impact camping and traveling methods, history of environmental and wilderness ethics, and current issues in the outdoor recreation industry. Students will learn guiding principles behind land management decisions and regulations.

Lecture/Lab: 3 hours per week

RRM-125 **Wilderness Ethics and Interpretation**
3 Credits

This course will have two distinct parts. The first part covers the concepts of wilderness ethics such as Leave No Trace and the Wilderness Act. The remainder of the course will focus on communicating these concepts to audiences in natural resource situations. Communication skills including environmental and cultural interpretation and multi-media presentations will be covered through discussion and practice.

Lecture: 3 hours per week

RRM-130 **Terrain Park Management**
2 Credits

This course teaches students the techniques for building and maintaining terrain park features including documentation and decision-making processes critical to terrain park management. Students will be involved in building and maintaining terrain park features as well as learning about guest services, event planning, risk management, and marketing through hands-on training.

Lecture: 1 hour per week

Lab: 2 hours per week

RRM-135 **Introduction to Ski Instruction**
1 Credit

This course provides thorough training in all aspects of entry-level ski instruction. It combines indoor theory with outdoor application and covers topics such as interpersonal communication in the lesson environment, the skills concept for snow sports, building logical progressions, group management and interaction, movement analysis, and giving feedback and creating change. It also includes on-snow clinics, personal ski/snowboard improvement clinics, and class observation/shadowing. This course is useful for anyone interested in a career in the recreation industry as it provides a frontline look at how to manage the guest experience in a variety of ways and situations.

Lecture: 8 hours

Lab: 16 hours

RRM-140 **Leadership Principles**
3 Credits

This course is an introduction to the principles of leadership and its relationship to management. Emphasis will be on leadership techniques, group dynamics, facilitation styles, problem solving, decision making and communication techniques needed to inspire and influence. Students will apply leadership styles through experiential and group practice.

Lecture: 3 hours per week

RRM-220 **Resort Recreation
Management Principles**
3 Credits

This course is an introduction to the principles of management and their relationship to the overall management of facilities, personnel, and programs. The development of supervisory skills and coaching techniques needed to improve the performance of employees are emphasized.

Lecture: 3 hours per week

RRM-225 **Event Planning and Management**
3 Credits

This course identifies the elements of event management and planning. Students will learn about different types of events, venues, step-by-step planning, and the management skills required to communicate with various stakeholders in the process.

Lecture: 3 hours per week

RRM-230 **Leisure and Recreation Programming**
3 Credits

This course provides a comprehensive plan for successful programming of services, program leadership, and understanding operational management of program systems in recreation and leisure service organizations. The course provides a systematic plan for students to learn the essentials of successful recreation programming with examples of a variety of activities in community, outdoor, sport, cultural arts, and tourism sectors of the field.

Lecture: 3 hours per week

RRM-250 **Risk Management in the
Resort Industry**
3 Credits

This course helps students appreciate and understand both the needs and techniques for identifying and managing risks to employees, guests, and property in the resort industry. This course focuses on identification and control of risk, incident investigation, and increasing employee and public awareness of potential risk.

Lecture: 3 hours per week

RRM-290 **Resort Recreation
Management Internship**
3 Credits

Resort/Recreation Management Internship provides supervised training in program skills through on-the-job experience in a program-related site. This course provides practical application of skills learned as a part of the learning process. It involves 135 hours of on-site training. It is a required course in the Resort/Recreation Management program and is graded on a satisfactory/unsatisfactory basis.

Internship Site Work Experience: 135 hours

SOCIAL SCIENCE**SOSC-102** **Student Leadership Development**
2 Credits

This course is designed to prepare students for their role as leaders on campus. Strengths-based curriculum will help students identify their personal strengths in order to increase proficiency and confidence as leaders. Experiential learning activities will be used to develop leadership styles, communication skills, diversity awareness, and etiquette. Students will learn how these skills are an essential part of competent leadership on campus and in the community.

Lecture: 2 hours per week

SOSC-103 **Cultural Anthropology and Ecology**
3 Credits

This course will take place at an isolated cabin in the John River Valley of northern Alaska's Brook's Range and focuses on the subsistence way of living that formed the basis from which all our modern cultures, with their enormous diversity, have evolved. It is not a primitive survival experience, but a journey into the last periods of living simply with the land, on its terms, followed by the transition into modern times. The course presentation is experiential, coupled

with reading and a strong component of discussion. It is not a lecture based course. The course will be presented in two parts.

SOSC-104 **Resident Assistant Training**
1 Credit

This course focuses on student development theory and its application in a college residence hall setting. The course provides an emphasis on the development of leadership styles, peer counseling techniques, crisis intervention, and interpersonal communication skills.

Lecture: 1 hour per week

SOCIAL WORK

SOWK-211 **Preparing for Foster Care**
2 Credits

This course provides the knowledge and skills needed for foster/adoptive parents to collaborate with social workers and other professionals in the Idaho Department of Health and Welfare to advance the needs of foster/adoptive children and their families. Permission of the Idaho State Department of Health and Welfare and the instructor are required.

Lecture: 2 hours per week

SOWK-240 **Introduction to Social Work**
3 Credits

This course presents a survey of social welfare and human service programs in the United States as a response to problems and needs within our society. Issues relating to historical and contemporary social service institutions and their place in both an ethical and public context are examined. The course begins the professional foundation for social work.

Lecture: 3 hours per week

SOWK-241 **Social Work Generalist Practice**
3 Credits

This course is a continuation of Social Work 240 which introduced students to the social work profession in relation to social services in a social welfare system context. Elementary social work processes focus on an overview of the theoretical knowledge and methodological skills necessary for entry level practice in social work. Topics covered include generalist practice; social work values; principles of interviewing; assessment; confidentiality; contemporary theories of counseling; social work with individuals, groups, families and community practice; evaluation; general systems theory; cross cultural social work; working within a bureaucratic system; burnout; and the frustrations and satisfactions of being a social worker. Case examples are discussed and role-played to apply the theory that is presented.

Lecture: 3 hours per week

Recommended: SOWK-240

SOCIOLOGY

SOC-101 **Introduction to Sociology**
3 Credits

This introductory course presents the fundamental principles affecting human social systems. The concepts of traditional as well as contemporary theorists will be discussed. Emphasis will be placed on the forces governing groups and the conditions that transform social life. This course fulfills a social science requirement for the A.A. and A.S. degrees.

Lecture: 3 hours per week

SOC-102 **Social Problems**
3 Credits

This course investigates the persistent problems of American society as they relate to values, attitudes, and social change. Application of sociological principles to the identification and analysis of selected problems will be consistently developed. SOC 102 fulfills a social science requirement for the A.A. and A.S. degrees.

Lecture: 3 hours per week

SOC-103 **Cultural Diversity**
3 Credits

This course is designed to increase the awareness and appreciation of diversity within the contemporary U.S. population. It will examine historical and contemporary experiences from perspectives of both women and men of diverse races, ethnicities, social class, religions, sexual orientation, ages, and abilities. Students will explore their particular inherited and constructed traditions, identify communities and significant life experiences while learning from the varied experiences and perspectives of those who are different. Students will become more aware of the nature of personal, institutional, and societal inequalities and the processes leading to a more equitable society. Students will be encouraged to develop a critical consciousness and to explore ways of empowering to help eliminate ideologies of unequal treatment. This course will develop an extended and collaborative dialogue about past, present, and future U.S. democratic aspirations and foster a respect for people's life experiences while teaching skills needed to function in today's diverse and increasingly interconnected global society. This course fulfills a social science requirement for the A.A. and A.S. degrees or the cultural diversity requirement for the A.A. degree.

Lecture: 3 hours per week

Recommended: College level reading and writing

SOC-155 **Drug Abuse: Fact, Fiction,
and the Future**
3 Credits

This course is designed to provide information about drugs, their effects, and the laws and social implications relative to them. Students will learn about the causes of drug abuse, treatment modalities, community resources, alternatives, and problem-solving skills.

Lecture: 3 hours per week

SOC-220 **Marriage and Family**
3 Credits

Sociology 220 is designed to help students understand more about marriage and family life processes. Students will examine values, needs, and responsibilities as they relate to intimacy, the selection of partners, cohabitation and marriage, family planning choices, parenting, family economics, and interpersonal communication. Students will also address the issues of family violence, divorce, and the restructuring of new families. This course will be helpful to those who wish to have more knowledge about relationship, marriage, and family issues or those who are entering such fields as counseling and social work. This course fulfills a social science requirement for the A.A. and A.S. degrees.

Lecture: 3 hours per week

Recommended: College level reading and writing skills

SOC-251 **Race and Ethnic Relations**
3 Credits

This course explores the influence of race and ethnic membership in structuring social interaction and behavior amongst people in the United States. Although the primary focus is in the ethnic

experience in the U.S., comparative models will also be explored to provide a framework for the American situation. A major element of the course will be an investigation of the five major ethnic groups: Native Americans, Hispanics (Latinos), African-Americans, Asian-Americans, and white Americans; with a special emphasis on the condition of Native Americans. Principal topics will include historical aspects of race and ethnicity, theoretical viewpoints, causes of ethnic conflict, racism and prejudice, psychopathology and ethnicity, focal topics (e.g. affirmative action, “reverse” discrimination, bilingual education, immigration issues) and future trends and directions. This course will be helpful for individuals seeking to work in professions or environments where they will be in contact with members of diverse ethnic and racial groups. This course fulfills a social science requirement for the A.A. and A.S. degrees or the cultural diversity requirement for the A.A. degree.

Lecture: 3 hours per week

Recommended: PSYC-101

SOC-283
3 Credits

Death and Dying

This course introduces the concepts, attitudes and social dynamics of death and dying, including various cultural perspectives. Topics include demographics, who dies and why, suicide, treatment of the dying and dead, religious and legal perspectives, stages of dying, caregiving, grief, and bereavement.

Lecture: 3 hours per week

THEATRE

THEA-101
3 Credits

Introduction to the Theatre

Theatre 101 examines the contributions of individual artists to the art of theatre. Through discussion and attendance at plays, students will become familiar with elements of dramatic structure and the roles and responsibilities of the director, lighting designer, costumer, playwright, sound technician, actors, and scene designer. This is a nonperformance course open to non-majors. It is designed to enhance students’ understanding of dramatic art and the appreciation and enjoyment of live performance. Skills in observation, writing, critical thinking, and verbal expression are emphasized and developed. Students are required to attend three plays during the semester. This course fulfills an arts and humanities requirement for the A.A. and A.S. degrees.

Lecture: 3 hours per week

THEA-102
3 Credits

Stage Makeup

THEA-102 offers instruction in the basic principles and techniques of theatre makeup. Students will explore, through the eye of the makeup artist, concepts of facial structure, aging, style and modeling with paint and will observe demonstrations of basic techniques. Weekly labs offer the opportunity to translate knowledge into design and practical application of theatrical makeup. This course will benefit students seeking careers or further education in the theatre arts as well as community members who participate in the theatre. Students must purchase a theatrical makeup kit which is approximately \$50.

Lecture/Lab: 5.5 hours per week

THEA-103
3 Credits

Introduction to Stagecraft

Theatre 103 offers practical lab experience in applying theories and methods of scenery and prop design and construction. It focuses on

the creative use of production tools and stage equipment. This course provides an opportunity to develop technical skills for theatre and media production for students exploring those career areas or who are interested in community theatre participation. Prior completion of other courses is not necessary.

THEA-104
3 Credits

Stagecraft II

Theatre 104 offers the continuing theater student an important step toward a major in Theater Arts. It is practical, hands-on experience in construction of major set components (from the preliminary illustration phase through onstage production). This class emphasizes application of techniques, skills, and attitude established in THEA-103. The class is also valuable for non-theatre majors who need to develop physical skills in building and construction with an emphasis on a creative approach to problem solving and various media use.

Lecture: 3 hours per week

Prerequisite: THEA-103

THEA-105
2 Credits

Basics of Performance I

This course is an introduction to the art of stage performance, emphasizing the development of acting skills. It includes basic verbal skills of articulation, projection and inflection as well as the study of script formats, actor language, voice, movement, and imagination. Emphasis is on developing an understanding and appreciation for the total performance of the actor, combining creative imagination and discipline. Students will do solo and duo acting, requiring script memorization and performance before an audience. Tickets to area theatrical shows may have to be purchased at a total cost of under \$12. Prior completion of other courses is not required.

THEA-106
2 Credits

Basics of Performance II

This course is a continuation of THEA 105, focusing on enhanced voice and movement and the development of characters from scripts. Students will study and practice techniques actors use in working with ensembles, memorizing parts, and developing stage presence. The skills introduced in THEA-105 are improved upon and include verbal and nonverbal communication techniques, memorization, script analysis, and the interpretation of character.

Prerequisite: THEA-105

THEA-163
2 Credits

Basics of Scene Design and Graphics

This course offers an introduction to visual interpretation, research, and rendering techniques used in scenery design. Emphasis is on creation of authentic and appropriate stage environments for theatrical scripts. It provides the opportunity to develop set design skills for theatre and media production for students exploring those career areas or who are interested in community theatre participation. Previous participation in theatre productions is recommended.

Prerequisite: THEA-103

Recommended: THEA-263

THEA-190
1 Credit

Theatre Practice

Students participate in the development and production of a NIC play, gaining experience in one or more areas, including lighting, properties, costuming, set construction, audio and sound support, and stage managing. Practical experience in theatrical production may include basic carpentry, electrical, makeup, sewing, painting—skills applied to theatre but useful in other fields.

Students will refine these skills as they develop an appreciation for the total process of theatre art involving organization, creativity, discipline, and ensemble teamwork. The course is open to non-majors and may be repeated for a total of four credits. Some evening and weekend work will be included. Prior completion of other courses is not required.

THEA-263 **Technical Production**
2 Credits

Theatre 263 provides instruction and practice in the techniques of stage management and production roles and responsibilities. Students will participate in the design, development, and execution of NIC Theatre Department productions. This course offers an opportunity to develop stage management skills for theatre and media production for students exploring those career areas or who are interested in community theatre participation.

Prerequisite: THEA-103 or permission of instructor

THEA-271 **Play Analysis**
3 Credits

Focusing on the role of the playwright, students will explore the structure of dramatic works and the process of script creation. The course includes exposure to live and recorded plays of Ibsen, Shakespeare, Chekov, Arthur Miller, and other great playwrights. Different styles of drama including tragedy, comedy, melodrama, and farce are emphasized. Students will strengthen skills in reading, listening, writing, script, and character interpretation as they develop an appreciation of dramatic literature and the playwright's art and craft. Weekend attendance at plays is anticipated.

Recommended: THEA-101 and strong writing skills

THEA-272 **Intermediate Acting**
3 Credits

Theatre 272 introduces the student actor to aspects of the Stanislavski system of acting and realistic acting techniques for the modern theatre. Emphasis is on character analysis, ensemble acting for an audience with exercises in concentration, observation, and use of inner truth and emotional recall. Skills learned include interpretive and internal techniques for character identification and "bringing a character to life." Attention is given to improving verbal and non-verbal acting qualities. Some evening and weekend participation may be necessary.

Prerequisite: THEA-105, THEA-106 or permission of instructor

THEA-273 **Stage Lighting**
3 Credits

Theatre 273 provides an introduction to the theory and practice of lighting, with attention to visual interpretation and design of the performance environment for theatre, dance, and rock n'roll. This course offers an opportunity to develop technical lighting skills for theatre and media production for students exploring those career areas or who are interested in lighting support for community theatre, dance, and rock bands.

Recommended:: Previous participation in theatrical productions and/or completion of THEA-103, THEA-163, and THEA-263.

WELDING TECHNOLOGY

NOTE: Course enrollment requires prior acceptance into the Welding Technician program. Successful completion of each semester and/or permission of the instructor is required for enrollment in the next semester.

WELD-100A **Welding Theory**
2 Credits

This course introduces students to the problems associated with heating and cooling metals and the properties of various metals used in the welding process. Students will gain a working knowledge of fabrication techniques and manufacturing processes used in welding. Characteristics of the traditional welding, and bonding agents used in welding, will be provided to give students a background on metal identification, metallurgical behaviors, and the determination of weldability of ferrous and nonferrous metals. This is part one of a two-part class totaling 4 credits.

WELD-100B **Welding Theory**
2 Credits

This course is a continuation of WELD-100A. This is part two of a two-part class totaling 4 credits.

WELD-101 **Shielded Metal Arc Welding Theory**
2 Credits

This course provides in-depth theoretical practical experiences and structured practical exercises as they might apply to the welder in the workplace. This course provides instruction and practical theory exercises on the basic skills needed to weld with mild steel electrodes. Students will weld concepts relating to common joints found in industry. Arc welding theory, equipment set-up, polarities, and the metallurgy associated with SMAW are covered. Students will learn procedures pertaining to welding mild steel plate in all four positions.

Lecture: 2 hours per week

WELD-102 **Flux Cored Arc Welding Lab**
2 Credits

This lab will focus on in-depth practical experiences and structured practical exercises in flux cored arc welding and the American Welding Society's Entry Level Welder qualification requirements. The course will emphasize practices and applications as they might apply to the welder in the workplace. Instruction and practice will be provided on the basic to intermediate skills needed to weld with mild steel electrodes. Students will weld using common joints found in related industries and learn about arc welding theory, equipment set-up, polarities, and the metallurgy associated with FCAW. Students will weld on mild steel in all four positions. Students will be expected to gain competency in FCAW applications on mild steel. AWS and ASME standards will apply for welds on tee, lap, corner, and butt and corner joints.

Lab: 4 hours per week

WELD-103 **Flux Cored Arc Welding Theory**
2 Credits

This theory course will focus on in-depth practical experiences and structured practical exercises in flux cored arc welding focusing on the American Welding Society's Entry Level Welder qualification requirements. The course will emphasize practices and applications as they might apply to the welder in the workplace. This course provides instruction on the basic to intermediate skills needed to weld with mild steel electrodes. Students will learn about common joints found in related industries. Arc welding theory, equipment set-up, polarities, and the metallurgy associated with FCAW are covered. Students will learn about weld procedures on mild steel in all four positions.

Lecture: 2 hours per week

WELD-104 **Shielded Metal Arc Welding Lab**
2 Credits

This course contains laboratory assignments and exercises focused on in-depth practical experiences and structured practical exercises in shielded metal arc welding as they might apply to the welder in the workplace. There are no prerequisites or corequisites required for enrollment in this course.

Lab: 4 hours per week

WELD-109L **Diesel Welding Lab**
1 Credit

This course is part of the Diesel Technology program only. It is designed to provide students with welding skills required by the diesel mechanic industry. Prior completion of WELD-108L is required.

WELD-111 **Safety Applications and Practice**
1 Credit

This course provides students with required safety practices, operation, and maintenance of welding tools and equipment including OSHA practices and laboratory procedures.

WELD-120 **Blueprint Reading**
3 Credits

This course covers basic blueprint reading techniques including drawing and layout work with emphasis on welding terminology and symbols. Students will learn methods of dimensioning drawings and will use AWS adopted standards for welding symbols.

WELD-131 **Advanced Blueprint Reading**
3 Credits

Students will interpret drawings and develop material lists, sketch or draw components for layout, and calculate material costs from blueprints. Specific applications for steel, pipe, or other welding projects will be directed to meet student and community needs. AWS adopted standards for welding symbols will be the primary reference for blueprint interpretation.

Lecture: 3 hours per week

WELD-140 **Auto Collision Repair Welding**
2 Credits

This course is part of the Auto Collision Repair Technology program. It prepares repair technicians to perform basic welding processes and techniques required by industry. Students will gain skills in several welding processes including oxy-acetylene cutting and welding, plasma arc cutting of steel and aluminum, gas tungsten arc welding, and gas metal welding. Students will learn proper safety in operating welding and cutting equipment. Students may obtain the I-CAR Welder Certificate.

WELD-165L **Shielded Metal Arc Welding I**
5 Credits

This course provides instruction and practice on the basic skills needed to weld with mild steel electrodes. Students will weld using common joints found in related industries. Arc welding theory, equipment setup, polarities, and the metallurgy associated with SMAW are covered. Students will weld on plate, stainless steel, case, aluminum, and other common materials using open root techniques in all four positions.

WELD-170L **Flux Cored Arc Welding**
3 Credits

Students will be expected to gain competency in FCAW applications on stainless steel and pipe. AWS and ASME standards will apply for welds on tte, lap, corner, and lap joints.

WELD-175L **Gas Metal Arc Welding**
3 Credits

This course will introduce students to the methods and theory of wire feed welding. Instruction and practice on use of metallic inert gas welding with solid, stainless steel and aluminum wire will be the major components of this course.

WELD-180L **Shielded Metal Arc Welding II**
3 Credits

Students will become proficient in advanced welding techniques of open root welding on plate, cast, aluminum, stainless steel, and other common metals and materials. AWS certification testing conditions will prevail on completion of this course.

WELD-185L **Gas Tungsten Arc Welding**
4 Credits

This course introduces students to the methods and theory of gas tungsten arc welding. Instruction and practice will focus on the use of metallic and non-metallic metals using inert gas welding with and without filler wire. Welding steel, stainless steel, and aluminum plate in all four positions will be the major components of this course.

Lab: 120 hours

WELD-196L **Carbon Arc/Plasma Arc Cutting**
2 Credits

This course includes instruction in the techniques of cutting using manual and machine processes and equipment. Students will practice using manual and machine methods on ferrous and nonferrous metals for both carbon and plasma arc cutting assignments.

Lab: 60 hours

WELD-200 **Welding Metallurgy**
3 Credits

This is a continuation of WELD-100 and includes further discussion on the problems associated with heating and cooling metals used in the welding process. Students will gain a working knowledge of fabrication techniques and manufacturing processes of the metals used in welding. Characteristics of the traditional welding and bonding agents used in welding will be provided to give students a background on metal identification, metallurgical behaviors, and the determination of weldability of ferrous and nonferrous metals.

WELD-210 **Welding Theory**
2 Credits

This course is a continuation of WELD-101A. This is part three of a three-part class totaling six credits.

WELD-214 **Mechanical Drawing**
2 Credits

This course introduces students to the concepts and techniques of mechanical drawing. It covers basic line drawings, use of mechanical drawing equipment, isometric and orthographic projections, and geometric drawings. Students will prepare geometrical drawings and draw layouts.

WELD-224 **Advanced Mechanical Drawing**
3 Credits

This course builds upon the skills acquired in WELD-214. It covers detail drawings with proper dimensioning and tolerances, use of sectioning techniques, isometrics and oblique drawings, including pipe welding symbols and bill of materials.

Lecture: 3 hours per week

Prerequisite: WELD-214

WELD-230 **Quality Control/NDT**
1 Credit

This course will emphasize ASME and AWS welding test procedures in SMAW, GMAW, and GTAW. Testing will be done in all positions and will include reading blueprints, using welding symbols, mathematics, and equipment setup. All procedures will follow those established in the National Standards for specific classes of certification.

WELD-240 **Layout Procedures**
2 Credits

This course enables students to perform layout of structural steel using fabricating practices. Students will be able to determine elevations of structures and how to construct using calculating equipment including transits, scientific calculators, and various squaring and leveling tools. Student will also be able to calculate the layout of pipe including figuring offsets, runs, and travel distances.

WELD-281L **Shielded Metal Arc Welding**
7 Credits

This course covers the advanced applications of SMAW and will include small diameter thin wall pipe and tubing in all positions. Additional instruction will cover high pressure pipe welding using E6010 on root pass, E7018 fill, and over passes. Qualification in various pipe fitter levels may be offered.

Lab: 14 hours per week

WELD-290 **Gas Tungsten Arc Welding**
3 Credits

Students will learn basic GTAW methods and theory on this gauge mild steel, stainless steel, and aluminum in all positions using both direct and alternating current. Equipment setup and adjustments will be emphasized to match with welding applications.

WELD-291L **Gas Tungsten Arc Welding Lab**
6 Credits

This course covers the advanced applications of GTAW and will include small diameter thin wall pipe and tubing in all positions. Additional instruction will cover high pressure pipe welding using GTAW on root pass, E7018 fill, and cover passes. AWS certification in various pipe-fitting levels may be offered.

Lab: 12 hours per week

A.S., University of Wisconsin;
B.S., University of Wisconsin

Al Williams

Director of Athletics

B.A., University of Idaho;
M.B.A., University of Phoenix

Name: _____

ACADEMIC INFORMATION

Have you taken the: ACT: Date _____ SAT: Date _____ COMPASS: Date _____

List the last high school you attended and any schools since, including colleges, trade schools, correspondence, etc. *Do not omit any schools.* Attach a separate sheet if more space is needed. Failure to list all schools attended, or submission of inaccurate information, is considered fraud and is cause for refusal of admission or dismissal from the institution. **Students seeking certificates or degrees must have official transcripts submitted from each school listed.** To be considered official, transcripts must be mailed in a sealed envelope directly from the school to the institution's admissions office.

Did/Will you graduate from high school? Yes (month/year _____ / _____) No

High School: _____ City: _____ State: _____

Do you have a GED or high school equivalency certificate? Yes (month/year _____ / _____) No
If yes, degree-seeking applicants are required to submit official GED test scores.

Are/Were you a Tech Prep Student? Yes No If yes, in which program area did you enroll? _____

PREVIOUS COLLEGE ATTENDANCE

Name of College, Trade School, etc.	City & State	Dates Attended	Grad. Date	Degree/# Credits Earned

RESIDENCY

Residency for community colleges is determined by county of residence. Checking any one box does not establish residency. Verification may be requested.

State of Residence: _____ From: ___ / ___ / ___ to: ___ / ___ / ___ If less than 12 months, previous state: _____

County of Residence: _____ From: ___ / ___ / ___ to: ___ / ___ / ___ If less than 12 months, previous county: _____

IF LESS THAN 12 MONTHS, Idaho residency status MAY be determined by one or more of the following. Please check all statements that are applicable if claiming Idaho residency for tuition purposes.

- One or more of my parents/legal guardians or spouse's parents is domiciled in Idaho and has maintained a bona fide domicile in Idaho for at least 12 months prior to the opening day of the term which I plan to enroll, **and** I receive at least 50% of my financial support from my parents/legal guardians.
Parent's name and address _____ From ___ / ___ / ___ to ___ / ___ / ___
- I receive **less than** 50% of my financial support from parents/legal guardians. I have continuously resided in Idaho for purposes other than education for at least 12 months prior to the opening day of the term which I plan to enroll.
- I am/will be a graduate of an accredited Idaho high school and I will attend this institution during the term immediately following high school graduation.
- I am married to an Idaho resident. My spouse is a resident of _____ County.
- I or my spouse is a member of the Armed Forces stationed in Idaho on military orders. I or my spouse is stationed in _____ County.
- I am an officer or an enlisted member of the Idaho National Guard.
- One or more of my parents/legal guardians, from whom I receive 50% or more of my support, is a member of the Armed Forces stationed in Idaho. They are stationed in _____ County.
- I have been separated under honorable conditions from the Armed Forces after at least two years of service. **Check one of the following:**
 - At the time of separation, I designated the State of Idaho as my intended domicile or indicated Idaho as my home of record, and I am entering this institution within one year of the date of separation.
 - I intend to make Idaho my state of residence and will actively establish domicile within one calendar year.
- I have been away from the State of Idaho for a period of less than 30 months. I have not established legal residence elsewhere. I was a resident of the State of Idaho for a continuous 12-month period immediately prior to departure.
- I am a member of one of the following Idaho American Indian tribes: Coeur d'Alene, Shoshone-Paiute, Nez Perce, Shoshone-Bannock, Kootenai. Including Colville Confederated, Flathead, Kalispel, Pend Oreille, and Spokane **if** applying to NIC.

SIGNATURE

In signing this form, I acknowledge that failure to disclose and submit accurate information may result in denial of admission or dismissal from the institution. I certify that all information provided is complete and true. By signing this application, I certify that I am in compliance with the Federal Military Selective Service Act, 50 U.S.C. sec. 453, or that I am exempt from the same. Men between the ages of 18 and 25 must be registered with the Selective Service to be eligible for enrollment at a state college, to receive state and federal financial aid, and to be employed in a state or federal job. You may register with Selective Services online at <http://www.sss.gov>.

Acceptance or receipt of financial aid and scholarship awards certifies that the funds will be used for educational purposes.

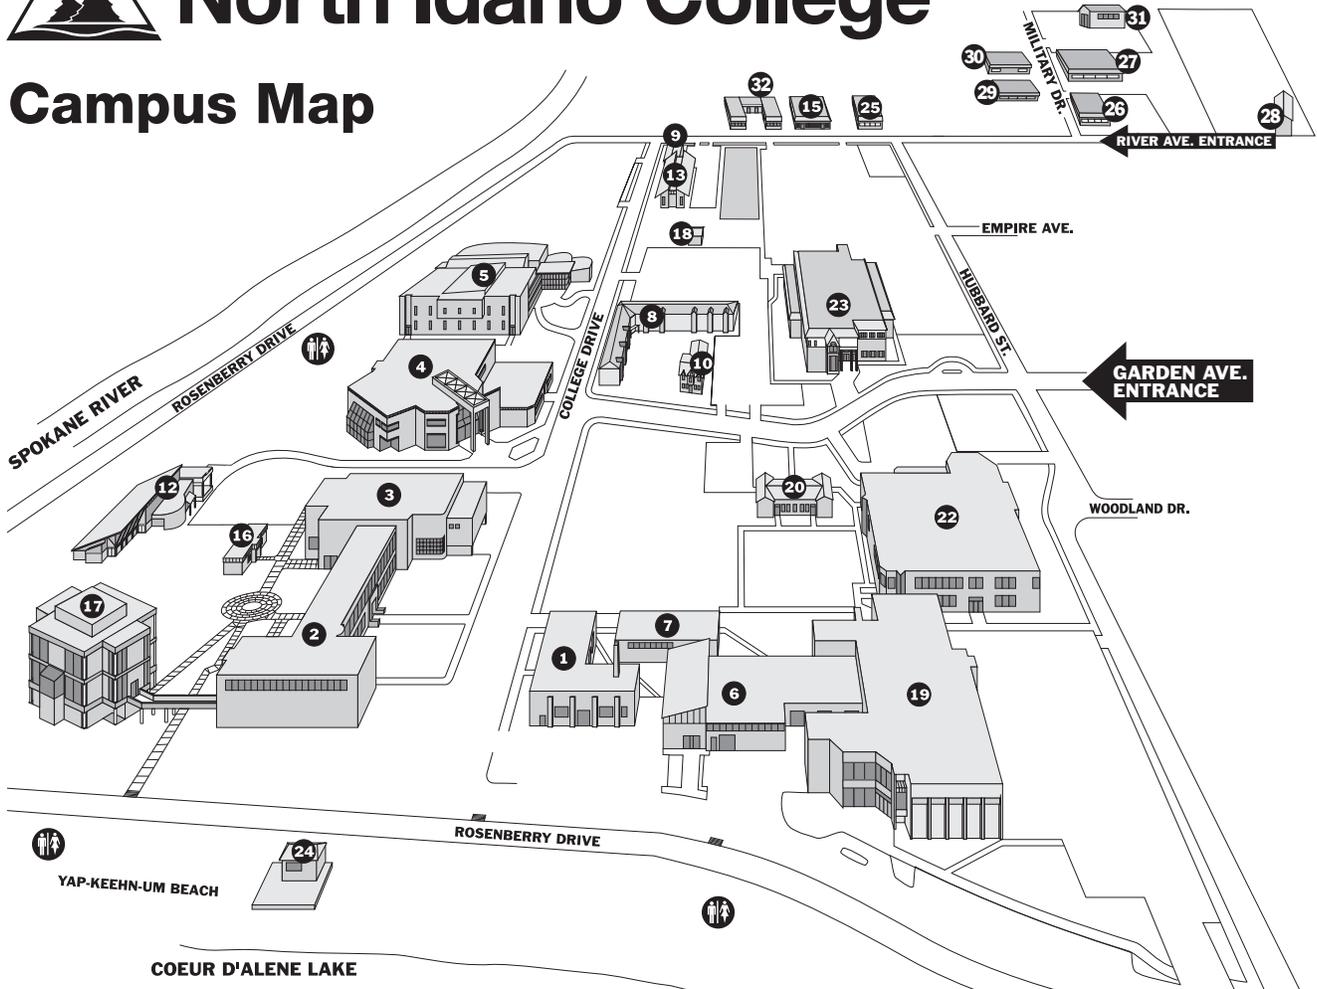

Signature of Applicant: _____ Date: _____

Idaho public colleges subscribe to the principles and laws of the State of Idaho and the Federal Government, including applicable executive orders pertaining to civil rights. These institutions are committed to the policy that all persons shall have equal access to programs and facilities without regard to age, color, creed, marital status, national or ethnic origin, physical handicap, race, religion, or sex.
